Sprint Nobel Prize

The book's author Kuwei Zhongzheng, the Master of Medicine, found and proved the existence of soulforce and soulforce field—the fifth force and fifth field of the universe, created soulforce medicine and soulforce medicine constellation (“soulforce constellation” for short).

Einstein and Hawking only know the existence of four forces and four fields in the universe and do not know the fifth.

There are full of such words as "undetermined origin", "cause unknown", "remain undefined" and “still being studied” in the medical textbooks. Through soulforce constellation, the author reveals that diseases in every person have specific causes. Even if different people are diagnosed with the same disease by Western medicine-trained doctors, the cause of the disease still varies. The specific cause of each disease can be found through soulforce constellation and treatment also varies, providing a very good solution to Western medicine's inability to find what causes and how to treat diseases.

Kuwei Zhongzheng arrived at a conclusion in soulforce constellation: In China, 40% of serious diseases are related to killing (including killing of human beings, abortion and killing of animals. Killing consists of killing in present life and in past lives). The proportion of serious diseases associated with killing of animals exceeds 14%, abortion exceeds 18%. 40% of diseases are caused by false history and are known as “historical diseases”, that is, falsification

will cause diseases. 10% of diseases are caused by damage to ancestral graves, a greater proportion of diseases are caused by failure to worship ancestors and about 4% of diseases are related to extraterrestrial life forms or obstruction of transmission of cosmic messages (there is overlap between the above statistics). Some diseases arise in present life, some are passed down from past lives and some are the results of the combined action of previous lives and present life.

Soulforce constellation prove the existence of souls and reincarnation and reveals that diseases are primarily attributed to karma and some diseases are caused by obstruction of transmission of cosmic messages.

Through further research, Kuwei Zhongzheng further found out that diseases are related to karma on the surface, but in essence are caused by possessing souls in the four-dimensional space. After human beings or animals are killed (including abortion), their bodies disappear in the third dimension, but their souls continue to exist in the fourth dimension and will possess the killer to cause disease. The souls of people whose history has been miswritten will be restless and possess many of their descendants in the hope that their descendants will put things right. The souls of people whose graves are damaged or who fail to receive ancestor worship will possess their descendants, hoping that their descendants can deal with it. Extraterrestrial life forms that are impeded in transmitting cosmic messages will also cause disease in persons to whom such messages are sent.

Through research, Kuwei Zhongzheng found out that: all diseases are related to frequency disorder and health

can be restored by correcting the frequency. The Quantum Resonance Information Water can be placed over space near the body, rubbed into the skin and drunk to correct the frequency and restore health. Both the Quantum Resonance Information Water and soulforce constellation have achieved “treating different diseases with the same method”.

Through further research, Kuwei Zhongzheng found out that: Western medicine studies diseases using the 1-dimension, Chinese medicine studies diseases using the 3-dimension and soulforce medicine studies diseases using the 4-dimension. Western medicine is based on science, Chinese medicine is based on philosophy and soulforce medicine is based on Buddhism. Western medicine treats diseases through science, Chinese medicine treats diseases through philosophy and soulforce medicine treats diseases through Buddhism, theology and spirituality.

Soulforce constellation practice has proved that: soulforce medicine is interlinked with Buddhism and theology. Soulforce medicine constellation is not only a method to treat diseases, but also an excellent tool to verify Buddhism, theology and spirituality. Treating diseases using soulforce constellation is only one of the applications of the soulforce field. The soulforce field can have an unlimited range of applications after being broken down.

Only 4% of the matter in the world, namely in the three-dimensional space, is visible to the human eye; 96% of the matter, namely in the four-dimensional space, is invisible to the human eye. Information in the four-dimensional space is faintly discernable and partly hidden

and partly visible in the three-dimensional space and has been mistaken for “superstition”. Through soulforce constellation, the four-dimensional space is clearly presented and is linked up with the three-dimensional space to reveal a lot of information that has been mistaken for superstition, but actually comes from the four-dimensional space. Among the 96% of the matter, many are spirits, they monitor each person’s words and deeds to form karma. At present most human behavior is basically based on partial understanding and needs to be vigorously corrected.

Foreword

From June 10, 2010, Kuwei Zhongzheng began to conduct soulforce medicine constellations to treat diseases. First 20 cases did not take video. From August 28, 2010 to July 22, 2012, altogether 439 cases of soulforce medicine constellation with whole-process video record are preserved.

In the 439 cases, 436 cases are Chinese, 3 cases are Japanese, These two Japanese are 86 and 89 years old.

Kuwei Zhongzheng arrived at a conclusion in soulforce medicine constellations: in China, 40% of serious diseases are related to killing, including killing of human beings, abortion and killing of animals. Killing consists of killing in present life and in past lives. The proportion of serious diseases associated with killing of animals exceeds 14%, abortion exceeds 18%. 40% of diseases are caused by false history and are known as “historical diseases”, that is, falsification will cause diseases. 10% of diseases are caused by damaging to ancestral graves, a greater proportion of diseases are caused by failure to worship ancestors, about 4% of diseases are related to extraterrestrial life forms or obstruction of transmission of cosmic messages.

This is consistent with the practice of not protecting animals and excessively having abortions in China, consistent with the practice of not attaching importance to life and excessively killing living beings in China, consistent with many false histories and forging in China, and is consistent with not attaching importance to

worshipping the ancestors and not worshipping the souls of the dead.

In these cases, 5% major diseases were caused by the Sino-Japanese Wars.

Three cases of Japanese diseases were caused by the Sino-Japanese Wars.

In these cases, no Americans, but showing that many diseases of Chinese people related with the U.S., especially related to the war. In the cases of soulforce medicine constellation with the U.S. are:

Birthdate of Cristoforo Columbus was September 22, 1452. (Case No.320)

Mao Zedong's son Mao Anying did not die in North Korea, but committed suicide in the U.S. on March 22, 1952. (Case No.352)

Sino-U.S. South China Sea Plane Collision Incident Was Caused by the U.S. Shooting Ice Bomb, Wang Wei's soul did not rest. (Case No.360)

The U.S. government commemorated their soldiers been killed in the war. However, the non-military persons are forgotten by the government and receive no commemoration. Such as those young women who had accompanied the U.S. soldiers in warships, they had also died in the Japanese attacked on Pearl Harbor but had received no commemoration. They are totally forgotten by government and American people, their souls are not rest. (Case No.207); NGO persons in the Korean War have been forgotten, those souls did not rest in peace, still possessed descendants, including the Chinese people, causing disease. (Case No.362)

It was shown that after the U.S. threw atomic bombs to Hiroshima and Nagasaki in Japan on August 6 and 9, 1945, on August 17, the radioactive pollutants floated to China. In the later ten years, the number of dead people in China exceeded the number of dead people in Japan, However, common people did not know that it was caused by the radioactive pollutants of the explosion of the atomic bomb, and they just thought that it was because of pestilence. When China had the smallest population, it was only 0.4 billion. Through the soulforce medicine constellations, it was shown that August 17, 1945 is the National Calamity Day of China. (Case No.369)

No Americans in the cases of soulforce medicine constellation, I hope to do soulforce medicine constellations for American, and know the differences of diseases between Chinese and American.

Chapter 1 There Are Causes for the Diseases

1. Back pain of 40 years of an old professor was caused by his family member killing a python

On August 29, 2010, President of Hainan Institute of Happy Family, English Professor Zhang Naihui came to Shenzhen to ask Medical Master Kuwei Zhongzheng to treat his back pain of 40 years, which could not be cured wherever he went in China. Kuwei Zhongzheng adopted a method called “soulforce medicine constellation” created by himself. Time flew back, and it showed that two pythons, a male and a female went to his home. The male python was killed by his family member, and the female python escaped. After the python was killed, its soul possessed Professor Zhang, and that caused his back pain for 40 years. Professor Zhang admitted that really happened, two pythons went to his home, one was killed, and the other escaped. His wife said she also heard of it from the old people.

The soulforce medicine constellation showed that after his family killed the python, his four uncles died just after the age of 30, plus other persons in his family, altogether more than 10 persons died in succession, and all these were caused by the revenge of the python.

In the soulforce medicine constellation, a man who could not walk conveniently and seemed to have infantile paralysis was also seen. Professor Zhang said that was his uncle, who had infantile paralysis from when he was young.

Actually, it was the python's soul that dragged his leg, not infantile paralysis.

