Welcome the Publication of the Book around the World

This book was written by Mr. Kuwei Zhongzheng, the Master of Medicine. He introduced finding of the fifth force and the fifth field of the universe ---soulforce and soulforce field. Discussed the causes of diseases and treatment methods from the perspective aspects of soulforce and soulforce field, the four-dimensional space-time, quantum resonance information transmission, Family Constellations, etc.. He has created a common disease treatment system, named " Soulforce Medicine".

The " Soulforce Medicine" is to treat diseases over space-time.

Mr. Kuwei Zhongzheng has already cured many incurable diseases with Soulforce Medicine. His patient have been scattered over the world.

Mr. Kuwei Zhongzheng has recorded the whole process of treatment and feedbacks and published in Chinese.

This book just selected partial contents of the book to be translated into English, in order to facilitate the translation into other languages. The book was published both in English and Chinese (partly). Welcome the publication of the book around the world. Wish the Soulforce Medicine spread around the world.

Sprint Nobel Prize

1, I found that the cause of the diseases is the disordered resonant frequency. The origin to treat the diseases should proceed from correcting the disordered resonant frequency. The diseases is mainly caused by the disordered soulforce and soulforce field. The effective treatment is to use of the Quantum Resonance Information Water (the QRI Water) and the Family Constellations to correct the disordered Soulforce and soulforce field. The creation of the "soulforce medicine" is the new treatment system of common diseases, which is the world's first, sufficient to obtain the Nobel Prize;

2, I have found the nature and origin of the ancient witchcraft –the people who live in the three-dimensional space to communicate with that of the four-dimensional space with the soulforce and the soulforce field, which is a communication method and a science, not superstition. It is the biggest misunderstanding that the People hold the witchcraft is a superstition. The fact is proved that the witch-doctors use the witchcraft in the treatment of the diseases of the people, the means are the prayer and worship of the ancestors", which is correct. This is the first one who has discovered the mystery of the relationship between the witchcraft and the soulforce and soulforce field in the world. While I have decoded many supernatural events and occult mysteries with the soulforce, soulforce field and the four- dimensional space, these achievements are enough to get the Nobel Prize.

3, I have invented that the "different disease is treated with the same method", which is the world's first, enough to get the Nobel Prize;

4, I have invented that the "putting a bottle or a bag of the the Quantum Resonance Information Water (the QRI Water) at the lesion site for 'Treating over space' ", which is the world's first, enough to get the Nobel Prize;

5, I have invented that the body, mind and soul diseases can be treated with the Quantum Resonance Information Water (the QRI Water), which is the world's first, enough to get the Nobel Prize;

冲刺诺贝尔奖

1、我研究发现疾病的原因是由于共振频率紊乱引起，治疗疾病的本源应该从纠正紊乱的共振频率着手。主要是因为灵力和灵力场的紊乱引起，有效治疗方法是利用量子共振信息水和家庭系统排列纠正紊乱的灵力和灵力场，创立“灵力医学”这样一个新的通用的疾病治疗体系，这是世界首创，足以拿诺贝尔奖；

2、我找到了古代巫术的本质及其起源——巫术是在三维空间的人们，利用灵力和灵力场，面向四维空间的一种沟通方法，是一门科学，不是迷信。人们认为巫术是迷信，则是人们认识的最大误区。证明“巫医利用巫术在治病，手段就是祈祷、祭拜先祖。”是正确的。这是世界首个破解开巫术与灵力、灵力场关系之谜者，同时利用灵力、灵力场、四维空间可以破解很多灵异事件和神秘学之谜，足以拿诺贝尔奖；

3、我发明的“不同的疾病，用相同的办法治疗”，这是世界首创，足以拿诺贝尔奖；

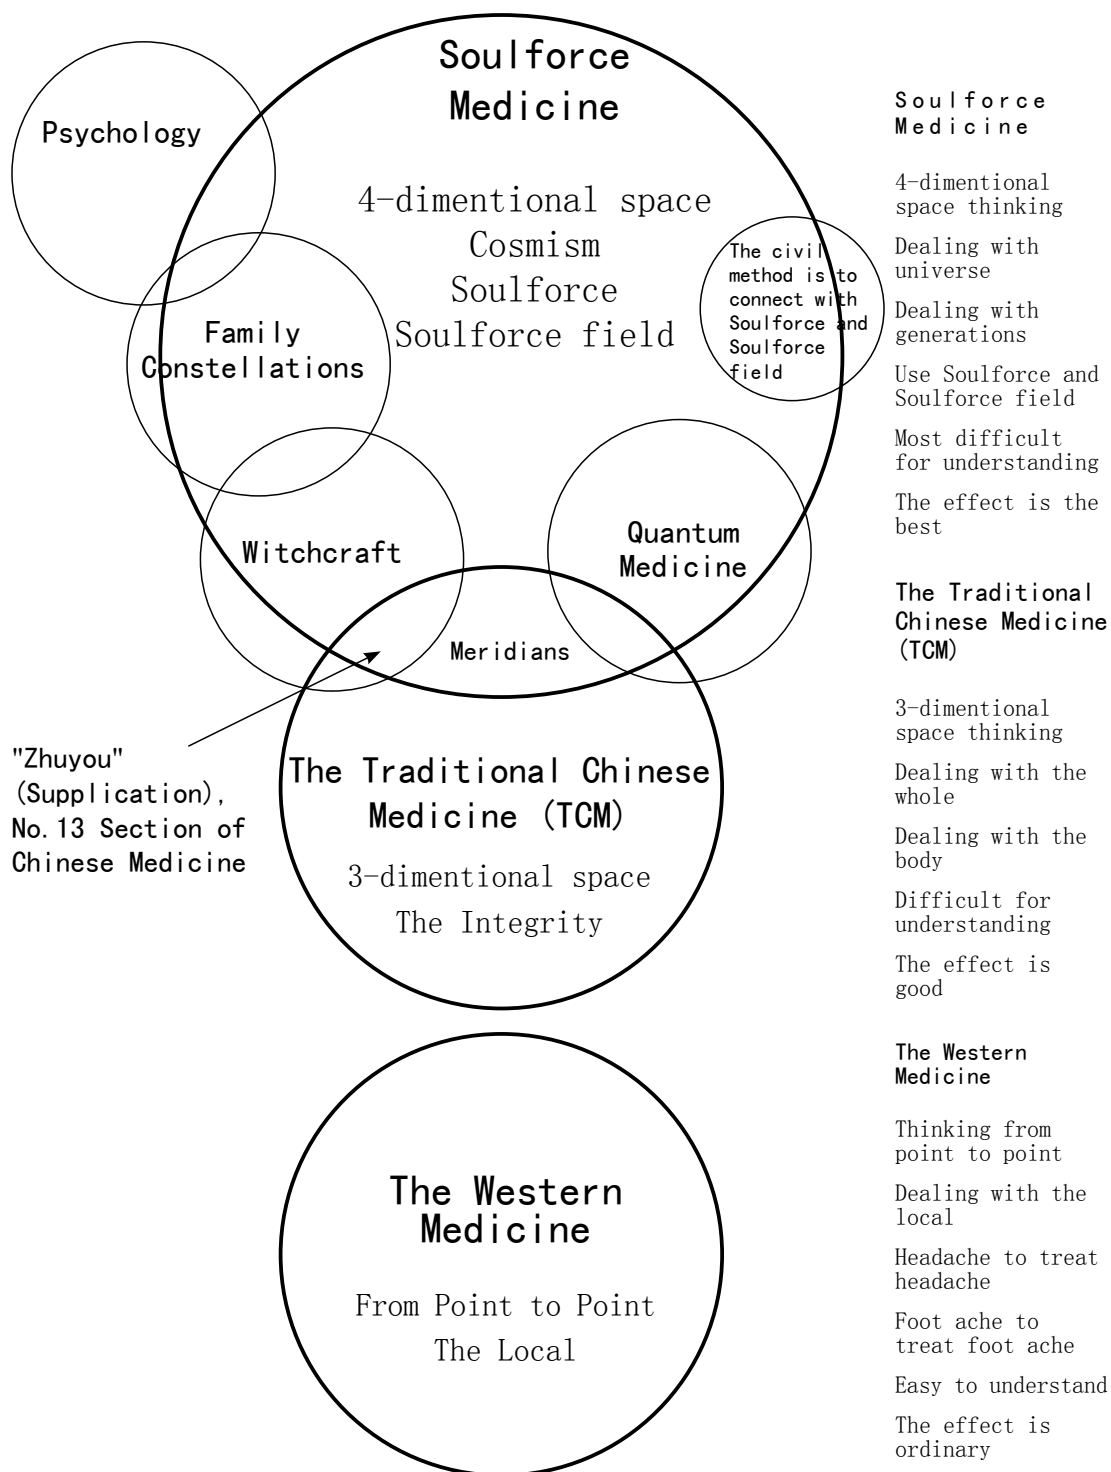

4、我发明的“放一个瓶子或者袋子在病变部位‘隔空治病’”，这是世界首创，足以拿诺贝尔奖；

5、我发明的用共振水即可治疗身、心、灵疾病，这是世界首创，足以拿诺贝尔奖。

Foreward

Kuwei Zhongzheng

I have been planning to write down Soulfence Medicine I invented from the theory to practice for the human being, but these should involve Quantum Theory, Three-Dimensional Space (also called 3-D Space-Time, or 3-D World), Four-Dimensional Space (also called 4-D Space-Time, or 4-D World), Family Constellations, Soulfence, Soulfence Field, the Theory of the Universal Unification, etc.. For the theory is too esoteric for most of the people to understand by reading one or two books, I plan to write in three volumes progressively.

Contents:

Volume I, First introduce the Quantum Medicine, the Quantum Resonance Information Water (the QRI Water), Psychology, including my existence and many of my inventions.

Volume II, Then introduce Witchcraft, the Family Constellations, the Quantum Resonance Information Water (the QRI Water), the Soulfence, the Soulfence Field, derivate the concept of the Soulfence Medicine.

Volume III, Start to introduce the Soulfence Medicine and its disease treatment method across time-space, and examples.

Titles:

Book One entitled: "Love Transfer --- Quantum Medicine, Quantum Resonance Information Water and Exploration on the Treatment of Body, Mind and Soul Diseases"

Book Two entitled: " Back to the Origin --- from Witchcraft, to the Family Constellations, to the Quantum Resonance Information Water (the QRI Water)"

Book Three entitled: "Soulforce Medicine --- Disease Treatment across Space and Time"

Different Levelst:

Book One: First prove my existence, then prove my many inventions, at the same time simply introduce the Quantum Medicine, the Quantum Resonance Information Water (the QRI Water), psychology, and others just mentioned with some terms only.

In the real life, it is extremely amazing in the curative effect that "the Quantum Resonance Information Water (the QRI Water) can restore the health of human body just by correcting its resonant frequency". As people are used to one medicine to cure one disease, or one disease treated with multiple drugs, they invariably say, "It is a lie to cure all diseases", when hearing what I said, "different diseases can be cured in the same way". Then they put a negative conclusion without reading any more information, and even doubt my existence at the end. Thus, this book can only go to prove "my existence". Therefore, a lot of contents of the book have little to do with the exploration of treatment; the book describes what I did during a certain period of time, on the day, in the month and among the year, and there were reports on newspapers. My existence can only be proved in such a way. It shows how hard it is to break up a traditional concept as well.

Book Two: On a little further, record the instances of introducing Witchcraft, the Family Constellations, the Quantum Resonance Information Water (the QRI Water), the Soulforce, the Soulforce Field, deriving to " Soulforce Medicine " concept. As Witchcraft is misunderstood as a superstition, it is difficult to correct it with risk. Additionally it is hard to understand the new concepts introduced in this book according to the traditional concepts, which is likely labeled as "pseudoscience" with a title of "superstition", so I had to give much space to the arguments. At the same time, it proves that other people also have made a similar exploration to its certain parts.

Book Three: Following the first two books introducing a number of other people who also have made a similar exploration on a certain part of the case. The book starts to introduce the theory and practice of my invention: the Soulforce Medicine and the Disease Treatment across Space and Time.

In June, 2010, a British guest---Mr. Gooch, specially experienced my Soulforce Medicine, Disease Treatment across Time and Space, and the Soulforce Medicine Constellations for more than 10 days, and observed the treatment to my patients. Then he decided to introduce the Soulforce Medicine into United Kingdom, so I extracted parts of the above three books to be published in England.

The Author

Kuwei Zhongzheng (堀尾忠正) (Horio Tadamasa in Japanese)

1966, February 5, the author was born in Qidong, Jiangsu, China.

The author's grandfather is a famous doctor of traditional Chinese medicine.

1985, he studied in Zhenjiang Medical College (Medicine College of Jiangsu University), and obtained Bachelor of Medicine in 1990. 1993, he Attended the course of the graduate student of Pharmacology, in the Medical College of Jinan University (Guangzhou) and obtained master's degree of Medicine in 1996.

Subsequently, he had systematically studied the sciences of the quantum, psychology, Gestalt therapy, psychodrama, and Family Constellations. There were numbers of supernatural events often occurred in his childhood, he had been trying to crack the mystery, and finally he found the soulforce and the soulforce field in tracking, which is the fifth force and the fifth field of the universe, and the secret of the universe was broke up at last.

He likes inventions from his childhood, and then he applied his own invention in medical treatment. He has been become the famous doctor not long after his graduation from the medical university. After then he has constantly innovated in many areas with inventions constantly, especially he has invented the Quantum Resonance Information Water (the QRI Water) with the Principles of the quantum science. He has treated many incurable diseases with the Quantum Resonance Information Water (the QRI Water) to "correct the body resonance frequency and to restore the health of the human body", and he has realized his ideal that the "different diseases can be treated with the same method." and realized "to treat diseases over space" with the resonance information energy.

He has discovered and proved the existence of the soulforce and the soulforce field. Hawking and others intended to put the four known forces and the four fields into a unified theory of the universe in their research on the universe, but they have missed the soulforce and the soulforce field, the fifth force and the fifth force field. The soulforce and the soulforce field are a powerful force to maintain the human body, the family, the society and the universe; they are objectively existing.

There are full of "unknown cause, the cause is unknown, inconclusive, still under study," such words in the medical textbooks. The author has found in his research that the cause of diseases is due to the disorder of the resonant frequency; The treatment of the disease origin should proceed in correcting the disorder of the resonant frequency, but the main cause is the disorder of the soulforce and soulforce field. The effective treatment is to apply the Quantum Resonance Information Water (the QRI Water) and conduct Family Constellations.

The studies of the author have shown: The swichcraft is a way that the people in the three-dimensional space communicate with that of the four-dimensional space with the soulforcer and the soulforce field, which is not a superstition. It is a misunderstanding that the morden people hold witchcraft as superstition.

The author has Proposed and practiced " an integrated system treating the disease from the Western medicine, Chinese medicine, advanced to psychology, quantum medicine, and the Family Constellations", supplied with the soulforcer and the soulforce field. The author has created a totally new disease treatment system. This new subject was named by the author "Soulforce Medicine " resulting in the "Unity of Heaven and Human", so as to make the micro-environment of the human body and the macro-environment of the universe simultaneously.

The author has many works, such as "Love Transfer --- Quantum Medicine, Quantum Resonance Information Water and Exploration on the Treatment of Body, Mind and Soul Diseases"; " Back to the Origin --- from witchcraft to family constellations, to the Quantum Resonance Information Water (the QRI Water)"; "Soulforce Medicine --- Disease Treatment across Time and Space."

Other aspects, the author has invented the nuclear magnetic resonance transfer agent of Yougong brand (fuel additives), transferring the resonance information, so as to make the fuel combused synchronally, for the protection of global environment and energy saving; His invention of the light hydrocarbon fuel cars and the truck light hydrocarbon fuel and its mixed fuel, so that the crude oil accounted for one sixth of light hydrocarbon resources finds its application field; He has invented the methanol gasoline, making the reasonable use of coal resources; his invention of intimate child-carry sling, transferring the mother's resonance information to the baby, which can be used for close parental care; He has established a Close Parental Bar Campus, for the promotion of Waldorf education concepts; His invention of "Family Constellation" psychological model for "Family Constellation" self-selection, so as to facilitate quickly to promote "Family Constellations."

The Author, Mr. Kuwei Zhongzheng is the inventor of the Yougong nuclear magnetic resonance transfer agent, which has obtained United States Patent and Trademark Office of the Trade Marks Registry with registration No:3835275.

Self studied numerous subjects, has many inventions.

作者介绍

堀尾忠正（Kuwei Zhongzheng）（日文读音：Horio Tadamasa）。

1966年2月5日出生于中国江苏启东，自小喜欢物理学，有很多发明。

其外祖父是著名中医。

1985年9月起就读镇江医学院（现名江苏大学医学院）临床医学系，1990年获医学学士学位。1993年9月起就读（广州）暨南大学医学院药理学研究生，1996年获医学硕士学位。

其后系统学习了量子学、心理学、完形疗法、心理剧、家庭系统排列等。

从小经常发生一些灵异事件，一直试图破解这些谜，最后追踪发现了灵力和灵力场，这个宇宙的第五种力和第五种场，把这个宇宙秘密破解开了。

从小喜欢搞发明，后把自己的发明应用于医疗中，大学毕业不久就成了当地名医，其后，又不断在很多领域创新，不断有发明，尤其是利用量子学原理发明的量子共振信息水，用“纠正人体共振频率使人体恢复健康”的方法，治愈了很多不治之症，实现了“不同的疾病用相同的办法治疗”这一理想，并且实现了利用共振信息能“隔空治病”。

发现并证明灵力和灵力场的存在。霍金等研究宇宙时欲把已知的四种力和四种场归纳成宇宙统一理论，但遗漏了灵力和灵力场这第五种力和第五种场。灵力和灵力场是维系人体、维系家庭、社会、宇宙的一种强大力量，是客观存在的。

医学教科书中充满了“原因不明，病因不明，尚无定论，尚在研究中”这样的词，作者研究发现疾病的原因是由于共振频率紊乱引起，治疗疾病的本源应该从纠正紊乱的共振频率着手。绝大部分是因为灵力和灵力场的紊乱引起，有效方法是量子共振信息水和家庭系统排列。

作者研究证明：巫术是在三维空间的人们，利用灵力和灵力场，与四维空间沟通的一种方法，证明巫术不是迷信。认为巫术是迷信是现代人的误解。

作者提出并实践的“把疾病治疗由西医、中医，推进到心理学、量子医学、家庭系统排列这一完整的体系”，加上灵力和灵力场，创立一个全新的疾病治疗体系。这新学科作者命名为“灵力医学”。达到“天人合一”，使人体小环境与宇宙大环境同步。

著有《爱的传递——量子医学、量子共振信息水与身心灵疾病治疗之探索》，《回归本源——从巫术到家庭系统排列到量子共振信息水》，《灵力医学——跨时空疾病处理》。

其他方面，作者发明的油公核磁共振传递剂（燃油添加剂），传递共振信息、使燃油同步燃烧，用于保护地球环境和节省能源；发明的轻烃汽车和车用轻烃油及其混合燃料，使石油原油中占六分之一的轻烃资源找到了用途；发明的甲醇汽油，使煤炭资源得到了合理利用；发明的亲密育儿背巾，把妈妈的共振信息传递给宝宝，可以用于亲密育儿；创办的亲密育儿巴学园，用于推广华德福教育理念；发明的“家庭系统排列”心理学模型，用于“家庭系统排列”的自我筛选，以利快速推广“家庭系统排列”。

作者堀尾忠正发明的油公核磁共振传递剂（燃油添加剂）等，已获得美国专利商标局的商标注册证，商标注册号：3835275。

自学过无数的学科，有很多发明。

My Fate with Japan and The Soulforce Field

Kuwei Zhongzheng

I extracted partial contents of the book of "Love Transfer --- Quantum Medicine, Quantum Resonance Information Water and Exploration on the Treatment of Body, Mind and Soul Diseases" to illustrate the soulforce field.

I was admitted into Zhenjiang Medical College (now Medical College of Jiangsu University) majoring medicine in September, 1985.

Zhenjiang Medical College students were studying English, but there was no Japanese language courses, so I was learning Japanese by myself. At the beginning of 1988, I was learning Japanese from a teacher named Zhou Ping who came back after study in Japan. While I had been studying Japanese less than 10 months, an event occurred, it was at 10 o'clock, on October 22, 1988, during the break of learning obstetrics and gynecology, I looked down and saw from the fourth floor of the Outpatient Department, two Hino buses entering the affiliated hospital. At the sight I was aware of the foreigners coming to learn the Chinese acupuncture.

Anyway, it was break, I went downstairs and wanted to practice my English.

At a look, the visitors who wore the badges, were from Japan. Some of them were taking pictures of acupuncture, and some of them engaged in video. There were two people from the Foreign Affairs Office to accompany them translating. For the two carts of visitors, the translating was simply overwhelmed, and many medical problems that the translators were not familiar in translation, so I translated for them temporarily.

A woman had been making video at me during the time. She, pointing to the plastic body model with acupuncture points (about 40 cm high), asked me how much for this model? I turned and asked the acupuncturist how much money it costed, and then I told her. And she asked me again where the model was sold? I inquired the doctor, it was sold in the pharmaceutical company, I again relayed. She still asked me the questions, and I suddenly sensed her strong desire to get that little model. I ask her whether she wanted this model? She answered: "Yes"! I quickly asked her how long the car could stay there. She told me, the car could stay there for half an hour,

but half of the Time had already passed. and I got her urgent look for the model. I immediately consulted the doctor whether he could sell the small model to me? The doctor said that this model belonged to the hospital, It could not be sold. I said: "Could you lend me and I would return one for you after I went to buy one from the pharmaceutical company this afternoon?" The doctor said: " the hospital's property can not borrow firmly".

The time passing minute by minute, I quickly found acupuncture Director, after negotiation, she finally agreed to lend me the model. When I gave her the small body model I got, she bowed deeply to the Director and I, and quickly pulled out a 5000 yen. And the person from the Foreign Affairs Office took the money quickly away upon seeing. After getting that little feagure, she asked me straightforward again to buy 10 large bamboo pots (for cupping), 20 small bamboo pots. I told to the Director. The Director prepared hastily 10 large bamboo cupping pots and 19 small ones, lacking one, and she tried to find one from the next room. Then the Japanese woman quickly paid the money again. When we gathered in a bag, we found that the visitors had embarked on the bus, and the car had been launched only waiting for her one. She was standing by the car, took out a pen and paper and left her address, name, telephone, knowledge on behalf of the named Horio Chiyo. Then, it was in 1988 that I printed my name card, which was rarely done by the people then, especially the students would not print their name cards. My name card printed with " Monitor of Japanese Class (the courses were for teatcher, not for student), Representative of Medicine," the address was the People's Republic of Chinain both languages: Chinese and English.

Near New Year's Day, I sent greeting cards to the friends. while I sent one to Japan as well.

A few days after New Year's Day in 1989, I returned to dorm after evening study; when I was about to go to bed upper, I pressed the bed with one hand, suddenly one screen appeared in my mind, there was a wooden hut on the hillside under the moon, with a white van stopping before the wooden hut... ..

Originally there was a thick envelope from Japan on the bed; I opened it at once, there were 2 photos, 4 pages enclosed in the letter, and one black and white printed greeting card, in which there was also a small envelope, on which there was a cartoon with four children sitting on the floor playing poker.

The letter wrote: "You study medicine, and the student, who can be admitted to Medical University, must be very smart. you can undertake the interpretation,

and certainly are not short of money. But I do not have children, if you can replace my children to accept this New Year's money, I would be very happy I was born in 1926, I was also a medical student, I had a car accident last year, causing inconvenient in moving. Following a travel group to China, I originally wanted to look for acupuncture treatment, it was unexpected that my action was restored after the tour... .. "

The couple of Horio Chiyo had repeatedly requested to adopt me for they had no children. Then with my birth parents consent, I prepared the paper and went the relevant authorities to fix the seals. Then I sealed the information and posted it to Japan. The adoptive relationship paper was completed in Japan on May 19, 1990 and the application of my household was registered in Japan. Meanwhile, according to the Japanese custom, invited the great master from the temple in Japan to intitle me "Kuwei Zhongzheng", and soon held a ceremony in Nanjing Jinling Hotel.

There are my two names written on the University diploma. the above is my original Chinese name, under is Japanese name. So I can easily continue my study in Japan in the future.

The four Chinese characters are the same in China and Japan, but completely different in pronunciation: Kuwei Zhongzheng in China, Horio Tadamasa in Japan

In 1995, I had developed the Quantum Resonance Information Water (the QRI Water) during my graduate school.

When I was In Japan, my Japanese mother used to have a lot of patients, she handed me some of her patients in treatment; it was the time for me to treat the patients with the Quantum Resonance Information Water (the QRI Water) I just developed. An old woman, after the operation of the uterine cancer metastasis, suffered from a headache with hand shaking. I placed the Quantum Resonance Information Water (the QRI Water) near her head, and 10 minutes later the pain was gone and hand shaking stopped as well. Originally she had to stay in hospital many days per month, but now she did not need to stay in the hospital.

I was met and sent by the car almost every day in Japan to treat the elderly patients.

One Japanese lung cancer patient put my Quantum Resonance Information Water (the QRI Water) in the chest, then the cancer mass disappeared, which had fully become the water objects at last, which was drawn out and tested without any survival of cancer cells.

I took a China Southern Airlines CZ389 flight from Guangzhou to Osaka on Aug. 29, 1997, and then I took the train from Osaka to Nagoya. The electronic screen of each car was broadcasting short news, real-time exchange rates of Tokyo, New York, London with literary characters under. Each news was only 1-2 sentences, and each news repeated broadcast twice. A few minutes after the completion of the broadcast, the broadcast repeated the cycle twice each. If there was a new dramatic event occurred, there was new information added, recycling. Suddenly, I saw on the screen "Diana car crash death", only broadcast once, and no repeat the second time, strange! How it played once only. I was not interested in these characters; I did not even know who Diana was at that time. But it only looked a little familiar. The strange thing was that all other news were broadcast two times, but this news was broadcast only once. I kept watching the screen, hoping again 2 times when the news broadcast, or broadcast only once, The staff should be said that an error had occurred, and yet, till I get off, and had not seen repeated news. Totally I only saw once.

To the destination, I asked my Japanese mother, whether she had seen the news, "Diana car crash death" on television. My mother said she did not see; I asked all other persons, they all said they did not see the news. I watched TV at night, read the newspaper the next day, there was no such a news. I always wanted to appear on the electronic screen at once (not twice) how matter in the end is. Slowly I had forgotten the matter. On the third day, August 31, 1997, a news was broadcast suddenly on the TV, "Diana Car Crash Death ", That night my mother was aghast. This day, the news almost was issued around the clock in the Japanese television broadcast. The next day, my mother cut the paper, and wrote down about 3 days ago I said, "Diana Car Crash Death", the detailed process recorded in the notebook and attached the newspaper clippings.

I saw the press " Diana Car Crash Death" 3 days before this matter, I fail to understand why, I talked with numerous people, hoping to uncover the fan, but no one could solve.

The few things mentioned above are more strange:

1, A few days after New Year's Day in 1989, I returned to dorm after evening study; when I was about to go to bed upper, I pressed the bed with one hand, suddenly one screen appeared in my mind, there was a wooden hut on the hillside under the moon, with a white van stopping before the wooden hut... ... Opened the letter, there were 2 photos, one of which was the outdoor scene during the day. There was no moon above, no white van.

But later I went to Japan, and asked the Japanese mother about the case. She said her family did have a white van that time, parked in the location that I frequently "saw" in mind. It was speculated that the brain appeared that night picture, that is, the actual picture of that night, so there was the moon, but photos did not. Hillside huts, was also identical with the actual.

2, My Japanese mother was coming to China for acupuncture treatment, but she had to go with the tour group, and she had no chance for acupuncture. She only had a look on the acupuncture, but after that, the inconvenience of her mobility was over. She had always remembered that I had "beautiful eyes" that time, so she had wanted to adopt me. Many years later, she revealed that she had wanted to adopt a child in Japan and seen hundreds of children, without a fancy. When she saw my "beautiful eyes" and immediately forgot everything, and constantly took the video, brought back to her husband to see the film, her husband said, "That is it!" So she always wanted to adopt me.

That time she did not acupunctured, but she got well in mobility. Later I discovered that I could easily cure the diseases in my medical care to the patients, which many doctors could not cure. And I always concluded my treatment approaches, I sometimes treated the diseases with the same method as that of the other doctors, my method was effective, but other doctors' were ineffective. And I found later that I often would have somehow hurt, and then I discovered that the part of my sore body was the same as the lesion part of the patient. And then I discovered later that sometimes I just chatted with the patients and the patients' diseases were gone. Finally, I realized in studying the soulforce and the soulforce field that I often accidentally got myself into someone's soulforce field, I changed the patient's soulforce field accidentally, and he was healed.

3, I saw the news "Diana Car Crash Death" three days in advance in Japan. Many years later, I read in the newspaper that Diana had indeed a car accident taken place three days ago, but she survived. This might be related with the news I saw three days in advance about the death of Diana car crash, which is soulforce field effect.

4, Whenever I strongly hope that my Japanese mother call me, mother's call would come in a few minutes. Because it is more expensive in China than in Japan to make international long distance call, so I make less international calls relatively. Many times I said in the front of my friends that my Japanese mother would call me at once, and I would be immediately called from Japan a few minutes later. Many

incredible things often happened, showing that I have the predestined relationship with my Japanese mother, that is, the effect of the soulforce field took place.

Cancer Treatment

Kuwei Zhongzheng

The abbot of a monastery in China has suffered the late rectal cancer, and the tumor was too large to be completely inoperable when found. If the surgery was forced to be carried out, the anus would be cut off, and the doctor diagnosed, the case could not be saved even if with the surgery, and the western medicine did not make any treatment. She had to return the monastery before the Spring Festival of 2010.

The abbot started to use the Quantum Resonance Information Water (the QRI Water) on February 24, 2010 (the February of this year was 28 days, the water was sent there by express) when the QRI Water was introduced to her by the student (whom I had given her a good physical and mental illness treatment) who participated in Vipassana in the monastery and after reading the book of " Love Transfer --- Quantum Medicine, Quantum Resonance Information Water and Exploration on the Treatment of Body, Mind and Soul Diseases". I received a call of another Master from the monastery on March 17, 2010, said the abbot's stool had no blood already, but she purged black rotten fester, That is the dead cancer cells off after death.

In April, I was informed by many of the students who participated the Vipassana in the monastery that the abbot had uncovered the case, and introduced the QRI Water to many students who participated in the Vipassana to use the Quantum Resonance Information Water (the QRI Water), and advised them to read the book of " Love Transfer --- Quantum Medicine, Quantum Resonance Information Water and Exploration on the Treatment of Body, Mind and Soul Diseases"; But in February and March, it was completely confidential that the abbot had suffered from the cancer.

While communicating with other Master of the monastery through the mobile phone text messages, she was fully understanding my soulforce, soulforce field, and the Soulforce Medicine, and she also has deep insights; so I decided to make a special trip to the monastery for exchange on the May Day, 2010. Due to the inconvenience to go there by the long-distance bus, I decide to drive to the monastery by myself. It was 8 hours to go there by my car on April 30 through the east line via Jiaoling, Guangdong, and finally we arrived at the monastery.

On May 1, I exchanged with the abbot and masters in details there; the abbot said, after using the Quantum Resonance Information Water (the QRI Water), the discharge of the stool was the atrament such as coal, looked completely lifeless.

I have compared the brain cancer of Beijing with the lung cancer of Harbin in the book of "Love Transfer --- Quantum Medicine, Quantum Resonance Information Water and Exploration on the Treatment of Body, Mind and Soul Diseases". I mainly introduce the common characters of the two cases treated with the Quantum Resonance Information Water (the QRI Water) for 30 minutes. The patient of the brain cancer had the symptom of increasing the intracranial pressure, the patient suffered from the spinal metastasis of lung cancer had the symptom of the spinal nerve compression; the Quantum Resonance Information Water (the QRI Water) played an immediate action, which the patients could feel.

Within 30 minutes by themselves, the symptom was caused by , after killing the cancer cells, the increased volume of the erupture cells.

The more common characters were founded from the comparison of the three cases, after the exchange with the abbot of the rectal cancer, combined with the feedback of the brain cancer and the lung cancer: the patient of the lung cancer of Harbin started to cough up the tumor in 20 days, what coughed out later was the black, which was cellulose after the the pathological examination; the mass coughed up had no vitality. It was also almost 20 days that The Abbot purged off the mass from the anus, black like coal, and she described herself the matter "without vitality."

The patient of Beijing suffered from the brain cancer, her urine was black as "briquettes", The Abbot also described hers "black as carbon".

More general characters were obtained from the above feedback descriptions in shape and functions.

Of course, many cancer patients had been cured, which were distributed throughout the country, it is hard to make the comparison in details with no track to complete information. At the initial period of use, the patients made feedback through telephone consultation, the feedback effect was very significant in pain relief, Most of them felt pain relief in 10 minutes. After improvement there were less feedback information.

The courses of the Vipassana in the monastery are for ten days; Actually when the people sit in meditation into the static state, it also joins the four-dimensional space, and he (she) can feel the soulforce and soulforce field as well.

In the morning on May 2, 2010, the whole family of Kuwei Zhongzheng had a

photo taken with the abbot and master. And then we drove back to Shenzhen from the west line via Ganzhou, Jiangxi Province for more than 10 hours.

The above information, may be able to help more patients; the introduction is especially important for understanding the Soulforce Medicine.

Cancer Treatment Methods: Put 10 bags of 200 ml of the Quantum Resonance Information Water (the QRI Water) on the affected area at the same time, prepare 5 bottles of 200 ml of the Quantum Resonance Information Water (the QRI Water) to drink, drink 4 times a day, each time 10 ml (a cover of 10 ml); the bottles should be also placed close to the body before empty. That is, totally 15 bottles and bags were placed at the patient's body and spray with the small spray bottles on the affected area, not less than 4 times a day. After our observation, the cancer masses of many cancer patients dropped off around 20 days, The amounts above could be used for 30 days. 30 days later, if the patient feel lack of use, or feel the effect reduced, increase the amount again, because the cancer is a serious disease, the use should be no less than 15×200 ml. If less, the effect will be worse. The cancer patients must be adequate to use, otherwise not reach the expected results.

Place the Quantum Resonance Information Water (the QRI Water) in the lesions, allow it emitting the resonance information to human lesions, to correct the abnormalities of the resonance frequency. Under the body's normal frequency, the cancer cells of the abnormal frequency will be directly killed. The drinking was distributed over to the whole body to clear an unknown metastasis. Although the concentration of the distribution of drinking to the body was small, but because of the small size of small metastases, and is likely to be directly killed.

If the monk who had been practicing could see the radiant, sparkling, resonant message sent continuously from the Quantum Resonance Information Water (the QRI Water) to the surrounding works.

If possible, the cancer patients should do the Soulforce Medicine Constellations, as soon as possible to solve the diseases from the four-dimensional space. If the cancer has recurrence, we must arrange the Soulforce Medicine Constellations, to correct the abnormal soulforce field.

I found that the patients treated by me were terminal cancers incurable declared by the hospitals, or those who had left the hospitals, desperate people. By the hard time when they heart the introduction by the people who were cured, they started to see me for treatment, and the cancer patients I cured were the advanced patients and the early ones who do not want to find me. When they had money, they would spend

all the money in the hospital, and when they had no money, they came to see me. My treatments were clearly effective in the short term. For instance, I treated them with the across space method: place the bags of the Quantum Resonance Information Water in the lesion site. Most of the patients' pain were released or disappeared in 10 minutes, or 20 minutes. This treatment has no pain, there is no need of hospital treatment. The patients can carry the treatment with the Quantum Resonance Information Water (the QRI Water) at home. if coupled with drink, spray, the effect would be much better. The treatment is simple; The treatment can be done at home; There is no need to go to hospital. The Quantum Resonance Information Water can be mailed, the treatment is very convenient, only those who want to conduct the Soulforce Medicine Constellations, the patients themselves or their representatives on behalf of the family need to arrive at the scene. All the others need not to go to the scene. There is no need to see the hospital inspection reports. The Soulforce Medicine uses the soulforce method of the four-dimensional space, which is unthinkable to the Western medicine of the one-dimensional way of thinking, because I found the origin of the diseases treatment, I have realized most of the "different diseases can be treated with the same method."