In the soulforce medicine constellation, it was also seen that his dead grandma kicked his waist, reminding him that a python was killed in his home.

The mentor Kuwei Zhongzheng instructed the couple to apologize to the python sincerely. When the soulforce medicine constellation proceeded to 80%, he had no back pain, and the back pain did not come back later.

Professor Zhang was very happy. He excerpted parts of the contents of the three books of Kuwei Zhongzheng, Love Transfer, Back to the Origin and Soulforce medicine constellation to translate, and published Soulforce Medicine in English.

Professor Zhang worked in the central ministry of China, established a translation company in Haikou after retirement, and acts as the President of Hainan Institute of Happy Family. However, the back pain had always troubled him. In the 40 years, he tried all kinds of methods, Western medicine, Chinese medicine, massage, and could not get it cured till the age of 73. Until soulforce medicine constellation was adopted, the cause was found. After he apologized to the python killed by his family member, his back pain was cured on the spot without having medicine and injection.

Duration of the soulforce medicine constellation was about more than two hours. In the treatment process, specialized company was invited to record video of the whole process and make DVD, which was delivered to the party, so that they could experience the scene of the

soulforce medicine constellation again after they went back and apologize and correct mistake sincerely. The DVD was only provided to the party to protect privacy.

Soulforce medicine constellation is making the time flow back to the starting point of disease, finding the reason, and making corrections. If the Party apologizes sincerely, makes corrections and is excused by the revenger, after the reconciliation, he/she will be cured. If the party neither apologized nor made corrections and there is no reconciliation, he/she will not be cured.

Let's recall the scene before and after the soulforce medicine constellation. During the soulforce medicine constellation, the couple did not have meal with us on the same table, as they believed in Buddha and only ate vegetarian dishes. They saw that we have animal food on our table, they did not eat them and only had noodles in clear soup. Therefore, they realized that the back pain was caused by killing the python, they apologized sincerely, and after the reconciliation, the disease was cured on the spot. This case was case 7 recorded in "soulforce medicine constellation" and can be seen on the net www.lingpai.org.

During the soulforce medicine constellation, Kuwei Zhongzheng utilized more than ten people. It was like that these people had their "heavenly eyes" opened. They told what the "heavenly eyes" saw or what they felt, or did the actions. Integrating the expressions of these people, it was a complete story (just like a complete drama). So that the cause and effect of the thing was clear, and after the party apologized, his back pain was cured.

For "this drama (soulforce medicine constellation)", the

audiences on the spot could see clearly, and got educated. Sensitive audiences could participate in it, and jointly finish the drama (soulforce medicine constellation). Each of the personnel on the spot automatically represented a role.

This case of soulforce medicine constellation showed a vivid “retributive justice” story. After the party (we call him the client)apologized sincerely, his disease was cured right on the spot.

2. Sense of suppression in the chest of 20 years was caused by pinching a chicken to death

On October 30, 2010, we conducted soulforce medicine constellation for a middle-aged man from Guangzhou, who had sense of suppression in the chest for 20 years. He said that when he played basketball 20 years ago, someone knocked at his chest, and he had sense of suppression in the chest ever since that. He could not have it cured, so he came to conduct soulforce medicine constellation.

In the soulforce medicine constellation, it showed that he pinched a chicken to death 20 years ago and the chicken’s soul possessed him. The chicken smelled after being killed, in the 3D space(the world), the smell just passed away, but in the 4D(the other world, Hades) space, the chicken’s soul had always followed him. Smell of the chicken made his breath suppressed, so he had sense of suppression in the chest.

He apologized to the chicken that he killed and apologized to the rabbit that he ever killed with the instruction of the mentor Kuwei Zhongzheng , six days after that, his sense of suppression in the chest disappeared.

Actually, knocking at his chest is not the real reason, and the real reason is killing the chicken, and knocking at his chest is just a coincidence.

This case is case 32 of soulforce medicine constellation.

3. Cancerous goiter was caused by killing a donkey in her previous life

In November 2010, a psychology tutor from Beijing came to Shenzhen with four people and found Kuwei Zhongzheng. He said that the hospital made a definite diagnosis that one lady accompanying him was having cancerous goiter, and asked her to have an operation. However, the doctor said that the operation has big risks, and may cause many accidents. So she did not want to have the operation. After inquiry through multiple channels, she knew soulforce medicine constellation. So she invited a familiar psychology tutor to come to Shenzhen from Beijing to verify through visits, and soulforce medicine constellation was conducted for her on November 14, 2010.

The soulforce medicine constellation showed that in the patient's previous life, she was a farm owner and killed donkey. When she killed donkey, she stabbed the donkey on the neck to bleed. In this life, her neck had problem in the same position, which is retributive justice.

She apologized to the donkey sincerely. After that, she neither had surgical operation nor asked the other people to cure, and only used Quantum Resonance Information Water to correct the frequency, and she got cured and has been healthy till now. This is case 46 of the soulforce medicine

constellation.

This case involved the previous life.

Generally, materialists do not believe previous life, and it is only described on the Buddhist Scriptures.

This case of soulforce medicine constellation showed that the cause for the cancerous goiter was that the party (we call her the client) killed a donkey in her previous life, and no other cause was found. After treatment of soulforce medicine constellation, without radiotherapy and chemotherapy, the cancerous goiter disappeared.

According to Buddhism, a person is consisting of body and soul. After a person dies, his body disappears in the world (3D space, human world), but his soul continues to exist in the 4D space (soul world), and his soul will be reincarnated in a new body and born again. However, when he is reincarnated in a new body, he brings the good things and bad things that he did together (which is called Karma in Buddhism). The bad things did by a person are brought to the next life and cause diseases. It is called “retributive justice” in Buddhism. The first article in the five monastic disciplines and ten merits in Buddhism is not killing living beings.

Buddhism says that the soul will not die, and the retribution of the things done in the previous life will be brought to this life.

Kuwei Zhongzheng does not research Buddhism specially, but he cures diseases in such a way. What the soulforce medicine constellation shows agrees to the “retributive justice” said in Buddhism without prior consultation.

Kuwei Zhongzheng learned Western medicine for eight years, and is a Medical Master. According to the theories of Western medicine, these could not be explained, and Western medicine could not believe these. Also, Western medicine could hardly cure cancer in such a simple and direct way. Even if Western medicine could cure cancer, the patient's constitution would be greatly undermined or the patient would be half-dead. Chinese medicine could hardly explain these too. The only near existing theory that could be found is Buddhism. In addition, apologizing is very similar to the apologizing in the churches of Christianity and Catholicism, and this seems to be related to theology.

The method of using “heavenly eyes” to find the causes is also near to Taoism. Among the folks, many people with “heavenly eyes opened” could see the souls entering bodies. However, the people without heavenly eyes opened could hardly verify if the parlance of heavenly eyes is true or not. However, on the spot of soulforce medicine constellation, Kuwei Zhongzheng made more than ten people had their heavenly eyes opened and described at the same time. Many people who came to the spot for the first time also participated. Each person described what he/she saw from his/her own side, and it was finally found that what was integrated was a complete story. The party admitted that there was such a thing, and many details matched his own, but the party did not disclose these in advance.

The story showed by the soulforce medicine constellation could also find theoretical basis, which was described in Buddhism more than several thousand years ago. Even if we could not verify the things in the previous

life, the symptoms of the patients in this life are completely the same as the symptoms involved by the story of the previous life, and the personalities and hobbies in this life are also consistent with what was shown in the previous life. The most critical thing is that after the treatment of soulforce medicine constellation, the diseases disappeared, and there is no need to have medicine and injection. “Curing diseases is the hard theory”.

Of course, there are many such examples. We get a conclusion, “lives are equal”. We cannot kill animals at will, after the animal is killed, its body disappears in the 3D space, but its soul continues to exist in the 4D world and possessed the killer, and the killer was sick. The soulforce medicine constellation disclosed that in the major diseases, proportion caused by killing animals reaches 14%.

4. Headache, dizziness, nausea and mammary cancer of a mother were caused by abortion

On March 20, 2011, a daughter from Chengdu to Shenzhen conducted soulforce medicine constellation for her mother, who had serious headache, dizziness and nausea and can't bear.

The soulforce medicine constellation showed that her mother had an abortion. The baby's soul asked her friends in the Hades hit the mother's head and breast, and all the symptoms of the mother were caused by that. The party didn't say that the mother's breast was ill, so we didn't know that, but in the scene we saw that the baby's soul hit the mother's head and breast. The whole beating process is: Firstly use stick to hit the head of the mother, then hit the

breast, then raise the breast upward, and then hit the head again.....repeat in such a way. Kuwei Zhongzheng said that the mother of the party must have got problem with her breast. The party said that her mother had mammary cancer nine years before. So the mammary cancer, headache, dizziness and nausea were caused by beating.

The daughter looked at it, and said she had not heard her mother had abortion before. Kuwei Zhongzheng asked the daughter to directly call her mother from the spot of Shenzhen to verify, and her mother admitted that she had an abortion. After the daughter sincerely apologized and repented to the soul of the baby of abortion on behalf of her mother, the baby's soul forgave her mother and asked the friends in the underworld to stop beating her mother and came back to the hell. Almost at the same time when we conducted the soulforce medicine constellation, headache of her mother in Chengdu disappeared, and she did not have headache, dizziness and nausea any more. Of course, her breast carcinoma was cured at the same time. This is case 110 of the soulforce medicine constellation, which is recorded in the book Soulforce Medicine Constellation -- Look at Karma Through Diseases. After that, many details fed back by the party matched what was shown in the soulforce medicine constellation.

5. Hyperplasia of mammary of 20 years was caused by abortion

On March 20, 2011, soulforce medicine constellation was conducted for a lady from Guangzhou, who had hyperplasia of mammary glands for 20 years and hand ache

and foot ache. The soulforce medicine constellation showed that the lady had eight abortions, and the eight babies' souls possessed her and hit her, and she was hit on all her body except one arm. She admitted that she had eight abortions and was almost paralytic for a period of time, and only one arm could move. The soulforce medicine constellation showed those clearly, including the toothache. In addition, the soulforce medicine constellation showed three children miscarried automatically, the party recognized it is a fact.

She did not think that abortion could cause disease. After the soulforce medicine constellation showed her the scene, she apologized till crying bitterly. After the reconciliation, the babies' souls finally rested. In the soulforce medicine constellation, she received a mission, propagandize "protect life and appose abortion". After she went back, within one week, her ache disappeared, and her face muscle relaxed. She looked completely another person, she had a benignant look and looked very pretty. Before that, she had intense face muscle and looked frightened. This is case 112 of the soulforce medicine constellation.

Of course, after receiving the mission, she shall do it after going back. If she does not do it, the disease cannot be cured, or will relapse.

On April 2, that same lady from Guangzhou conducted soulforce medicine constellation for the inharmonious relationship between the couple. She was surprised to find that even the snore and breath pause of her husband are exactly the same as the reality. His husband's nose was pinched by the baby's soul of abortion, which caused the snore and breath pause of his husband. Through the

soulforce medicine constellation, it was known that the inharmonious relationship between the couple was also caused by the revenge of the baby's soul of abortion. The baby's soul had always been in between the couple, making their relationship inharmonious. The baby's soul possessed a woman, made her become the third party of the family, so as to revenge the couple. So both the inharmonious relationship between the couple and the arrival of the third party have cause and retribution. This is case 123 of the soulforce medicine constellation.

Later, that lady brought her friends coming back from the U.S. The brothers came on May 8 to have soulforce medicine constellation conducted for their mother's lumbar pain and foot bone necrosis. The soulforce medicine constellation showed that their mother induced abortion for a girl. That unrested soul came to revenge. She already brought their father away, and then she wanted to bring their mother away, so their mother had lumbar pain and foot bone necrosis. She also decided to bring away the brothers after bringing their mother away.

At first, the brothers denied that their mother induced abortion for a girl. Later, they called their mother, and their mother admitted that really happened, completely matching the reality. Their father really died of lymph cancer in 2007, and had been hospitalized for 10 years before that due to lymph cancer. The misfortunes happened in the family were all caused by their sister of abortion. After they apologized and met the requirements of their sister, her soul rested. This is case 165 of the soulforce medicine constellation.

6. Hystero carcinoma of the younger sister in Britain was caused by the baby's soul of abortion and soul of the turkey killed possessing her

On August 14, 2011, soulforce medicine constellation was conducted for a patient in Britain who had hystero carcinoma. The patient was in Britain and did not come, and her elder sister in China had it done. The soulforce medicine constellation showed that the hystero carcinoma was caused by a baby's soul of her abortion and soul of the turkey killed possessing her. After the sister apologized to the baby's soul and the turkey's soul, the baby's soul and the turkey's soul left and rested. Actually, the younger sister opened a restaurant in Britain, and the restaurant killed turkeys. 15 days after the soulforce medicine constellation, the patient went to the hospital to have examination, and cancer cell could not be found. In January 2012, she had an examination in the hospital again, and cancer cell could not be found. Till now, cancer cell was not found again. During this period, no drug was used, and only Quantum Resonance Information Water was used to correct the frequency. This is case 244 of the soulforce medicine constellation.

The same patient had cephalagra for 20 years, and soulforce medicine constellation was conducted for her on November 20, 2010. At that time, she was in Britain, and her elder sister in China had it done for her. Three days after the soulforce medicine constellation, the cephalagra was obviously relieved, eight days after the soulforce medicine constellation, the cephalagra completely disappeared. This is case 49 of the soulforce medicine constellation.

7. Lumbago of 30 years of a husband was caused by the baby's soul of abortion possessing him

On December 3, 2011, a wife from Jiangyin, Jiangsu conducted soulforce medicine constellation for her husband who had lumbago for 30 years. The soulforce medicine constellation showed that the couple was revenged by a baby's soul of an abortion. The baby's soul twisted the waist of the husband, and that's why he had lumbago for 30 years. And he couldn't work for 30 years.

During the soulforce medicine constellation, the wife apologized to the baby's soul, and after reconciliation, the baby's soul rested. Within one week, the wife fed back that her husband was cured and could go to work. This is case 329 of the soulforce medicine constellation recorded in the book "Soulforce medicine constellation – Declassify Karma and Diseases".

Abortion is serious killing, and the baby's soul has hatred and revenges the mother and the father. If the decision of abortion is made by the father, the baby's soul revenges the father with emphasis, so the father cannot escape. Sometimes, the baby's soul transfers the anger on the brothers and sisters and makes the brothers and sisters sick.

In the major diseases, proportion caused by abortion reaches 18%.

8. Broad transfer of rectal carcinoma of a husband was caused by killing a woman and dismembering her body in the previous life

On March 12, 2011, a wife from Hohhot, Inner Mongolia conducted soulforce medicine constellation for

her husband. After surgical operation for rectal carcinoma, it returned and transferred broadly, and artificial anus was made. The soulforce medicine constellation showed that in the previous life, the couple killed the ex-girlfriend of the husband and dismembered the body. Soul of the killed girl, Xiaocui, possessed the husband, stepped and pinched the lower abdomen of the husband, and made him had rectal carcinoma. During the soulforce medicine constellation, Xiaocui stepped on the private parts of the man and made him losing his sexual function. Actually, catheter was inserted for the man, how could he have sexual function? This is case 98 of the soulforce medicine constellation.

9. Palindromia after two cerebral cancer surgical operations was caused by killing 38 persons in the previous life.

On April 23, 2011, a sister Doctor from Nanning conducted soulforce medicine constellation for her younger brother who had palindromia after two cerebral cancer surgical operations. The younger brother had cerebral cancer from the age of 22 and was preparing for the third surgical operation. The soulforce medicine constellation showed that in the previous life, the younger brother killed 38 persons and that in this life, he looked down upon his mother and said that his mother is a mental patient. The elder sister admitted that the mother was mentally sick from when the younger brother was one year old. Mental disease of the mother was caused by the younger brother too. Souls of those killed people followed to this life, made the mother gave birth to this younger brother, and the mother was

mentally ill.

Killing persons is the most serious killing living beings. If the killing persons is serious, generally it is more ominous than propitious. Kuwei Zhongzheng said on the spot that 38 persons came to demand repayment, he could hardly survive. After the soulforce medicine constellation, although he got better, finally he was killed by the souls. This is case 144 of the soulforce medicine constellation.

Therefore, it is reasonable that the first article in the five monastic disciplines and ten merits in Buddhism is not killing living beings.

A conclusion was drew from the summary of the soulforce medicine constellation: major diseases caused by killing living beings account for 40%. Killing living beings includes killing persons, abortion and killing animals, in the previous life and in this life. The abortion accounted for 18%, killing animals accounted for 14%, and the others are caused by killing persons.