Loving Care

Zhang Naihui

It was June 27, 2010 when Ms. Li Guixin came back from Nanchansi Buddhist Temple, Changting County, Fujian Province, China, after Vipassana. She brought back a book of " Love Transfer --- Quantum Medicine, Quantum Resonance Information Water and Exploration on the Treatment of Body, Mind and Soul Diseases"; This book was published by the Hong Kong Asia Media Publishing House. As the Chairman of Hainan Institute of Happy Family (HIHF), I have a special sensitivity on the "love" expatiation. If we can transfer the "love" to the thousands of families, how wonderful it is! It was one day or more that I was absorbed in reading and finished the book soon. The contents of this book are thoroughly new, innovative, and full of unconventional thinking, sincere to cure diseases and save lives, fully transferring the love between the human being and the soul of the four dimensional space.

The author of the book is Mr. Kuwei Zhongzheng, a Master of Medicine. He has been eagerly learning, studying, seeking, exploring for decades, and found that water has memory function, transmitting information function, similar to the concept of Japanese Dr. Masaru Emoto's "Water Knows Answers: The Hidden Messages in Water Crystals ". The 70% of the human environment is water; and the 70% of the global environment is also water, which is similar to the human environment. The human blood is salty and the sea water is salty as well. And the trace elements of both are very similar. The sea water is in regular waves, and the human blood is also in regular cycle with waves, and the human cells are in regularly fluctuations, vibration too; Once a part of the body vibration frequency has been disrupted, there will be problems with sickness. That is, the origin of the human illness is a part of the body vibration frequency was disrupted. It is 15 years that Mr. Kuwei Zhongzheng has developed the Quantum Resonance Information Water (the QRI Water) with painstaking efforts to memorize the common resonance information of the human body into the water, with water as a carrier for transmitting the resonance information, to correct the frequency disturbance of the human body, so as to rapidly

improve the disease. The book of " Love Transfer --- Quantum Medicine, Quantum Resonance Information Water and Exploration on the Treatment of Body, Mind and Soul Diseases" tells us that the disordered frequency of the ill can be corrected by transmitting the frequency of the Quantum Resonance Information Water (the QRI Water). And the sick body will possibly restore its health. This allows the different diseases to be treated with the same method of correcting the disordered frequency. That is, the "Different diseases can be treated with the same way," which has an inestimable value for medicine. It is the scientific innovation and invention, the world's first. To me, it is the first time to read such an incredible and completely new concept. The feedback information has demonstrated that many of the users of Quantum Resonance Information Water (the QRI Water) have been benefited greatly, and many of the patients, who were sentenced terminally by the hospitals, have gained new lives. The cancer is a death sentence, even in advanced stage, there is still the hope of rescue. The magical function of Quantum Resonance Information Water (the QRI Water) has been confirmed in the actual treatments time and time again, and so it is on the lips of everyone who has the fortune to use it.

As the new thing appears, we can not be apathetic with blind eyes. I want to go and experience by myself, then pass out the gospel to the people as its reality, to subsist and rescue. My wife and I, my children, my colleagues, many of us are in the sub-health state, with many healthy problems; we need the good care of our health; we need treatment as well. With the mood of exploration, curiosity and pursuit, I remitted money to Shenzhen Riyan Science and Technology Co., Ltd to buy the Quantum Resonance Information Water (the QRI Water) on the next day. And I received the product Three days after. I put a bag of the QRI Water at the pillow edge; I slept a sound sleep that night. One day my hand was scratched accidentally with pain and bleeding, I sprayed the QRI Water twice, immediately the pain was gone, and the bleeding was stopped, and soon there was a scab. I have suffered from beriberi and bad footed for many years, I sprayed the QRI Water twice onto the place of lesion, and it was cured quickly. The curative effect of the Quantum Resonance Information Water on me caused my great attention and admiration. I have drunk the Quantum Resonance Information Water (the QRI Water) for more than two months and my physical energy has been greatly improved, I feel energetic and full of strength. I am now more than 70 years old, but I work as hard as the young men without seeing any sign of aging. I have suffered from the Prostatitis for many years, which is frustrating and troublesome. While making water, it took time long, flowing slowly, but not

entirely out of, outside felt emergency but inner felt Heavy, once took a time of 10 minutes, and frequent urination. After drinking the QRI Water, the situation has been already much improved. My wife Li Guixin has also enjoyed the benefit. It is really marvelous that the Quantum Resonance Information Water (the QRI Water) can restore the human health by correcting the disordered frequency of the body. The curative effect is really miraculous.

I was informed that Mr. Kuwei Zhongzheng would practice "Family Constellations" (Soulforce Medicine Constellations) for two days from August 28 to 29 on the second floor of "Jinxu Food Pavilion" beside Splendid China in Shenzhen. After discussion, My wife Li Guixin and I decided to go to Shenzhen to attend Mr. Kuwei Zhongzheng's experiment of Soulforce Medicine Constellations. We booked the long-distance bus ticket directly from Haikou to Shenzhen on August 23 to visit Mr. Kuwei Zhongzheng and his Shenzhen Riyan Science and Technology Co., Ltd for thorough understanding the reality of the QRI Water.

Ms. Li Guixin and I set our feet on the way to Shenzhen on 26, embarking on the boat across the Qiongzhou Strait at 16:00 that day, and then boarded a direct bus to Shenzhen, and arrived at Futian Bus Station, Shenzhen early in the morning on 27. Our friends, Ding Xiaomei and Liang Jun in Shenzhen drove to the Futian Station to meet us in spite of their daily busy job, and sent us to the "Honor Mansion Hotel" beside Splendid China. After registration, we had lunch together there. In the afternoon other friends such as Shi Qiuping etc., also came to meet us. It seemed long for us to miss with each other. We were chatting and laughing on our friendship, and talked about the magic effect of the Quantum Resonance Information Water (the QRI Water). We all wanted to personally attend the "Soulforce Medicine Constellations". Mr. Kuwei Zhongzheng drove and came to see us before dinner in spite of his too busy work. By the appointed time, I waited for him at the door. Although it was the first time of our meeting, I could distinguish him with his outstanding behavior features. He is not too high, above a 1.60 meter under 1.70, wearing a pair of glasses; He looks very capable, bright, with intelligent shining eyes. He is usually very busy, especially before the preparation of his "Soulforce Medicine Constellations", and he still squeezed time to meet us, I felt a little sorry with thanks to him. He was very humble, easy-going, shook hands with us expressing his hearted and warm greetings to us, and then he hurried to the car busy with other things.

Ms. Li Guixin and I prepared everything for attending Mr. Kuwei Zhongzheng's "Soulforce Medicine Constellations" to be held at 8:30 am early in the morning on

August 28. At the beginning before starting, Mr. Kuwei Zhongzheng let us to make the soulforce testing activities. He put a chair in the center of the experimental field, with a blank sheet of white paper put under the chair, on the paper there were four Chinese characters: "**health, money, career, love**" written on the edges of the four sides. He invited one attendant who was willing to participate in the experiment to sit on the chair. And then he invited four people to stand still on the four positive directions of the chair around a meter away from the chair, facing the chair, closing their eyes with open mind; After a short while, a miracle appeared: the people standing still on the four directions, all were unconsciously moving acted by a force, some of them were pushed back, some of them were pushed forward, some of them swing before and after, and some forward progress, then retreat back. Mr. Kuwei Zhongzheng on the scene, seeing such a case, walked over and asked the experimenter's feelings: When the people standing in the direction of "**health**" came closer to the chair, it was showing that the experimenter's health was good. Mr. Kuwei Zhongzheng would come to him and asked: "How about your health?" Answer: very good. When the people standing in the direction of "**money**", coming closer to the chair, it was well illustrated that the experimenter's financial resources were better. Mr. Kuwei Zhongzheng came forth and asked him: "Your recent economic situation is good, isn't it?" Answer: Recently I had well done a few businesses and gained a lot, quite effective. When the person standing on the direction of "**career**" came closer to the chair, it instructed that the experimenter had good prosperity. Mr. Kuwei Zhongzheng would come forth and asked: "How about your business recently?" Answer: my factory was expanding, business was very good. If the person standing in the direction of "**love**" walked closer to the chair, the case showed that the experimenter was in love with his family. Mr. Kuwei Zhongzheng would come forth and asked: "Recently, your family is harmonious, isn't it?" Answer: very harmonious relationship between husband and wife, and there were other answers such as I was in love, and so on. The game is simple, but the role of the soulforce field clearly reveals the true fortune of the people present. Everyone on the scene was rushing to have a test; Li Guixin and I also tried to have a test, and the results of our tests truly reflected the basic reality of our lives.

It was 50 minutes later that the field of "Soulforce Medicine Constellations" was ready. Mr. Kuwei Zhongzheng announced the commence of the "Soulforce Medicine Constellations" and called the party (the client) who had made appointment in scheduling to come forward to sit on the chair in the positive front of the field,

Master Kuwei Zhongzheng asked him to randomly select one from the row of the attendants nearly 40 persons participating in the "Soulforce Medicine Constellations" sitting on the benches around the field as his (her) representative. The representative came up and stood in the center of the field, facing the client of the "Soulforce Medicine Constellations". The representative, with empty mind, stood a while to feel induction of the soulforce field. After a while, Mr. Kuwei Zhongzheng once again asked more than a dozen people to come out and surrounded the representative of the client to stand in a circle surrounding the representative. They were required to be empty minded without thinking of any thing, when feeling the action of certain external force, move along with the power and promotion. It was not long that the miraculous appeared, everyone was starting to move up, some of them lied down, some sat down, some crying, some laughing, some pushing, some dragging, some pulling, some protecting, some leaning back to back, and some running without a stop, looking for something. It was 30-40 minutes later that the relationship of several generations of the family was gradually revealed. Ms. Li Guixin did her case in the afternoon of the 28, and I was the second party in the afternoon of the 29. I usually suffered from the back pain. The "Soulforce Medicine Constellations" showed us that I was often kicked by someone at my waist. The action looked like my dead grandmother. After I worshiped her, she told us to read the sutra for her and return to her, asked us not to forget her. We asked: "Read the Diamond Sutra, or the Dizhan Sutra?" She said: "Either one will do". We agreed to her request. Before lying down, she repeatedly asked us not to forget to return her after reading the sutra, and then she closed her eyes and rest. It was amazing that my waist was immediately comfortable without any pain after her lying down and closing her eyes. My waist pain has been really released since then. When I was in childhood, I heard that my uncles killed a boa at home. And four of them died at 30s in succession. The soul of the boa appeared in the field of this "Soulforce Medicine Constellations". The person with the boa soul featured in snake shape, snake like, with tongue stretching out and shrinking back frequently; the boa was hit at seven inches, and the person with the soul of boa, was suffered from extremely painful ill at neck; Li Guixin and I went to comfort it. It said: "I am your fairy to protect the home of your family, You made no thanks but hurt." Ms. Li Guixin went over and apologized, it did not accept. It insisted that the people must be from the Zhang's to come and apologize. I went over and recognized the misdoing on behalf of the family. "I'm sorry". I said sincerely, praised it and thanked it for protecting my family doing a lot of good things. And it

felt comfortable while I stroked on the lesion site of its injury, it slowly closed her eyes at last. The embarrassing trouble with Zhang's family had been finally resolved. The case of the dead snake I had forgotten long ago. But it automatically appeared on the scene in the "Soulforce Medicine Constellations", and there appeared two snakes, one male boa, and one female boa. The boa killed was a male one, and the female boa escaped. There was a woman in the "Soulforce Medicine Constellations" did not dare to sleep alone at night without some one accompanying her. It was found during the "Soulforce Medicine Constellations" that the soul of her aborted sister had followed her all along, and the soul of her sister thought that she was not dead. Mr. Kuwei Zhongzheng told the woman to tell her sister: "I see you; I love you; you are dead now; please rest in peace!" So the person with the Soul lay down, and closed her eyes. Then the woman released from the fear and she could sleep alone at night. In the "Soulforce Medicine Constellations", Mr. Kuwei Zhongzheng asked the client: "Who committed suicide in your family?" The client replied that her mother committed suicide at her age of 2. She had never told anyone about her mother committing suicide, but it automatically appeared in "Soulforce Medicine Constellations". A woman from Japan did not sleep at night for 10 years, she went and saw many doctors, and the sleeping trouble did not solved. She had to sleep on sleeping pills. Her body was weak; it was difficult for her to cope with daily stress of work. In the "Soulforce Medicine Constellations", there revealed several souls twining her all day, did not let her rest. After some comfort, the persons with the soul lay down, and closed their eyes at last. The next day we asked the woman from Japan how about her sleep, she said, much better. She went to see the show of the Water-splashing Festival till 12 with friends last night. In such case she would take two sleeping pills usually, but last night she just took one before going to sleep and slept well. A 30-year-old guy was lonely and unable to bear children after marriage, he went to the hospital many times, and the problem was not solved. He came and participated in the "Soulforce Medicine Constellations" The field showed the scene of a war; many souls were still in a state of war, then a person told them that the war was over, you could rest in peace now. Then they lay down one by one, closed their eyes. The client was the reincarnation of the soul who died in the war...

The "Family Constellation" is the invention of German Hellinger, who came to Hong Kong in 2010 and conducted his "Family Constellation" for 9 days from January 9 to 17 in Hong Kong, the participants were more than 500 people, who witnessed the truth of his "Family Constellation". We participated in Master Kuwei

Zhongzheng's "Soulforce Medicine Constellations" for two days from August 28 to 29, 2010. In the "Soulforce Medicine Constellations", we intuitively felt the heartquaking scenes of the soul force and the soulforce field personally. Most of the people live in the three-dimensional space, they can only see the physical objects, and can not see the existence of invisible souls. Whenever talking about the soulforce, the spiritual and the soul, they would say its superstition. But the "Soulforce Medicine Constellations" displayed to us the soulforce world, the four-dimensional soul space, which our eyes can not see, but it does really exist in the universe. In the "Soulforce Medicine Constellations", we really saw personally the communication of the people of the three-dimensional space with the soul from the four-dimensional space (our ancestors and predecessors), and the recovery process of the human health; At the same time, we realized that the influence of the unclear energy, the unclear matter of the invisible soulforce world could not be underestimated in our real life. The "Soulforce Medicine Constellations" has effectively enhanced the wisdom of our thinking, let us to regard, respect for this "animism" world; Only in this way, the family can be well-being and the society be harmonious; the "Soulforce Medicine Constellations" is an effective communication channel, an intuitive visual way, of the people in three-dimensional space with the souls from the four-dimensional space. Through the love communication between man and the soul of the soulforce world, the diseases and terminal illness, which the hospital could not treat, can also be saved.

Master Kuwei Zhongzheng has been exploring a new subject, with his "Quantum Resonance Information Water" (the QRI Water) and the "Soulforce Medicine Constellations". He has been exploring a way to treat the different diseases with the same method: the light case can be treated by correcting the partial disturbance of the frequency of the human body with the "Quantum Resonance Information Water" (the QRI Water); and the severe one can be treated through the "Soulforce Medicine Constellations" to solve the disordered soulforce and soulforce field of the four-dimensional space to be "Heaven and man merged into a whole", so as to cure the diseases of one's body, mind, and soul, benefiting the family for generations. We have received benefits of the "Quantum Resonance Information Water" (the QRI Water) in nursing our bodies, and took part in Master Kuwei Zhongzheng's "Soulforce Medicine Constellations"; we are deeply aware of the reality that Master. Kuwei Zhongzheng has created a new subject with strong vitality --- Soulforce Medicine, which will benefit the mankind, and benefit the world.

My Finding

Common Treatment of Diseases

Kuwei Zhongzheng

Since September 1985, when I entered Zhenjiang Medical College (now Medical College of Jiangsu University, China) majoring medicine, it has been already 25 years now. Within one month after admission of Zhenjiang Medical College, I joined the Biomedical Engineering Society of Jiangsu Province with member No. 85001, that is, I was No. 1 in 1985. From then on, I began to study and explore on otherness and was absorbed in research and exploration. From 1993 to 1996 I studied graduate student course in Medical College of Jinan University (in Guangzhou, China).

Another clue is that a number of supernatural events often took place in my childhood and I have tried to decode the mystery, and finally found the Soulfence and the Soulfence Field, the fifth force and the fifth force Field of the universe, and the mystery of the universe was decoded.

Moreover, I had favored and explored physics from my childhood constantly, and achieved many inventions.

In recent years, I have learnt from many teachers home and abroad, and self studied many subjects. See: "Love Transfer --- Quantum Medicine, Quantum Resonance Information Water and Exploration on the Treatment of Body, Mind and Soul Diseases".

After 25 years' continuous exploration and practice, I have gradually improved the treatment of many incurable diseases in the medical textbooks, "such as the diseases with unknown causes, unknown etiology, no conclusive diagnose, study still on going, etc.", and made the etiology clear as well. Afterwards, I made the common resonance information memorized in the water, which turns into the Quantum Resonance Information Water (the QRI Water) to deliver the resonance information. As for the special information without common characters, it can be solved through the Family Constellations.

I have walked on the way which the ordinary person haven't. I have experienced

innumerable trials and hardships, suppressed everywhere during this period, marching forward against the adversity. In my research I found after all:

Causes of disease --- The diseases are caused by the disturbance of the resonance frequency of human body.

Method of Treatment --- To correct the disturbance of the resonance frequency of human body.

Goal of Treatment --- To get the " Unity of Heaven and Human ", make the small environment of the human body unified with the universal grand environment simultaneously, that is, to solve the disordered Soulfence and Soulfence Field of the four-dimension space to benefit the generations of the family.

The human body is a whole. The meridian is its backbone, playing the role connecting with the Four-Dimensional Space upwards and with body downwards. Once the meridian is obstructed, or the meridian does not go smoothly in connecting with the Four-Dimensional Space upwards, and connecting with the body downwards, that is, the resonance frequency occur disorder, causing diseases.

The Meridian is the channel of quantum motion, and it works only in the living. When one dies, the quantum information transmission stops, and the meridian loses its function. Thus the western medicine could not find the meridian in the autopsy, and then they deny the existence of meridians.

When the meridian is obstructed and information can not be delivered to the part of the body, where loses some of the normal frequency, and the disorder of the resonance frequency occurs. Under the disorder of the frequency and the lack of dominant frequency, the abnormal frequency will take advantage in, and the bacteria, or fungi with their inherent frequency grow in this area, or cancer cells with their inherent frequency grow in this area. Even the outside spirit and evil spirits invade as well.

The antibiotic of western medicine is effective against most bacteria, by then the antibiotics seems acting on.

The western medicine has no effect on some fungi, by then the western medicine seems no good in effect.

The western medicine has not found specific drugs to kill cancer cells; so they had to use drug to poison the cancer cells, in the end, the good and bad cells are both poisoned.

Or to use radiation, the radiation has its own inherent frequency, but neither the same as the frequency of cancer cells, nor as the frequency of normal human body.

The good and bad cells are both killed under the radiation.

Or to make operation, the tumor, or cancer mass can be cut off, but no sooner after long they grow up again.

Or there occurs the gland problem, the western medicine would supplement the corresponding hormone, and the foreign hormones suppress the secretion function of the original gland, eventually causing the further deterioration of the organ function, and the disorder of the systemic endocrine, arousing new and more diseases. In this way, the western medicine does not cure the disease, but makes it heavier.

Or the western medicine uses some antagonist or agonist with structural similarities, but the human body has the compensatory function, the antagonist or agonist actually make the precision system of the human body more disordered increasingly.

The western medicine mainly uses some synthetic chemicals; these substances themselves are the carriers of the disordered information, they can not achieve the same resonant frequency as human body. Therefore they can only use stop-gap measures to treat symptoms but not the disease.

The acupuncture of Chinese Medicine directly acts on the meridian through the points, to restore the transfer of the resonance information from the meridians, which can cure a number of physical diseases.

The Traditional Chinese Medicine adopts some of natural animals, plants or minerals actually. These natural substances have their own inherent resonant frequencies originally, and their frequencies are harmonious with that of the human body, for instance, the Traditional Chinese Medicine to treat liver, the frequency of the medicine is as the same as that of the liver, and then corrects the frequency of liver. The medicine to cure heart, its frequency is as the same as that of heart, and then corrects the frequency of the heart, and restores the health of the human body. These kinds of the Traditional Chinese Medicines can cure a number of physical diseases as well. This is known to all.

Practicing Yoga, Qigong, Shadowboxing, etc., can also act on the meridian, to smooth the meridians, and make body healthy as well.

The ideas of the mind can also act on the meridian causing resonance. Therefore the meditation can also treat a part of physical and mental diseases.

We, the people, live in the Three-Dimensional Space. After dying, one's soul goes to the Four-Dimensional Space. We, the people, who live in the Three-Dimensional Space, can not see them in the Four-Dimensional Space, but those in the

Four-Dimensional Space can see us in Three-Dimensional Space. Actually the Four-Dimensional Space and the Three-Dimensional Space are a whole, just like two sides of a coin.

The information exchange between the Four-Dimensional Space and the Three-Dimensional Space is carried on through the Soulforce and the Soulforce Field, and the resonance information is transferred through the Soulforce and the Soulforce Field.

Actually, the cause of the disorder of the frequency of the human body is largely that the meridian loses the function to "connect with the Four-Dimensional Space upwards." Such as an old-fashioned TV set needs to be adjusted with its frequency manually. When adjusting manually, there may be some channels lost, due to ill adjusting, causing deficits of function, and then the sick occurs.

"Connecting with the Four-Dimensional Space upwards from meridian" means that our bodies come from the community of many souls of our predecessors, such as a ray of white light is composed of red, orange, yellow, green, blue and violet; it is a combination of different frequencies. Our body is composed of the genes of the above ancestors. Meanwhile they give us the common action of the Soulforce and the Soulforce Field. However, if someone forgets some of the ancestors, or excludes, or refuses them, under the control of the idea in the mind, it is unable to make resonance with their Soulforce and Soulforce Field. Therefore the meridian could not sensor the corresponding resonance frequency from the Four-Dimensional Space. The corresponding part of the body with the same frequency will be sick. At this time, both the western medicine and the Traditional Chinese Medicine do not work.

The exclusion and rejection are just like the case as a Qigong Master, when he works, the receiver resists and rejects. So the resonance could not occur between Qigong Master and the receiver, and the information could not be transferred over.

Meanwhile, when the body is under lower energy, its frequency is not stable, the outside spirit and evil spirits may take the advantage to invade with their own resonance information and disturb the frequency of the human body.

These diseases are related with the soul. Actually they account more than 70% of the diseases. They are also known as the soul diseases, or cause and effect diseases.

In ancient time, these diseases were treated by the Witchcraft with the Soulforce and Soulforce Field to communicate with the Four-Dimensional Space. The purpose of the usual sacrificial worship activities is to keep smooth communication with the soul in the Four-Dimensional Space and reduce diseases.

The Four-Dimensional Space can not be seen with the ordinary eyes, but we can feel the Soulfence and Soulfence Field transferred by the soul of our ancestors. For instance, although the magnetic Field can not be seen by us, we can feel its existence.

The ancient people could easily feel the existence of Soulfence and Soulfence Field, for their minds were not restrained by different kinds of ideas. Thereupon, they naturally lowered their heads to bow, to kneel down with devout heart in worship. It may be inferred that it is hard to distinguish between the Three-Dimensional Space and the Four- Dimensional Space in the early time of the human beings. They lived in a whole universe.

The mind of the modern people is tightly restrained by too many inherent thoughts, due to the pressure of life, and subjected to various educations. Therefore our souls have been suppressed heavily and deeply. Furthermore, with the material civilization of the human being continuously improved, the natural instincts of many people have been degraded; they could not feel the existence of the Soulfence and the Soulfence Field. With the increase of the number of generations, the Soulfence and the Soulfence Field become more and more complex, increasing the difficulties for the people to feel the existence of the Soulfence and the Soulfence Field.

The Witchcraft itself is to use the Soulfence and the Soulfence Field. For most of the people could not feel the existence of the Soulfence and the Soulfence Field, the Witchcraft has no choice but to exit, and then the modern people laugh at the ignorance of the ancient people, and take the Witchcraft as a superstition.

Actually it is easy to sense the existence of the Soulfence and the Soulfence Field as well, while the modern people are in a pacific status, or under Zen Pause.

And if we can disassemble the Soulfence and the Soulfence Field acting on one's body with Family Constellations for a group of people to feel, then they immediately feel the existence of the Soulfence and the Soulfence Field, which can be felt in one or two minutes generally. The party may even invite a group of the outsiders, temporarily representing the members of his family into the family system dynamics (Field) to feel the existence of the Soulfence and the Soulfence Field. Germany Bert Hellinger, the founder of Family Constellations, actually works with Soulfence and the Soulfence Field.

The disorder of the Soulfence and the Soulfence Field will cause the diseases. If this disorder of the Soulfence and the Soulfence Field is not corrected, the disordered frequency will be handed down generation by generations. It is the Soulfence and the Soulfence Field that I use to diagnose and treat the diseases.

I invented the Quantum Resonance Information Water (the QRI Water) for 15 years; I just let the resonance information memorized in the water, to deliver the resonance information, so as to connect with the Four-Dimensional Space Upwards and the Body Downwards from meridian. Therefore the Quantum Resonance Information Water (the QRI Water) acts on the body aside, and soon the resonance frequency of the body is recovered, the disease is promptly improved.

The Quantum Resonance Information Water (the QRI Water) is used to correct the resonant frequency; as long as the frequency can be rectified, we can restore the physical health", to achieve the goal: "Different diseases can be treated in the same way", for the method is as the same as the resonance information transmission. The diseases of "body, mind and spirit" can be treated at the same time, because it is to transfer the resonance information: just put the Quantum Resonance Information Water (the QRI Water) close to the body, passing the resonance information across the space and the disease, the diseases are treated across space.

Usually the things in the Four-Dimensional Space can not be seen by the eyes of the most of us, but we can present them with some means. With Family Constellations, we can visually see the process that the people in Three-Dimensional Space connect with the soul of the ancestors in Four-Dimensional Space, making the original poor connection smooth. And we also can directly see the process driving the evil spirits out, even to see the process of reconciliation.

In order to demonstrate the above theory correct and feasible, I describe it in sections with instances, such as Hawking's Universe Unified Theory, the Quantum Resonance Information Water, Witchcraft, Family Constellations, Soulfence and Soulfence Field, etc..

In general, the thinking of the western medicine is from point to point; If there is something wrong with the gland, it would be treated with hormones. The method is to use antagonists or agonists to act on receptors, which is also very straightforward, easy to understand. However, the western medicine forgets that "The human body is a whole with a strong compensatory function"; they consider the human body mechanically as a machine, which is a fatal mistake.

Because it is impossible to find the existence of meridians in corpus, Chinese medicine, suffers greatly from the attacks of the western medicine. They do not know that the meridian is the channel of the quantum motion, only acts on the living body. When a person died, the body functions stopped; the meridian has no physical presence. The Chinese Medicine could not get the evidence of the meridians from

the dead and it feels a disadvantage in terms of verbal facility. When negated by the western medicine, Chinese Medicine has no power to fight back.

The modern people only believe the visible things; they do not believe the invisible ones. And they regard the ancient Witchcraft as superstition and unwisdom. In fact, the Witchcraft is the manner that the people in Three-Dimensional Space communicate with the soul in four-dimensional space, a way to communicate with the Four-Dimensional Space upwards, a way to join the universe at a higher level, which can be directly proved through the Family Constellations. At the same time, the Family Constellations can also heal some of this kind of diseases.

Actually, the ancient Book of Changes, the Eight Diagrams, including the real-life Taoist, the celestial being, are using this Soulfence and the Soulfence Field of the universe with their respective way to join the Four-Dimensional Space or higher dimensional space with the purpose to get the "Unity of Heaven and Human", to make the small environment of the human body united with that of the universe simultaneously.

In actual operations, I treated various diseases with the Quantum Resonant Information Water (the QRI water) first to correct the resonant frequency, and then observed, compared the systemic changes. If the disease is very quickly healed, it proves that the disturbance of frequency occurred in the "Body Downwards", or in the "Four-Dimensional Space Upwards". The abnormal frequency is not too serious and quickly corrected.

If the disease rapidly improved with the Quantum Resonant Information Water (the QRI water), some symptoms are still repeated. That is to say, the disordered frequency in the "Four-Dimensional Space Upwards" has not been fully corrected. The disordered Soulfence and the Soulfence Field still exist. The persistence is very serious. This time we had to use the Family Constellations to look for the missing soul from the source, and connect it to make the frequency back to normal.

The first case is presented by this book is a patient of psychology master's degree, 33 years old, suffered from finger pain starting from 4, 5 years old. Later the joints of the whole body deformed stiffness, diagnosed as rheumatoid arthritis. She has not been rehabilitated after treating in a number of Hospitals of provinces and cities for decades. When I treated her with the Quantum Resonant Information Water (the QRI water) to correct the resonant frequency, the first 20 minutes her body began to warm (the meridian starts to flow), the first 30 minutes the pain began to relieve, and soon began to feel joints ablation. After then, there were recurrences of pain;

each time when pain recurred, I would give her an exception to seize an abnormal spirit, and then to correct the abnormal Soulfence Field, and in this way she was recovering constantly. We found the cause of the disease at last through the Soulfence Medical Constellations; the cause of the disease came from the ravelment with the Four-Dimensional Space (the 4-D space).

The second case introduced in the book is a 30-year-old female from Kunming City. Since her menstruation came at 15 years old, it has bled for more than 20 days a month, only 3-5 days without bleeding each time. The blood loss was five times than that of the ordinary people. Whenever went to see a doctor in the hospital, as long as she said the bleeding of her menstruation for more than 16 days or more a time, the doctor would said, " Our hospital can not cure the case, you can go to another hospital", refusing her. In order to obtain Hemostatic drug she had to meet the doctor's thinking, falsely claimed that "Bleeding for 15 days, only about 2 to 3 months ". She continued treatment at major hospitals in Yunnan Province for 15 years without any improvement. But when she was treated with the Quantum Resonant Information Water (the QRI water), the case changed better quickly. The previous bleeding went on 33 days continuously a cycle; but now the menstrual bleeding stopped for 24 days a cycle, and the cause of her menstrual "bleeding river" was found through the "Soulforce Medicial Constellations". Looking back to the history of her family, her great-grand father was a horse caravan, the family members were all killed bleeding like a river. And the menstrual bleeding case is related with it. She originally knew nothing about the history of her family. When we found the above cause with the Soulfence Medical Constellations, she called back to her mother to make confirmation, and her mother admitted the history.

The above two patients have lost their labor force for more than 10 years, and now they have begun to restore their labor force after my treatment.

Such a case, if not consider from the Soulfence and the Soulfence Field, we have no way to carry out the treatment. If not consider from the Soulfence and the Soulfence Field, it is hard for us to find out the causes of the diseases.

The Soulfence and the Soulfence Field of everyone have relations with his all ancestors and predecessors. The increase of one generation makes the Soulfence and the Soulfence Field one more complicated; and when one harms other, he himself will enter into the other's Soulfence Field. Similarly, when he was harmed by other, the perpetrators entered his Soulfence Field. Thus the fate of the man becomes very complicated; and the disease is very complicated as well.

The world now is integrated increasingly. The events often happen that one country harms the other; then the corresponding Soulfence Field also becomes more and more complicated. The personal Soulfence Field relates with the society as a whole, and becomes more and more complicated as well. Correspondingly, there appear more and more diseases. If do not consider the case from the origin of the Soulfence, and the Soulfence Field, then more and more incurable diseases occur, and the discovery of new diseases will gradually increase, such as SARS, avian flu, swine flu, etc., which is hard for the human to cope with. Practically, as long as we grasp the concept of the Soulfence and the Soulfence Field, and start from correcting the disorder of the resonance frequency, it would be much easy to cope with the diseases, and there would be no incurable diseases.

At present, my treatments of diseases are all the same. No matter what the disease is, use the Quantum Resonance Information Water (the QRI Water) first, while recording changes in the whole body, and then continuously compare the changes before and after, observe which symptoms are one-time solved, or what symptoms are recurred. If there are multiple recurrences, it indicates a continued existence of the abnormal Soulfence and the Soulfence Field. And it is the time to consider the Soulfence and the Soulfence Field to treat it from the source with Soulfence Medicine Constellations.

In fact, the medical treatment is not the patent of a doctor. Who finds the origin of the disease, who is the miracle-working doctor!

Many of those who asked me to treat the diseases that were incurable in hospitals for decades, or the desperate people asked me to treat them with the concept of treating the "dead horse as living horse", but I never treat the case at the half-hearted attitude of treating the "dead horse as living horse." I treated these severe cases, first with the Quantum Resonance Information Water (the QRI Water); the effect can be seen in a very short period of time.

And I treated the diseases of different types with the same method and they were healed soon. The method is to use the Quantum Resonance Information Water (the QRI Water) that I invented by myself without using any other kind of medicines. ---This shows that I have treated the origin of the disease, and the theory and practice are fully fit together.

The water is the medium; I get the resonance information memorized in water to correct the disordered frequency. All in the research are too ahead of time. I applied for permit to the Ministry of Health, Food and Drug Administration, but my

applications were not accepted, because water is not a drug. There is no authority that can issue a permit for the water--- the Quantum Resonance Information Water (the QRI Water). But the local administration insists that I should produce the drug approval. The Quantum Resonance Information Water (the QRI Water) is not a medicine essentially, where can I get the medication's approval for the water? I do not know how to solve this issue? As for drugs, any of them has a trisection of toxin. Is the nontoxic water not better and safer than the drug? And the treatment can be done across space just with little Quantum Resonance Information Water (the QRI Water). Its benefits are impossible for drugs to achieve. What I'm using is not pharmacological effects, but to correct the resonance frequency and correct the disorder of the Soulfence and the Soulfence Field. It is a completely different concept from that of the animal pharmacological experiments of the western medicine.

Most people live in the Three-Dimensional Space, they want to obtain the data from point to point with the simulation methods of the dull most instrument. That is to say, they want to describe the Three-Dimensional World with the data from the One- or Two-Dimensional World. Yet the dull instrument of the one or two dimensions was deified as the God.

The western medicine has deified animal experiments. A number of the experimental methods are just considered from point to point. Actually there are full of loopholes and mistakes. For example, milk protein content must be requested no less than a certain value. This requirement is not wrong of course, but the actual detection is not to really test the protein content of the milk, but nitrogen. Because the protein is nitrogen, so the instrument is used to detect nitrogen and then deduce the milk contents of protein with the test result of nitrogen. Thereupon, just add a substance containing high nitrogen, such as fertilizers, the nitrogen content of the milk powder can be increased; then determine that the protein content of the milk is high. The melamine contents high nitrogen; after adding melamine, then determine the milk powder with high protein content. The story of melamine milk powder just comes from this way. Actually melamine has nothing to do with the protein of milk. The so called milk powder only contains nitrogen not protein. After the instrument test with this simulation, the result of "protein content" was made out, yet the detection equipment is deified by the administration authority.

The idea of the animal experiment of the western medicine is exactly the same. The western medicine is thinking point to point originally, plus a simulation of experiment, and how large the difference from the reality is unknown. To obtain the

"medicine" approval, the similar experimental data must be presented. And the sacred "Medicine approval" is obtained in this way.

If we want to get the approval for the Quantum Resonance Information Water (the QRI Water), we should approve the thinking of the Four-Dimensional Space with the idea of point to point of the western medicine. But this Soulfence and Soulfence Field do nothing with the animal experiments and pharmacological action. They are completely different areas. The things of the Four-Dimensional Space are completely different from the simulation of the One- or Two-dimensional space. They are completely different from each other.

What I research is not limited entirely within the framework of the Traditional Medicine. I am exploring the correction of the body resonance frequency in the vast universe, not only in treatment of disease, but in curing the soul of the people. And it just reflects the phenomenon to cure disease; the essence is that the disordered resonance frequency has been corrected. It has cured many incurable diseases of the modern doctors from the body, mind and spirit. Actually I created a new, common disease treatment system with the Soulfence and the Soulfence Field, the fifth force and the fifth force Field. The system I called "Soulforce Medicine."