10. Mental disease of 12 years was caused by Yang Kwei Fei possessing her body

On March 5, 2011, we conducted soulforce medicine constellation for a mental disease patient from Dafeng, Jiangsu. The patient was 36, female, and had been sick for 12 years. She had numerous medicines but could not get cured, so she came to have soulforce medicine constellation conducted.

The soulforce medicine constellation showed a complete history of “Rebellion of An and Shi”. Yang Kwei Fei was treated unjustly and was the scapegoat. Her soul

possessed the later generation and hoped that the history could be corrected.

After the event, her family member said that no wonder she had thick cosmetics coated on her face after she was mentally ill and made others feeling nasty, that was because Yang Kwei Fei possessed her. After the soulforce medicine constellation, the cosmetics on her face was thinner, and soon, she did not have cosmetics coated on her face any more. After that, the lady's mental disease was cured.

She married to a man with very good economic condition on January 8, 2012. This is case 92 of the soulforce medicine constellation recorded in the book "Soulforce medicine constellation – Declassify Diseases and History".

11. Pan Jinlian possessed a young fellow, and a pubescent female tiger possessed Pan Jinlian

On June 5, 2011, I conducted soulforce medicine constellation for a patient from Chongqing, who was bitten by a dog, and after injection of rabies vaccine, he felt wandering stabbing pain in his body and discomfort in his throat. The patient was more than twenty years old. The soulforce medicine constellation showed that Pan Jinlian possessed him.

The details shown by the soulforce medicine constellation are as follows: Wu Song killed a pubescent female tiger, and the tiger's soul possessed Pan Jinlian, making her sexual desire vigorous. The tiger killed Wu Dalang with the hand of Pan Jinlian to revenge Wu Song. This is a complete retributive justice. Why didn't the tiger

possess Wu Song? The soulforce medicine constellation showed that Wu Song had enough Yangqi, the tiger could not enter him and could only enter Pan Jinlian, and killed Wu Song's elder brother Wu Dalang with the hand of Pan Jinlian. Here, Pan Jinlian is a victim, so she possessed the later generation to voice grievances.

The young man admitted that the scene in the soulforce medicine constellation is completely the same as the reality. The young man had spermatorrhea every night for many years and could not get it cured. After the soulforce medicine constellation, it was promised to voice grievances for Pan Jinlian, and Pan Jinlian's soul rested. The young man was cured. From this, we can see that in the history, there really were Wu Song killing tiger as hero and the existence of Pan Jinlian, but the author of Shuihu did not know the retributive justice and wrote Pan Jinlian as a dissolute woman. Pan Jinlian was treated unjustly and possessed the later generation, hoping to correct the history. This is case 186 of the soulforce medicine constellation.

On the same day, on June 5, 2011, we conducted soulforce medicine constellation for “declassifying the mystery of Terra-Cotta Warriors of the Qin Dynasty”, and found that many parts of the Qin history were wrong. More than 2,000 years passed, the soul of Qin Shi Huang's mother did not rest and possessed the later generation, hoping to correct the history. This is case 188 of the soulforce medicine constellation.

12. Cerebellar atrophy of a mother was caused by singing The East is Red.

On November 12, 2011, I conducted soulforce medicine constellation for a patient from Haikou who had cerebellar atrophy for three years, and her daughter did it for her. The soulforce medicine constellation showed that an old man from North Shanxi used his scarf to bind the head of the patient till cerebellar atrophy. Why did he bind her head? Because the patient liked to sing The East is Red. Original lyric of the song is “There comes out a Liu Zhidan in North Shanxi” instead of “there comes out a Mao Zedong in China”. The history was altered, so the soul of the old man did not rest and bind the head of the patient till cerebellar atrophy who liked to sing The East is Red. The party admitted her mother was in the performing arts propaganda team during the Cultural Revolution and always liked to sing The East Is Red. The daughter apologized to the old man on behalf of her mother and sang the correct lyric “There comes out a Liu Zhidan in North Shanxi”. So the old man did not bind the patient’s head any more and rested. Soon after that, the patient was cured. The patient did not come to the spot and the daughter did not tell her mother about the soulforce medicine constellation. After the daughter went back home, she found that her mother did not sing The East is Red any more. This is case 311 of the soulforce medicine constellation.

On page 11 of soulforce medicine constellation– Seeing Karma through Diseases, we mentioned history disease. History diseases account for 40% of the diseases. Because the historic figures were written wrong, their souls could not

rest and possessed the later generations and hoped that the later generations could correct the wrong history until it is corrected. The forgery caused history diseases. In the early years, the souls possessed the forger and their offspring. If it is a long time ago, the souls possessed the related persons. Sometimes, it is very difficult to find the actual reason for why the souls possess the patient. The history disease is caused by common causal.

13. “Hepatitis B virus carrier for more than 20 years and hepatitis B of three generations of the family” was caused by not worshipping the first five generations of ancestors when worshipping the ancestors

On July 3, 2011, I conducted soulforce medicine constellation for a patient from Wenzhou who was a hepatitis B virus carrier and whose family had three generations of hepatitis B. The soulforce medicine constellation showed that when they worshipped ancestors, they did not worship the first five generations of ancestors, so the ancestors of the first five generations came to step on the livers of the last three generations. The patient admitted that when her family worshipped the ancestors, they only worshipped four generations, and the first five generations were not worshipped. Because the four generations moved from other place, they were not clear about the first five generations, so they did not worship them. That caused dissatisfaction of the first five ancestors, and they came to step on the livers of the last three generations. This is case 211 of the soulforce medicine constellation.

The party also saw other five cases of soulforce

medicine constellation on the spot and understood retributive justice. After she went back, she fed back that her family was running a drug store, but through soulforce medicine constellation, she knew that “diseases are caused by retributive justice” and could not be solved by drugs. Therefore, she reduced the scale of her drug store, but made porridge at the drug store every morning and provided it for the passers-by at the entrance to eat for free, so as to accumulate virtue. As to operation of the drug store, she just let it be.

14. “The family having three generations of intestinal polyp” was caused by the tombs of the ancestors of the first four generations being broken

On August 20, 2011, I conducted soulforce medicine constellation for a patient whose family had three generations of intestinal polyp. The soulforce medicine constellation showed that tombs of the ancestors of the first four generations were broken, and there is a character “dragon” in the name of the ancestor. As the tombs were broken and the offspring did not worship the ancestors, the souls of the ancestors did not rest and made the last three generations had intestinal polyp.

After the soulforce medicine constellation was finished, the patient went back to check, among his ancestors, there was really a person whose name carried the character “dragon”, and the tombs were really broken. This is case 246 of the soulforce medicine constellation.

The offspring did not worship the ancestors or the tombs were broken, the souls of the ancestors did not

rest and possessed the offsprings to remind them to go to worship the ancestors or repair the tombs. If it is done well, the souls are rested, and leave the offspring, the diseases will be cured. If it is not disposed, the souls possess several generations of the family and make them ill. Soulforce medicine constellation show that 10% of the diseases are caused by damage of the ancestors' tombs, and more proportion is caused by not worshipping the ancestors.

From the above two cases, we can know that the family inherited diseases mentioned in the Western medicine are actually the common problems encountered in the family that were not solved well. Through conducting soulforce medicine constellation for one person, after the problem is found and handled, the ancestor rests, and problem of everyone in the family is solved, all diseases are cured. This case is recorded in the book “Soulforce medicine constellation – Declassify Karma and Diseases”.

15. Epilepsia of a daughter was caused by not worshipping the ancestors, abortion, killing animals and aliens possessing her

On October 15, 2011, a 70-year-old granny from Shanghai brought her 46-year-old daughter to conduct soulforce medicine constellation for epilepsy, who has abnormal thinking and abnormal emotion and has epilepsy from childhood. The soulforce medicine constellation showed that she forgot her dead grandfather and aunt, and mother had abortion, killed animals and her ancestral grave was broken etc. This is case 287 of the soulforce medicine constellation.

After going back, the granny called Kuwei Zhongzheng, saying that her daughter was better but the disease still came on. Before the soulforce medicine constellation, when the disease came on, there is the odor of man and animals. After the first soulforce medicine constellation, odor of the man disappeared, but the odor of animals still existed though much lighter. She said that her daughter's diseases were very complicated and she could not explain it clearly in the phone call. She said that she would write a letter to me and hoped to continue conducting soulforce medicine constellation. After I received the letter, I knew that her daughter had epilepsy breaking out every night from when she was young, and could not get it cured after seeking medical help. I agreed to continue conducting soulforce medicine constellation for them. They settled in Shenzhen, and reserved ten soulforce medicine constellation. The soulforce medicine constellation showed that the Martians were acting on earth, influencing the daughter and her mother.

From childhood, the daughter's epilepsy came on each night. Through the soulforce medicine constellation, it was found that the daughter had two souls, one is of a person from the earth, and the other is of a person from the Mars. The soul of the Martian existed from when she was young. Because two souls existed, and their frequencies were not consistent, it was like two doors existed. The door could not be closed, and many souls possessed the daughter. Previously, it was found that the predecessors' souls was on the daughter's body. Souls of the animals killed by the party possessed the daughter. The ancestors' tombs was damaged,

and the ancestors' souls also possessed her. In the later soulforce medicine constellation, it was found that many souls of the dead people near Shanghai Longhua Crematory also possessed her, including those in the Sino-Japan War, in the War between the Kuomintang and the Communist Party, and even in the Qing Dynasty. In addition, in the soulforce medicine constellation, it was found that Martians were around and in her home. The daughter was continuously interfered by the Martians. There is a group of Martians around her, following her like a medical research team. The Martians continuously examined her body just like doctors conducting scientific research. When they touched her body, she struggled, sometimes used her arms to knock at those Martians or animals, or rolled about to escape, which looked like epilepsia coming on. The mother admitted that the scene was exactly the same as when her daughter's disease came on. The mother said that when the disease came on, her daughter would take off her clothes and trousers. The soulforce medicine constellation showed that her clothes and trousers were taken off, and it was the Martians who took off her clothes and trousers to examine her body. Her eyes upturned because the Martians opened her eyelid to check her pupil.

The Martians treated like doing anatomy or examining body, but our eyes could not see the Martians. In the soulforce medicine constellation, the souls of the Martians was made returned to the Mars through time and space tunnel and left the body of the daughter.

The soulforce medicine constellation showed that other Martians possessed the daughter. It was surprising to

have found that the Martians created a lot of animals on the daughter's body, and those animals farted. Therefore, the mother said that when her daughter's epilepsy came on, there was odor of animals. Odor of the animals was all over the spot of the soulforce medicine constellation. After the soulforce medicine constellation, when the mother and the daughter went back to their room, the room was also full of the odor of the animals when the door was opened. But when they left the room in the morning, there was no longer odor of the animals. After that, there was no odor of the animals any more.

Later, when soulforce medicine constellation was conducted for other problems, odor of metal appeared on the spot later, metal giant transformer appeared. In the later soulforce medicine constellation, the transformer was melted, and it was full of the odor of metal.

Through the soulforce medicine constellation, it was found that the animals and intelligent animals created by the Martians did not have soul, just body. Therefore, they must borrow the soul of the daughter. In the other cases, the external souls possessed the patients. In this case, there was not only many external souls, but also many creature substances created by the Martians in the patient's body. Because they did not have soul, they borrowed the soul of the patient. This was the first time that this case was found.

In addition, through the soulforce medicine constellation, it was found that science and technology on Mars was only 50 years more advanced than the science and technology on earth, and their medical science only remained in the stage of anatomy and cutting. In addition,

a very serious problem was found: man-made animals do not have soul, just body, and they must borrow the souls of other living beings and make the other living beings influenced. Such as sheep Dolly, it only had body, no soul. They borrowed the soul of the patient spanning time and space.

In addition, through the soulforce medicine constellation, it was found that when the souls enter and exit the body of the daughter, there is no damage visible on the body surface. However, for the condition that the creatures and intelligent creatures created by the Martians borrow the soul of the daughter, when the soulforce medicine constellation requested the external substances to leave the body of the daughter, there was visible damage on the body surface. After the soulforce medicine constellation, a small red block appeared on the skin, which disappeared after a week. The soulforce medicine constellation showed that the worm without soul possessed the daughter to borrow soul. That was the first time that the condition of substance borrowing soul was found. It was also the first time that red block appearing after the soulforce medicine constellation was found. At that time, it was considered that it was caused by the animal substance breaking the body surface when exiting from the body of the daughter.

Later, soulforce medicine constellation was conducted again, and giant transformer appeared, which broke the head of the daughter. The two times are matching, and it was the substance exiting the body and damaging the body surface. For the other soulforce medicine constellation, it was souls entering and exiting the body. Soul is not substance, so we

did not see damage on the body surface.

It seems that transformers were not compiled by people at will, and it was those whose heavenly eyes were opened who saw them and recorded them.

These soulforce medicine constellation disclosed that man-made animals only have body but no soul, and they must borrow the souls of other living beings (animals or human beings). Making animals is a very dangerous behavior, which will make people ill unconsciously, and it is not just violating the ethics.

The mother was also influenced by the Martians, but the influence was much slighter than that for the daughter.

The soulforce medicine constellation of the mother and the daughter were like TV series, and they disclosed the secrets of many alien beings. Concretely, they are case 287, 310, 312, 313, 322, 324, 325, 334, 337 and 347. In these cases, case 322 is only related to the mother, case 287 is the mother influencing the daughter, and the rest are caused by the mother and the daughter jointly encountering Martians.

Alien beings sometimes let a person to transfer message, but the person could not crack the message, then the person will be ill, and until the message is cracked and transferred, the illness will be cured. Soulforce medicine constellation assist the patients to crack these messages.

In the first 351 cases of soulforce medicine constellation, 19 cases are related to alien beings.

In the soulforce medicine constellation, I also knew that the technology of Mars was only 50 years more advanced than the technology on earth. In addition, in the soulforce medicine constellation, I knew that there were

two earths, one material earth and one consciousness earth, which are connected in the shape of “8”. There is node connecting between the two earths. Sometimes, a plane or ship suddenly disappeared and appeared again, that is because that it entered the time and space tunnel and entered the consciousness earth. Then after tens of years, it entered the material earth through the time and space tunnel and through the node. Therefore, the lost plane or ship appeared again.

In addition, in the soulforce medicine constellation, Atlantis appeared.

About the civilization of Atlantis and two earths, what the soulforce medicine constellation showed is similar to what Rodulf Steiner said in Anthroposophy.

What the soulforce medicine constellation showed are consistent with the descriptions of many subjects, and is helpful for the people to understand what were described in the heavenly books recorded by many historical strange people, which were actually messages from the 4D space.

The soulforce medicine constellation also showed the method of manufacturing flying saucers.

16. Senile dementia of a mother was caused by shipwreck

A doctor from Shenzhen Hospital of Peking University had allergic rhinitis for 24 years, which was not cured even after operation. After she came to have soulforce medicine constellation conducted on December 12, 2010, her rhinitis was cured. This is case 59 of the soulforce medicine constellation.

Later, she came on January 9, 2011 to have soulforce medicine constellation conducted for her mother's senile dementia. The soulforce medicine constellation showed a shipwreck, and there was person drown in the shipwreck. However, she did not know who in her family had shipwreck. After she went back, she searched for a long time, and knew that the son of her uncle had a shipwreck. Because her uncle was adopted, and they were not in the same city, they had few communications. The more important reason was that the shipwreck happened in 1973, near Taiwan, and Kuomintang saved the ship and helped to return it back to the Mainland. 1973 was the year during the Cultural Revolution, and if this was mentioned, they may be labeled as contacting Kuomintang. Therefore, this incident was concealed.

The incident was concealed and the dead person was forgotten, so the soul of the dead person possessed her mother, and she had senile dementia. It was the soul of the dead person that reminded the people to remember the thing and commemorate him.

The soulforce medicine constellation disclosed the incident of Kuomintang saving people in 1973, and soon after that, the senile dementia of more than ten years of her mother was cured. This is case 71 of the soulforce medicine constellation.

17. Amenorrhea of the daughter studying in Britain was caused by mistake of historical record and forgetting the old great-grandfather

A doctor from the Psychiatry Dept of a provincial

hospital of Jiangsu introduced a woman with amenorrhea for eight years for soulforce medicine constellation treatment, and the doctor accompanies the party to come to the spot of soulforce medicine constellation.

The woman was 21 years old, since having menses when she was 13 years old, she had amenorrhea after three to four menses. She did not have menses after treatment of eight years. Then she was studying in Britain, and she did not get it cured abroad.