In the book: "Love Transfer --- Quantum Medicine, Quantum Resonance Information Water and Exploration on the Treatment of Body, Mind and Soul Diseases", I introduce, "Following the successful development of 1995, after the exhibition in Beijing Exhibition Center from December 5 to 9, 1997, and more than 10 years' small-scale clinical testing, I have obtained a lot of reliable evidences and also incorporated more psychological and other contents. In December 2008, I launched the Quantum Resonance Information Water (the QRI Water) again and realized my goal to 'cure different diseases in the same way', that is to say, I have found the general law of medicine that different diseases can be cured with the same method. While implementing treatment, there is no need for me to know the name of the disease, as long as I aware of the site of pathological change. Then put the bottle (or bag) of the QRI water close to the point, let it pass the resonance information to the position, to correct the disorder of the resonance frequency of the partition, or apply some QRI water on the position at the same time. If the position of pathological change is unknown, drink the QRI water then. As for the systemic disease, endocrine system disorder, cancer metastasis, except of placing and applying (near or on the position of the hormone glands and cancer), drink some at the same time. If you want sound energy and better physical strength, you can drink while carrying it with

you. The methods of treating diseases with the Quantum Resonance Information Water (the QRI Water) are just three: 'putting (the bottle or bag), applying and drinking', or making up a QRI water bed, and sleeping on it directly. The treatments for all diseases are the same. In this way, medical study is no longer hard. There is neither need to remember and recite a lot of medical terms, nor need to put too much emphasis on 'differential diagnosis'. Those who have not studied medicine can also make a fool treatment."

"In west, there is a world-famous proverb: 'There are roads leading to Rome'. If you find a lot of people gathered together in Rome, will you hold it very strange? How could we all come here in Rome? Will this road be almighty? Actually the goal of everyone is to Rome, regardless where the original starting point is. Therefore we arrived in Rome together. Similarly, the people feel it weird to cure a wide range of diseases only with the Quantum Resonance Information Water (the QRI Water). Actually, the goal of the Quantum Resonance Information Water (the QRI Water) is to correct the disordered frequency to normal one, regardless where the original starting point is. Such a comparison helps us to understand why the Quantum Resonance Information Water (the QRI Water) can cure many diseases. This is the reason, I said, why we treat the diseases with the Quantum Resonance Information Water (the QRI Water) without paying too much attention to the 'differential diagnosis', there is no need to know where the starting point is, as long as you can know where the end point sets. But the diagnosis of the Western medicine is looking for the starting point, and the Western medicine does not set up the end point. Therefore its treatment is blind. The treatment of the Western medicine is only to suppress the symptoms of the diseases."

Therefore the "Soulforce Medicine" I found is a common disease treatment system, which puts the diagnosis on an unimportant position. If you really want to diagnose the type of disease, the type of disease has little to do with that of the western medicine, but the disease patterns are fit with that of the disease described in Buddhist scriptures. And the diagnostic method is commonly with the Soulforce Medicine Constellations.

If cut the whole body continuously into pieces, then each piece is a different part from the other; the diagnosis and treatment of each section are different, then hundreds of thousands of drugs would be used to cure each part. That is the western medicine. If make an integration in treatment, it is the "Soulforce medicine" to treat diseases only with the Soulforce and the Soulforce Field.

It is hard to make the people to fully understand my study system one, or two times. According to the people's present comprehensive ability, I can only introduce it in sections and let the people accept it gradually. Otherwise, whenever the people can not understand, they will title "superstition" and put the label of "pseudo-science" on it. But the important thing is to see whether the disease can be actually cured at the end. If the theory is perfect, but it could not cure the disease at the end, and it only be a phantom of the beautiful theory. "Practice is the only criterion for testing truth." is not out of date yet. Why not?

Actually, this book demonstrates to the people the world of the Four-Dimensional Space with the Quantum Resonance Information Water (the QRI Water), Witchcraft, and the Family Constellations. The world of the Four-Dimensional Space is invisible for our eyes, but existing practically. The goal to restore human health can be reached through communication with our ancestors, predecessors in the Four-Dimensional Space and frequency adjustment. And at the same time it shows us the Four-Dimensional Space World, presents us a wider range of the world, and let us out of the visible world of our eyes, guiding our daily life to respect and regard the "animism" world and to restore social order. I believe that this book has a significant impact not only on China but on the world in exploring the world of the Four- Dimensional Space. Its influence may be far beyond the Hawking's "A Briefer History of Time", because the book of "A Briefer History of Time" does not really touch how to verify the existence of the Four-Dimensional Space. The "A Briefer History of Time," only describes four Forces and four Fields, has not found the presence of the fifth force – the Soulfence and the Soulfence Field. The publication of the book will have profound contributions to the change of the direction of scientific research and the disease treatment both in China and in the world, as well as to how to use those invisible energy and substances: the Soulfence and the Soulfence Field, the hidden energy, hidden substances, etc. of the universe. The contribution could not be underestimated.

The above theory and practice is my original. I want to offer it to the human beings and make a sprint at Nobel Prize with it.

Talking on the Imperfect of Hawking's "A Briefer History of Time"

Kuwei Zhongzheng

There is a great book Sales in today's world, British Stephen Hawking's, "A Briefer History of Time", the earlier statistics of the sales was more than 11 million.

Hawking's "A Briefer History of Time" describes four forces and their generation fields.

The 1st force is gravity, that is, universal gravitation, and its generation field; The 2nd force is the electromagnetic force, and its generation field; The 3rd force is the weak nuclear force, and its generation field; The 4th force is the strong nuclear force, and its generation field.

I want to select Chapter 12 of the book for the public to read first:

CHAPTER 12 CONCLUSION

We find ourselves in a bewildering world. We want to make sense of what we see around us and to ask: What is the nature of the universe? What is our place in it and where did it and we come from? Why is it the way it is?

To try to answer these questions we adopt some "world picture." Just as an infinite tower of tortoises supporting the fiat earth is such a picture, so is the theory of superstrings. Both are theories of the universe, though the latter is much more mathematical and precise than the former. Both theories lack observational evidence: no one has ever seen a giant tortoise with the earth on its back, but then, no one has seen a superstring either. However, the tortoise theory fails to be a good scientific theory because it predicts that people should be able to fall off the edge of the world. This has not been found to agree with experience, unless that turns out to be the explanation for the people who are supposed to have disappeared in the Bermuda Triangle!

The earliest theoretical attempts to describe and explain the universe involved the idea that events and natural phenomena were controlled by spirits with human emotions who acted in a very humanlike and unpredictable manner. These spirits inhabited natural objects, like rivers and mountains, including celestial bodies, like the sun and moon. They had to be placated and their

favor sought in order to ensure the fertility of the soil and the rotation of the seasons. Gradually, however, it must have been noticed that there were certain regularities: the sun always rose in the east and set in the west, whether or not a sacrifice had been made to the sun god. Further, the sun, the moon, and the planets followed precise paths across the sky that could be predicted in advance with considerable accuracy. The sun and the moon might still be gods, but they were gods who obeyed strict laws, apparently without any exceptions, if one discounts stories like that of the sun stopping for Joshua. At first, these regularities and laws were obvious only in astronomy and a few other situations. However, as civilization developed, and particularly in the last 300 years, more and more regularities and laws were discovered. The success of these laws led Laplace at the beginning of the nineteenth century to postulate scientific determinism; that is, he suggested that there would be a set of laws that would determine the evolution of the universe precisely, given its configuration at one time.

Laplace's determinism was incomplete in two ways. It did not say how the laws should be chosen and it did not specify the initial configuration of the universe. These were left to God. God would choose how the universe began and what laws it obeyed, but he would not intervene in the universe once it had started. In effect, God was confined to the areas that nineteenth-century science did not understand.

We now know that Laplace's hopes of determinism cannot be realized, at least in the terms he had in mind. The uncertainty principle of quantum mechanics implies that certain pairs of quantities, such as the position and velocity of a particle, cannot both be predicted with complete accuracy. Quantum mechanics deals with this situation via a class of quantum theories in which particles don't have well-defined positions and velocities but are represented by a wave. These quantum theories are deterministic in the sense that they give laws for the evolution of the wave with time. Thus if one knows the wave at one time, one can calculate it at any other time. The unpredictable, random element comes in only when we try to interpret the wave in terms of the positions and velocities of particles. But maybe that is our mistake: maybe there are no particle positions and velocities, but only waves. It is just that we try to fit the waves to our preconceived ideas of positions and velocities. The resulting mismatch is the cause of the apparent unpredictability.

In effect, we have redefined the task of science to be the discovery of laws that will enable us to predict events up to the limits set by the uncertainty principle. The question remains, however: how or why were the laws and the initial state of the universe chosen?

In this book I have given special prominence to the laws that govern gravity, because it is gravity that shapes the large-scale structure of the universe, even though it is the weakest of the four categories of forces. The laws of gravity were incompatible with the view held

until quite recently that the universe is unchanging in time: the fact that gravity is always attractive implies that the universe must be either expanding or contracting. According to the general theory of relativity, there must have been a state of infinite density in the past, the big bang, which would have been an effective beginning of time. Similarly, if the whole universe recollapsed, there must be another state of infinite density in the future, the big crunch, which would be an end of time. Even if the whole universe did not recollapse, there would be singularities in any localized regions that collapsed to form black holes. These singularities would be an end of time for anyone who fell into the black hole. At the big bang and other singularities, all the laws would have broken down, so God would still have had complete freedom to choose what happened and how the universe began.

When we combine quantum mechanics with general relativity, there seems to be a new possibility that did not arise before: that space and time together might form a finite, four-dimensional space without singularities or boundaries, like the surface of the earth but with more dimensions. It seems that this idea could explain many of the observed features of the universe, such as its large-scale uniformity and also the smaller-scale departures from homogeneity, like galaxies, stars, and even human beings. It could even account for the arrow of time that we observe. But if the universe is completely self-contained, with no singularities or boundaries, and completely described by a unified theory, that has profound implications for the role of God as Creator.

Einstein once asked the question: "How much choice did God have in constructing the universe?" If the no boundary proposal is correct, he had no freedom at all to choose initial conditions. He would, of course, still have had the freedom to choose the laws that the universe obeyed. This, however, may not really have been all that much of a choice; there may well be only one, or a small number, of complete unified theories, such as the heterotic string theory, that are self-consistent and allow the existence of structures as complicated as human beings who can investigate the laws of the universe and ask about the nature of God.

Even if there is only one possible unified theory, it is just a set of rules and equations. What is it that breathes fire into the equations and makes a universe for them to describe? The usual approach of science of constructing a mathematical model cannot answer the questions of why there should be a universe for the model to describe. Why does the universe go to all the bother of existing? Is the unified theory so compelling that it brings about its own existence? Or does it need a creator, and, if so, does he have any other effect on the universe? And who created him? Up to now, most scientists have been too occupied with the development of new theories that describe what the universe is to ask the question why. On the other hand, the people whose business it is to ask why, the philosophers, have not been able to keep up with the

advance of scientific theories. In the eighteenth century, philosophers considered the whole of human knowledge, including science, to be their field and discussed questions such as: did the universe have a beginning? However, in the nineteenth and twentieth centuries, science became too technical and mathematical for the philosophers, or anyone else except a few specialists. Philosophers reduced the scope of their inquiries so much that Wittgenstein, the most famous philosopher of this century, said, "The sole remaining task for philosophy is the analysis of language." What a comedown from the great tradition of philosophy from Aristotle to Kant!

However, if we do discover a complete theory, it should in time be understandable in broad principle by everyone, not just a few scientists. Then we shall all, philosophers, scientists, and just ordinary people, be able to take part in the discussion of the question of why it is that we and the universe exist. If we find the answer to that, it would be the ultimate triumph of human reason – for then we would know the mind of God.

.....

I can see from Hawking's "A Briefer History of Time" that scientists are trying to put the four forces and their fields into a unified force or a field to describe.

After the electromagnetic force and weak nuclear force were successfully unified in one theory, so many people were trying to merge these forces in the so-called grand unified theory.

The direction of researching the universe is the grand unified theory, that is, try to explain it clear with the same formula or the same theory.

But the modern medicine adopts the contrary research methods, the classification of diseases is sorted into more and more divisions, the diagnosis becomes more and more difficult. There are medicines of tens of thousands, but finally, there are many diseases impossible to be simply treated by the modern medicines. So far the terms such as "causes unknown, etiology unknown, no conclusive diagnose, study still on going.....", are the most popular in the medical books.

The way of the modern medical research on the diseases is just opposite to the method of the research on the universe.

The people always talk about "The union of heaven and human", "Heaven and Earth are the grand universe, the human body is the small universe". The universes are the same. Why are their research methods completely opposite? Which is correct? And which is wrong?

In mid-June, 2006, Hawking visited China, when he and his party came to the Circular Mound Altar where the ancient emperors went to worship heaven for good harvests in the Temple of Heaven, the tourist guide introduced the history and

function of the Circular Mound to Hawking; As the guide mentioned the top terrace of the Circular Mound taking the "Tianxin Stone" as the center of the circle, then the fan-shaped stones were laid from inside to outside, extending out in multiples of nine, and the balustrades, the marble columns were also used in nine or in multiple of nine, symbolizing the "Celestial" number in order to achieve the emperor's objective, the "Unity of Heaven and Human", Hawking showed great interest. At the end of the introduction, Hawking initiatively requested one revolution around the Circular Mound to feel the traditional Chinese philosophy of the "Unity of Heaven and Human". Unfortunately, his study did not continue on the way following the "Unity of Heaven and Human".

In the research on the unified theory of the universe, there are a lot of famous scientists such as Einstein, Hawking and so on in modern times.

The Modern medicine is finely classified ever more, but there is no outstanding doctor coming out in modern times, even no one researcher who studies on treating all diseases in the same way, just like the research on the unified theory of the universe, that is, the "different diseases are treated with the same method."

Hawking, at 21 years old, got an Amyotrophic lateral sclerosis, which is commonly known in the UK as motor neuron disease. He is a celebrity; he should have gone and seen a lot of genuine medical experts around the world to cure his illness, but he has been still sitting in a wheelchair, which indicates that there is no one of genuine medical scientists or scientists around the world who can cure his disease. A famous scientist has such a fate, let alone the ordinary people.

If a theory can find the origin of the world, this theory can also act in the treatment of the diseases. If the theory Hawking studied on the macrocosm of the heaven and earth is correct, then the achievements of his research should also be helpful to the microcosm of the human body, and contributory to the medicine as well, and he should be able to see the hope to get off the wheelchair as well. But the result is very slim. However, here certainly links with some error.

There are also books on the universe in China. "Book of Changes" is one of them; but now how many people are there studying on it for use? There is a famous book of Chinese medicine, "Huangdi Neijing", but how much in the end does it contribute to the world medicine today?

I found in my study that there exist four forces and their fields in Hawking's research. But he does not know there is still existing the fifth force and the fifth force field. Then it will be impossible that he tries to unite the four forces of the universe

into one without the fifth force he omitted. Therefore, if Hawking wants to continue his research in-depth, he must take the fifth force and the fifth force field, that is, the soulforce and the soulforce field, into his account.

The Hawking's theory involves time, space, energy, quality. But Einstein's theory lets the clock back; it will be done to take the aircraft at the speed multiplied faster than that of the light. And the current technology of the three-dimensional space even can not achieve the speed of light; they neither can let the clock back, nor can remove the events of this space to another space and reproduce them there.

"A Briefer History of Time" has mentioned the three-dimensional space and the four-dimensional space, but there is no much description on the four-dimensional space.

In the Family Constellations, we have already known the force pulling the people moving forward, backward, up and down, and apparently felt the presence of the field; There exists the field, which can reproduce the events once occurred in the past, and easily let the clock back, and the parties can not be at the scene, and not subject to geographical constraints. And the person, invited as the representative in the Family Constellations, who's heads, just like inserted a disk, can be perceived the sense of the party represented and its history. However, Hellinger from Germany, the founder of the Family Constellations, has not made a deeper study on these, and there is no specific definition of the soulforce and the soulforce field, no study on the means of introducing quantum science, and no distinction between the three-dimensional space and the four-dimensional space. If Hellinger wants to make all the aspects of the Family Constellations clear, he must introduce the quantum science and the concept of the four-dimensional space into his study. And he can make further progress in his research only after making the law of the Four-dimensional space clear.

Hawking has missed the very important fifth force and its generation field; they are the soulforce and the soulforce field. The "soulforce" and "soulforce field" here I so named first. Then I will use great space to objectively prove their existence with the means of quantum science and the "Family Constellations". Meanwhile I have been using Quantum Medicine, Family Constellations, the soulforce and soulforce field to treat the incurable diseases judged by modern medicine.

If Hawking's theory to be improved, and Hellinger's theory to be further improved, together with my research on Quantum Medicine, My Quantum Resonance Information Water (the QRI Water), soulforce, and soulforce field, and the witchcraft

bias of the people is corrected, to create a new, common disease treatment system --- "Soulforce Medicine", then it is perfectly realized the goal that the "different diseases are treated with the same method".

In fact, I have found the origin of the diseases, that is, the diseases are caused by the disturbance of the resonance frequency of the human body, To correct the human resonance frequency can restore the human health. And I've always been treating the diseases in this way, that is, to correct the disorder of the resonance frequency with my Quantum Resonance Information Water (the QRI Water), and all diseases are treated with the same method. This study is also in the same direction of the research of the unified theory of the universe, as Stephen Hawking and others did. Additionally, I have increased the factor of the soulforce and soulforce field.

The classification of diseases in Buddhist Sutra: 1, this life-born diseases; 2, the diseases of the former karmic life; 3, the diseases caused by mixing the above two courses. This life-born diseases are the diseases caused by the pathogeny together with exogenous causes. As the diseases of the former karmic life, although it has no pathogeny and exogenous causes, but the disease is wide in range, suffering greatly, caused by the former karmic life. The intermix of the disease and the former karmic life has two cases, 1. the diseases caused by the disorders of the inherent Lung, Tripa, Bacon; 2. the diseases suddenly occurred with the exogenous courses, such as poisoning, trauma, and the disease caused by the devil mischief. This disease causes and classification have also been much simpler than modern western medicine.

The ancient witchcraft also mentioned this devil mischief here, what is the intrinsic link between them here? The modern people have labeled it as superstition, have they? After exploding Superstition, the diseases should be all cured. But there are still a lot of the diseases incurable in hospitals. Where are the reasons ?

The Chinese have an idiom, " Get rid of the old, Bring in the new "; A lot of Chinese people have strong ability to shatter the old world; so long as any thing they could not understand, and they will go and get rid of it. And they will classify it as cheating at once. After shattering the old, the new does not seem to be set up at all. But there are still technological innovations. Whenever the innovation is tied together with the titles and the governmental fund, the new establishing, innovation contain a lot of fraud.

I do not need titles, and there is no need for governmental fund, so there is no need to fraud for my " Get rid of the old, Bring in the new ". My "Love Transfer --- Quantum Medicine, Quantum Resonance Information Water and Exploration on the

Treatment of Body, Mind and Soul Diseases" follows the clues to explore the origin of diseases.

The witchcraft was used by the ancients, The ancient books recorded it in old Chinese. It is not easy for many people to read; The Family Constellation is the operation rule of four-dimensional space reflected in three-dimensional space, which is hard for many people to understand after reading one or two times. so I adjusted the order of this book. I first introduce "the Quantum Medicine, the Quantum Resonance Information Water" in modern Chinese, to describe it with the facts; after the introduction, make rectification of superstition for Witchcraft, and let the people see the origin and the true meaning of the Family Constellation with a large number of words in the description. Meanwhile the existence of the soulforce and soulforce field can be felt evidently in the text description.

The cases I introduced in this book are the client's own messages on my website, and few are recorded by me in accordance with the client's feedback.

The privacy parts involved in this book are not quoted here. The other cases involved in several cases of cancer and mental illness will be described later in several books. If the abnormal soulforce and soulforce field continuously acting on a certain site, then there may be cancer. If the exceptional soulforce and the soulforce field continuously act on the brain, it is likely to have mental illness. Such kind of the mental patients can not be cured taking any medicine, if not considering from the soulforce and the soulforce field.

It is hard for the general public to understand the Quantum Resonance Information Water, and witchcraft as well. It is also difficult for general public to understand the Family Constellation. Indeed, if they know the existence of a four-dimensional space-time, and know that there is a lot of hidden matter and hidden energy in the universe, the modern doctors would not be so arrogant, many people will seriously think a lot of problems. But we, the human beings only know less than 4% of the universe.

If the people found a lot of cases automatically revealed in the family constellation are as the same as that recorded in the scriptures of the sutra, the Bible or Swedenborg, people should be more humble, and will not deny what they do not understand, will not think that is superstition, and do not to interfere others' exploring the unknown mysteries of the world by requiring to produce the governmental approvals.

When returning to the world's origin, they will understand one and passing

through one hundred. It is also a very easy thing to treat disease.

When we maintain a humble heart, do not cordon off the area, then we can find the origin to cure the diseases and then can quickly understand the origin of the world.

The " Soulforce Medicine" is coming out in exploring the mysteries of the universe. The birth of the " Soulforce Medicine" makes our research on the world more perfect and more harmonious.

Uncover the Mystery of the Witchcraft

Kuwei Zhongzheng

I carefully studied on Chapter 6 and Chapter 7 of the "Huandi Neijing: 60 Chapter TV Documentary". I wrote down in the previous chapters, "I looked for the trace of the witchcraft from 'Huandi Neijing: 60 Chapter TV Documentary' " what I found that the people had many misunderstandings on the witchcraft.

At the same time, I compared the fate of modern Chinese medicine with that of the witchcraft in chapter of "See the Witchcraft from Chen Bangxian's 'China Medical History' ", which also proved that the people had many misunderstandings on the witchcraft.

I am still using the above material, combine these images together, so I can basically form a picture:

In ancient times, the witchcraft is an important part of everyday life, the witchcraft can play a very important role in everyday life.

Witch doctors treat the diseases with the witchcraft, the means is prayer, worship the ancestors.

Causes of disease: diseases attributed to the ghost haunting. The ancient people thought that the disease might be the ancestors' punishment on the people, or other ghosts' punishment on the people.

Here refers to people, ancestors, ghosts, witch, witchcraft.

So where are the ghosts? What is the relationship between them?

If we step back for a traditional, natural way of thinking, we can enlighten, and suddenly take a tumble:

People:we all know, the living people are in a three-dimensional space in general.

Spirits (Ghosts and Gods, Supernatural Being): in fact is a dead person. We are all mainly concerned about our own ancestors, who are in the soul world, or we can say their souls in the four-dimensional space, in the soul world.

Witch:that is able to communicate between the people and the soul, that is to say, the person masters the way of communication between the three-dimensional

space and the four-dimensional space. The ability may be inborn and can also be acquired. It can also be learned. It can also be after a sudden incident that the people in the three-dimensional space suddenly gained the ability to communicate with four-dimensional space.

Witchcraft: is to study how to communicate the relationship between the people and the souls, that is, to study how to communicate between the three-dimensional space and the four-dimensional space science.

As for witchcraft, it can not be separated from the religion.

Religion: is to follow the basic law presented in the witchcraft, a routine method of own self-fool-type adjusting and treating usually.

We can make the analogy of the modern life with the relationship between witchcraft and religion, the witchcraft is mastered by the professionals such as doctors, but the religion does not require specialized training in the usual care and personal health.

"Book of Rites • Sacral Law", "Dead People called Ghost", "Yin people revere deity, Lead people to sacrifice deity, first ghost and then ceremony."

What is the difference between ghosts and gods? The ghosts of Hero and the ruler are considered to have no visible role, wonderful and unpredictable, which are also specifically known as the "God," "deity."

"Book of Rites • Rural Sacrifice" says "As for air, God is overwhelm; as for soul, Ghost is overwhelm." "Zuo Zhuan" recorded the speech of Zheng Zichan in 20 years of Zhaogong Era, say: "those with fine materials, then their souls are powerful, fine and bright, as gods." That is God, god is the soul of the man with vigorous power, and the general people are ghosts after death. God is living in heaven, but also living on the earth. the ghosts are mostly with their spirits to live under the earth, in the mass graves, etc., and later it had been evolved into the specialized nether world of the dead, such as Mount Tai, Lower World, Jiuquan and so on are the accommodations of the souls in the minds of the ancients.

It is also said that the house built in place where was the original cemetery, or execution ground, where is often haunted in statement.

Our souls are mainly the souls of the dead ancestors, who are in the four-dimensional space, in the soul world.

We are living in the three-dimensional space, in the four-dimensional space can see the people in the three-dimensional space, many of the people doing evil things. The people in the three-dimensional space can not see the souls and ancestors in the

four-dimensional space. The people hold that the evil things did by them could not be seen by others, such as murder, robbery, abduction, persecution, unlawful possession of property, trespassing someone else's home, or the organization system; they really hold what they did were not "known by the god, or noticed by the soul," Actually the souls see clearly in the four-dimensional space.

Therefore, the religious teaching doctrine: the most fundamental is that the people can not do bad things, their bad things should be punished by the heaven, the God and souls.

In fact, the religion is not a mythical beast; it mainly studies where the people would go after death. The religion found that after death the soul of the people goes to the spiritual world, that is, the soul went to the four-dimensional space. But the people did not know before that the spiritual world is the four-dimensional space, or the space above the four-dimensional space. The people who had been living in the three-dimensional space did some things, the soul would continue his life in the four-dimensional space. If he had done bad things, then he would be punished in the spiritual world. The religion is to tell the people how to live in our three-dimensional space, how to be a justice man. That is so simple. Unfortunately, many of the modern Chinese people have great misunderstanding of religion as the scourge.

The average family in Japan has a special room for the family's ancestral tablet. If you go to visit the people, upon entering the house, one should first to worship the family deity, usually their family ancestors. If the guest stays overnight at home, the family would give the ancestral room to the guests to live, which shows the respect to the guest. Of course, China has no such a manner. If one is treated as such, he might not sleep all night.

There are many temples in Japan, which were all built by the local residents with raised funds; then they would put their multi-generational family ancestor tablets inside. If one temple is not enough to put the tablets, immediately they build one more temple, which is just like the rural villages in China (Each village has several temples), the family ancestor tablets of many family generations were put inside.

The Japan's tomb is also built very clean, basically every two weeks, the people would go to worship, pay respect at the grave, present flowers, weed cemetery grass, scrub the gravestone with water; The gravestone was engraved "XXXX 's Tomb", and it was also engraved the names of those who built the grave, "XXXX built the grave." because the builder of the monument is usually still alive. The name on the gravestone would be painted red. If the builder of the monument died in the future,

his descendants then change the red to black.

You can see the cemetery everywhere in the city, and the cemetery is close together with the house. And there was fencelessness between the house and the cemetery. that is, you can see the tomb upon opening the door.

When the Japanese people get up in the morning every day, the first thing they do is to ignite the incense, patter toward their ancestors, and also strike the bell. If they want to go out, report to the ancestors first, and wish to their ancestors to protect them. When they return home the first thing is to report to their ancestors that they are safe. They also pay respect to their ancestors before sleep at night. The Japanese are seriously worship the souls of the dead. If they do not worship the souls, I am afraid they would not feel at ease. They would not do.

Perhaps the Japanese people respect their ancestors, devoir, awe, therefore, the ancestors have blessed them, and do not add too much trouble for them, so they are healthy and longevity. One of the reasons that the Japan is the country of longevity perhaps may be that the Japanese people who frequently hold the sacrifice activities. Their advanced technology does not affect the worship of their ancestors. In the festival, the contents of many activities contain the witchcraft and religion.

The Japanese culture was most introduced from the ancient China. Even the shape of many Japan's temples is exactly the same as that of China, but smaller in scale than China. In Kyoto, there are a lot of temples are exactly the same as that of Beijing, but they are only 1 / 2 or 1 / 3 of that of China in size. Which are all written in Chinese characters. These should be related with the Monk Jian Zhen.

The classics of Japanese reading, some of them are written in Chinese character wholly, of course, but the pronunciation is different from Chinese.

Many foreigners can not read Japanese; describing the Japanese they would say that the Japanese technology is very advanced, but Japanese are superstitious. The Japanese are not only advocating technology, but also worship the Gods. The fact is they conduct the scientific research in the three-dimensional space, and also pray for God bless from the four-dimensional space.

Additionally, in the temples of Japan, there are stone dogs, like the stone lions everywhere in China. But there are few stone lions in Japan. But the stone dogs can be seen everywhere in Japan. while the Chen Bangxian's "Chinese Medical History" mentioned dogs in many articles in Chapter II, "Ancient of the Witch Doctor" in the first section "Ancient Medical". I wonder whether there is cause and effect relationship here.

Actually there are still a lot about the real ghosts, souls, classical, and idioms in China, picked at random: (Omitted)

Casually looking, I found so many idioms with the ghosts and spirits; If the soul, ghosts and spirits do not exist, why there are so many idioms about them, is it some strange?

And there are also the idioms that one plays a double game when he speaks to different people "Speak flat to the good people, speak nonsense to the evil (In Chinese: See people speak people's words, see ghosts speak ghosts' words) "; This phrase gives me the biggest revelation that the people and ghosts are existing simultaneously; We can communicate with the ghosts simultaneously.

Recently, in communication with the visitors with me on disease treatment and Family Constellations, as long as one opened the topic about the ghost, everyone of the other side could speak a few family members who have their own ghost story, or a talk for hours. The 12 TV Station in Australia has a program of "Guihua lianpian" (A lot of ghost's words) with the introduction to all true pictures of the story.

The modern people produced the rubbish papers of the theses in order to get professional titles for promoting their posts, or make the paper fraud to earn royalties and publish silly book. The ancient people did not need to comment titles; Their promotion was not to search articles published words, wrote a book also earned no pay for them, Why did they write some ghost stories? Why did they write some classics? This was only to point out what they wrote was true, with the yin-yang eyes (They could see both the three-dimensional space, and the four-dimensional space), The men who saw had recorded what they saw.

How many modern books can spread centuries? A few days ago I read about "Lu Xun's article was finally drew away from the the language textbooks". In fact, many articles on Chinese textbooks are very short-lived, more than a short life of the ghost stories. That many ghost stories have been passed down should have the reason to be handed down. I guess the stories described in these books are true, but only some people's eyes can see, most people can not see. But link up the visible part and the invisible part, such as the iceberg, some of the part is above the water, some under the water, it has many features that can be coherent. If it is purely false, it is not consistent up.

If what recorded is true, there is always a method allowing to automatically show up any way to prove that the witchcraft and religions recorded in these ancient books are necessary for their existence.

Anything has its source; If we are seriously looking for, it should be able to find out. But I did not find ready-made book that described the origin of witchcraft. If we say the witchcraft is superstition. I feel it is hardly convincing.

I said, anything can be found its source, for example: the driving in China or in Japan, is along the left, or along the right-hand lane, what is the source? (Omitted)

What is the origin of witchcraft?

For we did not find the origin of witchcraft as written material, so I made my own guess:

The living conditions of the ancient people were very poor, there was no housing like the modern building, no way like the present road, no food like that we have now, no living environment like the present, no heating as the current, no air conditioning, no means of defense now, so it was very vulnerable in the wild accidental death.

Such as died of hunger, died of freezing, died of snake biting, and falling from the cliff.... .. dead and later revived, and such kind of things often happened. During the time of death, the soul went to the soul world, which is the four-dimensional space or the space above that. Seeing some of the scenes and activities in the soul world, the soul world is higher than that space we are living. The frequencies of the two are different. The souls in the soul world can see us, but we can not see the soul world with our eyes. That is, we, living people are in the three-dimensional space, and the souls are in the four-dimensional space. The soul of the people in the three-dimensional space go to the four-dimensional space after death, The activities and ceremonies seen in the soul world after death are some of the witchcraft, working on the soul. However, some people died and resurrected, who regained consciousness after returning from the soul world put down those things they saw, and brought it to the human world, passing down from generation to generation. And there were the new deaths and the resurrections occurred, so the ancient people continued to see these same images then. Therefore the witchcraft activities were strengthened and the enhanced activities formed the ceremony and religion.

The witchcraft is the ceremony of the activities for the soul world.

The ancient people had no modern means of communication, and no modern means of transport, the various tribes were also separated, but the form of witchcraft, ritual forms were the same; If there are something in common, that is, the ancient people frequently occurred the dead things; the more important thing was that they frequently died and recurred again. And because the natural state, it was very long to revive the dead, their souls had enough time wandering the soul world, then the soul

came back to the body, returned to the earth.

Many years later, the living environment had been in the continuous improvement, the accidental deaths occurred were less and less.

Such as the modern people, if they died of accidents, they would be immediately taken to the hospital and quickly recover back, they had no enough time to wander the soul world. Or before the soul came back, their bodies were cremated. The soul could not go back to their original body.

Even the soul back, survived, and they saw the things in the soul world, but they are aware of it that the things in the soul world had been considered by the people to be superstitious, and they did not want to say more, and the others did not believe what they said. If the interview experienced those people who had died, they would tell some things in the soul world, and the things they described are consistent with stories described in the sutra. If interview those who had experienced the death or near-death experience, they would describe the OBE and saw his body lying there. Therefore, there is a subject in the foreign countries called "Death Studies", specially studying death and resurrection. The study is mainly on what they saw after their death. And many people who died and recurred again had got a specific function.

My mother's grandmother died and came back to life three days later. The people asked her where she went, she said, she passed a log bridge and then saw the Yama in a hell. Underworld King said to her, "Your kids are crying at home, you'd go back". so she was back. A lot of scenes she saw in this three days were exactly the same as that described in the Buddhist sutra. She lived 40 years more after coming back to life later.

I had discussed with those who had experienced the death, What they described were the same situations basically, and those people often said, "I was dead once," and they were angry while saying this, because when they argued with the common people, who did not believe them, that was really the "scholars met with soldiers, the reason could not be clarified," and then they were angry, by saying "I am a person who died." What he was trying to describe was the pictures seen in the soul world, something in the soul world. The people in the human world could not understand of course, The Buddhist sutra says the people would be tried after death, some of them go to the heaven and some of them to the hell. Many of the people just listen to it, and hold that the ancients were bored with nothing to fabrications. But there is one common, the people of resurrection after death are willing to do good things widely, and they take the pursuit of fame and fortune very faint, and said all this fame and

fortune are all external things. And they want to do extensive charitable things, lest that they would live tough times after they returned to the soul world again. The sudden change of their characters and the way of doing things, there must be a reason behind that.

In the soul world and they also saw their ancestors. When they meeting with each other, the ancestors etiquette was the witchcraft, rituals, the original pray for ancestors' blessing, for their forgiveness, pray for the spirits' blessing is such from the four-dimensional space, from the soul world.

Witchcraft came in that way.

The change history of driving along the left lane or along the right lane could be found, but we could not find the change history of the witchcraft, because the driving law left or right is man-made, which is constantly changing. The witchcraft was set by the heaven. It has been done the age-old without the change history, only the history of being misunderstood.

If you could not find the change history, it is likely there would be no changes in the history of witchcraft. it is likely to exist in the universe and is a constant action. If it is the constant action, then the universe would play the role, and there should be a "force" or the presence of "field "or similar at work. If the "force" or "field" exist, then we can surely find!

These above are my speculation for many years. I have found the evidences in the subsequent years of exploration proving that my speculation is correct, objective, and that can be repeatedly proved with evidences. And all these years I have been using this universal "force" and the "field" in my invention. Use the force with the force; particularly in medical treatment it played a remarkable role. This power is the "soul force", this field is the "soulforce field." This is a force and field to communicate between the four-dimensional space and the three-dimensional space. I will specify in later chapters.

Why do people today think that the witchcraft is superstitious?

I do not know it started from what time, the witchcraft was considered superstitious, especially two thousand years ago, after the "Huangdi Neijing" brought to time, the traditional Chinese medicine, that can be seen, and repeatedly cures certain diseases, took the first place, therefore the witchcraft spreading for numerous years was denied.

By now, the Western medicine has a history of only hundreds of years, which is so direct, to cure where the case is, such as headache to cure headache; foot ache to

cure foot. It took the Traditional Chinese Medicine spreading for thousands of years almost to the denial. Even it holds the witchcraft as a superstition.

Today, there are few and few people who recurred after death; Even the death was short to the soul world and saw those scenes, they tell others, they also hold as a superstition, then the people just did not say. I met such a person. Especially in the modern city, if the people died, the body of the dead would be cremated soon. There is no body; the soul could not come back. Or the dead is back quickly and saved. It is unlike the ancient, the long dead in the wild, was survived and came also back. They could have long time in the soul world and have a good look.

The ancient people did not have complex ideas, generally they could sense the "soulforce" and the "soulforce field", under the action of the "soulforce" and the "soulforce field", they naturally knelt down, bow, and worship their ancestors.

The more developed of the human world, the more advanced of the tools, the human instincts have been more and more degraded. And with the increase of the generations, the "soulforce" and the "soulforce field" are more complex. Therefore the people more and more could not sense the "soulforce" and "soulforce field". And they more and more hold the witchcraft as the superstitious. These are two major reasons why the people hold the witchcraft a superstition.

The modern people do not believe in the soul world, so to forget the ancestors in the soul world, Therefore the people are not able to receive the messages from the soul world; due to lacking of information, the disorder of the resonance frequency occurred. Therefore the people got some strange diseases. These diseases are from the four-dimensional space, the phenomena reflected in the three-dimensional space.

Quantum Resonance Information Water

Kuwei Zhongzheng

The Quantum Resonance Information Water (the QRI water) is an agent passing resonance energy successfully developed in 1995. After the exhibition in Beijing Exhibition Center from December 5 to 9, 1997, and more than 10 years' small-scale clinical tests, I have obtained reliable evidences, at the same time, absorbed more psychological elements as well. Therefore I launched the Quantum Resonance Information Water (the QRI water) once again in December, 2008 and realized my goal to "treat the different diseases with the same method", that is to say, I have found the general law of medicine that different diseases can be cured with the same method. While implementing treatment, there is no need for me to know the name of the disease, but the site of pathological change. Then put a bottle (or bag) of the Quantum Resonance Information Water (the QRI water) close to the point, let it transfer the resonance information to the position to correct the disorder of the resonance frequency of the part, or spread some of the Quantum Resonance Information Water (the QRI water) on the position at the same time. If the site of pathological change is unknown, drink the Quantum Resonance Information Water (the QRI water) then. As for systemic disease, endocrine system disorder, cancer metastasis, except of placing and applying (near or on the position of the hormone glands and cancer mass), drink some at the same time. If you want sound energy and better physical strength, you can drink while carrying the Quantum Resonance Information Water (the QRI water) with you. The methods of treating diseases with the QRI water are just three: "putting (the bottle or bag), applying and drinking", or making up the Quantum Resonance Information Water (the QRI water) bed, and sleeping on it directly. The treatments for all diseases are the same.

In this way, it is no longer hard to study medicine. There is no need to remember, no need to recite more things, and no need to put too much emphasis on "differential diagnosis."

Even the people who did not study medicine can still implement a fool treatment.

The Quantum Resonance Information Water (the QRI water) is re-launched this time with a significant difference compared with that of 10 years ago. The

internet just started in China 10 years ago. The coverage was very limited at that time, and the general public did not yet started to use. Therefore it was very difficult to interact with the remote patients, and to collect clinical data. Now the Internet has become accessible to the ordinary families. I can communicate via the Internet with the users; they can feed back at any time, and I can be aware of the situation of the users immediately. But the Quantum Medicine will focus more on the user's personal experience, especially on those users who have no organic disease, but feel systemically uneasy. With the support of the Internet, the users can copy down information instantly, and the reliable information data can be obtained timely.

The professor of a provincial Centre for Disease Control and Prevention used my Quantum Resonance Information Water (the QRI water), to treat the children with leukemia and the children returned to their schools one by one. At the same time, the children suffered from the renal failure also returned to their schools one by one. The professor has two daughters studying M.D. in the United States, experienced and knowledgeable. When she read the on-line description of my Quantum Resonance Information Water (the QRI water), she has accepted it without any hesitation. Now she is using the Quantum Resonance Information Water (the QRI water) to treat the patients suffered from leukemia and renal failure, as what I did when I was working in the People's Hospital, now what she is doing is also beyond her medical scope. In order to avoid the trouble that my "private clinic was banned." the professor wishes me to keep it confidential. She is also using it out of the hospital after work, which is surprisingly similar with my behavior at that time.

A clinician who worked in Shenzhen Nanshan Hospital (now renamed Shenzhen Union Hospital, Huazhong University of Science and Technology), for 22 years, used the Quantum Resonance Information Water (the QRI water) to treat the diseases that the hospital could not cure, and the diseases were cured one by one. Then the clinician has called me "Master", while more patients have called me "Teacher."

I had also met clinicians, and Buddhists as well, who were shocked, while they saw the magical effects of the Quantum Resonance Information Water (the QRI water), and immediately knelt down and asked to be my apprentice, worship me as master.

Treat the diseases suffered from pain, no matter what kind of pain is, the general method is to place the bottle or the bag of the Quantum Resonance Information Water (the QRI water) on the painful area. It would be within 10 minute that the pain is gone or relieved. If it is the traumatic pain with a wound open, spray the QRI

Water directly on the wound, the hurt pain will be indolent in 1-3 minutes. Many patients with cancer pain, placed the QRI Water beside the body, and applied on the position, or drink, the pain would not hurt or relieved in 10 minutes. Those suffered from the dysmenorrhea pain rolling in bed, put the bottle or the bag of the Quantum Resonance Information Water (the QRI water) near the abdomen, and spread on it meantime, many of them suffered no pain within 10 minutes. Many of those who had tumors, no matter what types they are, whether they are cysts or cancer masses, put the quantum resonance information water near the lesion site, at the same time spread on the position, the tumor would shrink or disappeared over one night; There are too many of such cases.

The patient who was the grandson of the Marshal, a founder of China and Vice Premier, spread the Quantum Resonance Information Water (the QRI water) on his face less than 1 ml, three hours later, the parotid cyst that had not cured for more than 10 years, was almost intangible and untouched.

Ms. Tong, chief of Shenzhen Municipal Committee of Experts suffered from allergic rhinitis, her case was not cured after 30 years' treatment, and I gave her the QRI Water, she placed and sprayed it onto the position for 20 days, the allergic rhinitis was healed. Other patients of allergic rhinitis treated for 10 years, or more than 20 years were healed with my Quantum Resonance Information Water (the QRI water) in 5-20 days. Then I received a Letter of Invitation from her Committee inviting me to be a member of the Commission of Medical and Health Experts, Shenzhen Municipal Committee of Experts.

A researcher from Zhongshan Medical College, Zhongshan University once took my Quantum Resonance Information Water (the QRI water) to test, the results of trace elements of the water were satisfactory, no radioactive elements found.

It is never before over the world that putting a bottle or a bag of the Quantum Resonance Information Water (the QRI water) beside the body can "cure disease over space". In comparison, it is much similar to the "Quantum Medicine" to correct the frequency with this method. The resonance information of the Quantum Resonance Information Water (the QRI water) will eventually act on the "meridians", and will walk on the way of the guide map of treating diseases through the meridian that was found thousands of years ago. Therefore systemic effects occur.

The feedback from one user, she suffered from leg ache. When she slapped the painful location with her palm, the pain disappeared, at the same time she hiccupped. She also put the Quantum Resonance Information Water (the QRI water) on the

legs ache part, the pain disappeared, and hiccupped as well, which indicates that the Quantum Resonance Information Water (the QRI water) has the same action as that of the meridian.

Another user's feedback, his sunscreen was turned hard like the toothpaste, when he put the Quantum Resonance Information Water (the QRI water) near the deteriorated, the sunscreen was soft and eventually became liquid like water. Chinese medicine says, "Passing non-pain, pain no passing". If where the meridian is stagnant or blocked up, the pain occurs. Put the Quantum Resonance Information Water (the QRI water) near the pain, passing the quantum resonance information, the meridian goes through normally and the pain disappears. This is also consistent with the Traditional Chinese Medicine (the TCM) theory. Therefore, it is not surprising to put the Quantum Resonance Information Water (the QRI water) at the painful area, and the pain relieves in 10 minutes, and the mass can disappear in several hours as well.

Many patients with hemorrhoids, their hemorrhoids disappeared after applying the QRI Water once. The hemorrhoids are caused by blood stagnation as well. After applying the Quantum Resonance Information Water (the QRI water) on the place, the blood flew, and the disease was healed. This is consistent with the Traditional Chinese Medicine (the TCM) theory.

A brain cancer patient in Beijing got headache, nausea, vomiting and other symptoms of intracranial hypertension within 20-30 minutes after drinking 5-10 ml of the QRI Water, indicating the effect of the QRI Water is very obvious in killing cancer cells immediately, that is to say, the cancer cells were killed and ruptured within a short time. After rupturing, the volume was slightly larger (the parts were dismantled and the size became larger), causing the symptoms of increased intracranial pressure. Of course, at this time, take a small amount of diuretic, to reduce the intracranial pressure, the symptom can be soon alleviated. By the time a lot of cancer cells were killed. The brain cancer that the hospital declared incurable was completely cured with the Quantum Resonance Information Water (the QRI water) in less than 3 months. And the discharged piss was as black as briquettes.

A patient from Harbin suffered from the lung cancer at the late stage with extensive metastasis to bone and lymph node. The hospital announced that the disease was incurable, and persuaded the patient to go back home waiting for death. The patient has lain on the bed for 9 days already, but the miracle occurred that she got up in 8 minutes after drinking 10 ml of 220 ml bottle of the Quantum Resonance Information Water (the QRI water) delivered by express; She got off the bed first for

9 minutes. Three days later, once again express of 600 ml arrived, she tied the bottles of the Quantum Resonance Information Water (the QRI water) immediately at her body, and she felt her strength improved, came down the stairs, walked back and forth to her sister's on foot. She coughed up pieces of rotten meat (the cancer mass) on the 20th day.

Many patients with beriberi for more than 10 years were cured by spraying the Quantum Resonance Information Water (the QRI water) once. Usually it can be cured in three days. A reporter of "Health News" with foot odor for more than 10 years, shortly after the Spring Festival, in 2009, he sprayed my Quantum Resonance Information Water over the socks only once, his foot odor disappeared without recurrence all long. The reporter's father-in-law with feet ulcers had been treated for 28 years, but in vain. When he used the Quantum Resonance Information Water (the QRI water), the feet ulcers was markedly improved within 4 days. And the rotten area was convergent without running water.

Those who use the Quantum Resonance Information Water (the QRI water) get less cold obviously than others, and also significantly less than that in previous years.

Therefore, it demonstrated that the frequencies of cancer cells, fungi, viruses, harmful bacteria are very different from that of the normal human body. Under the frequency of the Quantum Resonance Information Water, these substances can not survive; therefore, it is easy to separate these abnormal substances from the normal cells to kill, avoiding the Western radiotherapy and chemotherapy to kill both good and bad cells together.

The patients who suffered from the above diseases have the frequencies deviated to that of the cancer cells, fungi, viruses, harmful bacteria, therefore these substances can grow fast. After using the Quantum Resonance Information Water (the QRI water), under the resonant frequency of the normal human memorized in the water, these substances were killed quickly.

On the other hand, I have designed that the Quantum Resonance Information Water (the QRI Water) preserves the energy of memory. The QRI Water can transfer the resonance energy to the human body, if it is placed near the body to improve the body's resistance to disease, the immunity, and to maintain the body's normal frequency. The QRI Water can fight against cancer cells, viruses and fungi from both frequency and energy.

A sports athlete of Nanjing had been trained for 18 years in the United States; his physical training usually was to do push-ups; usually he could do 100 times once, if

forced him to do, he could do two more, reaching 102. In January 2009, he drunk 30 ml of the Quantum Resonance Information Water before doing push-ups, he finished 110 push-ups without being forced with doing. After 20 minutes' rest, he restarted to do without any forcing, and he finished 114. Usually finishing push-ups, he would drink some water after half an hour break, and his hands would tremble holding on the cup, but after drinking the Quantum Resonance Information Water (the QRI Water), his hands did not feel shaking while taking up the cup also after a half hours' push-ups and did not feel tired.

During July and August, 2009, I sponsored the Japanese Chinese team to participate in the International ballroom dancing competitions; they had maintained a total score of the first all along in Guiyang, Hong Kong, Yongzhou, Macau, Zhanjiang competitions. The Ballroom Dancing competition has been officially listed as one of sports competitions, which requires great physical strength and endurance. The Quantum Resonance Information Water is very useful in sports and games. It shows that after resonance, the strength of human body significantly increased; so when did the "pull test", the strength significantly increased. The "pull test" can be used to prove that the human body as a whole in the event of resonance.

Put the Quantum Resonance Information Water (the QRI water) near the body or drink the QRI Water, the physical strength increases. Spraying the Quantum Resonance Information Water (the QRI water) on the trauma 1 to 3 minutes, the pain can be relieved, The Quantum Resonance Information Water (the QRI water) is very valuable in the field of the military, it can not only enhance the combat endurance, but it can also be used in injury time. Meanwhile, the "different diseases be treated with the same method"; There is no need to take many drugs in the field. In sports the athlete can play super-level. And in first aid, place the Quantum Resonance Information Water (the QRI water) near the body to transfer the resonance information, so that the body can obtain extra energy, greatly enhancing the power of human endurance and resistance to trauma, and achieve better surgery healing.

One woman from Shenzhen grew a lot of long beard for more than 10 years from Grade 3 of primary school. She received the treatment with the Quantum Resonance Information Water (the QRI Water), and accidentally she found her beard fell on the 17th day after the treatment with the Quantum Resonance Information Water.

Another woman from Foshan in 2002, her colleague helped her to trim the eyebrows, and the right eyebrow was trimmed 1 cm (actually narrowed 1.5 cm) narrower than the left eyebrow. After then her right eyebrow had never grown up.

She used the Quantum Resonance Information Water to treat her disease, and she accidentally found the right eyebrows grown up.

With the same Quantum Resonance Information Water, make the hair growing where it grows, then the eyebrow grew up; The beard was lost from the place where the girl should not grow the beard, which indicates that it is entirely correct from theory to practice that the Quantum Resonance Information Water is designed to correct the disordered resonance frequency.

In addition, the normal person drinks the Quantum Resonance Information Water tasteless, but many patients I met with serious cancer said, they dunk the Quantum Resonance Information Water, it was tasted bitter, or like the water in the fish tank, or smell like the water in a drainage ditch, but after one week of use, these tastes disappeared, which indicates that their original resonance frequency had deviated from the normal resonance frequency. After one week use, the disordered frequency was gradually corrected; and there no longer exists bad smell. And the taste does also feel the resonance frequency.

I also met with the patients who sprayed the Quantum Resonance Information Water to mouth tasteless, but to the eyes sides, she felt her mouth bitter, indicating that the frequency of her eyes deviated from the normal status.

Put the drink, alcohol, cigarettes near the Quantum Resonance Information Water, their frequencies were immediately changed; then drinking the beverage or wine, or smoking the cigarettes, you can feel their taste changed, therefore we can use "sour test" to verify the change of the frequency.

One person from England came to me especially for treatment; it needs originally more than one week to rectify the jet lag after returning. He lay down in bed of the Quantum Resonance Information Water the night of her returning. The time difference was corrected 5 hours later, which indicates that the time difference is also related with the frequency of the human body. After using the Quantum Resonance Information Water, the frequency of the small environment of the human body gets consistent with that of the environment of the universe quickly.

A Japanese people came from Japan to me especially for treatment; she had taken sleeping pills every night for more than 10 years because of insomnia. She lain down on the bed of my Quantum Resonance Information Water, several minutes later, she saw the light glowing from pillow of the Quantum Resonance Information Water constantly; After lasting Half an hour, the light disappeared. Her insomnia was cured as well. She saw light at the time when the frequency was exactly the same frequency

as that of vision in the process of correcting the resonant frequency, she saw the light. Half an hour later, the frequency removed from the visual frequency, the light was unseen. After the frequency was corrected, insomnia healed.

The Quantum Resonance Information Water with the principles of quantum science can be used for deeper treatment. One woman of high myopia came to me for treatment with the Quantum Resonance Information Water; I immediately found the problem of her body, mind and soul. She had asked many clinicians for treatment, but in vain. She asked many masters for treatment with Gestalt Therapy, psychodrama therapy, but the means could not go on. She asked a number of masters to go on "Family Constellations", still no one could go on. When she found me, I soon found the cause of her myopia that she saw her father's suicide scene. While curing her systemic disease with the Quantum Resonance Information Water, I solved her psychological problems she repressed in heart for decades first within a month, then to solve the systemic health problems, such as insomnia, constipation, beriberi, skin, scars, cold, allergy, rhinitis, headache, dysmenorrhea and other items; they turned for the better one by one. And soon she found her eyebrows grew up that were cut short 8-year ago, and her chest was full as well. And then she found a sudden change in her thinking. Previously, she was disgusted her mother, even she could not live with her mother, could not walk together side by side. Suddenly she could accept her mother. The thinking of a person also has resonance frequency, once it is disordered, it will be very unusual, her character is also strange. After the frequency returned to normal, the strange ideas would changed. later I found that she gave up her work in recent years and went to the temples to do the volunteer work around. and actually she was looking for her suicide father, tried to find the soul of her father in the "Family Constellations". I had found her these questions, before I arrange the "Family Constellations" with real persons. I solved her problems one by one just with the Quantum Resonance Information Water.

The users have the follow-up report: After more than three months' use of the Quantum Resonance Information Water in the high dose, the menstrual blood had changed in color from the original dark like syrup to bright red, or from the dark blood block to bright red liquid blood finally. The skin was damaged because of acne inflammation 19 years ago, and where the eyebrow did not grow as well; after using the Quantum Resonance Information Water, the new eyebrows had grown out.

As for Gestalt therapy, the psychodrama therapy, the masters of psychology usually use props, scenes, stunt, language (or even to use a child's dialect), etc.,

they must try to bring the scene back to the place where the psychological trauma occurred to arouse the memory of the patient, then go to treatment. This case is actually just like the tape, or video tape rewind back to the period in question; And then either wipe out the magnetic period, delete the period, or record new content, for the frequency of the magnetic tape of the original question period was too unusual, too strong in intensity, so as to affect the other section, or even affect the entire tape. The case will be completely different after treating the section. The person will be changed, just like another one through proper psychological treatment.

I have read the book written by Hu Yinmeng, Master of Taiwan psychology, describing an accident, near death, the brain appears the case of the magnetic tape rewind, fast back to her whole life. That explains what happened in the life all are memorized in the human body. And the entire psychological trauma has been recorded as the same in the human body as well.

The Gestalt therapy, psychodrama therapy need to restore to the original scene where the original psychological trauma occurred. The scene is of sobbing trouble with great movement, the masters of psychology are exhausted physically and mentally after several processes down. And always under such an environment, a master of psychology is also suffering from psychological shock, and also under constant psychological harm. That is why a master of psychology himself regularly receives more advanced psychological treatment by the most senior psychological master. Then the most senior master of psychology, who gave him treated?

The Quantum Resonance Information Water can remove the special exceptional resonance frequency waves quietly, returning to the normal; in this way, the entanglement problems of the people's life history are solved unknowingly.

The family constellations involve the entanglement of the resonant frequency of several generations of the family system. And the Quantum Resonance Information Water corrects the abnormalities quietly as well.

I have found a universal law of medicine, that "the human body has its natural inherent resonance frequency, if the resonance frequency is disturbed, the sick appears; if the disordered frequency is corrected, the health is restored." This Quantum Resonance Information Water is actually the source of the quantum resonance, a liquid machine, a liquid quantum resonance information transmitter, passing the normal resonance information to the human body, directly acting on the lesion." Putting (bottle or bag), applying and drinking" are three methods to realize a fool treatment.

Can this panacea not be trusted out?

Because the preceding of the treatment of the diseases with the Quantum Resonance Information Water is from correcting the frequencies, as long as the frequency can be corrected to the normal, the disease can be cured. No matter what the original disease is, or at what stage, or in what position, as long as the frequency can be corrected, the disease will be able to be cured. If the frequency is not corrected, there is no cure.

In west, there is a world-famous proverb: "There are roads leading to Rome. "If you find a lot of people gathered together in Rome, will you hold it very strange? How could we all get to Rome? Will this road be almighty? Actually the goal of everyone is to Rome, regardless where the original starting point is. Therefore we arrived in Rome. Similarly, the people feel it weird to cure a wide range of diseases only with the Quantum Resonance Information Water (the QRI Water). Actually, the goal of the Quantum Resonance Information Water (the QRI Water) is to correct the disordered frequency to normal one, regardless where the original starting point is. Such a comparison helps us to understand why the Quantum Resonance Information Water (the QRI Water) can cure many diseases. This is the reason, I said, why we treat the diseases with the Quantum Resonance Information Water (the QRI Water) without paying too much attention to the "differential diagnosis", there is no need to know where the starting point is, as long as you can know where the end point sets. But the diagnosis of the Western medicine is looking for the starting point, and the Western medicine does not set up the end point. Therefore its treatment is blind. The treatment of the Western medicine is only to suppress the symptoms of the diseases.

"Different diseases, treated with the same method," Have you ever seen in history? In fact there was not only in history, but it is still at present. Chinese medicine acupuncture is relying on a pin in the cure sickness. Acupuncture needles penetrate into the appropriate acupuncture points, many different diseases can be cured only with the same needle. Now I put the Quantum Resonance Information Water (the QRI Water) at the lesion, the painful location of the body, and the diseases can be cured, which is just like the acupuncture. Someone might say that the acupuncture needs to look for the appropriate acupuncture points, but for me, I even did not find the acupuncture points and directly put the Quantum Resonance Information Water (the QRI Water) at the position. Actually, there are acupuncture points known as "A point", "Ah yes point", "uncertain point", "Heaven point", etc.. The book of "Lingshu•Jingjin" 《灵枢•经筋》 (Soul Hub• Meridian Vein) says:

"Take the pain as transfer" (以痛为输), that is to say, locate the site according to the pain. The name of "A point" was put forward first by "Valuable Prescriptions for Emergency" 《备急千金要方》. It has neither specific point name, nor a fixed location. In clinic, it is used more for the painful symptoms. The Quantum Resonance Information Water (the QRI Water) is also consistent with the theory of the Traditional Chinese Medicine (TCM), and the effect of treatment of the painful diseases with the Quantum Resonance Information Water (the QRI Water) is very quick. Acupuncture is very effective on pain type of diseases, but it is not so brilliant on the tumor, tumor type of treatment, and the Quantum Resonance Information Water (the QRI Water) is very effective to the tumor or cancer mass. And the Quantum Resonance Information Water (the QRI Water) also can make a great increase in physical strength, reaching the overall objective truly: "Different Diseases, Treated with the Same Method". As for this, I am the first in the world.

And the target of my design is to achieve the goal of "Different Diseases, Treated with the Same Method". I have found the universal law of medicine through decades of hard working, that is, "the human body has its natural inherent resonance frequency. If the resonance frequency is disturbed, the body will be sick; If the frequency is corrected, the health is restored."

I am the first one in the world who treats diseases across the space with the bottle or bag of the Quantum Resonance Information Water (the QRI Water) put near the body.

Is it the first time to hear "Curing Diseases Across Space"? No! The Qigong Master is also to cure the diseases "across space". Actually, the Qigong Master treats the diseases with the resonant wave of his ideas, passing out, to correct the disorder of the resonance frequency of the patient. In reality, the principle is the same. The Qigong Masters is a resonance source. The difference is that he should be at the scene on the spot to practice. "Make and Sell." As for me, I put these resonant information memorized in the water ahead of time, I already have stock in the water, and it can be "Qigong industrialized".

The method is to correct the frequency, and the different diseases can be treated with the same method, making the "treatment as easy as a Fool," which I am the first one in the world.

Put the bottle of the Quantum Resonance Information Water (the QRI Water) near the body, without opening the cap of the bottle, the Quantum Resonance Information Water (the QRI Water) of the bottle emitting the harmonic resonance

information to the human body to correct the imbalances of the frequency already, the disease is cured. And yet the Quantum Resonance Information Water (the QRI Water) of the bottle is not reduced. The resonance information is permanently memorized (To our limited life). Naturally keep the Quantum Resonance Information Water (the QRI Water), the energy of the (the QRI Water) will not weaken. It can be preserved for long. Water has the memory function. When the Quantum Resonance Information Water (the QRI Water) is put near the body, the Quantum Resonance Information Water (the QRI Water) is correcting the disorder of the resonant frequency of the human body. But the abnormal message of the human body may also be memorized by the water, affecting the subsequent use of effect. In any case, the service life of the Quantum Resonance Information Water (the QRI Water) is much longer than that of the common drugs. The QRI Water can be continuously placed near the body for few months all the while.

The application of the Quantum Resonance Information Water (the QRI Water) is just like that the family invites a general practitioner (GP) of a "Versatile Effect" home.

We can make further study on quantum science: According to the theory and observation of quantum science, our world is a quantum world. The quantum has the "wave-particle duality". Most of the people stop at only willing to recognize the eyes visible particles phase, and this matter is composed of 99.9999% of space and 0.0001% of the atoms. The all physical phenomena that we can see with our eyes are the idolums created out by the vibration frequency of atoms. And many people do not go to think that the invisible waves. The link between all things of the universe, is the performance of the waves. The resonant frequency of "four-dimensional space world" is too far from the range of the frequency perceived by the human eyes, so our eyes can not see. But the sensitive people can perceive it always. The perception is actually the resonance information.

If we change the "wave", the "matter" will be changed as well. Therefore, we can do a lot of work with this principle. But it is only a little use for medical treatment only. What I invented, such as the Nuclearmagnetic Resonance Transfer Agent (named "Yougong"(油公) in Chinese), Qinmi Baby Sling (亲密育儿背巾), the psychological model of family constellations, have all applied this principle. I have to declare a number of patents according to my experience.

I have presented my clinical research data to a lot of Medical Professors, presidents of Medical colleges, clinicians of western medicine, they were all caught

in strange cycle of a Chinese literary quotation: "Cheng buys shoes" (郑人买履) (It means a person from Cheng State went to buy his shoes, when he arrived at the market, but forgot to take the measured size of his feet, he did not buy and returned to take the size.) They did not believe the real body experience of the users; all of them asked me to show the animal experimental data. They all said that the animal experiments are the most correct, and insisted that the animal experiments can not be omitted. This is as the same as that of "Zheng Buys Shoes", they do not believe the real feeling of their feet when wearing the shoes, but only believe the measured size.

Could I do not know Western medicine and research programs? I finished the courses of graduate student during grade 2 to grade 4 in my Medical College along with my professors: " Basic Method of Medical Research", "Medical Literature Searches", etc.. When I studied in graduate school, I majored in Pharmacology of the Medical College; And I had part-time work for hospital and Pharmaceutical companies at home and abroad during this period. I am well aware of the traditional research methods.

We don't know where the western medicine comes from, but it fills over the world. So they let the animals try first with selection, and then give people the trial. Everything comes by chance.

The program designed by myself is "to correct human resonant frequency, the human body can recover", in which I directly selected the resonance information of the normal human body memorized in the water, rather than the animals' resonant message, everything from the inevitable. If you do animal experiments, the result is valid for all humans, but in many animals it will not be working. And the Quantum Resonance Information Water (the QRI Water) I designed is dealing with the body, mind and soul of the whole human body, which involves psychology, the soul study, the study of the family issues; All of these can not be replaced by animals for these involve human consciousness , thoughts, family issues, psychological hurts, and the way of animal thinking, way of life, and psychological hurts are completely different from that of the human, which the animal experiments can not be implemented fully.

Is the Traditional Chinese Medicine poisonous? The predecessors have practiced for us, since "Shen Nong Tasted Herbs"("神农尝百草"). The ancients had already told us the action of the Traditional Chinese Medicines (TCM) with conclusion for thousands of years. They told us the acupuncture points, meridians as well. There is no need to go to compile the story book, "Animal Tasted Herbs" (动物尝百草). The animals originally taste herbs every day, but the people are bored to the hundred

herbs condensed to feed the unrelated animals forcibly; the actual dose is so large that the animal dies of it. That is, too large a dose of food becomes toxic.

The greatest contribution of the modern western medicine is finding antibiotics that solved infectious diseases, and has promoted the vaccination, which shocked the medical community. But the late research methods of drugs pull the whole mankind completely into the wrong direction.

In English, the word of “medicine” has another meaning of witchcraft; the medicine man is a witch doctor. This also shows that the medicine came from witchcraft, not from drugs. In addition, we often see in movies that the westerners go to church every week, the religious confession and prayer, which actually is to clean up week’s accumulation of emotions; When the negative emotions is cleared up, the people will be healthier. The people who presided over the ancient ritual had a very high social status, just second to the emperor. In fact, the person who presided over the sacrifice in past was a psychologist now actually many modern research methods of diseases have completely prejudiced.

The users who earliest accepted the Quantum Resonance Information Water (the QRI Water) are the body, mind and soul researchers or explorers of the community, rather than clinicians.

I have proposed and practiced "to advance the disease treatment from the western medicine and Chinese medicine, to the integrated system of psychology, quantum medicine, family constellations", which I am the first one who invented in the world.

It is also the first that I invented in the world to treat the systemic diseases of the body, mind and soul with the Quantum Resonance Information Water (the QRI Water).

We can see from the above discussion that the Quantum Resonance Information Water (QRI Water) is consistent with many theories of the Traditional Chinese Medicine, but it does not yet find any intersection point with the theory of the western medicine. The Chinese Medicine is systemic, and the western medicine is a local theory, and the Quantum Resonance Information Water (the QRI Water) is a larger whole, so why the Quantum Resonance Information Water (the QRI Water) can not find any intersection point with the western medicine, the cause may be here.

Principle Introduction

The Nature (including human body) has its inherent resonant frequency. If for some reasons, the resonance frequency of the human body deviates from the normal, it would be sick. The heart has the heart's resonant frequency; the liver has the liver's resonant frequency; every organ and tissue has its own unique resonance frequency. Some of the natural materials have the same resonance frequencies as that of some organs, tissues of the human body. If we use the substance, the disorder of the resonant frequency of the human can be corrected, which is the role of the Traditional Chinese Medicine (TCM). The Traditional Chinese Medicines come from animals, plants and minerals etc..

Further study found that if pick out the resonance information of the Traditional Chinese Medicine amplify the intensity, to act on the human body, it can also achieve the same effect as that of the Traditional Chinese Medicine. There is no need to directly use the original Chinese Medicine itself. At the same time, the study found that pick out the resonance information of the human body, amplify the intensity, to act on the unhealthy, it can also correct its disordered resonance frequency to restore the health.

More than 70% of normal human body is water. If all the resonance information of the normal body is picked out, amplified, and permanently memorized in the water to produce the resonance information water to transfer the normal resonance frequency to the human body, it can correct the imbalance of the quantum resonance frequency, and restore the disorder of the frequency of the normal human to health.

Manual

The Soulforce Medicine and Quantum Medicine researches confirmed that the human body has its natural resonance frequency; if the resonance frequency is disturbed, the disordered resonance frequency will cause the disease; and when the disordered frequency is corrected, the health is restored.

The QRI Water has memorized large normal resonance information of nature (including the human body) permanently. Connect with the QRI Water that can transfer the resonance information (resonance energy) to the outside world, the disordered resonant frequency will return to the normal (including the human body).

It can be verified from the following that the QRI Water can transfer the resonance information over space; When the drinks are close to the product (without

opening the bottle), the taste of the drink is faded; When the glass of wine is near this product, the taste of the wine is lightened (actually the wine is not spicy and more mellow). The wine is better, and not be drunk with double amount. Put the cigarette outside the bottle, smoking is pale; the significant stimulation of the throat is reduced. Handling this product, one's strength increases. The symptom is significantly improved while placing or applying the Quantum Resonance Information Water (the QRI Water) on the uncomfortable point or lesions (such as pain, mass, trauma, etc.).

Drink some of the Quantum Resonance Information Water (the QRI Water), or carry it close to the body before sports, or military training, the result of the performance can be improved significantly (containing no cordial); it improves endurance greatly in mountain climbing, or heavy exercise.

The QRI Water can be used as additives for beverage, wine, medicine, health care; the improvement agent for animal and plant growth, and it can also be used as props of the psychology activities. This product has wide range of uses to allow the substance to produce the harmonic resonance changing its resonance characteristics.

Ingredients: water memorizing the specific resonance information (resonance energy).

Usage: Carry this product close to the body. If you feel this product too cold to carry in winter, you may put the product in warm water (not boiling) to heat first before using. The frozen does not influence the effect of the product, but boiling for a long time can make the effect of this product failed.

This product can be applied outside over space, contacting externally, or applying on. It can be drunk safely, drink it every 4 hours, 10 ml each time, more drinking without harm.

Storage: Avoid direct sunlight, kept it in the shade, do not boil.

Verification Method

After using this product, the following changes can immediately observed, the quantum resonance information transferring can be verified with these:

- 1, Get two cups of the flavored drinks at the same time to make comparison test, put one cup aside 1 meter away from the bottle of the Quantum Resonance Information Water (the QRI Water), and one cup close to the bottle of the Quantum Resonance Information Water (the QRI Water), turning around some times (No necessary to open the bottle of the Quantum Resonance Information Water), the taste

of the drink fades at once. Put a glass of wine close to this product, the wine changes its characters at once, the taste of the wine fades (actually it becomes not so spicy, but more mellow). The wine is much better, double more drinking makes no drunk. (you can make a comparison test with 2 glasses of wine, put one glass of wine close to this product, the other glass aside);

2, Pull the cigarette outside of this product some times, the cigarette will be pale, not hot; the stimulation of smoking on the throat will be significantly reduced. (Make a comparison test with two cigarettes, one pulled on the product, the other is not);

(Note: The key to the success of the above test is that the original beverage, cigarettes should be put more than 1 meter away from the Quantum Resonance Information Water (the QRI Water). If the whole bottle of the drink is placed near the Quantum Resonance Information Water (the QRI Water) before the test, the taste of the beverage bottle changes first, and then the taste does not come out on the contrast in the comparison. The cigarettes are similar.)

3, The "O" type of ring tension test: One person makes a O-ring round with the thumb and index finger (be sure to be round in O type), another person sets his thumb and index finger into the O-ring, pull in force trying to open it, to compare the tension, when the other hand holds the product and does not hold the product. The test results: It is easy to open the O-ring, when the other hand does not hold the product; but it is uneasy to open the O-ring while the other hand holding the product.

4, Arm Lateral Raise Test: One person raises his one side arm laterally, the other person pressures downwards near his elbow, test the compressive strength, when the other hand holding the product, and not holding this product; The test results: the side lifted arm is easily depressed down the level without holding this product by the other hand; but it is not easy to press down the level of the lifted arm while the other hand holding this product.

(Note: The key to the success of the above test is that the Quantum Resonance Information Water (the QRI Water) can not spray on the body in advance, or drink, or any part of the body with the Quantum Resonance Information Water (the QRI Water), otherwise, it is equivalent to carry with the Quantum Resonance Information Water (the QRI Water) all along, the efforts have been in increasing state; the efforts is not changeable in the size).

5, Put this product on the body pain, or uncomfortable place for 10 minutes, or rub times, or apply on, the symptoms of the pain, or discomfort will be significantly reduced or disappear immediately.

Each bottle of the Quantum Resonance Information Water (the QRI Water), every drop of the Quantum Resonance Information Water (the QRI Water) is a "source of the quantum resonance"; it is just like a set of liquid "quantum resonance transmitter" that can be carried with body continuously transmitting the harmonic resonance information around to correct the disordered resonance frequency of the human body, and make the health of the body recovered.

The resonance information transmission can be verified at once through the flavor pale change of wine, beverages, tobacco, O-ring tension pulling tests.

Comparison on Quantum Medicine Research at Home and Abroad with Other Subjects

The description on the current research and application of Quantum Medicine at home and abroad was made from diagnosis and treatment:

The current research and application of Quantum Medicine at home and abroad has mainly focused on the field of diagnosis, that is first to collect the resonance information of the normal people and then write into the computer. Compare the personal data collected from the patient with the data already collected in the computer. If the results of the comparison are within the normal range of the data, it is rated as "normal"; and if it is not within the normal range of the data, it is rated as "abnormal". And it is graded at the time of diagnosis to determine the normal and abnormal level. The medical examination is to check the change of the quantum electronics field of the human being. So early in the human magnetic field, there are just some minor changes, without organic change, which can be detected and captured, and the correct diagnosis can be made.

At present, in the clinical diagnosis of the Western medicine, they must be able to find the organic changes visibly, only then they can make diagnosis of abnormalities. But in the absence of organic disease found by them, the Western medicine would diagnose as normal. At this time the patient already own feel abnormal, but the clinical doctor still diagnoses that there is no clinical disease. At this time, the counselor at least hold that the visitor has a little change in psychology. So the psychology diagnosis has advanced a step ahead than the Western clinical diagnosis. And the Quantum Medicine diagnosis finds the problem much earlier than the psychologies.

If go and see a Traditional Chinese doctor, before the organic changes, the Traditional Chinese doctor found the abnormality of the "Qi" and "Blood" while making an overall study. At this time, the diagnosis of the Traditional Chinese Medicine is a step earlier than that of the Western medicine.