On March 6, 2011. her mother came to have soulforce medicine constellation conducted for her daughter, which showed that Sun Yisen mistakenly wounded a civilian when attacking Guangzhou. The civilian was wounded on the belly, and had a knot made. This was what happened in the previous life of the patient. In this life, she had amenorrhea, which reminded that the historical record about attacking Guangzhou had mistake.

The day after the soulforce medicine constellation, basal body temperature of the daughter in Britain rose. 19 days later, under the condition that no drug was used, menses came. That was the first time that the menses came after treatment of eight years.

In the soulforce medicine constellation, it was also shown that the great-grandfather of the party was a senior bodyguard of Sun Yisen, a lieutenant general. After coming back to Wuxi, the mother found the author of the History of the Generals of the Republic of China, and found the data of her great-grandfather, matching the soulforce medicine constellation. In the soulforce medicine constellation, mistakes of the records of some major historical events

were also shown, and many things that the outsiders did not know about Sun Yisen, Chiang Kai Shek and Chen Jiongming were known for the first time. This is case 95 of the soulforce medicine constellation.

After the soulforce medicine constellation, the party went back to Wuxi to check her liver function. Originally, she had three positives for her hepatitis B, then it became two positives. Seeing the improvement, she came to have soulforce medicine constellation conducted for her hepatitis B on April 10. It was shown that hepatitis B was related to her eating snakes and killing living beings. This is case 133 of the soulforce medicine constellation.

One day before that, on April 10, soulforce medicine constellation was conducted for the nearsightedness of her daughter in Britain. Through the soulforce medicine constellation, it was shown that the history of the emperor of the Southern Tang Dynasty Li Yu was wrong written, which caused the nearsightedness of her daughter. After the soulforce medicine constellation, her daughter's nearsightedness improved, and even her black rim of eye disappeared. This is case 128 of the soulforce medicine constellation.

18. Schizophrenia of 30 years of the second elder sister was caused by the soul of the battle companion of her father in the Korean War possessing her

A lady from Guangzhou had soulforce medicine constellation conducted for her second elder sister, who had schizophrenia for 30 years and could not get it cured. Her elder sister did not come to spot, and no clue was provided.

Through the soulforce medicine constellation, it was shown that the cause for the schizophrenia of her second elder sister was that her father prepared to go to the battlefield in Korea when he was young, but later he was transferred to Beijing temporarily to learn sending telegram. After he finished his study, the Korean War ended. Many of his battle companions died in Korea and did not come back. Her father felt sorry that he did not go to the battlefield in Korea, and his battle companions died. The message of contradiction of whether going to the battlefield or learning sending telegram fell on the body of his daughter. At the same time, because the father did not commemorate his battle companions, the soul of the father's battle companion possessed the daughter, and the daughter had schizophrenia. After that, the party said that her second elder sister kept on saying that she was the daughter of Yang Dezhi when her disease came on, and Yang Dezhi was the deputy commander in chief of the Korean War. These details are matching.

In the soulforce medicine constellation, it was also shown that her mother induced abortion for a baby, and the baby's soul possessed the second elder sister. What was shown was exactly the same as the reality. The party originally only knew that her father was a soldier. This period of history related to the Korean War was disclosed in the soulforce medicine constellation. Soon after the soulforce medicine constellation, her second elder sister's schizophrenia was cured. This is case 139 of the soulforce medicine constellation.

19. Nanking Massacre in 1937 and the National Calamity Day of China on August 17, 1945 caused many diseases.

On December 17, 2011, I conducted soulforce medicine constellation for a patient from Chongqing who had depression for seven years. Not more than two minutes after the soulforce medicine constellation started, I saw that the Japanese bombers were dropping bombs. Just as I spoke it out, the patient cried. She said that the dream that she had from when she was young was Japanese bombers dropping bombs. The soulforce medicine constellation showed Nanking Massacre and that 347,634 people were killed in the Massacre. The sadder thing was that Mao, Zhou, Zhu and Jiang did not commemorate and the souls did not rest after more than 70 years. At the same time, the souls of those died in the Cross River Campaign did not rest. Because the bones of the Japanese soldiers died in the battle in China were not disposed well and their souls did not rest, they possessed the living persons in China, making the Chinese people ill. In the soulforce medicine constellation treatment, because the topics on the Yasukuni Shrine and the Memorial Towers were involved and there are political taboos, it was avoided, and that case could not get complete reconciliation. That is case 341 of the soulforce medicine constellation

Ever since that case of soulforce medicine constellation, I lost sleep completely. On December 25, 2011, I conducted soulforce medicine constellation for my serious insomnia. The soulforce medicine constellation showed the souls of those who died in Nanking Massacre and Cross River Campaign, and 370,000 souls asked me to voice

grievances.....At the same time, souls of the Japanese soldiers dies in the battle in China did not rest and their bones were remained in China. Because they did not have the Memorial Towers to go to, they could only possess living persons. They wished Kuwei Zhongzheng to inform the related governments to dispose and made Kuwei Zhongzheng completely insomnic. This case of soulforce medicine constellation made part of the souls rested. This is case 350 of the soulforce medicine constellation.

On January 27, 2012, Kuwei Zhongzheng went to Japan specially, and informed the Japanese government and Kuomintang government for the souls. Kuwei Zhongzheng asked his Japanese adoptive mother to write (stated by Kuwei Zhongzheng) a letter to the Japanese Mikado, reflecting that the Chinese killed in Nanking Massacre were 347,634 persons, and 5% of the major diseases was caused by the war of invading China initiated by Japan. Bones of the dead Japanese soldiers were remained in China, and their souls did not rest. He hoped that the Japanese government could handle it. The letter was sent on February 1 in Japan, and the Japanese Mikado went to the hospital to have heart examination on February 11, and had heart operation on February 18.

On February 18, 2012, Kuwei Zhongzheng had soulforce medicine constellation conducted for his adoptive mother, who had hypertension for nearly two months. Nanking Massacre was shown. Part of the souls of the Japanese soldiers who stayed in China came back to Japan, notifying the souls of the Japanese civilians who were killed in Japan by the American bombers that Kuwei Zhongzheng

could communicate with the souls and could inform the Japanese government. So the souls of the Japanese civilians who were killed in Japan by the American bombers requested the Japanese adoptive mother of Kuwei Zhongzheng to find Kuwei Zhongzheng to transfer words to the Japanese government. The souls surrounded the adoptive mother, making her had hypertension for nearly two months. After Kuwei Zhongzheng sent the letter to the Japanese Mikado on February 1, the souls left the adoptive mother and press on the body of the Japanese Mikado, so the Japanese Mikado had heart disease. On february 11, hospital examination proved he had problem with his heart, and on February 18, the Japanese Mikado had heart operation.

Hypertension of the Japanese adoptive mother of Kuwei Zhongzheng was caused by the souls, who wanted to find Kuwei Zhongzheng to transfer the message to the Japanese government that the souls of the Japanese civilians killed by the American bombers did not rest through the Japanese adoptive mother of Kuwei Zhongzheng, hoping that the Japanese government could commemorate them. After the soulforce medicine constellation treatment, hypertension of the adoptive mother disappeared. At the same time of the soulforce medicine constellation treatment, the Japanese Mikado had heart operation in Tokyo. This is case 358 of the soulforce medicine constellation treatment .

Actually, the Japanese Mikado did not need to have the operation. As long as he made the souls pressing on his heart rested, his heart disease would be cured, and that was the root.

In the soulforce medicine constellation treatment, it was shown at the same time that the previous life of Kuwei Zhongzheng was in Japan, and his mother in his previous life was the Japanese adoptive mother in this life, and they are the same person. The Japanese mother in Kuwei Zhongzheng's previous life and his Chinese mother in this life are both alive, and they have 12 years' difference in age. This is case of previous life and this life in reality.

On February 26, 2012, a daughter had soulforce medicine constellation treatment conducted for her father's lung cancer. It was shown that after the U.S. threw atomic bombs to Hiroshima and Nagasaki in Japan on August 6 and 9, 1945, on August 17, the radioactive pollutants floated to China. In the later ten years, number of dead people in China exceeded the number of dead people in Japan, and almost each family had person passing away. However, common people did not know that it was caused by the radioactive pollutants of the explosion of the atomic bomb, and they just thought that it was because of pestilence. When China had the smallest population, it was only 0.4 billion. Looking back and think, it was such, people often died for no reason during the war between the Kuomintang and the Communist Party and in the early stage after the People's Republic of China, and that was caused by the radioactive pollutants of the explosion of the atomic bomb thrown by the U.S.. Let's look at the map, Nagasaki is in the west coast of Japan, nearest to China, and the U.S. threw atomic bomb to Nagasaki, the biggest victim was finally China. When China was celebrating for the surrender of Japan, nobody knew that the disaster of the atomic bomb

came to China. After that, nobody knew it, and it is the soulforce medicine constellation that disclosed it. Through the soulforce medicine constellation, it was shown that August 17, 1945 is the National Calamity Day of China. This is case 369 of the soulforce medicine constellation.