Therefore the sequence order of the abnormality diagnosis here is quantum medicine, psychology, the Traditional Chinese Medicine, Western medicine, and the Western medicine is the latest one that can make out the abnormal diagnosis.

The examination means of the Quantum medicine is the simple data comparison, very fast; the real-time test results can be obtained, convenient and accurate.

The reports on the Quantum Medicine for the treatment at home and abroad are very few and very fragmented. Even if there were reports, they were limited within the range of their respective area. They did not form a complete system.

There were also reports on various methods of water treatment of diseases, but they were limited to the "body" treatment. But there was no report on the method to treat the "mind" with water. There was no report on the method to treat the "soul" with water as well. Even if there were some treatments with water, most of which were concentrated within the research on the Newtonian mechanics, there were rarely few studies on quantum mechanics in the scope of medical treatment. Even the famous American F. Batmanghelidj, MD, described in his book of "Your Body's Many Cries for Water", with the method still limited within the context of Newtonian mechanics, which has nothing to do with quantum mechanics.

The research on the transpersonal psychology in recent years has actually used the method of quantum mechanics. And the Family Constellation is fully using the methods of quantum mechanics. But they all have formed their own systems completely irrelevant with nothing to do with the water.

I use the water as a carrier to memorize the resonance information. I had discovered many features of the water before 1995, which were displayed in Beijing Exhibition Center Exhibition from December 5, to December 9, 1997. Subsequently, I have integrated the treatments of the body, mind, and soul diseases with the Quantum Resonance Information Water (the QRI Water) in the field of quantum science, and invented:

- 1, Use the Quantum Resonance Information Water (the QRI Water) to realize the goal of "Treat Different Diseases, with the same method";
- 2, Use the Quantum Resonance Information Water (the QRI Water) to treat diseases across space with a bottle or a bag of the QRI Water placed on the lesions for treatment.
- 3, Use the

Quantum Resonance Information Water (the QRI Water) to cure overall body, mind, and soul diseases;⁴ I propose and practice the complete system of the treatment of the diseases advanced from the Western medicine, the Traditional Chinese Medicine, to the psychology, quantum medicine, Family Constellation.

There are also people in the country to often hype their products with the concept of "quantum medicine", in fact, a lot of publicities were actually for their products just after the detection with the quantum medicine means only, that is the same, just "like a person who took a plane once, then he claimed to the outside that he had owned an aircraft." Or mark the unrelated drinking fountains, or the simply processed water with the brand of the Quantum Medicine. which is the same approach that some people sold their rice marked with "nano" label a few years ago.

The true quantum medical research and practice is a complete new system. Even in foreign countries, their research is still hovering between Newtonian Mechanics and Quantum Mechanics; there is no establishment of a complete system.

And the feedbacks from the users of my Quantum Resonance Information Water (the QRI Water) all reflected the positive changes taken place finally over their body, mind and soul, if they took observation for long.

And currently our Western clinicians in medical practice only pay attention to the change of the "body", ignore the changes of the "mind", "soul" (or they regard the "soul" as superstition), and even request all of the other research methods must be in accordance with Western medicine research program, and even they regard the animal experiments as the supremacy; They not only overlooked all of the researches on the "mind" and "soul", but even they hold the research on the "body" of the highly intelligent human beings degraded down to the mute research on the lower animals. They tried their best to look for some effects in animal models. They want to verify some of the efficacy data with the lowering of standards (of object) method. Actually they want to cover their ears to steal a bell. Practically this is actually very sad behaviour to bring the humanity into the wrong direction.

We can see from my description of the growth experience, that the research on quantum medicine needs an integration and practice of many disciplines; It is impossible to lack any subject.

The Soulforce Medicine Treatment on the Deformed of Rheumatoid Joint Pain (Shenzhen)

Kuwei Zhongzheng

A patient, female, 33 years old (born in November, 1976.), lived in Lanzhou, China early years, now lives in Shenzhen.

Her fingers had been sore since 4,5 years old. When she went to the primary school 23 years ago, at the fourth grade, she was hospitalized because of the right wrist pain, and the pain disappeared after leaving the hospital, but the right wrist ankylosis was stiff and not flexible. Subsequently the pain had recurred and not stopped.

Ten years ago, she studied the course of the psychology graduate student from 1999 to 2003 in South China Normal University, Guangzhou (She majored the undergraduate psychology in Northwest Normal University.) and obtained a master's degree of Psychology. During graduate school, she paralyzed for two years. The joints of her hands and feet were all deformed and stiff with constant pain. It was treated with a variety of Western medicines and Chinese medicines and tested with all means, but not recovered. The pain had not stopped.

She came to me for help before off work in the afternoon on November 27, 2009. I gave her six 200 ml bags of the Quantum Resonance Information Water (the QRI Water) on-site, putting two bags on the shoulders, each shoulder with one; two bags in two hands, each hand held one; and put two bags under her feet, left and right feet each stepped on one bag. (No temperature requirements, it is do at room temperature). 20 minutes later, the body started to feel warmer; 30 minutes later, the pain began to ease; an hour later, the pain was obviously reduced. When she left, she bought three 200-ml bags of the Quantum Resonance Information Water (the QRI Water), and a small 10-ml spray bottle (the amount for application was obviously too small.). In the next morning, she felt the pain 70% relief. Conditions improved day by day.

She felt soon that the deformed joints started in ablation; The range of joints' motion was wider and wider.

During the same time the pain was continuously reduced, but the case still repeated, I felt there were existing an unusual soulforce and soulforce field. And she was made a Family Constellation then on January 1, 2010; The pain had improved.

June 10, 2010, I gave her the Soulforce Medicine Constellations. Since then, the pain completely disappeared, and the stiff joints of the body started to melt, and she could resume labor work. Especially, Mr. Kuwei Zhongzheng arranged 8 cases in the Soulforce Medicine Constellations from August 28-29, 2010, she participated as a representative of the seven cases moving so easily.

This case is very typical of the space-time disease of the four-dimensional space manifested in the three-dimensional space, which is the " soul illness " obviously embodied in her body, which she could feel the soulforce and soulforce existence. The Chinese medicine using the three-dimensional space means and the Western medicine using point to point line means and methods can not cure such kind of cases.

The Western doctors determined this disease was incurable, and they said: "Who can cure her, I jump from upstairs." Western medicine, Chinese medicine both does not cure this disease. But it was cure later with the Soulforce Medicine.

The case owner recorded a lot of the contents of the case, the introduction is very much involved in the soulforce medicine, the Quantum Resonance Information Water (the QRI Water), Family Constellation, witchcraft and psychology.

The Chinese version of the book of over 100 thousand Chinese characters was published in full; This English version of the book was the partial selection from the attached pages of Chinese.

March 23, 2010, Shenzhen TV broadcast in the first live show to her accidentally carrying 8 bags of the Quantum Resonance Information Water (the QRI Water), and she had shown that she could be able to open the finger joints.

Content: I grew up with rheumatism, pain has been accompanied me up! When I was the second-year graduate student studying the Psychology course at 23-year-old, I fell in illness suffering from the paralyzed for two years. Then my hands, feet, multiple joints were stiff and wrist was deformed. And later they were some improved, but the pain constantly occurred time to time. I went to see Mr. Kuwei Zhongzheng in the afternoon on November 27, 2009, I just thought that I would be satisfied, if my disease could be alleviated and restrained. When I entered into

Shenzhen Riyan Science and Technology Co., Ltd, Mr. Zhongzheng immediately placed six 200ml bags of the Quantum Resonance Information Water (the QRI Water) on my shoulder, in my hands, under the soles of my feet seperately. I felt my body warm up 20 minutes later; I felt the pain of shoulders, feet was reduced half an hour later. And I also felt more strength restored. I did not feel tired when I went back by the subway and by the bus. Before if I went back by bus to home at 5 or 6 o'clock back home; the crowd was extremely intolerable to me. I knew clearly that it was the Quantum Resonance Information Water (the QRI Water) that increased my physical fitness. I went to bed that night, I put one bag of the Quantum Resonance Information Water (the QRI Water) under the shoulder, one under leg, and also put a little bottle next to the pillow. When I got up next morning, the shoulder pain had 70% and the feet were not so painful. so I went to Dongguan to attend the meet early in the morning. Originally I had been very worried about going to Dongguan a few days ago for I was painful without any effort. I could not even move at home and just as if I could not move out. Two-day meeting in Dongguan, I had been hanging the bag of the Quantum Resonance Information Water (the QRI Water) on my neck, holding one in hand, I felt significantly better than the previous. Shoulder and hand pain had almost disappeared. The meeting on first day was held till midnight. According to my body in the past, I could not stand and I might like to die. But this time I was not. I went to sleep at four at the mid night. The next day I still got up at 7:30 go to the meeting. And I did not feel the pain in the hand, even have feeling of clearing up. Suddenly I began to realize there was also a hope for the recovery of the joint stiffness deformation! The meeting was held from 28 to 29 of the month. I had held the Quantum Resonance Information Water (the QRI Water). My mind seemed relieved. I called my mom and said, "Mom, my hard life was nearly over!" My mom dared not to believe what I said. I will faithfully record the healing process of my disease! With the three-day experience, the world in my heart has changed over! My heart had despaired for many years, now it has hope again! Only three day disappear of the pain and the feeling of clearing up have made me feeling incredible! Thank Mr. Kuwei Zhongzheng! You are our national treasure! See Viewer.

Content: Morning stiffness and pain in the morning nearly all disappeared. I really want to fly with the ease of the feet. Because I know now it is not so painful to walk. The knee was in faint relaxation. It reminded me that it was in 2001 there were a few days when my knee seemed as if tightly tied up with the adhesive tapes, More

and more tightly wrapped, the more and more tightly bound, more pain, and finally did not dare to move, slowly to stiff., and later was paralyzed for 2 years. Now the feeling was just the opposite.

Re: You can recall: " In 2001, your knee seemed as if tightly bound with the adhesive tapes, More and more tightly wrapped, the more and more tightly bound, more painful, and finally did not dare to move, slowly to stiff. " Do you feel the role of a soulforce field? there is an external force, living in this stretch? It is because of the frequency disorder of the soulforce and soulforce field; And now we spent a few months and rectified the disorder of the soulforce field with the Quantum Resonance Information Water (the QRI Water) and Family Constellations. 2010-3-24 10:21:24

Re: I said to my mother then, it seemed there was a man holding a wide adhesive tape wrapping around my legs, wildly wrapped around, the more and more tightly wrapped, the more and more tightly tied. I was just want to tear up the paper tape then. But I could not find any thing there. Now It was in the deregulation. See Viewer 2010-3-24 10:31:30

Re: This is the soulforce and soulforce field, out of the 4 forces and the 4 force fields described in Hawking's "A Briefer History of Time". It is the 5th force and the 5th force field that Hawking did not mentioned. This force and the field come from the four-dimensional space. This force and this field are basically the same thing that German Hellinger called higher energy. I am using the Quantum Resonance Information Water and Family Constellations to relieve the abnormal soulforce and soulforce field now. 2010-3-24 11:05:55

Content: Yesterday we made the Soulforce Medicine Constellations. Mr. Zhongzheng operated the Constellations as Teacher in person. Before going I was a bit nervous, I did not know what would happen. Repeated pain and stiffness made me feeling sinful. Mr. Zhongzheng let me choose one for my representative on the scene. It was a very intuitive that there was only one person left in my eyes over the audience on the scene. Before this operation, in other master's Constellations, the lady in my case was once my mother. I chose her as my representative. And then Mr. Zhongzheng selected about 10 persons surrounded my representative standing in the center of the large circle. A while later, miraculous things occurred, some people began to move. A representative went to the teacher and said she wanted to kneel. Teacher Zhongzheng said: ok, you kneel. She knelt down and then she lay down on the ground straightly. She got over to my representative, and then suddenly hugged

her feet. My representative tossed her off with force, but in vain, She tightly held her feet with both hands. After a period of trying, my representative could not toss her off and then she had to give up tossing. she had dragged deadly. My representative had to sit down, changed pulling her hand of he person who deadly grasped her feet. Representative 2 on the side wanted Representative 1 to release me, and said: "I want to beat her." "Make a gesture. Don't hit heavy." the teacher said. The 2 kicked the 1 a few times. She felt no place to vent her energy, then stepped heavily on the hard floor with her feet snapping kick. She cried, "Donot bother her!" (referring to my representative), "Do not bully her!" The person pulling my representative said, "none of your business, and she likes me, If she let me walk away I walk away."

My representative smiled at seeing all these without the slightest unhappy meaning. The No.2 dragged No.1 a few times, tossed off her and went back to hold my representative again. In the middle, the other representative came over and pulled No. 1 off several times with much anger. She was dragged away several times, then No.2 run back after a while sitting next to me and took me continuously. The status pulling back and forth reminded me of my pain. Teacher let my representative say to the person who was pulling me: "I see you, thank you for so many years of companionship," and then said "I love you!" the No.1 person released my representative hearing these. She started to recede back on sitting, and said, "bye, bye." while receding back to one side of the scene. My representative then went to the No. 2 sobbing out lower, she touched the No.2 lying down in tears. she said to my representative: " To alive well, do not let them bully you!" The teacher let my representative say "Thank you for your attention on me!" and then No.2 lay down completely quiet after hearing the words. At this time I could not help to kneel down to the sleeper and extremely admired her. After a while, I looked up and saw two people standing next to this person, one with a slight smile leaning against another person. That smile made me feel a little frightening. I knelt down to the two persons with full stretch on the ground. After getting up I saw that they had separated. At this time I also saw that most people had been lying down. The person who was smile was turning around these people lying down. A man lying down got up and made the turning person to lie down and sleep. Teacher reminded me to give an obeisance. At this time I was turning around and knelt down to the No. 1 standing on the sidelines of the field and stretched my body on the ground for my respect to her. My representative was standing next to me. After getting up I wanted to touch others. But teacher told me, that's ok. Then the teacher said, "all are put down, stop it here. "

After then another case of the tumor was done the Soulforce Medicine Constellations. During the time of the second case, I felt my neck, shoulders, hands suddenly relaxed. There appeared the melting feeling in hands. I did not know what relationship of person who presented in the cases was with me. Some people said the No. 1 pulling me should be a man. He might be the lover of the past life. And came to me this life. It was said the most attendants were female with too few men, so it had to select one female to represent. This universe memorizes too many secrets. This disease let me experience a completely different life from the normal one. I do not know how to describe my feelings.

Content: I always appreciate the feeling of melting, which reminded me how the muscles and bones were got painful day by day when the case was taken bad, stiff up until deformation. Each day, and each moment of that time, I still remember clearly. I held that I had forgotten. Without the rehabilitation now, I would never remember that part of the tragic past. And now all came back to my mind. I tried to feel how to leave and how to return. Now I can sit at ease, sleep with peace, eat with happy. I fully understand what are physical and spiritual unity and the overall changes. The understanding of the physical and mental illness has constantly opened a new field of awareness. When a person is in an anxiety, fear or stress or even depression state, the soulforce has been in effect. The somatic symptoms are the external manifestations emerged when the resistance of the body to a certain time. When someone or something was entangled, it is the time to deal with. The best way is the Quantum Resonance Information Water (the QRI Water) and the Soulforce Medicine Constellations. It is very amazing thing that one can encounter a little bit of genuine in this age. And the role of the soulforce has beyond the vigilance maintained by the modern people with the inertia of thinking, so as not to be cheated. Let the people understand what is truly remarkable. It is great to cure the disease! That is all true, great, a piece of pure land! I Always want to feel my hands, touching is not enough.

Re: I like more and more to read your message. When I was listening to your vividly telling about your smelting, some of masses, some of the clogging in my heart are slightly, gently opening. Presumably this is the resonance that brings us joy! I would like to understand the patients who have benefited the profound soulforce medicine. Let's practice the resonance synchronously!-2010-7-13 11:29:48

Soulforce Medical Treatment Records on Emmenia with Menstrual Bleeding for More than 20 Days lasting 15 Years (Kunming)

Kuwei Zhongzheng

The patient, Female, born in April, 1979, 30 years old, was from Yunnan Province. Since she had the menstruation at 15, the monthly menstrual bleeding had been for more than 20 days, only with 3 to 5 days without bleeding. She said the bleeding volume was 5 times of the ordinary people. She went and saw doctors everywhere in Yunnan Province, the case had been unable to alleviate.

When she went to the hospitals for treatment, as long as she said the bleeding was more than 15 days, the doctor would say, "Our hospital can not cure, you'd go to other hospitals." That was the method of the doctor to refuse her admission. Later, she'd to say it was 15-day bleeding. It was for 2 to 3 months, so that the doctor could give her hemostatic.

After treatment of the Western medicine and Chinese medicine, there was no better.

In therapy, she once tried with the witchcraft method, the bleeding of the day was reduced, but the operator admitted his limitation of learning. There was no way to go in-depth, and later the bleeding restored to its previous flow.

After test, the hemoglobin was not low, and only the white blood cells were slightly lower. The doctors had long suspected that she was mentally ill, and suspected what she said was a lie. During this period she went to see numerous Western medicine doctors, including more than 30 famous Traditional Chinese Medicine doctors in Yunnan Province, but no effect.

Before the Spring Festival, 2010, she got the news on the Quantum Resonance Information Water (the QRI Water) from the Internet. Being eager to seek for treatment, she bought four 200-ml bags of the Quantum Resonance Information Water (the QRI Water) (The day was the last day before the Spring Festival that the Express received the delivery article).

February 11, 2010 (three days before the Spring Festival), when she received the Quantum Resonance Information Water (the QRI Water), she hung the QRI Water on her body. And her mental and physical strength were improved at once. After drinking she found immediately the volume of the bleeding was reduced, changed into the blackish blood clot, and after the blackish blood clot flew out, she felt comfortable. She obviously felt that the bleeding of this time was not the same as before. And when she drunk the Quantum Resonance Information Water (the QRI Water), she felt an unprecedentedly comfortable feeling ever. For the Quantum Resonance Information Water (the QRI Water) was not so much, she drank only three times with the amount of slightly more, there were only three such experiences.

In January, 2010, the menstruation began the bleeding on Jan. 26, and stopped flowing on Feb. 28, which lasted 33 days. During the period she started to use the Quantum Resonance Information Water (the QRI Water) on February 11. Although it was still bleeding, but she felt it significantly different from the previous, and she had physical energy to do some housework during the Spring Festival. It was Unlike the past that she must stay in bed to reduce the bleeding.

In the morning, on March 4, 2010, I got her express from Kunming, she asked me for help and wanted to come to Shenzhen to completely cure the sick, but she said she had no money. She asked me whether I could receive her. I immediately called her phone, agreed to give her treatment. And she took a plane early in the morning came to Shenzhen on March 5. I gave her five 200-ml bags of the Quantum Resonance Information Water (the QRI Water), another 200-ml bottle of the QRI Water to drink without making any physical examination, and without making any special treatment.

The next day, she can go shopping for 7 hours, this was the first time she could be so easy shopping in 15 years.

At the Family Constellation on March 13-14, presented her great-grandfather caravan (robbers), with the crime of killing the people, and finally the whole family were nearly killed. Her bleeding was related with the history of her family with a blood river, which was exactly this same of the soul disease and cause disease that I had expected.

After a soulforce medical treatment, there was no bloodshed for 24 days each month, only 7 bloodshed days. The menstruation was getting normal.

On July 11, I solved her 10-year headache problem with the Soulforce Medicine Constellations as well. She had no more headaches later since then. This was a typical

example of the four-dimensional space of the problem reflected in the phenomenon of three-dimensional space, which could not be easily resolved both by the traditional Western medicine, or Chinese medicine's method. But the Soulforce Medicine can easily be solved.

Content: Kunming Yogacat: Link up the following messages together: 1, the text messages you sent me from your cell phone; 2, the messages left by you; 3, when you came to Shenzhen, I saw you constantly drank water status; 4, the situation of the blood test you had described, all my feeling is that your blood should not be all the blood, but a lot of water, just floating some blood in water. I infer from the following aspects: 1, you had once said to go to the hospital for testing hemoglobin, hemoglobin had never been lower than the normal, and it had been normally bleeding, the hemoglobin should be somewhat lower, but it was never tested lower than the normal. 2, "resulted in my 'did not bathe the most (after back to Kunming, I did not took a shower for fourteen days straight) '. The strange thing was that you did not found the odor in the body, while the smell of blood was not strong. For about half an hour after burning the paper, you also felt a lot of blood flowing out, but when you went to the toilet, you found the flow should be a bloody light water." But the "Blood could not be controlled, just like the water pouring." 3, When you were in Shenzhen, you came over to me, you brought a big cup, you had been kept in drinking the water. Although it was not in menstrual bleeding period, drinking so much water was amazing. I felt that the water was stored in the body, until the blood during menstruation put together out. 4, after drinking the Quantum Resonance Information Water (the QRI Water), there was the thick blood clots flowed down at once, then you felt comfortable. It was felt that the blood and water could be separated after drinking the Quantum Resonance Information Water (the QRI Water); the blood and water were not mixed together. 5, In addition, you described some times ago, you would drink water when you woke up at 5,6 o'clock in the morning, but it was not available to drink the ordinary water, must to drink almost 3 caps (30ml) of the Quantum Resonance Information Water (the QRI Water), then it worked. The 3 caps of the Quantum Resonance Information Water (the QRI Water) could replace a lot of plain water. So, I guess from the above. The so much blood flow was likely to be fake blood, mainly water; The fake blood was symbolic of the soul. But I found out there were 2 differences. This time when you were in Shenzhen, there were 24 days without bloodshed, but when you were thirsty in the morning you could not drink

the plain water, you drank only the Quantum Resonance Information Water (the QRI Water). The 3 caps of the Quantum Resonance Information Water (the QRI Water) could replace a plenty of plain water. This is a big change I found. Another seems to be occasionally, but should not be occasional, inevitable, those fourteen days without taking a bath, which is also related with water. I felt that the normal amount of the water you drank was in the reduction. Therefore, your illness, in addition to blood, there are water problems, so to track the water.

Re: But I think that your flow should be surely large at this cycle, for it must discharge the water stored in your body before. Although this water is not with too much blood, the fake blood is still a big blow to the body . 2010-4-7 8:52:47

Re: Also, from your message, you dreamed continuously the dead people, which were actually the souls from the four-dimensional space visiting you, because in your Family Constellations it was also informed that there were a lot of people of your family unexpectedly dead. The next time if you dreamed about, you should say: "I see you, I love you!" after waking up. By the way, whether you breed a dog or a cat in your family? Have you seen whether the dog howls, but did not see any sense. Or whether the cat is staring at a place, suddenly screams before fleeing. That is because the cat and the dog can see the visitors from the four-dimensional space, whom we can not see. 2010-4-7 9:05:21

Re: I just called Kunming Yogacat, the phone completely confirmed my inference: the volume of the drinking water in this month were significantly reduced, but usually, even not in menstrual period, she had been drinking, and kept constantly going to the toilet; it was the same during the period that she went to the toilet frequently. In addition she said that she now is thinner, and her legs are thinner. and the stored water were discharged. And last time I saw her face was swelling, Her body was a little so wide that it was storing a lot of water. Originally she planned to reduce weight, but now there is no need specifically to lose weight. It was not fat, but water, which had been reduced. Additionally, the description: "For about half an hour after burning the paper, you also felt a lot of blood flowing out, but when you went to the toilet, you found the flow should be a bloody light water." Just I asked about the flow, you said, a lot of water flow, but the sanitary napkins were almost without bloody color. From last night, the menstrual blood was very little, and it nearly came to an end today. This menstruation almost lasted for 17 days, of course, the water was stored before. In fact, the water had been disguised in the menstrual blood for the past 15 years, with this way to remind her of the bloodshed of the family once occurred.

This is the soul of disease, cause disease. This play is about over. 2010-4-7 9:43:26

Re: This case will soon be fully recovered, the whole body is under the adjustment currently; The menstruation would be normal, while the amount of water a day would be significantly reduced. Her weight would drop with body becoming some lean and thinner. All things would be back to normal. Of course, her previous look would be very different in face, no longer bulging. 2010-4-7 14:59:18

Re: The great grandfather in this case of the family was a caravan (bandits), and later the whole family were killed, forming a lood river. The descendants of the family had forgot this important event, and there was no one to commemorate them. The information of the historical events occurred were stored in the universe, the soul knows, so to remind her with the menstrual blood as " blood river " in the form. But the menstrual blood is not all blood, mainly water. She usually drank lots of water, and then kept on the toilet; Most of the water drunk was stored in the body, until the period of menstruation, this water flew down along with the menstrual blood; so the bleeding was more than 20 days per month, only 3-5 days without bleeding. Calculated with the use of sanitary napkins, the flow was five times than that of the ordinary people. Since February 11, 2010 when she began to use the the Quantum Resonance Information Water (the QRI Water), her physical strength was getting better, she could do some housework,during the Spring Festival, and she once had drank a large amount of the Quantum Resonance Information Water (the QRI Water) for three times, She had a special experience: as long as drinking, she felt the flow was blood clots, and after then she feel comfortable. In fact the blood and water have been separated out. However, since the menstruation came on January 26, the flow was ended on Feb. 28, lasting 33 days, and creating a historical record. Actually after drinking the Quantum Resonance Information Water (the QRI Water), it began to discharge the excess water stored in the body, so the duration was longer. Since she came to Shenzhen on March 5, it was found that she would drink 30 ml of the Quantum Resonance Information Water (the QRI Water) in the morning, she would feel comfortable, and after drinking of the Quantum Resonance Information Water (the QRI Water) the amount of the ordinary water could be greatly reduced, the QRI Water relaced the ordinary water. Her physical strength was significantly improved. She could go shopping for 7 hours. Before she dared not to go out but stay in bed. She did Family Constellations from March 13 to14, which found that her menstrual blood river was related with the bloody carnage of her family. It was 24 days from February 28 to March 23 that there was no flow of the menstrual blood, which was

a record. Her menstruation came and began on March 23, it was small and getting large amount of bleeding on March 25, during this period, she did not take a bathe for 14 days unconsciously. It was also a record that she did not take a bath for 14 days even without smell, and the odor of the blood was not strong during the menstrual "bleeding" lasting 17 days. The blood stream was found very light many times during this period. and she found several significant flows were water (After using the Quantum Resonance Information Water (the QRI Water), blood and water were separated, it is very easy to determine). The normal drinking water was significantly reduced during the period. Her legs were also starting thinning, and she was not as obese. She did not take the bath for 14 days, creating a historical record, reversing the inference that she had taken the bath. Her body was also absorbing the water in the storage of water while taking bath before. This time of her Menstruation had bled for 17 days. The bleeding was actually discharging the water accumulated in the body before. So it spent a little longer time. The water entering into the body started to decrease, and the water stored in the body began to discharge, so the time of the Menstruation lasted for the previous "bloody" 33 days, and this time of "bleeding" for 17 days. There were 24 days that did not flow during the period. The fact that the hemoglobin was not reduced could in turn verify that the flow was water, not blood. The amount of the menstrual blood was actually normal, but mixed with a lot of water. Then why use large quantities of water mixed with blood? It was operated through the soulforce and the soulforce field, in such a way to commemorate the bloody events in grandparents. This is the soul disease, the cause disease. She said herself the bloodshed had been 15 years, no hemostatic was working. She said that the witchcraft once played a role in drawing characters, but the ability of the performer was limited, her case was not to solved, But the performer had already touched the edge of the soul. To solve the above disease, we must create a new therapy - the " Soulforce Medicine." Actually, all subsequent processes are no longer important. As the body has stored water discharge, menstrual bleeding all the time will become normal; Along with the discharge of the water stored in the body, all will become normal. She will be lean, not bloated. Her body and soul will be completely different new. 2010-4-8 10:26:35

She came to Shenzhen to see me for help at noon on March 7, 2009. She purchased two 10 ml bottles of the Quantum Resonance Information Water (the QRI Water), her body had a lot better after using. When she used the bed of the QRI Water on April 5, the problem of her repression was solved. Then the physical problems of her body, mind and soul, which were wrapped in layers, began to reveal. Content: I experienced the QRI Water bed in the evening on April 5. I began to lie on the QRI Water bed at 8:40 pm or more; it was less than ten minutes that my legs felt some tingle, and after a half an hour, the different positions of my feet began to feel the tingle. Then my head felt very relaxed and very comfortable. And my hands began to have tingle feeling. Especially the upper-left corner and the upper right corner of the hands, and the upper left corner and the upper right corner of the two feet, were suffering from serious tingle; the face skin felt tight within ten centimeters on the upper corner of the eyes; the temple began to tingle; The part slightly upward behind the temple site, about half a palm of the hand, was swelling and painful; another ten minutes passed, my feet started tinglingand the chest also began boring with pain; The eyelids and the lower part of the mouth corner felt cool; It passed less than half hours that my head began to tingle, very tingle; By then the sense of oppression was gone, I was relaxed and happy; But my stomach began to hurt; At about ten, my whole upper part of head was very painful, and the temple was more painful; arm painful; leg painful; the right knee fossa was painful; By 11:00 to 12:00 the various symptoms of my body gradually disappeared, while the head could feel very relaxed until dawn. I knew the next few days, my body would react. I hope that these reactions could remind me about my health, but also could analyze the information for my teacher.

Comment: The Traditional Chinese Medicine, said: "Passing no-pain, pain no passing". The tingle, pain appeared in various parts of the above were the symptoms of the period before the "meridians" passing. If the "meridians" could get passing through, there would be no tingle and no pain. And because the Meridian was passing, and the repression sense would be clear away. This is consistent with the theory of the traditional Chinese medicine.

Content: On June 27 (Sunday), Kuwei Zhongzheng held the Soulforce Medicine Constellations, in the Civil Aviation Hotel at the old airport in Guangzhou, aiming at curing the diseases as main. I participated in this Soulforce Medicine Constellations. And I accidentally had the opportunity to treat my fears. Later, I recorded the situation observed today as follows:

Re: The changes in the past few days: 1, slow speech. Most of the time, I spoke slowly, relaxed without worrying about time and other's opinion. I, a person pursuing efficiency in the past, was gentle now. I had been sensitive since childhood, speaking at an alarming speed, coupled with fear, the speech speed was very fast. And now, everything was slowed down, not urgent, not rash. 2010-7-1 15:48:53

Re: 2, The fear did not exist. I began to fear from the people in Grade 3 of the primary school. I often walked around the people. Even so, when I bypassed the others, I still had fear endless in mind. I'm afraid of closing to others, fear of greeting; When I was bypassing the people, but also fear of being noticed by other people. Never mind how it hurts. 2010-7-1 15:49:17

Re: 3, no hurry to go home, then watch phone. I went out on duty the day before yesterday and yesterday afternoon, but I had not got any result. Therefore I stood there slowly, and thought, was there any place to go? I was not the past. When I went out, I would consider the time to come back. Once went out, I wanted to finish the duty in a hurry. I was always anxious in doing anything. On the way back, I was as if running home. I do not know What I fear. Someone called me, especially sent short message to me, upon hearing the phone voice, I was anxious on the call. If there was any short message that was not opened to read, I was too urgent to do anything. Now, I am slow down. Slow down to be not anxious toward anything, even if not to read the short message.---If the sky is falling, no worry there is still the tall man supporting well! 2010-7-1 15:52:15

walking. The most terrible thing was that I could not lie flat down in sleep at all since I was in Grade 3 - 4 of the primary school. When I lay down, the shoulders were twisted together, which was not open to relax. I do not know what I was terrible for! ---These days, my made the record, while carefully observing my shoulders. Loose. I could lie flat out. Liberated! 2010-7-1 15:52:32

Re: 5, The fear at 4, 5 years old. When I was at 4 or 5 years old (I began to have memory before 3 years old, I still remember many things happened in 2 years old now), my mother and brother talked with me in the room at night; I stood at the door; the door closed, the lights shot out from the window to illuminate the space around me, and I was in a fear. A few years ago, I was at home alone, I closed the doors and windows, I was still afraid at night. Sometimes I dared not to sleep. Especially in the rainy night. 2010-7-1 15:52:43

Then my brother would like rushing to go; so he went. But each time, my brother would return back to on the half way. I would replace him to go to finish the task successfully. Re: 7, no terror on the wound and blood: I went to Xiao Fang's in the afternoon the day before yesterday, and then I took a leisurely walk to met Ms. Qing who was just off work. Considering the preparation of supper, I went to the bus station to take bus after meeting with them. It was around six. I embarked the bus, put in the coin, turned at the door, facing the interior seats. --- At this time, a man sitting in the front seat side (usually a few seats at the front of the car body-oriented side, not facing the front) caught my attention: His left eye was very red, that might be injured. My first reaction was: If his eye was treated with the Quantum Resonance Information Water (the QRI Water) it would be getting better faster. At that time, I did not fear, did not shy away, just thought of him that his eyes were too red, It was not like the pink eye or general injuries, the horror film make-up effects was not the situation of his terror.

Later, someone got off, I had the opportunity to sit down. I sat behind him, just could see his side over the left eye, and sometimes he would turn on to see me accidentally, and I was very calm without fear. - In the past, if I met such a case, my first reaction was fear, my heart would pull together, pain, sad, afraid to look again, and I wanted to escape, struggle with anxiety, red eyes, the tears naturally overflow down... ... and then after long, when ever thought of it, I had no peace and now, I have no fear, no anxiety, the whole world calmed down. Content: I am a relative of the patient with the late stage lung cancer. I learnt the therapeutic action of the Quantum Resonance Information Water (the QRI Water) in treatment of the cancer patient by chance. I bought 20 bottles in a trial mood. Before my relative drunk the Quantum Resonance Information Water (the QRI Water), she accepted the injection of the western medicine and drug therapy, the cancer cells

of the patient's symptoms were transferred and spread to the neck, the size of the tumor in the neck was $4.1\text{cm} \times 3.7\text{cm}$, compressing the trachea, causing the patient coughing constantly while moving a little, severely coughing with blood color. Appetite and status were very poor; the mental state was very poor as well. At the beginning when I gave the Quantum Resonance Information Water (the QRI Water) to the patient to drink, I consciously let the patient drink, while putting the water near the patient's body. While sleeping, I put the QRI water at the patient's pillow, during the daytime usually put the bottles of the Quantum Resonance Information Water (the QRI Water) in the chest near the lung as possible as she could. When taking medicine, drank with the Quantum Resonance Information Water (the QRI Water). The first reflection of the patient to drink water was: 1, The QRI Water was bitter in taste; 2, There was a diarrhea; 3, the stomach was discomfort. After 6 days' drinking in succession, I took her to make the routine inspection in the hospital. The result of the inspection gave us a big surprise. The Lesion size became: $3.7\text{cm} \times 3.0\text{cm}$, and the patient's face started to improve, especially by the 6th day, her appetite began significant change, willing to eat, and she could chat with us. Because the lesions decreased, cough frequency and intensity also reduced a lot. This was the change after patient taking 20 bottles of the Quantum Resonance Information Water (the QRI Water). I will continue to use the Quantum Resonance Information Water (the QRI Water), combined with medical treatment. I will send the observation on the patient's physical changes to you with the message.

Re: 1, Water was bitter in taste; 2, there was diarrhea; 3, stomach was discomfort. When the patient drank the Quantum Resonance Information Water (the QRI Water), she said it was "bitter", but we drank up tasteless. She drank the water bitter, which showed that her body had deviated from the normal resonance frequency; the frequency changed, so her taste had changed. Drinking the Quantum Resonance Information Water (the QRI Water), she got the diarrhea, but we drank the Quantum Resonance Information Water (the QRI Water) without diarrhea. The case indicated that the patient's frequency was deviated; drinking the Quantum Resonance Information Water (the QRI Water) helped to discharge her intestine toxins, so she got the diarrhea. The discomfort stomach was also caused by the resonant frequency deviation. After drinking the Quantum Resonance Information Water (the QRI Water), the QRI Water could pull the deviated resonant frequency back to normal resonance frequency, and the foreign body was eliminated. I hope you can continue to tell us the changes every day.

Content: Hello, When I saw the Quantum Resonance Information Water (the QRI Water), I tried to use it, because my wife was not so good in sleep and suffered

from shoulder pain. She applied some of the water and felt the pain severe, burning on the face, could not sleep. She felt better gradually on the 2nd days. She continued to use at night, slept better, and her shoulder pain gradually improved. My wife said, It is too magical! My mother is older; her eye was suffered from cataracts, and often applied with some liquid medicine but ineffective. I asked her to use the Quantum Resonance Information Water (the QRI Water), my mother felt very comfortable, much better than the syrup. She still continues to use the Quantum Resonance Information Water (the QRI Water). When I drank, I put the glass close to the Quantum Resonance Information Water (the QRI Water), I felt a big drinker; I did not feel thirsty after drinking too much, and felt physical comfort. I will continue to use to explore. If I discover anything new, I'll tell you at any time.

Re: Applying, spreading on the human body with the QRI Water, or drink it, the normal people will not have pain, burning sensation, but for the people of the physical abnormalities will have uncomfortable sensation early in the process using this product to correct the abnormal resonant frequency, because of the deviation from the normal resonance frequency (in a disease state). But the uncomfortable symptoms will disappear while the frequency is gradually closing to the normal. For instance, the patient before with the late lung cancer drank this QRI water, and said, the water was bitter, causing diarrhea, stomach discomfort, but the normal people did not feel bitter. If you felt strongly, indicating the more abnormal, the more severe deviation from normal frequency, the hope is the better there. The Quantum Resonance Information Water (the QRI Water) is more effective to the cataract than the eye drops. We have already received the feedback from other people before. Additionally the upper thigh of my mother's leg had suffered pain all along. The doctor said that part is called the greater trochanter. The pain made her to push off the bed at night many times. My father said my mother's action was just like pulling the bellows. So Dad did not want to sleep in the same bed with my mother. The pain was gone, and her sleep was fine after 4 days of applying the Quantum Resonance Information Water (the QRI Water). My father drank and smoked more in a friend's wedding party a few days ago, he had got an attack of acute tonsillitis, with the throat sore. Then apply the Quantum Resonance Information Water (the QRI Water) on the neck and throat position. The case was improved in the middle of the night and getting better the next day after applying the QRI Water continuously. Yesterday, My father got toothache, he applied the Quantum Resonance Information Water (the QRI Water) on the painful area of the face. The pain disappeared at the later half of the night. It was for many years that my father was not good at sleeping. He always slept poorly at nights. And he often got up at night for urine 4 to 5 times. He put 2 bottles of the Quantum Resonance Information Water (the QRI Water) at the pillow on each side, near the head, two nights later, he slept well obviously; From the 3rd night, he had a sound sleep. Now he gets up only once overnight for urine.

Content: In the AM on December 20, 2008, I would like to make a trial of the bean sprouts with the Quantum Resonance Information Water (the QRI Water), I got three bowls and put 10 granules of the red beans in each with three sheets of the tissues in each towel, then put 3 tablespoons of the water in each, of which one bowl was put a spoon of the Quantum Resonance Information Water (the QRI Water). Two bowls of water, one added the Quantum Resonance Information Water (the QRI Water) and the other without, were placed close to the bottle of the Quantum Resonance Information Water (the QRI Water), and another bottle of water that was not added the Quantum Resonance Information Water (the QRI Water) was put away from the Quantum Resonance Information Water (the QRI Water). On the next day, December 21, the red bean in the bowl added with one tablespoon of the Quantum Resonance Information Water (the QRI Water) was swollen a little bit larger than that of the other two bowls, but not very obvious; the temperature fell down to minus 7°C at the night of the 21st in Nanjing. In the morning I found that the bowl that was far from the Quantum Resonance Information Water (the QRI Water) was dry, and the tissues and red beans were slightly frozen; the sheet of the tissue on the top layer turned hard, difficult to uncover. The water of other two bowls was not significantly changed, and the red beans were larger to varying degrees. I still continue to observe. It seems that the Quantum Resonance Information Water (the QRI Water) has the function to keep moisture and antifreezing.

Today I gave a call asking whether the QRI Water received or not. My mother said she had received the QRI Water already, and drank three bottles of the Quantum Resonance Information Water (the QRI Water). She put two bottles at her pillow, and one bottle of the QRI Water was tied to the plaster. Her sleep was much better these days. Her leg was painful for the change of weather these days. She applied the Quantum Resonance Information Water (the QRI Water) once on the leg pain in the morning and at night, the leg pain was much better. Her arm had great reaction when applied the QRI Water on it the first two days, and the case changed better a lot today. My mother said she would insist to use the QRI Water and

pay attention to any changes this time. The most obvious effect I felt in using the QRI Water was the sleep improvement, my many years' insomnia was actually got well so.

Re: Applying, spreading on the human body with this Quantum Resonance Information Water (the QRI Water), or drink it, the normal people will not have discomfort reaction, but for the people of the physical abnormalities will have uncomfortable sensation early in the process using this product to correct the abnormal resonant frequency, because of the deviation from the normal resonance frequency (in a disease state). But the uncomfortable symptoms will disappear while the frequency is gradually closing to the normal. For instance, the patient before with the late lung cancer drank this QRI water, and said, the water was bitter, causing diarrhea, stomach discomfort, but the normal people did not feel so. If you felt strongly, indicating the more abnormal, the more severe deviation from normal frequency, the hope is the better there. Please continue to observe. 2008-12-27 16:25:09

Content: Hello! General Manager Zhong, a feedback about the situation: The Quantum Resonance Information Water (the QRI Water) I bought was brought to my relatives. I received the QRI Water a few days ago, but I did not open the bag to check, because I was busily engaged in the project acceptance before the holiday. Yesterday afternoon I opened the parcel and found there was a crack on the upper part of the bottle, the water spilt out and soaked the gauze inside. I felt very awkward and bad. In the evening I had a severe stomach pain for the bad mood. I wrapped the yarn soaked the Quantum Resonance Information Water (the QRI Water) with a plastic bag and put it on my stomach, then a miracle happened: After placing the QRI Water for three minutes, there was an air in my stomach running downwards, and started to exhaust (fart) small or large volumes in succession. Not only that, when I sat up from the bed, the neck pain of the cervical spine had disappeared. It was miraculous. Although I did not know how to solve the leak of the bottle, I should share my personal experience with my friends. We should thank Shenzhen Riyan Science and Technology Co. Ltd, for their products that can be trusted.

I had taken a lot of the Traditional Chinese Medicine, western medicine, and also received the throat fog treatment many times. For the effect of the fog treatment was better, I felt a little more comfortable after spraying. That is just a temporary solution. It costs me around 40 Yuan in the hospital each time. 10 time a course at least, and I would always go to the hospital regularly with a lot of trouble. But the case has not been improved from 2006 up to now. One of my friends sent me this Quantum Resonance Information Water (the QRI Water) ten days ago and let me try with the bottle of the QRI Water rubbing on the throat, and applying the QRI Water outside of the throat. I felt more painful on the day than the previous; this continued for 3 days. Three days later, a miracle happened, my throat no longer has pain; and it is no more difficult to speak up. I can say, my pharyngitis had been completely healed 10 days after. It is very easy and very convenient to cure my pharyngitis that tortured me for more than two years. Thank you very much!!

Content: Today, a patient of lung disease, women, about 60 years old, returned back. She described the situation on applying the Quantum Resonance Information Water (the QRI Water). She got lung cancer, pulmonary Pseudomonas aeruginosa infection and tuberculosis, a few years ago. It is rare that the 3 large lung diseases exist simultaneously. She went to the major hospitals in Shenzhen, Guangzhou, Shanghai and other areas for treatment. But the disease was a headache to a doctor. Whenever she came to a hospital, the tests would be made from the very beginning.

The medical records were piled up. After years of treatment, the disease is under control, but now the medical expenses are up to RMB 10,000 Yuan or more a month at her own (except the insurance). In the evening on December 27, 2008, her husband got two bottles of the Quantum Resonance Information Water (the QRI Water) in the Redbud Hall on the first floor of the Shenzhen Wuzhou Hotel, and he tried it on the spot and saw the action of the QRI Water in the alcohol, tobacco. And he sent one of them to another people. Yesterday a telephone call to him asked how about the effect of using the Quantum Resonance Information Water (the QRI Water). The reply was that he took the QRI Water back home, and gave his wife to use. His wife said there were effects. so this morning, I went to have a look for details, she just put the bottle on her chest inside the clothing; She said in her own words, "Originally I coughed hysterically", but now she basically did not cough. Originally she got up every night 4-5 times to make urine, now she just gets up once. Lately she was that the QRI Water can also be good to apply on, to place close to the site, and to drink. There were 4 people of the family coming together to us buying 8 bottles this afternoon. We let them send their own message, if they have time.

She said she could feel there was a big-sized swollen mass at her waist, which was inspected by the People's Hospital of Qidong City 9 cm × 10 cm with clear abdominal distension, abdominal plump and obvious pain. She went to the People's Hospital regularly for renal dialysis. When she got the Quantum Resonance Information Water (the QRI Water) seven days ago, she tied the QRI Water at her waist. At night, the pain disappeared without using painkillers; originally she used to take the painkillers every day, but the pain could not be stopped. The abdominal plump gradually shrank. Content: When I was in junior high school, I had once boils on the ass continuously swelling; I had no money to see a doctor, and could not get treatment. Anyway, the boils will be over a certain time. But after that boil swelling was found around the anus with itch, I scratched with the stool smell. After reading the book, I

got to know it was a fistula. And that infection should be very serious Staphylococcus aureus (Meningococcal) infection described in the book. Since then, the stool must be washed with a towel; there was always stool on the washing towel, which was from the anal fistula. If did not wash, the bowel movement began itching around the anus 10 minutes after. And the anus should be washed several times a day, because the stool was slowly leaking from the fistula. Usually there is often itchy, need to apply different creams to alleviate itching. The fistula is very painful for me; I could not go far; I could not travel and afraid to go hometown. Because after going out, I could not find the environment where I could freely wash my ass and yet I needed to wash several times a day. If did not wash after stool, I'd tickle constantly. Later, because there was always itchy and felt stool smell, I resigned and worked at home, if I want to see customers, I'd first take a bath and then go out. In this case, I have no a social circle. I also went to the hospital to surgically removed, but the doctor said surgery was not 100% successful, the post-operative fistula may also be greater, so I have been impossible to treat. I got the Quantum Resonance Information Water (the QRI Water) 10 days ago. I went to China Resources Vanguard Supermarket and bought a small empty bottle with 4 Yuan for holding about 50 ml of the Quantum Resonance Information Water (the QRI Water). It is the specialized equipment for people who travel out to hold some shampoo and the like. I poured down some Quantum Resonance Information Water (the QRI Water) into the bottle, and usually put some on the palm of my hand and apply to the anus, and the itch stopped. I needn't to wash several times a day, and sometimes when I wake up at night, I would apply some on the anus. I felt comfortable this way. Recently, the smell of the stool disappeared. I touched the site of fistula with hand last night and I found there was no fistula. The original fistula could be touched clearly. And sometimes there were stuck inside of some solid things that will cause re-infection, or extrude the stuck thing out. Now there is nothing. The Quantum Resonance Information Water (the QRI Water) was really amazing.

Re: This incredible magic effect is actually the same as the principle of the Quantum Resonance Information Water (the QRI Water). If the body's normal resonant frequency is disordered, the disease occurs. The Quantum Resonance Information Water (the QRI Water) transfers the normal resonant frequency to the human body, to correct the body's resonance frequency, If it is corrected, the body is Okay. Washing soap will produce more white chips, itching more. I bathe all year round in a warm water basin, without any bath liquid. I got the Quantum Resonance Information Water (the QRI Water). In early December of the year, I applied and spread on the hands; the itch was gone. Gradually the raised skin disappeared. It may be due to the inability to adapt, especially to the present, there have been no rainy days as long periods of dry here. To this end, I do not know how much creams I bought. Whenever I went back to Shanghai, I would go to the Zhongshan Hospital for dispensation. It is strange to say, the first time to apply with a new drug, effects, and the itch stopped 1-2 days, but it did not last long, quickly relapse! Recently, a friend recommended me the Quantum Resonance Information Water (the QRI Water). To be honest, listening to friends, I was one ear into and one ear out. it sounds a little "suspense" and "dizzy" and makes incredible moment, there is a "too amazing" feeling. But in the evening, what unbearable itching is! And thus I "trying everything" with it! Who would have thought this is the next actually cured it! It does have the effect. Of course, since I did not manage the mouth, like heavy spicy food with wine hobby. So "Healing the scars forget the pain", another itch came. The key is to paint this water, on the old place, it will not itch. Is it really the 21st century revolutionary change? Is there really an "Obama"? Whether you believe it or not! I am willing to be mistaken by you that I am a "capper" or something, I write out of, first, thanks to Riyan Company for this product, and second, to sincerely share with others my practice. Amitabha! Water is able to perceive, which has been confirmed by today's science. What is needed now is that we must perceive the heart of Thanksgiving. Perhaps it is your and my participation that accidentally we become the insurgents and witnesses of "taking medicine and injections". Are you willing? At least I'm interested!

Content: My mother is a patient of lung cancer; she received the surgery operation five years ago. She is very weak yet with bronchitis for long. She has also suffered frequent chest tightness and asthma. She has taken medicines to maintain her health all along. But the effect was limited, When the case was serious, she had to bear hard. Recently she started to take the Quantum Resonance Information Water (the QRI Water) for the past month. The concept of this product is new. Because I am conservative by nature, I always take an abnormal suspicious attitude to it. Unexpectedly, when mother felt the chest distress, she just put the Quantum Resonance Information Water (the QRI Water) on her chest. It played an immediate effect. She was not bored in chest at once. Since then, my mother took it as a precious treasure, always put it at her pillow and slept better. Then she also put it on the joints, suspected the bone pain was caused by bone cancer, and the bone pain was also gone. She always murmured, is the super nature blessed me? It was more Magic recently that my mother had a cat, it had blood in the stool for three months. She put the QRI Water in the place where the cat sleeps. The cat was not found to stool with blood. The QRI Water is really magic water that is really incredible. My personal assurance to the above mentioned, all are true completely. God will punish those who lie.

Content: It was gloomy and cold in Shenzhen recent days, I stayed at home without going out during the New Year. It was near the time to go back to work; I went to the store room to tidy today. When I was out the door, I discovered that it was hot outside, I wore more. After moving something, I was sweating, and I came back, took a bath quickly. When getting in the bathtub, I found the back of my right hand hurts, and I checked; I did not know when I was knocked on the back of my hand. and a bright red, skin is gone, though there is no bloodshed, but the faint trace of blood is not backward in future emerging. I sprayed a bit of the Quantum Resonance Information Water (the QRI Water) with the small spray bottle put on the edge of bathtub. My child asked, "Why spray?" I answered, "Dad knock hurt". The child asked "show me?" I extended my hand to her. But she could not find where the wound was. She "asked where the injury knock?" I looked at the back of my right hand. Originally it was bright red, but now it turned dark gray, and only a little bit dark than the surrounding normal skin color. It was hard to distinguish out, if one did not look at carefully. Even if you looked closely, the outsiders could not think of injury. I put my hand back in the bath water; I did not feel pain on the point of hurt. The small spray bottle was prepared specifically for my child; she was over five years old. Kindergarten, I am responsible for her and everyday bath. I like bubble bath, and often took my child bath with me saving water and saving time, Of course I was wearing shorts, the child was naked (I think many people would not have thought this a good way). Sometime the child cried for pain in bath, when she was knocked injury in kindergarten. Once her leg was hurt, she tilted the hurt leg out of water, and put the other one into the water. Some time she injured her hand, She rose up her hurt hand. This time I said, "Let Dad sprays the supernatural water on your hurt!" After spraying the QRI Water, within one minute my child was willing to go to the water. So the small spray bottle had been placed on the edge of bathtub. Thus my child played the small spray bottle. She suddenly said, "Spray more!" I felt bad a bit. I asked her; let's apply the spilt QRI Water in the cap to our face. So we did together to rub our faces with the QRI Water. When we got up, I looked at that piece of the wound, the color looked changed; It was at least as the same as the usual more than three days after injury. Press the wound with force; it was not felt any pain. I was often told by phone call or read the online message, say that spray the Quantum Resonance Information Water (the QRI Water) onto the wound, the wound is not painful at once. My children

practiced it. Today I experienced it as well.

Re: Last night I tried to transform a work piece with the small sharp rasp by hand. While working, I thought about other important things, a sudden burst of pain, the rasp stabbed to my left thumb into the nail in the fingertip. The finger was really hurt, really at a loss with heart. I pulled out the rasp, the blood was bleeding out. I pressed with a tissue. The paper towel soaked with blood immediately. That thorn was too deep, it was difficult to stop the blood. The key was too much pain. The pain whining alerted my child. My child looked for and found the Adhesive bandage. The blood was not stopped with the Adhesive bandage. I remembered that the Quantum Resonance Information Water (the QRI Water) can stop the pain. I quickly took the QRI Water and sprayed on the wound. The wound was painful I felt it still. The first spray did not work much, then I sprayed again, not considered the bleeding, I must bear the pain first. A minute later, a miracle happened. The pain was significantly reduced, and the bleeding was a little slower as well. I feared the filings got inside the wound. While the pain was stopped, I squeezed the wound, as far as possible to let the iron out of. At the time, there was bleeding while squeezing. no bleeding without squeezing. A movement later there was a light layer of blood outside, which is like the normal case. Usually the traumatic wound is the case when opened the hemostatic gauze the next day for look. Because the wound was in the fingertip, the wound could not be pasted with the Adhesive bandage. I had better let it open. 20 minutes later, nothing felt too much pain to continue grinding on the workpiece. However, the work was done by the right hand anyway. 1 hour later, I sent short message with the left thumb, and I still felt a deep sense of hurt inside. I sprayed a few times of the QRI Water at night. When I got up in the morning, I found the size of the wound was just as small as a pin point. I looked carefully, It was only a brown tip point. Isqueezed hard, just remembering that it contains some injuries. It had no impact on pinching phone and send messages. 2009-2-1 10:24:16

Re: Children's spirituality and instinct are very strong. They are more sensitive than adults; children can instinctively feel the environment of some special things, such as harmonic resonance. Last night you asked me: Why did that child tightly grabbed the bottle? It was not easy to take it away; the simple reason is that the child

Content: Originally I wanted to send the Quantum Resonance Information Water (the QRI Water) to the old woman, good friend of my mother-in-law's, with advanced lung cancer, as the result, she drank a cap of the bottle. At first she began having diarrhea. She said, it seemed the same as her former sense of taking the medicine from Germany. She said the German medicine let her lived for 3 more years of good life. During the 3 years she had traveled around. Now she did not regret any thing. Her cancer now spread to the esophagus, and she did not want to take any medicine. Therefore my mother-in-law took over and drank. Previously she had bowel movement 3-4 days once. After drinking the Quantum Resonance Information Water (the QRI Water), she now looses stool once a day. When she drank the Quantum Resonance Information Water (the QRI Water), she felt bitter. But I drank the QRI Water and felt with the same sense as that of the common water with the general feeling of the taste of plastic bottle. I'd like to say it would be good to pack it with the glass bottles. And my child said it was very sweet to drink. It is out of consideration that everyone's taste is different. My mother-in-law asked me to get the Quantum Resonance Information Water (the QRI Water) for her in recent two days. She still had other change that in the morning she did not want to get up. But now she can and is willing to get up. I did not think of that the old men also had difficulty of getting up. Previously she never said she did not want to get up too.

Re: If the people felt bitter taste, her resonance frequency had actually deviated from her normal very far and was in disease state. Only after the correction of the resonance frequency is corrected, the taste will not be bitter, and turned into a tasteless. It was the constipation with a stool for 3-4 days. After drinking the Quantum Resonance Information Water (the QRI Water), she loosed stool once a day, and began to turn to the better direction. As the taste of the plastic bottles, actually the resonant information is magnified. Your child drank with sweet taste, because his mental state is healthy, in a very happy state. The water resonates with him. He felt it sweet and happy. "My mother-in-law originally had difficulty of getting up in the

morning. But now she is willing to up". The Quantum Resonance Information Water (the QRI Water) can enlarge people's ideas. All wishes come true ah. 2009-2-12 10:41:34

It is the first time that she uses the Quantum Resonance Information Water (the QRI Water). He said the QRI water was very sticky. But we, the normal people, would not feel sticky. He felt sticky, which shows the resonance frequency had deviated far from normal. It is just as the same as the two cases of lung cancer feedback. They felt it was bitter while drinking up. And we felt tasteless. It is also the deviation from the normal frequency. Continue to monitor.

Content: The magic effect of the Quantum Resonance Information Water (the QRI Water) has also been proved by me. I write it down, hope friends with the similar problems to have a trial! 1, Dry skin: my skin is rough. Whenever the dry seasons came, I had a sense of tension every autumn and winter, just like washing a face with a soap-like discomfort, for which a fall and winter I at least use three bottles of Oil of Olay to deal with. Since I bought the Quantum Resonance Information Water (the QRI Water) early this year, my pockets always filled with spray bottles, I can always spray at my face and hand. After applying one week, I have not used any skin-care products. And I felt my skin very soft and smooth, and even the washing powder allergy phenomenon of both hands did not exist. 2, Blood dryness: During the previous years, once entering the autumn season, I had two legs extremely lateral itching, often scratched bleeding. I once went to the Workers and Peasants Road Hospital Nantong City, for treatment. It was diagnosed as skin scabies, taking

medicines, applying ointment for more than half a month without any improvement. The lower leg had unbearable itches for it was cold and using heat blankets at night, so I just stretched the legs outside of the quilt. Once I got a whim, to cool the legs with the Quantum Resonance Information Water (the QRI Water)! Sure enough, one spraying changed the case greatly. Later I stopped taking the medicine, and sprayed the Quantum Resonance Information Water (the QRI Water) many times a day; I persisted for some time, the case was complete healed. Now my legs are very smooth.

3, Stress urinary incontinence: I am 47 years old now, but a few years ago I have had the disease. Although no physical pain, the mental pain made it difficult to say. Therefore, at night, I put two bottles of the Quantum Resonance Information Water (the QRI Water) on the pillow, two bottles upon the waist, one bottle at the small abdomen, and I also often sprayed on the small abdomen. I insisted on two weeks, and finally I bid farewell to those unbearable days.

4, The menopause syndrome: It is often said that women often appears postmenopausal manias, such as insomnia, irritability, sweating and other symptoms of menopause syndrome, and I just stopped by, but I feel fairly calm, with no significant different from before. I thought it would be benefited from using the Quantum Resonance Information Water (the QRI Water). I am very grateful to the Quantum Resonance Information Water (the QRI Water) for bringing me fortune. Thank you!

Now I put 200ml bag of the Quantum Resonance Information Water (the QRI Water) at my head at night to fall asleep; the water was not reduced, but I found my sleep deeper and longer. Thank you! But after 15 days there was the phenomenon of tachycardia, heart rate very quickly! What is the reason for this? Thank you for your answer!

Re: You gradually reduced other drugs you took, till stopping. After using the Quantum Resonance Information Water (the QRI Water) the disordered frequency was corrected, and the body was restored to health. At this point, and you took other drugs, it would become redundant. If there appeared the phenomenon of the tachycardia and quick heart rate, stop to take other drug, and observe. It will be soon be better.

From the first 3 days the high blood sugar began to decline; on the 3rd day, the blood sugar dropped to 8.4 from 14, and on the 4th day 4.9, now 3. And two patients who suffered the head tinea capitis were cured a week after treatment. But the tinea capitis recurred in half a month. The average dosage of each patient was more than 200ml. so I was very depressed! What is worthy of celebrating is that the patient said she had been treated for many years in many places, but she was never better a day. After using the Quantum Resonance Information Water (the QRI Water), each time it can be recovered for half a month. And now I want the teacher to give guidance for the next step of the program.....!

Re: You met two patients with tinea capitis, " which can be cured after a week of treatment each time", indicating the disordered resonance frequency is corrected, "But in half a month it will relapse", indicating that the corrected resonant frequency was disordered. There is no consolidation; actually just the local resonance frequency has been corrected. But the frequency of the whole body has not been corrected, so both of the two patients have systemic problems, the treatment only reflected in the

local area of tinea capitis. If the body is treated wholly, the disease can be thoroughly cured. In addition, except of applying the Quantum Resonance Information Water (the QRI Water) locally, it is also needed to put some more Quantum Resonance Information Water (the QRI Water) around the body, while drinking, to correct the frequency of the body as a whole. 2009-6-2 8:23:22

But there was coming out another strange problem, I would felt a cold difference of a season each time when the emmenia came. Even in high hot season, I have to wear cotton wool trousers, and drank a lot of ginger brown sugar water every day. After the Spring Festival this year, I began to use the Quantum Resonance Information Water (the QRI Water); usually I put more bottles of 10ml of the QRI Water in my pocket, and placed eight bottles of 200ml on bed. For months, this cold feeling was gradually reduced. This time the emmenia just passed, and I deliberately wore skirts those days, without wearing socks, and I felt no exceptions. I am very happy! Unfortunately, it is so late that I met the Quantum Resonance Information Water (the QRI Water). I was almost suffering a lifetime pain.

Then the cold began to improve, I felt the cold almost every day. I was too tired. Especially in summer, it was not by noon that I was already unable to stand. I would nap first then having lunch. And every year I would receive injection of the " Ginseng Pulse Injection Liquid" of Zhengda Qingchun Bao for 15 days, the product is ginseng extract. Since I used the Quantum Resonance Information Water (the QRI Water), I got little cold. Therefore I am not going to re-infusion this summer. The situation is now normal. 2009-7-24 8:36:49

Under my insistence, she sprayed twice with the Quantum Resonance Information Water (the QRI Water) over the swollen area of her hand with a playful attitude toward it. Re: The Quantum Resonance Information Water (the QRI Water) is used to correct the disorder of the resonant frequency, after the frequency is corrected, you can restore your health. In the process, when the frequency is the same as that of the party, the resonance occurs, you can see the light. Some of the monks who had been well practiced can see the different apertures over the heads of the different people. Actually the process of cultivation of those monks is the process of adjusting their own resonant frequency. So the people, who had been practicing, can see or sense more information than the average person. Even some people can see things of the soul world, that is, the resonant frequency of the soul world can also be received. German psychology master Hellinger's "Family Constellation" is actually using the decomposition of the resonant frequency, so there is no need of the presence of lines; it automatically plays the family events that have occurred on the generations. In the ultra-personal psychology, there are a lot of research and reporting. 2009-7-31 12:21:57

Content: Hello, Quantum Medical doctors! I am a beneficiary of your product. Early July, one friend from Shanghai came to Hulunbuir to give lectures. When she saw me walking with a little lame, she asked how I am going on. I told her I made a small surgery operation on my leg at the end of February. The recovery has not been well, and the synovial knee was very painful while walking. The friend said I gave you a good thing, taking out a small bottle of water. She introduced me the good effect of the Quantum Resonance Information Water (the QRI Water) that she and her family used. And she said, "Used it, your legs will be well!" I am a psychologist, because I read the book of "Water Knows the Answer: The Hidden Messages in Water Crystals ". Therefore, I was convinced on the effect of the Quantum Resonance Information Water (the QRI Water)! Since early July, I tied the bottle of the Quantum Resonance Information Water (the QRI Water) to the affected area of my leg every night. It was about half a month that my leg was much better. Then I made contact with the quantum medicine physician, and ordered the three big bottles and two

vials. Now, my leg has healed. I am very grateful to my friend for offering me such a good product and such good information, and the greater thanks should be to this great invention of the quantum medicine doctors. Later, you heard that there was a local therapy in Guizhou that the surgery in the fingers of both hands can cure rhinitis. Content: I am half a month of a good woman, half a month of a patient. I have suffered from dysmenorrhea for 15 years. The symptom is: 10 days before the menstruation, I started with legs and feet numbness, legs soft, waist sore and soft, breast swelling and sore, and I even could not put on the underwear, fear of cold. I even had loose bowels under air conditioning; and I could not even touch the cold water. My body felt extremely tired with more physically frail, sleepy, depression, irritability, angry; sometimes I was sad to cry without any reason. It was the PMS: on the first day of menstruation, the stomach suffered from spasm of pain, loose stool, and pain with cold sweat. It was about 3 to 4 hours of pain. The menstrual was dark in color with black blood clots. The period of the dysmenorrhea was only one day; it was gone on the next day. The PMS symptoms were all disappeared on the first

day of the dysmenorrhea. Medical Diagnosis: Qi stagnated, blood petechia, kidney yang deficiency; tongue: light and white with scalloped; pulse: I forgot, as if with pulse string. After I got the Quantum Resonance Information Water (the QRI Water), I repeatedly sprayed the QRI Water on my belly, 3 to 4 times on the first day of the dysmenorrheal and put the two large bottles near the stomach. It was found the strong pain was eased 10 minutes later. And I put the bottle of the Quantum Resonance Information Water (the QRI Water) beside the body while sleeping at night. It was about one week or so that I found my sleep quality better than before, and sleep faster and deep. This is the obvious effect after I used the Quantum Resonance Information Water (the QRI Water). However, I now just have used for two weeks. I will keep records of their condition and results. I wish my dysmenorrhea be healed earlier. The sisters who suffered the same fate as me, I welcome you to make our joint efforts to be healthy women! Get rid of the intractable pain.

Re: Recently I discovered that the severe dysmenorrheal who are often associated with serious other issues. These dysmenorrheal who just told me the dysmenorrheal at first, until they found the Quantum Resonance Information Water (the QRI Water) had effect, that is, after they trusted me, they would tell me the shocking issues. There were other serious physical problems. These problems were often caused in their childhood by the major mental or physical trauma, especially the psychological trauma. Most of the people do not say about it at the very beginning. Only after contacting with each other for a few months or chatting online, they would start to say intentionally or unintentionally. In recent 3 years, I learnt the modern psychology from the teachers of the United States, Taiwan, Singapore and other places, many of which were involved in quantum science. We can read the book, involving the Bowers's "Gestalt Therapy", Moreno's "Psychodrama Therapy", and Germany Hellinger's "Family Constellation" and so on, these treatments are to be returned to the original point where the injury occurred in the period of the scene; then change the memorized information, and the actual change is the resonant frequency of the original memory. The body has memory. Although the brain sometimes forgets that part of the trauma, the body has been remembered it all along, which affects the subsequent body, mind, soul status. These above therapies are concerned with quantum science. Now I integrated all of the learned together, including the clinical medicine I learnt before, pharmacology, quantum medicine, with the methods of quantum resonance and the Quantum Resonance Information Water (the QRI Water). Reading from your message, the general condition of your

body is very similar to that of Jing Xin of Jiangsu, Red Apple of Guangdong. The systemic problems of some people have been cured with the Quantum Resonance Information Water (the QRI Water), and some of the people are obviously improved. If you want to solve the general situation of your body, you had put more bottles of the Quantum Resonance Information Water (the QRI Water) near the body and drink. Re: It was a total month by August 31, 2009 today that I used the Quantum Resonance Information Water (the QRI Water), the first time I used the QRI Water was just on the day when the menstruation was coming. The dysmenorrheal of this month came yesterday. The dysmenorrheal this time seems to be relieved than before, but it was still hurt, and this month was much serious than that of the last month. The amount of the menstruation was less originally, it was much less this month. The maximum flow rate was little like the scale so round with the thumb and first finger.

I saw a large blood clot on the toilet. I also saw such a blood clot before using the Quantum Resonance Information Water (the QRI Water), sometimes more. I was full of promise that my dysmenorrhea would be improved with the Quantum Resonance Information Water (the QRI Water). One month passed, the results of this month caused me depressed and anxious. I felt the water had no effect. Is it that I have not saved? The quantum doctor said about the situation of this month, he said the body might be excluded the deposited blood clots, that my illness, after all, has been over a decade, a process is needed. According to his trace, there were many users who had got good effect of the dysmenorrhea. Do not worry! I might have the disease that can not be cured within a month all the immediate. I can only pray once again, expecting the next menstrual status can be improved 2009-8-31 14:57:06

Dragging my left leg, I went over to the refrigerator taking out a piece of ice put on the hurt for a while. I was able to walk then. And later I did not cover it for being busy. I received 10ml of the Quantum Resonance Information Water (the QRI Water) at 13:45 PM, and then I went to the bank, sitting in the bank queue. When bending the knee, there was a little pain. I put the Quantum Resonance Information

Water (the QRI Water) in the knee for 10 minutes, and 10 minutes later, the pain was gone. Then the bottle of the QRI Water was not put there! If press the knee, there is pain! Back to the dormitory, I made a test on round-flavored beverage, and found that the Quantum Resonance Information Water (the QRI Water) really made the taste faded. But I did not know if it was psychology at work? I asked the quantum doctor on the QQ, he taught me to spray a little to the knees up! I tried to find other people! But I still could not find someone else to try! By 5:30 pm I started to exercise, there was some pain while running. I sprayed a little up at about 6 o'clock. After 10 minutes there was still some pain. However, when more than 7, I did not have any pain. If press on the knee, there is still a little sore; if gently press, the knees will not hurt. I do not know whether it is the work of the Quantum Resonance Information Water (the QRI Water)?

Re: Generally, the new traumatic pain is sprayed directly, the effect is good. If we just put up a 10-ml vial, the analgesic effect will be not so well. The bottle of 200 ml is enough then. If it was an old pain, such as low back pain, neck pain, It needs to put the bottle of 200 ml near the site of pain. If you want to achieve good effect, spray some more, and the result will be much better. So the flavor test, the original beverage bottles can not be close to the Quantum Resonance Information Water (the QRI Water). When the beverage was poured into the cup, all the cups should be not near the bottle of the Quantum Resonance Information Water (the QRI Water), except one cup, or otherwise the comparison is not out of the back. 2009-8-20 21:23:28

Re: The meridian of the human body is scattered over inside and outside of the body. The fact of "the sore leg, pressed with hand, and then hiccup", indicates the leg sore is caused by the meridian barrier, pressing with the hand, the meridian was passing through, the tension of the stomach reduces with the hiccups. Put "the Quantum Resonance Information Water (the QRI Water) there, the case is the same", which shows that the Quantum Resonance Information Water (the QRI Water) can also play the role of making the meridian pass, and also cause hiccups. Content: With a grateful heart, and share the experience of using the Quantum Resonance Information Water (the QRI Water) with all. I participated in Meizhou Vipassana Buddha Cultural Centre, when a Sister saw the injury on my forehead and recommended me to use the Quantum Resonance Information Water (the QRI Water), because of my understanding of the "Water knows the Answer: The Hidden Messages in Water Crystals", so it is easy for me accept the resonance principle, I immediately bought a bottle. And I bought a few bottles later in succession.

★ From April to now, I sprayed the QRI Water and rolled on scars, the scar on my forehead (3 cm long, then sew 4-pin) is now obvious soft pale, I believe that the continuous use of the Quantum Resonance Information Water (the QRI Water), these injuries will continue to recover. I had always believed Ha ha!

★ One of my friends had athlete's foot, I recommend her to spray once, her itching disappeared. But the athlete's foot committed in a few days. I let her continuous spray for a few days, after then her athlete's foot really well without reoccur for more than three months. She said she was amazing! She used Miconazole Nitrate before, but no use.

★ Another thing: There was too much pressure for some time I was in very bad state. My emotion was instable and negative. I felt breath heavily. I tried to make adjustment, but felt so tired. I had no reason to fatigue. One night I could not help but drink a glass cap of the Quantum Resonance Information Water (the QRI Water). When I got up the next day, the first thing I want to do was to smile when opened my eyes. I had a good sleep. It was so comfortable ah! I never really had this feeling! Everything I saw seemed so bright. The laugh was from the bottom of my heart. The life is so wonderful! Yes, really good! Ha ha.

★ More over, my face was very dry for the dry weather and excessive long-term thoughtfulness, but the large pores were also caused by the drying. I used many skincare products, then the strong moisturizing capabilities are of no use, it is a trouble; I bought the Quantum Resonance Information Water (the QRI Water) and sprayed on my harsh face a few days, I sprayed it as the softening water use. The result was good. Oh, the pores were significantly narrowed. The care products were actually not cheap. They are also expensive, a bottle for hundreds. I held that the Quantum Resonance Information Water (the QRI Water) was well slightly. I should strive to make money Ha!