During the period of the Pure Brightness Festival, Kuwei Zhongzheng led the team of soulforce medicine constellation to worship the 347,634 Chinese people and more than one million animals killed in the Nanking Massacre in Nanjing.

On April 14, 2012, Kuwei Zhongzheng conducted soulforce medicine constellation for his own “eye pain, swelling and photophobia of nearly one month”. Through the soulforce medicine constellation, it was shown that after Kuwei Zhongzheng found that 347,634 Chinese people were killed in the Nanking Massacre, he was too sad. He used his own strength to try to change the situation, disclosed the heavenly secret, and was involved in the karma of others. Through the soulforce medicine constellation, it was shown that war etc. also has karma. Looking in the short term, some countries suffer losses, but looking in the long term, the historical events also have karma. It reminds us that soulforce medicine constellation only shows the karma, but we shall not be involved in the karma of others. After the soulforce medicine constellation, the eyes of Kuwei zhongzheng were no longer painful and swollen, and were no longer photophobic. This is case 382 of the soulforce medicine constellation.

20. High incidence of liver cancer in Qidong, Jiangsu and high incidence of digestive tract cancer in Yangzhong were caused by the unrested souls of those dead in the Cross River Campaign

On March 11, 2012, soulforce medicine constellation was conducted for the stomach cancer of a grandmother of more than one month, and high incidence of liver cancer in Qidong, Jiangsu and high incidence of digestive tract cancer in Yangzhong, Jiangsu were shown. They were all caused by the corpses in the Cross River Campaign in 1949 floating in the Yangtze River and not being taken out, and the unrested souls possessing living persons. It was shown that during the Cross River Campaign, 83,452 corpses floated in the Yangtze River down Jiangyin, and there were 43,520 corpses drifted out of the Yangtze River, taken out parts, Others were not taken out of the water and floated in the Yangtze River between Chongming Island and Qidong, Jiangsu. The Chongqi Bridge (bridge from Chongming, Shanghai to Qidong, Jiangsu) under construction in recent years agitated these souls. Opening to traffic ceremony of Chongqi Bridge was held on December 24, 2011, and stomach cancer of the grandmother of the party was found around the Spring Festival of 2012 (Spring Festival of 2012 was January 23), the time points were matching. Through the soulforce medicine constellation, it was shown that grandfather of the party took the corpses out of the water for the Cross River Campaign. After that, father of the party confirmed that the grandfather really lifted the stretcher to take the corpses out of the water. A brother of the grandfather participated in the Cross River Campaign, and his corpse was not found. This

is case 375 of the soulforce medicine constellation.

On March 17, 2012, soulforce medicine constellation was conducted for a lady who always smelled formaldehyde of housing decoration wherever she moved her house to. Through the formaldehyde, it was shown that the corpse of a crocodile killed in Yangzhong in the Cross River Campaign floated to Qidong Inner River of Jiangsu, and the grandfather of the party dug the corpse of the crocodile in the river dike when taking earth to build house. Her grandfather died when she was four years old. Then the soul of the crocodile always followed the party wherever she went, and the formaldehyde smell said by the party was actually the smell of the crocodile soul. After the soulforce medicine constellation, the formaldehyde smell disappeared. This is case 376 of the soulforce medicine constellation.

On the same day, on March 17, 2012, soulforce medicine constellation was conducted for a person from Shanghai who had pain in the shoulder and neck and runny nose. It was shown that construction of the Chongqi Bridge agitated the souls of the Cross River Campaign and some souls on the Chongming Island. After the soulforce medicine constellation, the party did not have runny nose and pain in the shoulder disappeared. This is case 377 of the soulforce medicine constellation.

For the soulforce medicine constellation of case 375, 376 and 377, the Cross River Campaign was shown and it was shown that the souls of the Cross River Campaign were agitated by the construction of Chongqi Bridge, which was very rare. Therefore, our team of soulforce medicine constellation specially went to Nanjing to worship all

those who dies in the Cross River Campaign from April 1 to April 3. After that, Kuwei Zhongzheng specially went to the related departments of Qidong to reflect the above conditions, hoping to build a monument for all those who died in the Cross River Campaign near Chongqi Bridge to make the souls rested.

The party of case 377 specially went to Nanjing and Chongming Island to worship the souls of the Cross River Campaign during the Pure Brightness Festival.

Why are the diseases in Qidong, Jiangsu and Yangzhong, Jiangsu different though they were all caused by the Cross River Campaign? Through the soulforce medicine constellation, it was shown that up Yangzhong, soldiers participated in the Cross River Campaign, and the corpses floating to Yangzhong Island were the corpses of the soldiers. While down Jiangyin, the corpses in the Yangtze River were mainly the corpses of civilians. Their livers and galls were in perfect sympathy with the Communist army's, but their corpses were not well collected and floated around the Chongming Island and Qidong. People forgot them and their souls did not rest. So they possessed many people in Qidong, reminding them “sympathy of livers and galls”, and so there was high incidence of liver cancer. The soulforce medicine constellation cracked these, reminding the people to commemorate the dead, otherwise the unrested souls would possess the living persons.

For the above diseases caused by not disposing the bones of Nanking Massacre and the Japanese soldiers and high incidence of cancer in Qidong and Yangzhong, Jiangsu caused by the unrested souls of the Cross River Campaign,

Kuwei Zhongzheng wrote a letter to the World Health Organization on March 24, 2012, reporting the above conditions and hoping to arouse emphasis.

According to the categories of the disease causes, some cases are introduced selectively above, and it is found that each disease has its explicit cause.

Chapter 2 Follow the Result to Find the Causes

21. She wanted to commit suicide and was timid from when she was young (dissociated personality, schizophrenia), and she was a Communist working undercover in the Kuomintang in her previous life

On the morning of October 30, 2010, soulforce medicine constellation was conducted for a lady, who wanted to commit suicide and was timid from when she was young. The party said that she always wanted to commit suicide, was timid, and her usual dressing and looks were like a man's. During the soulforce medicine constellation, the Eighth Route Army, spy system organized by the Military Commission of the KMT Government, tracking, the Kuomintang secret service, firing and assassination appeared, and revenge appeared continuously. It was shown that in the previous life of the party, she was a Communist working undercover in the Kuomintang, but as time came by, she became a friend with the Kuomintang. In the revenges, the friends of the party in the Communist Party and in Kuomintang were assassinated one after another. So the party always wanted to commit suicide and was timid.

City attacking campaign of the Communist Party appeared, and the two parties of the campaign had high and low officials, but the rankings of the high officials were very high. Later, the representative of the Communist Party finished the task, made great efforts and sacrifice, and the

person who sacrificed finally said, “we finally finish the task”. The sacrificed persons required the living persons to send wreaths, and requested the living leaders to say “we will remember you”, and they rested after a long time. During the period, a coward automatically quitted. That was the previous life of the party. The party in the previous life said to the party representative, “you shall live well, and never commit suicide”, and asked the party to “dress up prettily, and become a pretty woman”.

After this case of soulforce medicine constellation ended, we had lunch. During the lunch, the party suddenly said that she just called her elder brother who was six years older than her, asking if the former generation of her family had high officials of Kuomintang and the Communist Party. Her elder brother answered “yes”. The party herself remembered that her elder brother talked about this many years ago, but she did not listen to it. She called her brother at noon today, her elder brother proved it, and said that for more details, they shall ask their father. Later, they called their father, who said that in their family, there were high officials of Kuomintang and high officials of the Communist Party. At that time, the officials of the Communist Party dispatched Guo Moruo to try to persuade the officials of Kuomintang to surrender. But as shown in the soulforce medicine constellation, the officials of Kuomintang were very loyal to the spy system organized by the Military Commission of the KMT Government, and Guo Moruo was not successful in the persuading. The party herself had dissociated personality, her elder sister had schizophrenia, and her mother had schizophrenia. Originally, the party

came to treat schizophrenia of her elder sister, and I suggested her to solve her own problems firstly. Finally, the party chose to treat her “wanting to commit suicide and being timid”. For the dissociated personality problem of the party herself, she invited psychodrama tutor from the U.S. to treat before, but it was not solved. Finally, the soulforce medicine constellation showed the interwinement with Kuomintang and the Communist Party. In fact, because there were both high officials of Kuomintang and high officials of the Communist Party in her family, she did not know which side she shall be loyal to or what to do, so finally dissociated personality and schizophrenia were formed.