★ There are I think, it is very important to have an open mind. I recommend the QRI Water to some of my friends. But he does not believe it. The doubts rose, he thought how it is possible? that I like to laugh! Do not believe it, its ok, who loss ah? Is not you? Because there are already so many people who used the Quantum Resonance Information Water (the QRI Water). I am also using. And all benefit from the Quantum Resonance Information Water (the QRI Water) a lot. Just jump to conclusions without a try. They reject new things into their own lives. The result is that others have had benefited a lot, but he is still in the situ turning ah, no need Oh, to try, there will be the harvest! My mother suffered from Parkinson's for many years, and now I want to buy 10 groups of the Quantum Resonance Information Water (the QRI Water) for her to use. I also plans to bottle water in the plastic bag sealed with packing, so that she can attach the water to her body more convenient. I will share my experience with all after using for some times! Content: Q: Is this a panacea, but can not be trusted out? I start from the correction of frequency, as long as the frequency can be corrected to the normal, you can cure the disease, regardless of what the original disease is, at what stage, what part! As long as the frequency came back to the normal, the disease can be cured. If the frequency is not correct back, there is no cure. There is a famous adage in the west: "there are many roads leading to Rome". If you found a lot of people together to Rome, will you find it very strange? How can we all get to Rome? Is everything this way? Actually, our goal is to Rome, regardless of where the original starting point is. So we can all get to Rome. Again, I cure a wide variety of diseases, Many people feel that weird. Actually my goal is to correct to normal frequency, regardless of where the original starting point is. Such a comparison, we also understand why the Quantum Resonance Information Water (the QRI Water) can cure many diseases.

I was told it was a scar caused by air-logged hair follicle, and told me to "temporarily leave it alone." Then I was listening to, having nothing to say. In my impression, her Dad was very special; the products he made were very special as well. Oh, I asked her Dad: "What are you engaged in recently?" He said: "the Quantum Resonance Information Water"! I did not hear it clearly, and asked what the water is? He asked me to make a shape of "O" with fingers with force, I did so as his advise; He separated my fingers several times with his fingers. Then he gave me a small bottle, I took it in another hand. He asked me to make the shape of "O" again with my fingers; he then tried to separate the "O" ring with his fingers. I definitely felt my strength increased. It was not easy for him to separate the fingers. As a hurry, I could not chat much with them. But I thought that the water is

amazing! My mother-in-law was going back to Hubei tomorrow; I had the feeling that the Quantum Resonance Information Water (the QRI Water) might help my mother-in-law to treat her disease. Thus, I turned on the web site, and searched the data of the Quantum Resonance Information Water (the QRI Water). I read some of the information. I made an appointment with Mr. Zhong. I went to his company in Science Park to learn more with mother-in-law. I bought two bottles of beverage with the same taste to drink according to his request. He poured the beverage into two paper cups, and turned the vial of the QRI Water around one of the paper cups several times. Then we were asked to drink the two cups of the drink again making comparison of the taste. I felt one of the cups with clear sense of taste, which was not the same as that of the other cup. Additionally, we were asked to practice the model with the arm, so we were surprised. My car has been using "Yougong" of his company; and I also liked to use the baby sling of his company for my child two years ago with good results. I have read the book "Water Knows the Answer, The Hidden Messages in Water Crystals " long ago as well. Moreover, I recently experienced the magic of prayer; I know there are really numbers of the magic things we can not understand in this world. Therefore I bought two big bottles of the Quantum Resonance Information Water (the QRI Water). I wish to improve my darling's sleep and the health of my mother-in-law. My mother-in-law and I also immediately placed two vials on our bodies separately. I went to meet my child Derek today; when he saw me, and tangled me to carry him in the arm. He did not want to get down. I quietly put a bottle in the pocket of his pants; over a while, he found, that there was a strange thing in his pocket, and took it out, throwing on the ground. I said: "My Darling, this will make your body better." He was obedient to put it back in his trouser pocket. I found a lot of blood in his hands and did not know how the case was. Content: Sept. 3 09:09: My husband has got bronchitis recently, kept coughing for a long time without stop. He was told about the Quantum Resonance Information Water (the QRI Water) last night. He also read the book of "Water knows the answer, The Hidden Messages in Water Crystals " , He knows that Mr. Zhong's products are also good business. Then he opened the website to understand. Plus tired of disease, he said: "Whether there is use or no. Since we bought it, first I should believe it. He used it. "He drank 10 ml, sprayed twice; put a large bottle of the Quantum Resonance Information Water (the QRI Water) on the throat. After washing face, he applied some of the QRI Water on the face. He was coughing at night. I repeatedly asked: "Why it is not working?" He said: "Do not worry, It has a process." He has been holding the bottle of the QRI Water on the throat almost in sleep. This morning, he said: "I am much better, but I take medicine these days, I do not know the role of drugs, or the role of water?"

I sewn the vials into Derek's pants, I accompanied him to sleep. After he slept, I put the two large bottles on his head. In the middle of the night, he woke for urinary expansion. As usual, he was angry, crying for a while, I carried him to walk for a while, hubhub to fall asleep. By the way, Derek came back from kindergarten yesterday, and I found his runny nose, also gave him to drink 10 ml. I did not see his running at night. As in the preceding period he had bronchitis, he coughed in the morning recently. But this morning, he did not cough.

My mother-in-law is always coughing. For it is not very serious, she has not taken medicine. Today, I said: "The baby has not coughed this morning. My husband is also more comfortable." You had better to drink some of the Quantum Resonance Information Water (the QRI Water), and put the large bottle of the QRI Water on the throat! " I begrudge drinking, Oh, I spray it." I did not feel tired wandering till 16:00 in the afternoon and then went to Shopping Market till 19:00, and I bought two large packets of goods. My baby just had a nap about half an hour only in my arms. If I usually do not take a nap, I would be already tired and want to go back home around 16:00 pm. In addition to the Quantum Resonance Information Water (the QRI Water) in the bag, I could not find any other reason (It is the third day, I just put and rubbed the face twice, did not eat). My boy went to sleep at 23:00, I told him the story, helped him scraping his back. An hour later, we all slept. I put the Quantum Resonance Information Water (the QRI Water) on his head, watched him sleeping so deep. I was very happy. Usually he always turned repeatedly. I put one vial of the QRI Water in his trouser pocket, stitched with the needle. When he came home, I found two vials in his trouser pocket. The other one was put by himself. Thanks to the Lord, he did not indiscriminately spray out. After he came home, I hastened to seal the vials with the transparent plastic tape for he usually would play spraying the vial of water. My husband made two-day training; he still had some cough, which harmed his enthusiasm to use the QRI Water. Oh, I would put it on body if I have time. Re: A general trauma, the traditional method is to first apply a cold compress, hot compress after. The cold compresses can promote the vasoconstriction of the trauma to reduce the continuous swelling, but the cold compress can not eliminate swelling. Content: In the past month, several neighbors in the decoration, I lived in the very large noisy environment every day. It was very hard to accept. Yesterday afternoon my headache was almost blown, after dinner, my headache was severe, the blood pressure was 150 upper (I usually was low, less than 110); I began to yawn all the day. My belly was up with sweating. I always wanted to relieve but did not. It was really hard. It was about 10 o'clock that my belly was swelling up more and more. I would like to use the Quantum Resonance Information Water (the QRI Water) to help digest, and then I drank about 20ml. It did not take long that severe vomiting occurred; All eaten was spit out together with a very strong sour, and finally it was better. I finished cleaning up, bathed, and slept till 7:00 in the morning. I felt like nothing had happened yesterday. The Quantum Resonance Information Water (the QRI Water) is really well! I will pay attention to other uses, so that more people benefit.

Re: There are feedbacks of the similar examples: The drunk who slept until noon of the next day was still suffering a headache, vomiting, but could not out. Then he thought of the Quantum Resonance Information Water (the QRI Water), drank 20 ml of the QRI Water, It was only in few seconds, he spit it out. so his headaches disappeared. Vomiting is a self-protection mechanisms of the body. However, when the body resonance frequency is disordered, thus it reduced self- protection mechanism; the vomiting did not spit it out. When the disordered resonant frequency was corrected with the Quantum Resonance Information Water (the QRI Water), the body's protective mechanism resumed its role, then vomited. Spit out the negative things from the body. 2009-9-21 16:01:53

Content: Today, I ate many grapes that were not washed clean with white thin powder (probably the residual pesticides); my stomach was very painful after eating. I thought of the Quantum Resonance Information Water (the QRI Water) that could eliminate the pain, so I quickly took two big bottles of the Quantum Resonance Information Water (the QRI Water) and put on the abdomen. Usually I felt very comfortable to put the Quantum Resonance Information Water (the QRI Water) on the body including on the abdomen. But what's the matter today? I felt uncomfortable when I put the bottle of the Quantum Resonance Information Water (the QRI Water) on my stomach, feeling too cold, even if I put the QRI Water 2 cm away from the stomach, I still felt the Quantum Resonance Information Water (the QRI Water) very cool. It could not be put near the abdomen; the pain would be heavier if the Quantum Resonance Information Water (the QRI Water) was put near the abdominal. So painful, I quickly went to the toilet, and immediately made stool of the water-like out. After stool, the pain was released. Then I put the Quantum Resonance Information Water (the QRI Water) again close to the abdomen, there was still cool feeling and the pain was heavier; then I went to the toilet again. I felt all had been pulled over in the toilet, so I put the Quantum Resonance Information Water (the QRI Water) near the abdomen, I did not think that a lot of water stool was discharged again. After two times of water stool, I put the bottle of the Quantum Resonance Information Water (the QRI Water) near the abdomen again; It was strange that I felt no longer cool, and the bottle of the Quantum Resonance Information Water (the QRI Water) could be put close to the abdomen. I found that the Quantum Resonance Information Water (the QRI Water) is so wise that It does not eliminate the pain or diarrhea blindly; When I ate the unclean thing, it was not over just to remove pain or diarrhea, but it promoted to discharge all toxic things out rapidly.

Re: It is me. you said. Huh, huh! Let me simply put the following under the present sense of it. I arrived at the quantum doctors' late last night, because the doctor herself was busy, plus the rain, I heard the friend saying that the Quantum Resonance Information Water (the QRI Water) is amazing! I just need the water. Waiting the doctor to finish his job, I wanted to buy the magic water even it was too later. 1) Before going there, I was very tired of physical examinations these days, so I was not in very good state. 2) I felt in spirits and excited shortly after I sit down in the doctor office where there were the Quantum Resonance Information Water (the QRI Water) perhaps, I really felt the spirit without a trance at entering the office. 3) When you gave me a cap of the QRI Water to drink, I felt to drink the mineral water at entering the mouth; but when I swallowed the water down, I felt it immediately rough in the mouth, tongue and throat, it was just like the mild electric shock. Then there appeared a feeling seemingly like drinking before drunk, which was tingled and limped. Because I have a habit to drink wine in autumn and winter every year. But I

am not greedy for wine, about 10 grams each time. But the amount of drink is up to the exciting moment each time. By the time before the drunk I would stopped with feeling on sense. 4) When I took back the Quantum Resonance Information Water (the QRI Water) back home, because I have two cysts on the thigh, and I acted according to your (doctor) advise, I sprayed the Quantum Resonance Information Water (the QRI Water) on the two cysts first. It was already 24 hours tonight that I used the Quantum Resonance Information Water (the QRI Water); then I deliberately took a look at the cyst thigh. The cyst near the bottle of the Quantum Resonance Information Water (the QRI Water) was really smaller than before. The upper one had no change without contacting the bottle of the Quantum Resonance Information Water (the QRI Water). it is also a contrast. 5) Another bag of the Quantum Resonance Information Water (the QRI Water) was tied in the upper abdomen. I have a cyst in the left kidney, so I expect a miracle occur! I believe it! Now I sincerely say thanks to Quantum doctors: Thank you very much! Bring good fortune to everyone! 2009-9-29 23:01:14

Content: Today, with the particular emotion, I continued to record the situation of the treatment of my dysmenorrhea. I have applied the Quantum Resonance Information Water (the QRI Water) for more than three months from 20, August to 25, November. What I want to tell you is that the most obvious effect, my abdomen pain was gone on the first day of dysmenorrhea. The painful dysmenorrhea had tortured me for 15 years, when it came, I was suffered great pain, so painful that my

face turned pale, I could not live a normal life and work with the dysmenorrhea. As if I had fallen in serious illness. The pain was so painful just like a woman to have a child. I feel very happy now. The results so far: the first day of dysmenorrhea did not cause my abdomen pain. The PMS: breast swelling and irritability and others have been eased. The symptoms, such as the cold, or the cold water untouchable, are all improved in progress, but they are not completely well. Before coming of the dysmenorrhea, the legs are still of numbness, and the body feel tired, and the amount of the menstruation is still less. but I already feel much better than before with a lot of great progress. At least my work is not affected while it the menstruation comes. I can handle the daily work now. I am satisfied! These benefits have helped me to insist on using the Quantum Resonance Information Water (the QRI Water) without move!

Additionally, My eye sight is of 300 degrees, but I found it has turned to 275 degrees when I went to buy glasses on National Day. and I have not applied the Quantum Resonance Information Water (the QRI Water) specially for my eyes yet. I just painted some of the QRI Water on the face the privious two months. It was just for two months that I applied the water. And It resulted that the eyeglasses are found less degrees. I do not know whether it is the contribution of the Quantum Resonance Information Water (the QRI Water).

Content: Today, I wrote this message here with gratitude. I would like to thank Mr. Zhongzheng! I used to be a patient with renal angiomyolipoma. I was fortunate enough to meet with Mr. Zhongzheng in the critical moment. It is you and your water that helped me passing the hard time before and after surgery, helped me to build the confidence to defeat the disease! You gave me a second life. In September, 2009, I was found to have renal angiomyolipoma after the medical examination. It was as large as an egg. The position of the renal angiomyolipoma was more dangerous. The surgery must be done at once. I bought the Quantum Resonance Information Water (the QRI Water) from Mr. Zhongzheng a few days ago before the surgery; Mr. Zhongzheng patiently told me to keep emotional stability, and encouraged me that as long as I had a positive mentality with the treatment, the case would be ok. He told me how to use the Quantum Resonance Information Water (the QRI Water), the benefits and effects, and yet cited many examples of success. He is an enthusiastic person and drove me back home by himself later. He often cared me about the progress of my disease in every possible way through telephone, at the same time he enlightened me. After buying the Quantum Resonance Information Water (the QRI Water), I brought the water with me and drank in time according to Mr. Zhongzheng's

advise. Because of time, I was admitted to the hospital a few days later, and received successful surgery. Upon I went out of the operating room after surgery, my family members put the Quantum Resonance Information Water (the QRI Water) at my body and on the external incision followin Mr. Zhongzheng's advice. Now I want to say the miracle happened to me after I used the Quantum Resonance Information Water (the QRI Water): My surgery was a major surgery with full anesthesia, partial nephrectomy. After surgery my throat was hurt, because of inserting the breathing tube into my throat, which was scratched, causing me coughing every day. The coughing was the most terrible hurt, because the wound was suffered from the tearing-like cough. The pain could be imagined. Whenever I had to cough, the most intense and fear was the fierce pain. By then the first thing I consider is to quickly grasp the Quantum Resonance Information Water (the QRI Water) and spray the water onto my throat. The first miracle happened, the QRI Water was much more effective than the cough medicine, One time of spray stopped the cough immediately. A week after the operation, I did not know how to get along with if I had not got the Quantum Resonance Information Water (the QRI Water). During this period I drank the Quantum Resonance Information Water (the QRI Water) according to the request of Mr. Zhongzheng. The second miracle happened, it was reasonable that the patient could not fall into sleep after surgery for few days, but I had a normal sleep at the night of the surgery until today. The third miracle happened, third days after the surgery, the pain of the 25 cm long wound at my waist was actually very light, I felt only occasionally hurt. A fourth Miracle happened, I should not eat 2-3 days before the surgery, life depended on nutrition drip, only after the meridians through, the patient could eat. But I ate the next day early in the morning to restore the stool. Supposedly it would a few days later to take food because of the stomach surgery stopping the gastrointestinal peristalsis. And most people would have constipation after resuming eating, but I did not. At that time the doctors were surprisedThe fifth miracle happened: I could get out of the bed on the 4th day after surgery. (Before operation I has bought diapers, but not used). The six miracle happened: It was the time for review one month after surgery that the doctor was surprised to tell me that my kidneys were not like that after the surgery, because the shape and size were exactly the same as another normal kidney. The location was well grown as well. There was no Little signs of kidney surgery. if there was no 25 cm surgical incision mark on the waist, even the doctor who give me B-type color ultrasonic inspection did not believe that I had received surgery, for the recovery was unbelievable. She

said there was a 27-year-old boy had received the surgery, which was less than that of mine, two weeks after the operation he could not get off the bed. While shooting, she was surprised and very seriously asked me several times. "you are partial of the nephrectomy Well?" I have to once again thank Mr. Zhongzheng! The life-saving grace I never forget! Thank Mr. Zhongzheng for the help of the Quantum Resonance Information Water (the QRI Water), which helped me to recover so well and so fast!

I took the water in hands during the daytime, half an hour later the pain started up to my arm, which was troubled until the evening. I put the bottle of the Quantum Resonance Information Water (the QRI Water) on the pillow while sleeping at night. I had a sound sleep all night and the pain in the arm does not hurt as well. I especially thank Mr. Zhongzheng.

Re: You got pain on the upper arm, the Quantum Resonance Information Water (the QRI Water) should be directly put to the painful area of the upper arm, rather than took in the hands first. If the Quantum Resonance Information Water (the QRI Water) is not put directly on the painful area, and on other places first, then other parts of the meridian will be more calming, such as the Yangtze River if the water of the upper reach flows well, the flux will be much greater. If the downstream blockage without first opened up, then, the flux will feel greater in the place of the downstream, and feel more blocking. That is, you will feel more pain. Therefore, we should put the Quantum Resonance Information Water (the QRI Water) on the original site of pain

first. 2009-12-3 11:59:03

Content: Nobel sprint, let's Go! - "Love Transfer --- Quantum Medicine, Quantum Resonance Information Water and Exploration on the Treatment of Body, Mind and Soul Diseases" Book review: After reading this book, I have mixed feelings, these inventions are bound to: ★ Inject a powerful energy into the education reform, health care reform, which will be seriously shocked in China! ★If Premier Wen Jiabao knew the product of Yougong at Copenhagen meeting on Dec.18, 2009, which would arose the upsurge of big waves in the" Emission Reduction" of the

world today! ★ The invention will make great contributions to building a socialist harmonious society in China! ★ Add a strong driving force to promote the traditional Chinese culture and heritage in the world! ★ If you are in Japan, the application might already have to declare success, but you have the Chinese people's patriotism, you are the pride of Chinese people! In recent years I have integrated the study, investigation, studying the situation, after reading to appreciate the following points of view, loyalty is for you to consider as follows:

First: Wal-Mart, Alibaba, Teng Xun QQ, Baidu, etc.. These non-manufacturing enterprises in the new marketing world, Why win so happy? These companies were also emerging in the business at the beginning, the edge, out of nowhere, and troubled, unknown small business; now they have become famous large companies of the world to lead China. There are secrets in their successes! That is good use of e-commerce! The government, in addition, implements its routine administration, mainly provides the proactive service. So how can the Government offer service for us? In recent years, someone asked Bill-Gates, which one do you think the industry will be the next richest man in the world: Bill-Gates predicted that the world's richest in the future must come from biological engineering; When Bill-Gates prepared to withdraw from the industry, Mr. Gates was asked: Do you think Where will produce the world's richest in the future? Bill-Gates gave a very strong response: "In Asia, the great potential to produce is in China." Back in the last century, the world richest man Bill-Gates said: "either the 21st century e-commerce or no business to Service." In the end what is e-commerce? In the large market economy society, how do we do in the end?

Second: the world's center of gravity began to shift from the West to the East, especially to the country with above five thousand years of civilization---China. View from the path of historical development, it should be China! The Chinese nation has the root, the soul, the spirit of exploiting the boundary, but the bar should be smoothly connected. While the whole country is carrying forward the heritage of our history, we should develop the good spirit of innovation, the spirit of reform! In my understanding, at present there are two units that their employees possess more cars in the mainland of China: one is school and the other is hospital. In the present situation of China's economy is not wealthy, why are these two units so good in economy? Ok, it is reform! However, it is universally recognized that these two units are the most failure systems in reform. Is there any relation between these two systems necessarily? If so, then how should the reform process? Summary:

The success of education reform must be based on the basis of the success of health care reform. Material is the foundation, the spirit is the superstructure! As for the Enterprises, the enterprises of the first class of pay their attention to education, the second-class pay their attention to the talents, and the third-class pay their attention to the products. The enterprises are so, how is the country? Example: the English teacher explains the word of "dinner" with the errors that have brought the serious harm to the body, especially for young people in China! The success of health care reform has to start with the health education.

Third: two thousand years ago, "Huang Di Nei Jing" proposed on treatment of disease "the superior treatment is to act before illness; the middle treatment is to prevent the diseases; the inferior treatment is to heal the diseases"; The ancients also said: "the superior treatment is to administer the country; the middle treatment is to cure the people; the inferior treatment is to heal the diseases." The tiptop level of the medicine is to administer the country, the middle of the medicine is to reconcile the people, the most inferior of medicine is to cure diseases. What is of the country, it must have the people of what its like; the kind of the people must have the kind of diseases; If the country is well administered, there is nobody to be cured naturally; If the people are healthy, there will be no patient to be cured; If the people are well treated, there will be no disease to be cured naturally. Wonderful! The real reasons of unhealthy Human: 1, psychological reasons; 2, environmental causes; 3, wrong eating habits and unhealthy habits. The health education, the concept of change are especially important! ! (Which rely on: the transmission of information.)

Fourth: The greatest ability of a person is not beyond making the most complicated things simplified. It is, of course, also regarded as a kind of ability to make the simple things complicated. It is time when to use, and under what circumstances to use. "To simplify, to treat the complicated things with Simple prosperity system" --- that will be the mainstream thinking of today's society to overcome the fickleness impulsiveness. The product of Shenzhen Riyan Science and Technology Co., Ltd. will lead the mainstream. The proposal on the e-commerce marketing specialization of the Quantum Resonance Information Water (the QRI Water): The objective is: to quickly and effectively sprint Nobel Prize, do not fight a battle unprepared! The method: The first step: in the initial stage of preparation should combine the scientific and technical expertise and the enterprise scientific management together. 1, The enterprise standard should be rapidly made (in fact this becomes the industry norm, in the future it will become the national standard);

2, The company should strengthen the construction of the professional public relations team for the marketing success and escorting the sprinting for the Nobel Prize; 3, Organize the professional marketing team and introduce and promote to the professionals (especially professors, clinics, doctors, etc.). The Second Step: Find the media to conduct the field interviews with customers who have already used the product, to make CD-ROM, supporting information, etc., to be sent to the marketing staffs, the professionals and clients first (focus on e-commerce tools for stream flow → information → Logistics → the scientific management of capital flow). The Third Step: the transition period of preparation (about six months) to organize and convene an international forum, a joint forum of experts to expand the international influence. The Fourth Step: The mature stage of preparation, by then, the market has been built up (ie: there are economic benefits and social benefits, the government services naturally for the good taxpayers). The activities would contribute to each other, and the Nobel Prize would be available. The Fifth Step: Continue to develop new products, developing new technologies, enhance management of the company, enrich the contents of the enterprise! Examples: 1, Yao Ming and His "Team Yao"; ("Yao Ming" How to win honor for the country); 2, Ma Yun and his 19 brothers at the early stage; (B to B web site is the first in the world, the ultimate goal of the Taobao Net is to exceed Wal-Mart). Summary: the human beings become great because of their dreams! Belief is the start of success. Persistence is the end of success. The success is given to those who are prepared. The success is given to people who are working hard. ---Yang Hong on December 20, 2009

Content: I had left the message on Jan. 5. 2009: "In a winter 20 years ago, I took a long-distance bus from Wenzhou to Hangzhou. The long-distance bus was not air-conditioned before. I sat by the window the whole night, and the outside of my left arm was frostbitten. From then on the pain of the outside of my left arm was unbearable every winter. I went and saw doctors many times, and received injections many times, but in vain. When it was severe, I could not fall into sleep at night. I relay on electric blanket at night and the warm paste during the daytime. After I

used the Quantum Resonance Information Water (the QRI Water) this winter, even it was at minus 6-7 degrees, I did not feel uncomfortable without using the warm paste. I drank about 10ml of the Quantum Resonance Information Water (the QRI Water) everyday, and placed the Quantum Resonance Information Water (the QRI Water) at the outside of the left arm in the evening. Miraculous!!! Thank you! " Nantong is located in the coastal area surrounded with water on three sides. When entering the winter, the cold wind was very fierce; it was damp cold; there were many cases of rheumatisms. A few days ago, the temperature was 6 degrees below zero. I received a call from the Association of the Private Enterprises of Industry and Commerce Bureau of the city at about 16 last Friday, noticing me to take the table of the experience. I traveled 25 km trip by cable car, my feet were frozen numb, but my left arm had withstood the test and completely not felt the frostbite. Until today, I had not used the electric blanket and warm paste without the symptoms of discomfort, the same as the right arm. Since I used the Quantum Resonance Information Water (the QRI Water) and I have always insisted on placing the Quantum Resonance Information Water (the QRI Water) around my body. Now I put three bags of the Quantum Resonance Information Water (the QRI Water) flat on the pillow at night and bring them around during the daytime. The Quantum Resonance Information Water (the QRI Water) has not only cured my left arm, also cured my unexplained thrombocytopenia of 25 years. The recent test results showed 95 of the data. But it had been at 60 up and down previously. The lowest was at 44. The doctors said, it was dangerous that the visceral bleeding might be happen at any time. Thanks for the Quantum Resonance Information Water (the QRI Water), that gave me health and happiness! This morning my husband suddenly got a hurt on his back, it was near the time to go to work, but he could not move on the couch. I helped him tie one bag of the Quantum Resonance Information Water (the QRI Water) to the lesion of his back. It perhaps was only 15 minutes. He went down the stairs, and went to work by motorcycle. The effect can not say that! Amazing!

I, a cool person, did not even warm up (also be late) actually entered the state, which was impossible in the past. I told many people about the case after I came back. They were also skeptical. Recently I attended the classes of the other two teachers in succession, but I did not have the feeling of the Family Constellations. I attributed it to the specialty of the Family Constellations, or Mr. Zheng Lifeng's lower ability. Now it seems that your Quantum Resonance Information Water (the QRI Water) played a role in the field! You have got a new understanding on your product. Content: I am the beneficiary of the Quantum Resonance Information Water (the QRI Water), I suffered from the diabetes for more than 7 years. I would spend thousands of RMB yuan to get the injection of the insulin each year. My life was miserable. I heard by chance of the magical effect of a "resonance information water". I told my son on the QRI Water, but I told him not to buy (because I do not believe it). And later, my son bought me a bottle of the Quantum Resonance Information Water (the QRI Water) filial piety. The result was that I did not receive the injection of the insulin that month, but the plus sign also dropped down. Now my body is almost normal. I am very grateful to the Quantum Resonance Information Water (the QRI Water) for letting me regain my health. Why don't we promote this so good thing with great efforts, so that more people benefit from it? The Country should support ah!

Content: I am a staff of Nantong office of our company. I have often encountered the purchase of the Quantum Resonance Information Water (the QRI Water) online of Taobao net. I found in practice that, if we want to achieve the desirable effect, we should carry the Quantum Resonance Information Water (the QRI Water) with us, whether or not it needs to spray or drink! The Pocket, backpack and so can help you to carry it with you as near as possible. The time of placing is the longer the better. The bags (or bottles) of the Quantum Resonance Information Water (the QRI Water) should be placed where "there is necessary". But often there are some places inconvenient to fixed the QRI Water. So I thought of a good and convenient way: the QRI water bag has holes (a total of 10 holes) that can be fixed to the outside of the underwear corresponding to the lesion with pins; As for the head and face, the QRI water bag can be fixed in the scarf, scarves, hats and so on; the QRI water bag can be directly placed on the pillow at night. Covering with a towel over the pillow, the pillow will become the QRI water pillow. Waking up in the morning you will find an unprecedented refreshing, memory greatly enhanced. We may as well try Oh! Now I want to feedback the treatment effect of the Quantum Resonance Information Water (the QRI Water) on the three cancer patients: A gynecologic cancer had the third recurrence after surgery. Because she could not afford another surgery, and the conservative treatment was ineffective, the tumor grew rapidly resulting in oppression of the intestines; it was hard to stool; the patient was in great pain, unbearable, took poison to commit suicide. Though the hospital saved her life, but she just like the unconscious patient, the hospital informed her family members to get she back home

for preparing death. Her son had cured his rhinitis and insomnia with the Quantum Resonance Information Water (the QRI Water), he did not want to give up his young mother, and decided to finally try to use the information of water. So he once bought 10 bottles of the Quantum Resonance Information Water (the QRI Water). By then there were only bottles of the QRI Water, the water bags were still under production. I told him to fill the Quantum Resonance Information Water (the QRI Water) into the oxygen bag, blood bags, and put the bags under her body forming a water bed. Soon, I received the empty water bags; I told him that I was preparing to send him immediately. He told me: "Do not bother!" The oxygen bags were good. He told me his mother's situation was good. His words were with the expression of "Cheers, smiling." I'm happy for him! The second is that the "cancer of the liver is the king of the cancer". The patient's son is the boss, he bought a magnetic bed for more than ten thousand of RMB Yuan, but her pain did not resolve the problem. Three days after receiving the Quantum Resonance Information Water (the QRI Water), he praised me on the Taobao net, he wrote: "The analgesic effects are very obvious, other continue to observe." I am very proud! Another was the pancreatic cancer patient. His relatives were informed of the Quantum Resonance Information Water (the QRI Water). The first time he bought the Quantum Resonance Information Water (the QRI Water) with the Zhifubao of his relative. And later, the second time, He bought the Quantum Resonance Information Water (the QRI Water) with direct transfer. Although we had not talked about, we could see from the number of the purchase increased more and more. The treatment effect was certainly beyond doubt. Finally, I hope more exchanges here. Sum up some better ways, to make a more accurate guide for the people who need help, so that more people could benefit from the Quantum Resonance Information Water (the QRI Water)!

Re: Would the bag be oppressed under the head and below? Would the QRI Water flow out? What kind of bags you used can you tell me? If it is not the same as that of Doctor Zhongzheng's bag, where do you buy it? Please let me know. Thank you, Xuwu Piaomiao 2010-1-11 15:41:20

I comforted him that the physical check might also go wrong. It can not be the final word. We had to go to the different hospitals, check with different instruments, make two or more checks at least and then get a conclusion. Content: My husband's brother said the stock market crash last night when I returned back home. I thought in mind that my stock would not drop a lot, right? I did not have the bad feeling, because before I went to Riyan Company the second time to get the Quantum Resonance Information Water (the QRI Water) yesterday, I looked at my stock that seemed to be strong! After reading the stock this morning, my stock did not drop together with the broader market slump, the average fall was less than 0.2 point. but I was full of warehouses yesterday morning. Okay. I got the Quantum Resonance Information Water (the QRI Water) yesterday afternoon and sent it to my son who was studying on the second grade of the senior high school. I would like the Quantum Resonance Information Water (the QRI Water) can help him and let him sprint to the 50th position of the average marks at his class at the end of

the semester. Last time, his scores ranked at 71 in his class. in particular, recently he had also summed up his experience in study. He wanted to grasp anything that can enhance learning efficiency. I wish everything of the child going as his will!

Let my child use the Quantum Resonance Information Water (the QRI Water), in addition, I read some visitors to share the information on their Quantum Resonance Information Water (the QRI Water) to help their children in study. there was an important factor - I got some Quantum Resonance Information Water (the QRI Water) from Mr. Zhongzheng on the 7th of this month. My mother-in-law, husband and my mother and myself all have our own proper share of the Quantum Resonance Information Water (the QRI Water). We are using the Quantum Resonance Information Water (the QRI Water) in different ways. A week later, each of us had benefited from the Quantum Resonance Information Water (the QRI Water) finally. Yesterday my husband told me that his mother also had a good response. I was very pleased! First of all, I had to thank Mr. Zhongzheng for his Quantum Resonance Information Water (the QRI Water)! My mother-in-law had been suffering from the hypertension for many years. Her blood sugar was also a little bit higher. A few years ago, she had got the glaucoma, and did not receive timely and effective treatment, resulting one eye blind. Since then my mother-in-law would feel everything dazzling all the day, heavy or light drifting off. After my father-in-law died, she had fewer opportunities to go out of the house. Recently, my mother-in-law said to my husband that she might go, and hurry to arrange everything for the children. I was very anxious for our marriage was not long. I felt that I did not have time to respect my parents-in-law. Although my husband has done all to help his mother in treatment. He visited all the Western and Chinese experts both inside and outside of the hospitals for his mother's treatment. My husband felt that life and death are common. But I felt that it seemed not the time for his mother to leave, for she looked good. I thought that she just could not say clearly where was uncomfortable. She just felt uncomfortable! By then God just took care of me again (I always say that I am God's darling, thank God for love!). I knew of Mr. Kuwei Zhongzheng in the Family Constellations of Ms. Huang and was aware of the Quantum Resonance Information Water (the QRI Water). After taking back the Quantum Resonance Information Water (the QRI Water), I tied the bag of the Quantum Resonance Information Water (the QRI Water) at her chest, and then drank 10ml of the Quantum Resonance Information Water (the QRI Water) once every night. Although his mother and father both did not believe the effect of the Quantum Resonance Information Water (the QRI Water). Could that water be

so magical in effect? My viewpoint: Since it is good for other people to use, and many people have enjoyed the benefit of the Quantum Resonance Information Water (the QRI Water) for more than ten years, the Quantum Resonance Information Water (the QRI Water) at least has not any bad effect. Well, in case of benefit for curing? I thought as long as you use, there might be good effect, Oh. Yesterday my husband told me that his mother said, the Traditional Chinese Medicine she had used effective the night before (his mother is still taking the Traditional Chinese Medicine), She felt the whole body relaxed, and good in spirits as well. Then my husband answered her: It was not the medicine; it was that the Quantum Resonance Information Water (the QRI Water) played a role. Why is my husband so sure that the Quantum Resonance Information Water (the QRI Water) acted? Hai Hai! For he had a strained feeling pressure at his chest, he had once suspected that he suffered from esophageal cancer as his father, or lung cancer, or something else. He went to the hospitals for physical checks, the results were good as usual. It was very helpless. We did not know how to handle a strained feeling pressure at her chest. We just put a small 10ml spray bottle in his shirt pocket. Two days later, his chest tightness pressure was reduced significantly. He was convinced that the Quantum Resonance Information Water (the QRI Water) is naturally magic. So the improvement of my mother-in-law's symptoms was also natural that the Quantum Resonance Information Water (the QRI Water) played a greater role. Of course, now my mother-in-law believed the Quantum Resonance Information Water (the QRI Water). My mother also said her situation was improved greatly; She sprayed her eyes with the Quantum Resonance Information Water (the QRI Water) these two days, she felt her eyes brighter and her mind clearer. My health is basically good, just feel the neck pain occasionally, when I sat before the computer for a long time, and then I spray some of the Quantum Resonance Information Water (the QRI Water), it will be just fine in minutes. However, the small spray bottle has been brought with me day and night. I hid it in the bra or waist. Last night, I also let my daughter who studied in Grade One of the high school bring the bag of the Quantum Resonance Information Water (the QRI Water). and put a 200ml bottle of the Quantum Resonance Information Water (the QRI Water) on her desk. I wish she can keep early hours, the mind clear, refreshing, study well, keep fit, get good grades slightly every day; I hope she getting well.

of the frequency vibration. The sound was aloud. I felt it was just like the sound of the infrared therapy machine I've done in particular that emitted to the points producing the sound: "Toh, Toh, Toh!" with a frequency vibration, I felt the sound is like that in particular.

Re: Hearing you talk about this in the morning yesterday, I felt a little bit ridiculous, because I had never come across. Some time some one said in the QQ group that this was the resonance frequency of the QRI Water to adjust your abnormal frequency. And the deviation of your frequency was too far from the norm. So it was felt. I thought that made the sense. Is it so weird? I turned over to a sideways position in sleep last night, I suddenly felt very clear that my vision was twinkling, dark and bright, bright and dark, non-stop blinking, and the eyes were blinking at the same time with very regular flashing. Although my eyes were always shut, it was definitely not dreaming. It was true I was awake. I enjoyed it in the quiet; It was estimated for two minutes sustaining. After the blinking stopped I told my husband. I was thinking about the same thing in the morning today. It was certainly in recent years that I have too much time online. My vision was dropping a little, and the frequency of my eyes appeared the problems, that were certainly reasonable. For this, my husband talked a lot with me. Re: You had better fill the Quantum Resonance Information Water (the QRI Water) in water bags, so the bag of the Quantum Resonance Information Water (the QRI Water) can be easily placed on the lesion position, even in working hours, which are not affected. The time of use should be longer to correct and firm down the resonant frequency of the disorder. On the problem whether the stone can be eliminated with the Quantum Resonance Information Water (the QRI Water), we also have a product of Yougong – the NMR transferring agent, which is used to exclude the accumulated coke within the automobile engine. Finding a diesel vehicle, for example, before the initial use of the Yougong, clear the car exhaust pipe with a paper towel first, wipe out the small amount of dark matter only. After adding the Yougong, and the box of oil is used, go to clean the exhaust pipe, you can get 2-3 handful materials as coal with hands, which is the old coke discharged out from the engine. There is a device in the hospital called the Ultrasonic Stone Cleaner. The ultrasound can break up the body's kidney stone and urinary stone without hurt. The stone will become the excretion after being broke up and discharged out of the body. The ultrasonic waves are resonant waves. The product of Yougong is also on the memory of resonance wave. The amass of the stone excluded by Yougong from the car engine has been confirmed. The principle of the Quantum Resonance Information Water (the QRI Water) is the same with the Yougong. It may also break up the stone and remove it from the human body. But there are no verified cases, it can only be observed by your own. 2010-1-18 19:14:07

Content: My mother was 73 years old, suffering from the disease for many years. The more serious is the blood circulation disorder. Her 10 fingernails and 10 toenails were dark brown. The treatment was about ten years, but in vain. And her legs were swollen; her feet were ulceration; appalling! It spent nearly twenty thousand RMB Yuan the most to cure the feet disease one year, but it was still not cured. She suffered from Hypertension, heart disease, blood lipid thick, Meniere's syndrome. She went to the hospital several times each year. The daughter working in the outside was always afraid of her mother all the time. Looking at the big bags of drug from the hospital, the doctors advised her to "take medicine life time". My mother wanted to give up treatment many times. I was fortunate to get to know the Quantum Resonance Information Water (the QRI Water) early last year. I bought 2 bottles of the Quantum Resonance Information Water (the QRI Water) to try first. I let my mother to fill the QRI Water into the hand warm bag. One bag was hung before chest. One bag was put into his pocket during the day, put on the pillow at night. One week after, her sleeping was obviously improved; her head was not so dizzy; her heart was significantly improved. The producer of the QRI Water said, the patients who are in serious condition need to drink more water. Watching the mother's bags of hard taken medicine, I had bought five bottles of the Quantum Resonance Information Water (the QRI Water) one-time, some of which was used to rub her rotten feet. I let my mother

only retain the saltpeter GITS, and the capsules of the pure panax notoginseng self prepared. Later, I bought another five bottles. She drank some, but they mainly were used to carry around and put on the bed. Some time ago, she used the water bag, She felt it was safer to carry and more convenient. It was almost one year, my mother had not suffered from the vertigo; her blood pressure could be controlled basically between 85-130 range. Her long-term ulceration of the feet are very smooth now. The good news is that her blood lipids a little bit higher after testing last month, but it is still considered within normal range. And the color of her all fingernails became sporadic light yellow. It is expected to eventually clear off. My mother repeatedly told me to thank the manufacturer, thank you for your Quantum Resonance Information Water (the QRI Water). I bless Shenzhen Riyan Science and Technology Co., Ltd and the inventor of the Quantum Resonance Information Water (the QRI Water) on behalf of my mother!

Content: I received the Quantum Resonance Information Water (the QRI Water) at 11 in the morning yesterday. Before I always got cold cough, with deep breathing noise from the bottom of the left lung. I myself could feel. I also suffered from the cervical defects and eyes problems, which were always with tears, sour. So put a 200ml bag in my shirt pocket close to my heart and lung at once. and then stuffed a bag in the back of the neck. It was not long I had felt that deep breathing I felt comfortable. And my cervical spine was not too painful as well. But my eyes did not improve. I sprayed with a small spray bottle a little, then I felt my eyes very comfortable; but after a while of spray, my eyes were felt uncomfortable again! I did not know why, I put the Quantum Resonance Information Water (the QRI Water) on the side of my bed last night, but my sleep was still not so good. I did not know why. I will observe in this evening and tell on the situation.

Re: The treatment of pain could see the result soon. To improve the eyes would take longer time; It would need 3-4 days to have significant effect of your sleep. 2010-1-21 0:04:18

Content: Some one came to ask something on losing weight yesterday evening. I did not give her a lot of response. I chatted about the same things to lose weight with other one in another evening. I got one feedback on the case of female losing weight: Roll the bottle of the Quantum Resonance Information Water (the QRI

Water) back and forth, up and down, left and right on the stomach to treat the fat. It was rolling about 3 minutes that there was a feeling of stool, a lot of black old feces was discharged, which was continuing for a few days. Later, once urine lasted seven minutes, and it had been urinating for some days. After the excretion of the urine, the stomach was shrunken down a big circle. Additionally, a lot of stool was discharged, the stomach became smaller at once. I had the intention to leave the message at first, but later the person did not for busy working. And then the person went to the United States. And I have no connection with her now. The urine lasted seven minutes, which could not be explained according to Western medicine. But there are similar records in the classical Chinese Medicine. Moreover, I remembered one case in 2007, a woman suddenly discharged a lot of water in the course of psychological therapy, at the end of the class, her pants were all wet. After careful examination, the pants were wet from her waist, unlike urine, unlike the menstruation, because there is no color. Later checked her waist, her abdomen was much thinner. The water was accumulated in her abdomen; the discharge was caused by her mood. Both cases were in common, they made a lot of water. But one case of seven minutes of the urine discharge, while one case of discharge of water from the waist. It can not be explained by Western medicine. Today I put it here, I hope the exchange of the people with similar experiences.

Re: The obesity has a relationship with the non-movement, especially under the rhythm of the present life, the most people sit daily in front of the computer without moving, the consumption of everything eaten was very slowly. The meat that was eaten, could not be digested, but accumulated in the intestines becoming the old stool, especially at night. Adequate exercise, deep breathing, plus the Quantum Resonance Information Water (the QRI Water), there will be certainly good results ah. (Do not know who left the message) 2010-1-21 11:23:03

Re: I am not talking about losing weight. Recently, my urine seemed unable to finish. I thought it was a frequent urination, maybe somewhere went wrong. It might be want to discharge something. Another time, the pocket of my pants was got wet. I held that the bag of the Quantum Resonance Information Water (the QRI Water) might be broken. I checked the bag over, but it was dry. Ah. I remembered once my pants were also wet. No mind that the bag leaks. Now that I think, is it also the drainage of water ah? Sea Viewer. 2010-1-21 13:26:58

My coccyx would be uncomfortable in each winter. On the Day, I got Mr. Zhongzheng's the Quantum Resonance Information Water (the QRI Water). While working, I placed the Quantum Resonance Information Water (the QRI Water) on the stool behind. I did not think about anything, surprisingly. After a while, the coccyx had no uncomfortable feeling. There was no recurrence two months later. 2. I did not sleep well, I often make dreams. I put the Quantum Resonance Information Water (the QRI Water) on the pillow. I was sleepy the first few days and soon be able to sleep and dreams were less than before. But if I have something in heart , it is still hard for me to fall into sleep, huh, huh! 3, I got one card of the foot treatment; at the time I wanted to alleviate some tension. The people who have had the card said that there was cross-infection, It was said that washing feet would get athlete's foot. I'm not too concerned about. I just wanted to reduce the pressure, and did. Surely, one day I found the little finger of my right foot with a little itchy. I sprayed a little after reading the message. The first time I sprayed once. A few more days, I sprayed twice, it was completely better. 4, My child once had a fever at middle night, but his head was cool, just whole body was hot. I let him drink 3-4 lids of the bottle of the Quantum Resonance Information Water (the QRI Water) a day and sprayed the QRI Water on his hot body 5-6 times, including his face also sprayed several times, according to Kuwei Zhongzheng's advice. The fever was gone after day and a half. The child went to school three days after. Shortly later, the child had a fever again as the above, when I found in the morning; I gave him a lid to drink and sprayed following Mr. Zhongzheng's advice.

Meanwhile I gave him some cool boiled water to drink. The child was fine about a half-day later. Because of examination, I gave him a lid of the QRI Water to drink in the morning on next day, and let him go to school. I let him to bring a spray bottle and a large bottle of the Quantum Resonance Information Water (the QRI Water) with him. Later I called him, he said he was well. He did not drink the Quantum Resonance Information Water (the QRI Water), just sprayed a little on the finger once. There was also a situation; His right index finger was swollen. There was the situation before; I asked the doctor who said it was acute gout because of eating a grilled food with toxins in body causing acute gout. I was told by the doctor to give yellow watermelon to the child to eat. The yellow watermelon is of detoxification. There was no sale of such yellow watermelon in our quarters. I sprayed him with the Quantum Resonance Information Water (the QRI Water) several times. He did not drink at the school. I just sprayed him once, his hand could write then. It was nearly well on next day, of course, I sprayed him several times. 5, I had suffered from the back pain and shoulder pain before, especially when it was cold, the kind of faint pain was very hard to accept. It was about 10 days, when I went to work; I placed the bag of the Quantum Resonance Information Water (the QRI Water) on my shoulder. It was very strange that I felt no pain later. And now I did not bring, but I placed the Quantum Resonance Information Water (the QRI Water) on my pillow in sleep every day. And I placed the bag of the Quantum Resonance Information Water (the QRI Water) against my back while reading and watching TV in the bed. 6, I got cold these days, My nose was not ventilating. I sprayed my nose frequently. huh, huh! I have talked a lot, but more than that in deed. Of course, if I have time I would continue later. I am very grateful to Mr. Zhongzheng for solving my problems. Such as the back pain and the body ache, I had to take a lot of Chinese medicine before. I am very grateful to Mr. Zhongzheng for his the QRI Water! The Quantum Resonance Information Water (the QRI Water) helped my child go to the hospital less for painful injections. I will always insist on the use of the Quantum Resonance Information Water (the QRI Water). The look of my eyes was like a huge glass prison covering me, separating me from this beautiful world full of infinite possibilities. I felt buried alive. - A providential opportunity, a lovely woman who gave me the water of confidence (a small bottle of 60ml). She said: "You just use it alright". Re: The supplement to the last message: In fact, sister H gave me a small vial of the Quantum Resonance Information Water (the QRI Water), but I had not used it. Until that morning, sister H and I laughed and chatted for a while, she seemed unintentional dig at me, saying "See you, what's your look like!", I was seriously injured by her words. Because I did so, there is no life in the life and work at all which was expressed in the look, I lived in the flinch, panic, depression and hopelessness every day. The relationship between H and I is very good, she also told me the wisdom to understand about nature. When she made the evaluation on me, I was very much frustrated. I felt that I could not to face her sharp feeling and honest.

So I chose silence, then did not speak with her again. Before long, she left the room, leaving me alone. I began to reflect on the "died look". she did not say "bad", All of the people say that the eye is the window of the soul, which embodies the best in me, perhaps the word is my eyes. My body had been suffering from chronic pharyngitis since childhood and very weak now, even in case of attack was not serious, daily dialogue for a long time would not feel the need to stop and rest, the throat and drink plenty of water. Content: Hello, everyone, Today I want to report on the use of the Quantum Resonance Information Water (the QRI Water) from January 23 to February 23, the entire one month during the Spring Festival. Because my child had got cough for two months, I worried very much. I was near collapse of keeping use of drug. Finally, I determined to go to Mr. Zhongzheng to buy several bags of the Quantum Resonance Information Water (the QRI Water), I gave two bags to the child that night. She had not prepared such a heavy thing hanging around her neck before, because she knew her old bad cough was not gone, she hung the QRI Water bag cooperatively this time. She coughed badly two nights before hanging the the Quantum Resonance Information Water (the QRI Water). After hanging the the Quantum Resonance Information Water (the QRI Water), she did not cough the night. I was very aware of no cough. I was surprised. Though I knew the Quantum Resonance Information Water (the QRI Water) was good, I did not expect it was such a useful. Since then I let her hanging on. Her cough was still repeated from time to time, but it was not increased. A few days after hanging the the Quantum Resonance Information Water (the QRI Water), we started to make a trip back home to Xichang in Sichuan Province. We made a tourist way back home playing and sightseeing on the whole way. The daily life was not regular and we had to climb the Emei Mountains on the way. The mother might know, to climb the snow-capped mountains before the child did not cough, the mother should have the courage and confidence to dare to such arrangements. After climbing up and down the Emei Mountains, her cough did not increase. I felt very pleased. We returned home two days before Eve. Her cough was significantly increased the next day for her quilt was fallen from the bed at night I let her take Chinese medicine for one day and a half this time, that is, three times. She refused to take the Chinese medicine, and I did not force her to do. Since then she had not taken the medicine after we were back to Shenzhen. Her coughing was stopped two days before we return to Shenzhen. We have had almost no history that the cough could get well without taking the medicine before. I summarized the experience of using the Quantum Resonance Information Water (the QRI Water) this time. The effect of the Quantum Resonance Information Water (the QRI Water) was very obvious for the first time to use. But there were some slight repeats after using the Quantum Resonance Information Water (the QRI Water), the time to correct frequency would be longer while insisting the use of the Quantum Resonance Information Water (the QRI Water), which was equivalent to give it time to let it complete from quantitative

to qualitative changes in this process, where the confidence is very important. It is easy for us to lose confidence in the repeat process. There were two small cases of using the Quantum Resonance Information Water (the QRI Water) during the Spring Festival, which could also explain the role of the Quantum Resonance Information Water (the QRI Water). In winter there are large sandy winds in my hometown, so it is very easy to go wrong with eyes. My mother had suffered from the old itchy eyes, she said she would go to pharmacy to buy one kind of eyedrops to relieve the itching before. I told her to let me treat her eyes this time. I sprayed the Quantum Resonance Information Water (the QRI Water) on to her eyes every three hours a day. She said her eyes were fine there was no itch on the next day. After then my eyes were also itchy, and no longer there grew hordeolum in few days. I treated my eyes as the same, sprayed the Quantum Resonance Information Water (the QRI Water) every three hours a day, all the cases were solved on the next day. I thought it was no problem to replace those eye drops with the Quantum Resonance Information Water (the QRI Water). I temporarily wrote these, see if I can send it up to the net.

Re: I sum up the experience of the use of the Quantum Resonance Information Water (the QRI Water) this time. The effect of using the Quantum Resonance Information Water (the QRI Water) was very clear in the first time to use, but slightly repeated after. The time to correct the frequency was longer, it is equal to the time to complete it from quantitative to qualitative change in the process. In which the confidence is very important here. it is easy for us to lose confidence in repeating process. – I am very grateful to such a conclusion. I hold that it was the same as that I felt as well. I once lost confidence with anxiety on the way too. if I was aware of this characteristic, understood this situation, I think, I would understand by the time. I would make a good steady use and adhere to. Read your this summary, I feel it was very similar like my feeling in use. 2010-3-8 17:51:24

Re: It is the simplest operation to put the Quantum Resonance Information Water (the QRI Water) on the place where occur the pain. Content: Mr. Zhongzheng, Thank you very much. The lump on my breast is much smaller. It was shrunked from the original size of the beer cap to the size of the mung bean! I have not told you that I am a lumbar disc patient lying on the bed for three years. It was Mr. Xuan Zheren, an Old Doctor with the honore of Silver Pin, helped me to stand up. My breast mass appeared soon less than one month after I got the lumbar disc. It was for six years already, and I could not walk with leg numbness at that time as well. Now the activities were not affected, but also left some knee pain and back discomfort problems. One more thing I would like to ask you: I am now working as volunteer in coaching of TA26. One day I forgot my bag of the Quantum Resonance Information Water (the QRI Water) in the company of the student of Fengcheng; and now she said that she had affinity with the bag of water. When she got the Quantum Resonance Information Water (the QRI Water), she did not feel the same bad temper as before. She wanted to pay for my Quantum Resonance Information Water (the QRI Water). I said: it does not mean the money. I would like to know whether the water I used is good for her to took? Please answer asap.

Re: "Now she must say that she has the affinity with the bag of water, during the period when there is the Quantum Resonance Information Water (the QRI Water), she did not feel the same bad temper as before" – that she felt better is better. if she felt to have a new one, give her a new one. Last time you said that your Quantum Resonance Information Water (the QRI Water) was lost and cried. And now you found it back? 2010-3-11 11:37:34

Re: When I was driving home from Fengcheng and I found my Quantum Resonance Information Water (the QRI Water) disappeared, and I was the lost, plus

days of menstruation came, I was sad and secretly cried at home. I was just the time when you were on the line, I told you. Thank you for your sending me two bags of the Quantum Resonance Information Water (the QRI Water). Later my student of Fengcheng found the bag of the Quantum Resonance Information Water (the QRI Water) in her company, I told her to return it to me when she came to the class; and she forget it. she said the bag had the affinity with her four or five days later. She wanted to keep on with the bag of the Quantum Resonance Information Water (the QRI Water) certainly! I was responsible for her living, and ask her whether the bag of the Quantum Resonance Information Water (the QRI Water) I used was good or bad for her? If it was so good to her, I would give it to her! 2010-3-11 11:50:17

Re: Actually you have already given out the answer. And she has already told you the answer. "Now she must say that she has the affinity with the bag of water, during the period when there is the Quantum Resonance Information Water (the QRI Water), she did not feel the same bad temper as before "- This is the answer. 2010-3-11 11:55:30

Due to reluctance to be tortured by the virus, I drank a lit of the bottle (big bottle) of the Quantum Resonance Information Water (the QRI Water), the symptoms of a cold was still coming in a few days, but the degree of cold was less than that of the usual the virus was largely suppressed. It was concluded that the method of drinking is an immediate effect; Although I knew that before, but there is a deeper experience in person to try.

She had to go back to the monastery before the Spring Festival for rest. She had been bleeding a lot of blood in her stool. This was found one month before Spring Festival. Later someone presented a bag of the Quantum Resonance Information Water (the QRI Water) to her for use. At first she felt the water bag was too cold to be used. And then she found no other way if not use. After reading the book, "Love Transfer --- Quantum Medicine,

Quantum Resonance Information Water and Exploration on the Treatment of Body, Mind and Soul Diseases", She put the bag of the Quantum Resonance Information Water (the QRI Water) at her body. She felt a little bit better. So she connected with me through calls. She used 15 bottles and bags according to my advice. I would place each bag of the Quantum Resonance Information Water (the QRI Water) in the neck and abdomen separately every night. I put the bag of the Quantum Resonance Information Water (the QRI Water) on my small abdomen, for my sleep quality had been poor for long and I suffered the dysmenorrhea for more than ten years. It was too painful each time to speak up, so I put the bag of the Quantum Resonance Information Water (the QRI Water) on my belly. The menstruation came this time over a week delayed, I was very worried about it, because in the past it always came on time. Though it was postponed more than a week, the over years dysmenorrhea had actually gone. And the pain of the dysmenorrhea was mainly relied on drugs to relieve before. My menstruation would last 7 days each time for more than a decade. But it was

surprised that it only lasted over five days this time. I was so happy, ha ha ha! My disease that I had treated with medicines for decades of years was cured just with a bag of the Quantum Resonance Information Water (the QRI Water). It was really miraculous! Thanks to Mr. Zhongzheng for his invention of such a good water. Now my mother is also using the Quantum Resonance Information Water (the QRI Water) with the hope that her blood pressure and diabetes are also quick to get better.

灵力医学治癌

堀尾忠正

某寺院住持直肠癌晚期，发现时肿瘤太大，已经完全无法手术，如果要强行手术就得切除肛门，而且医生诊断即使手术也是没救了，西医未做任何治疗处理，只好于2010年春节前出院回寺院中。

经在该寺院参加内观的学员（我曾经给她治疗好身心灵疾病的）介绍，并且看了《爱的传递——量子医学、量子共振信息水与身心灵疾病治疗之探索》一书后，2010年2月24日该住持开始使用量子共振信息水（今年2月份是28天），3月17日接那边另一师父电话，说早已经不便血了，但在排黑色的烂肉，那就是癌细胞死亡后脱落的癌块。

4月，从参加该寺院内观的很多学员中获悉，住持公开了此事，并且介绍了很多参加内观的学员使用我的量子共振信息水和介绍书《爱的传递——量子医学、量子共振信息水与身心灵疾病治疗之探索》，而在2月、3月份住持得了直肠癌一事完全保密。

同另一师父的手机短信上交流，该师父完全理解了我的灵力、灵力场、灵力医学，并且她也有很深的见解，于是我决定2010年五一节专程去一下该寺院详细交流，由于乘车不便，于是我决定自己开车过去。4月30日，经过东线途径广东蕉岭，全程8个多小时，终于到达该寺院。

5月1日，同住持和师父详细交流，住持说，使用量子共振信息水后，排出的黑色物质如碳，看上去完全没有生命力的。

《爱的传递——量子医学、量子共振信息水与身心灵疾病治疗之探索》我曾经对比过一例北京脑癌和一例哈尔滨的肺癌，当时主要介绍的共性是使用量子共振信息水30分钟左右，脑癌的患者出现颅内压力增高的症状，肺癌脊柱转移的患者出现压迫脊神经的症状，说明使用量子共振信息水后，立即起作用，30分钟内自己就能感觉到，这是杀死癌细胞后，癌细胞破溃体积增大了引起的症状。

从同住持的交流，结合以上脑癌、肺癌的反馈，同住持的直肠癌对比，这三例发现了更多的共性：哈尔滨肺癌的，第20天开始咳出了肿物，后期咳出的是黑色，经病理检查是纤维素，咳出物无生命力。住持也是差不多第20天从肛门排出脱落的肿物，黑色如碳，她自己描述此物“无生命力”。

北京脑癌的，小便“黑色如煤球”，住持描述的也是“黑色如碳”。

从形态、功能的反馈描述，获得了以上更多的共性。

当然，已经治好了很多癌症患者，分布在全国各地，但由于没有跟踪到完整资料，无法细节对比，患者在使用初期电话咨询使用方法时，反馈止痛效果非常明显，

好转后就没有太多资料反馈了。

该寺院的“内观”十天课程，实际是人在坐禅入静状态时，也是联接上四维空间，也是能感觉到灵力、灵力场的。

2010年5月2日早上，堀尾忠正一家与住持和师父合影留念。然后从西线经过江西赣州10个多小时开车，回到深圳。

以上信息也许能救助更多的患者，尤其对认识灵力医学非常重要，特别在此介绍。

治癌方法：把10个200毫升袋装量子共振信息水同时放在患处，并且5瓶200毫升瓶装量子共振信息水喝，每天喝4次，每次10毫升（一盖子为10毫升）。瓶装的，没有喝完前，这些瓶子也靠近身体放置，即袋装加瓶装总共有15个200毫升的放在身体边，同时也用小喷瓶在患处喷，每天不少于4次。经观察，很多癌症患者在20天左右开始癌块脱落。以上量够用30天。使用30天后，如果感觉使用量不足，或者感觉使用效果下降了，那么再增加。因为癌症是严重疾病，使用量少于15个200毫升的时，效果会差，癌症患者一定要足量使用，否则达不到预计的效果。

把量子共振信息水放置在身体病变部位，让其发射共振信息给人体病灶，纠正异常的共振频率，在此人体正常频率下，异常频率的癌细胞会被直接杀灭。喝的分布到全身，用来清除未知的转移灶。虽然喝的分布到全身后，浓度很小，但小的转移灶因为体积不大，也很容易被直接杀灭。

如果是经过修炼过的高僧眼睛看这量子共振信息水，那么会看到光芒四射、闪闪发光，不断发出共振信息，向周围发挥作用。

如果条件允许，癌症患者要尽早进行灵力医学系统排列，解除来自四维空间的病源。如果癌症多次复发的，一定要进行灵力医学系统排列，纠正异常的灵力场。

找我治疗的癌症病人均是晚期病人，均是被医院宣布为无法治疗、或者已经离开了医院、走投无路的人，到了那个时候才听其他治好的人介绍，才开始找我治疗，而我治好的癌症病人，均是那样的晚期病人，早期的，谁也不找我。他们有钱的时候，把钱在医院全部花光，没有钱的时候才找到我。而我的治疗，均在短期内明显感觉到效果，如利用隔空治疗的方法，把量子共振信息水水袋放置在病变部位，绝大多数患者在10分钟、20分钟内，疼痛缓解或者消失，这种治疗方式毫无痛苦，也不必住院治疗，在家随身携带即可，如果加上喝、喷，效果更好，这些均是傻瓜式治疗，在家治疗即可，不必见面。量子共振信息水可以邮寄，治疗十分方便。

只有那些想做灵力医学系统排列的，患者本人或者家族的代表才需要到达现场。其他均可以不必见面。医院的检验报告也没有必要看。灵力医学利用四维空间的方法，对西医一维空间的思维方式来说，是无法想象的。

因为我找到了治疗疾病的本源，所以，我实现了“不同的疾病，相同的办法治疗”。

爱的姻缘

张乃惠

那是二〇一〇年六月二十七日，李桂新老师从福建长汀县南禅寺内观回来，带回一本《爱的传递——量子医学、量子共振信息水与身心灵疾病治疗之探索》，这本书由香港亚洲传媒出版社出版。我是海南省爱心家庭教育研究会会长，对“爱”的阐述有一种特别的敏感，如果能把“爱”传递给千家万户，那该有多好！我用了一天多的时间专注地读完了《爱的传递》。本书内容新颖，充满创新思维，标新立异，超凡脱俗，治病救人，充满另类爱的传递。

本书作者堀尾忠正，是一位医学硕士，通过几十年来如饥似渴地学习、钻研、追求、探索，在实践中发现水有记忆功能，传递信息的功能，与日本江本胜博士的《水知道答案》有异曲同工之处，人体环境70%是水，而地球环境也是70%是水，同人体环境类似；人的血是咸的，海水也是咸的，微量元素也很类似；海水在有规律地发出波浪，人体血液也是有规律地在波动循环，人体细胞也在有规律地波动，振动；一旦人体某个部分的振动的频率被打乱，那儿就会出问题，就生病了。也就是说人体生病的本源是人体某个部分的振动的频率被打乱了。他通过15年的努力研制出量子共振信息水，把人体共性的共振信息记忆在水上，以水作为载体，用来传递共振信息，纠正人体紊乱了的频率，使疾病快速好转。《爱的传递》告诉我们，频率紊乱了的病体，是可以通过量子共振信息水传递的频率，得到纠正的，生病的人体也就能恢复其健康。这就能让不同的疾病，用相同的纠正紊乱频率的方法来救治。“不同的疾病，用相同的办法医治”，具有不可估量的医用价值，是科学的创新与发明，是世界的首创。对我来说，这是第一次读到的难以置信的全新的概念。从反馈的信息看出，无数用过量子共振信息水的人都受益匪浅，许多被医院宣判为不治之症的人，都获得了新生；癌症是绝症，即使到了晚期，也有获救的希望，量子共振信息水的神奇功能在实际医治中一次又一次地得到确认，并如此地令人传颂。

在新生事物面前，我们不能麻木不仁，熟视无睹，我要亲身体验，把福音传递出去，度世救人。我和我的太太，我的子女，我的同事，不少都处于亚健康状态，毛病不少，我们需要保养，我们也都需要救治。我带着探索、好奇的和追索的心情，第二天就给深圳市日研科技有限公司汇款购买量子共振信息水，三天后就收到了产品，当晚我把一袋量子共振信息水放在枕头边，睡觉好多了；一天手碰破了流血又痛，喷了两次，立即不痛，而且止血，不久就结痂了；我多年的脚气与烂脚丫，喷了两次，就好了。量子共振信息水在我身上反映的神奇的功效，令我刮目相看。我喝量子共振

信息水两个多月了，我的体能获得了全面改善，精力充分，我70多岁的人，还像年轻人一样工作，看不出衰老的迹象。前列腺炎很折腾人的，解小手时，时间长，解而慢出，出而不尽，外急内重，一次用时间10多分钟，而且尿频，现在已经开始大大好转。我太太李桂新亦复如是，量子共振信息水通过纠正人体紊乱了的频率使人体恢复健康，疗效真是神奇。

获悉堀尾忠正老师，要在8月28-29两天在深圳锦绣中华“锦绣阁食府”二楼做“灵力医学系统排列”，我和太太李桂新商量，决定赴深圳参加堀尾忠正老师的“灵力医学系统排列”实验活动，23日我们就预订了自海口直达深圳的长途客车票，奔赴深圳市日研科技有限公司，探个究竟。

我和李桂新老师俩人26日下午4点，乘船过了琼州海峡，坐上去深圳的直达客车，27号一早就到了深圳福田车站，深圳的朋友丁小梅，梁军平时工作都很忙，听说我们去深圳，他们一定要开车到福田车站接我们，把我们送到了锦绣中华附近的“荣誉公馆酒店”住下，下午史秋萍等也来看望，我们大家就像久别重逢的知己，谈论着量子共振信息水的神奇功效，大家都想亲自参加一下“灵力医学系统排列”。堀尾忠正老师很忙，晚饭前专程开车来看望我们。按约定的时间我在门口等待他，虽然我们第一次见面，但我一眼就认出了他。他的个头不高，一米六七，带着一副眼镜，但非常精干，聪颖，眼睛里闪着智慧的光芒。他平时很忙，还挤时间来看望我们，我感到有点过意不去，谢谢他。他非常谦逊，随和，对我们表示了热情的问候，又急着开车忙其他事去了。

八月二十八日一大早我和李桂新就做好了一切准备，上午8:30准时参加堀尾忠正老师举办的“灵力医学系统排列”。在开始排列前，堀尾忠正老师带领大家做了个灵力测试活动：在场地中间，放上一张凳子，凳子下面放一张白纸，纸上四边分别写上：健康、金钱、事业、爱情；请一位愿意参与实验的同志来坐在凳子上，再请四位同志，分别站在凳子的四周的四个正向方位上，相距凳子一米，面向凳子，闭上眼睛，什么也不想，静静地站着；不一会奇迹出现了，站在四个方向上的人，都不由自主地，受到一种力量不同程度的作用，有的被推向后退，有的被推向前移，有的前后摆动，有的前进进，又后退退。在场的堀尾忠正老师见此情况后，便走过去，问坐在凳子上的实验者的感受：当站在健康方向的人向凳子靠拢走来，就说明实验者的健康是好的。堀尾忠正老师便走过去问：你的健康如何？回答：身体挺好。当站在金钱方向的人，向凳子靠拢走来，就说明实验者的财源好。堀尾忠正老师便问他：你最近的经济状况很好，是不是？回答：最近做了几笔生意，进了几笔，效益不错。当站在事业方向的人，向凳子靠拢走来，就说明实验者的事业兴旺。堀尾忠正老师便问：最近你的事业如何？回答：工厂正在扩建，事业挺好。如站在爱情方向的人，向凳子靠拢走，就说明实验者的爱情和顺。堀尾忠正老师便问：最近你的家庭和睦，是不是？回答：夫妻关系挺和谐的，有的还回答正在搞对象，等等。游戏虽然简单，但在灵力场

作用下，它清楚地揭示了人们当下的真实运程，所以大家都抢着做；我和李桂新也都抢着做了一下，反映出的情况与我们的现实生活基本一致。

五十分钟过去了，家排场地准备就绪，堀尾忠正老师宣布家排开始。宣布进行预约家排的当事人（案主）走上前去，坐在正面的凳子上，堀尾忠正老师请他从坐在四周凳子上的家排参与者近四十人中，任意挑选一名出来当他（她）的代表，代表走到场地中间，面向参排的案主站着，参排的代表放空，站立了一会，感应灵力场；不一会堀尾忠正老师又邀请十几位家排参与者出来，围着当事人的代表站上一圈。要求：放空，不要想任何事，感觉外在有力量推动时，就随之运动。不一会奇迹出现了，大家都动开了，有的倒下了，有的坐下了，有的哭，有的笑，有的推，有的拖，有的拉，有的抱，有担保护的，有背靠背的，有的跑个不停，寻找什么似的。30-40分钟后，几代的家庭的关系，逐步地显现出来。28号下午李桂新老师做个案，29号下午我是第二个个案当事人，我平时腰经常痛，在家排中发现有人在踢我的腰，仔细看像是死去的奶奶，我礼拜了她后，她交代我们要念经回向给她，不要把她忘了。我们问：

“念金刚经，还是念地藏经？”她说都行。我们答应了她的要求，她躺下前，还一再嘱咐我们不要忘了给她回向，才闭上眼睛，安息了。很神奇，我的腰立时舒服了，也就不痛了，几天过去了，我的腰确实不痛了。我小时候听说过叔叔们在家里打死了一条蟒蛇，后来四位叔叔30岁刚过相继死去，在这次家排中，蟒蛇的灵出现了，灵附体的人，表现出蛇形、蛇像，舌头一伸一缩，蛇被打在七寸处，灵附体的人颈子显得十分疼痛的样子，我和李桂新上去安抚它。它说：“我是你家的保家仙，不感恩我，还伤害我”。李桂新过去赔不是，它不接受，非要张家的人来不可，我过去为家族认不是，对不起，表扬它，谢谢它，感恩它为我家做了不少好事，并抚摸它受伤的部位，它感到舒服，慢慢地它就闭上了眼睛，它与张家的过劫终于化解了。而关于打死蟒蛇的事我们早就忘了，是排列中自动出现了，而且出现了一条公蟒蛇，一条母蟒蛇，被打死的是公蟒蛇，母蟒蛇逃走了。在家排中，有位来自四川的女士晚上不敢一人睡觉，必须有人陪着。家排过程中发现，她的被堕胎的姐姐的灵一直在跟着她，她姐姐以为自己还没有死，堀尾忠正老师让那位女士告诉她：“我看到你了，我爱你，你已经死了，安息吧！”于是灵附体的人就躺下，闭上了眼睛。那位女士就解除了恐惧，自己晚上可以单独睡觉了。排列中，堀尾忠正老师问案主，你家谁自杀了？案主回答说她的母亲在她2岁时自杀了，但她从来没有告诉过任何人她母亲自杀，排列中自动出现了。有一位来自日本的女士，晚上失眠，十多年来看了许多医生，不解决问题，一直靠吃安眠药睡觉，身体显得虚弱无力，难以应付日常的紧张的工作。经过家排发现，有几个灵整天缠着她，不让她休息，经过一番安抚，灵附体的人就躺下了，闭上了眼睛。第二天我们问日本来的女士，睡觉如何，她说好多了，昨晚看泼水节表演，玩到12点才睡觉，要平时得要吃两片安眠药，才能入睡，昨天睡觉前只吃了一片，而且睡得很好。有一位30多岁的男同志性格孤僻，结婚后，不能生育，到医院多

次，无法解决问题，来做排列，排列中呈现出战争的场面，不少英灵还处在战争状态，后来告诉他们，战争结束了，你们安息吧。这才一个一的倒下，闭上了眼睛。这位男同志，是战争中死去的英灵的投胎者……。

“家庭系统排列”是德国海灵格发明的，2010年1月9日至17日海灵格大师在香港排列了9天，有500多人参与，见证了家庭排列的真实性。我们于8月28日和29日两天参加了堀尾忠正大师举办的“灵力医学系统排列”活动，在“灵力医学系统排列”中，亲身直观地感受到惊心动魄的灵力和灵力场的场面。一般人生活在三维空间中，只能看到有形的物体，看不到无形的灵的存在，一谈到灵力、灵性、灵魂就认为是迷信，而系统排列就向人们展示了灵力世界，一个我们眼睛看不见的、但确实存在的四维灵性空间。在系统排列中，我们亲眼看到三维空间的人与四维空间的灵性（我们的祖先和前辈）进行沟通与人体健康恢复的过程；于此同时，我们体悟到这种看不见的灵力世界的暗能量、暗物质对我们的现实生活具有不可低估的影响，排列有效地提升了我们的思维智慧，去尊敬、尊重这个“万物有灵”的世界，家庭才能安康，社会才能和谐；系统排列是三维空间的人与四维空间的灵性的沟通的一种有效的途径，一种直观可视的方式。通过人与灵界爱的沟通，就可以达到拯救医院无法治疗的疾病与绝症。

堀尾忠正老师的“量子共振信息水”与“灵力医学系统排列”在探索一门新的学科，不同的疾病，轻者，使用量子共振信息水，纠正人体局部的紊乱频率，就可以得到医治；重者，通过系统排列，解决四维空间紊乱的灵力、灵力场，达到‘天人合一’来医治身、心、灵的疾病并使家庭数代人受益。我们通过使用量子共振信息水所得到的益处，并实地参加了堀尾忠正大师举办的“灵力医学系统排列”，深刻地认识到，堀尾忠正老师创造了一门全新的具有强烈生命力的学科——灵力医学。她将造福于人类，造福于世界。