After that, it was proved that what was shown on the spot was a war between Kuomintang and the Communist Party happening in Jiangsu and Si County, Anhui.

Later, the party’s father proved that his uncle-in-law was an important member of Kuomintang named Wang Tianru, who was a loyal Kuomintang member. Guo Moruo tried to persuade him to surrender to the Communist Party, but he would rather die than surrender. Her father’s aunt was also a Kuomintang member. The party’s grandfather(father of her mother) was the subordinate of Chen Yi, an old Eighth Route Army man, and three uncles of the party were Eighth Route Army men. Her third uncle (still alive) was a political commissar of the regiment level, and her second uncle was an even higher official (died in the battlefield in Korea). When her father was more than ten years old, the Eighth Route Army attacked Sizhou City (the current hometown of the party, Si County, Anhui), her grandfather,

oldest uncle, second uncle and third uncle participated in the campaign, and the Eighth Route Army won. In the afternoon, it was told to all the audiences, and they were shocked!

After the soulforce medicine constellation, the previous life and this life were known, reconciliation was reached, and the external possessed souls rested.

After the soulforce medicine constellation, the party was like another person. She began to wear pretty clothes, and looked like a woman. She was no longer timid and did not want to commit suicide.

Soon after that, we heard that her elder sisters's schizophrenia was cured automatically. In fact, the predecessors of her father were all high officials of Kuomintang, and the predecessors of her mother were all high officials of the Communist Party. In the campaign, the predecessors of her mother won the predecessors of her father. In her previous life, the Party was a communist working undercover in the Kuomintang, and later she died in the city attacking campaign. Then she reincarnate and came back to her home. However, shall they be loyal to Kuomintang or the Communist Party? and finally the later generation had schizophrenia or dissociated personality. Soulforce medicine constellation was conducted for one person, and after reconciliation, schizophrenia of the whole family was cured. This is case 30 of the soulforce medicine constellation.

Family inherited diseases are actually the common problems encountered in the family that were not solved well. Once the common problems are solved, the diseases

of the whole family will be cured. Therefore, looking from soulforce medicine, there is no family inherited disease problem but common problems encountered in the family that were not solved well, and soulforce medicine constellation can solve them.

In fact, the cases introduced before: 13. “hepatitis B virus carrier for more than 20 years and hepatitis B of three generations of the family was caused by not worshipping the first five generations of ancestors when worshipping the ancestors” and 14. “The family having three generations of intestinal polyp” was caused by the tombs of the ancestors of the first four generations being broken” have the same property.

While 20. “High incidence of liver cancer in Qidong, Jiangsu and high incidence of digestive tract cancer in Yangzhong were caused by the unrested souls of those dead in the Cross River Campaign” is a common problem in a bigger scope.

22. Leukemia and serious amyotrophy were caused by being stocks operator and running casino to entrap people

On November 14, 2010, soulforce medicine constellation was conducted for a case of leukemia and serious amyotrophy. The patient was more than 30 years old. He had a fever in August 2009. In September, he was examined and diagnosed to have myeloblastic leukemia. He had pain all over his body, amyotrophy was so serious that his skin touched his bone, but his thinking was quick. The party did not come, and his parents had the soulforce medicine constellation conducted for him. His parents were

both medical professors, and his father was the Director of the Health Bureau of a District in Guangzhou. After definite diagnosis was made that the son had leukemia, chemotherapy was not adopted.

During the soulforce medicine constellation, the son's representative lied on the ground. He felt many worms were eating into him, his body was almost eaten hollow, and many people beat him and stepped on him. Some representatives stood on his body, and he felt very painful. The parents on the spot said that the places where the representative stepped on were the places where his son felt the most painful on his knee-joint (in fact, many people who could not be seen by our eyes were stepping on his son, and the soulforce medicine constellation restored these invisible things to visible). He had a lot of extravasated blood blocks on his body, some people were cutting him section by section, and some people were cutting off his flesh from his bones, like cutting roasted duck. His parents admitted that the scene shown on the spot was exactly the same as the places where his son felt painful and the expressions of his son. Along with the proceeding of the soulforce medicine constellation, it was shown that he was a “stocks operator”, making a lot of people losing several million RMB. Also he often went to the night clubs, indulged in disgusting orgies of eating and drinking and pass the nights in dicing and cardplaying and other frivolous pastimes. His parents and his friends on the spot proved that it was really like that. During the soulforce medicine constellation, Kuwei Zhongzheng guided the representative of the party and the parents to confess sincerely, and those who cut him stopped.

One person (maybe the representative of his girlfriend) chanted Amitabha for him, and he gradually felt better. He finally entrusted his parents to do good things for him often, and then he could recover gradually. Finally he bid farewell to the boss of the nightclub and no longer did that job.

After that, it was proved that the patient was a stocks operator, later, he ran night club in Dongguan and casino in Hainan. When he ran casino, he made a lot of women losing all their money, and finally they were controlled and had to be prostitutes. Then the party had the retribution of being cut flesh from the 4D space, and his muscles on his legs all disappeared in more than one months, becoming skin wrapping bone. It is said that there is the word “cut flesh” in stocks. He cut the “flesh” of others, finally, he got the retribution, and the muscles on his leg were all cut off, becoming skin wrapping bone.

I received the phone call from the father. he said that when his son drank Quantum Resonance Information Water for the first time, he felt bubbles coming out of his body, and he was choked in his throat, so he dared not to drink. In fact, the above description completely matches what was shown in the soulforce medicine constellation. In the soulforce medicine constellation, it was shown that his son’s body was eaten hollow. If the water contacts the hollow place, the water flows into the small holes, when the air is emitted, bubbles will be generated, including the throat. This also proves that Quantum Resonance Information Water is designed according to the law of 4D space. While when the water of common 3D space is drunk into the body, there is no condition of bubble generation. This explains

3D for 3D and 4D for 4D, and the common water of the 3D space is different from the resonance water of the 4D space. It was a pity that the couple of medical professors understood according to 1D space and could not understand it. later, they did not let their son drink the Quantum Resonance Information Water and just put it near his body.

This case showed a moving “retribution in this generation”, the party did bad things, and he had retribution in this generation. This case is the same as what is described in the Buddhist Scriptures.

This case educated a lot of people on the spot.

After this case of soulforce medicine constellation was finished, I received a phone call from the party’s father. He said that his son was very shocked when hearing what was shown in the soulforce medicine constellation, and asked his father “if the ‘ghosts’ were driven away?” (The father told his son that those who cut his flesh on the spot were “ghosts”). He said that his son believed in the soulforce medicine constellation very much because the symptoms shown were exactly the same as his. He said that his son wanted to see the DVD disc, and asked for the DVD disc from Kuwei Zhongzheng. After Kuwei Zhongzheng mailed the DVD disc to the party’s father, the father did not show the DVD disc to his son, cut off the connection of his son from the external and did not allow external people to visit his son, because the father cheated his son that it was the “ghosts” who were torturing him, but in fact it was the creditors who were cutting the flesh of his son. The son only wanted to drive away the “ghosts” and did not apologize. His father blocked the message, and his son finally lost the

opportunity to apologize and correct mistakes, This is case 44 of the soulforce medicine constellation.

23. Congenital deafness of a three-year-old son was caused by his father stealing a birdcage

On November 14, 2010, a boss couple from Beijing wanted to have soulforce medicine constellation conducted for the “congenital deafness of their three-year-old son”. The deaf son did not come to the spot, and the parents had the soulforce medicine constellation conducted for him.

In the soulforce medicine constellation, parrot and cage were shown, and someone continuously covered the cage. Then the owner of the birdcage was not willing to leave, and asked for the birdcage. Suddenly, a message came to the brain of Kuwei Zhongzheng: “Longzi (deaf)--Longzi (cage)”, “deaf” is related to “cage”, and they have the same pronunciation in Chinese. Kuwei Zhongzheng asked the parents on the spot if they had cage in their home. They said they felt there was a metal cage in their home, but they did not remember if it was still in their home. They called their home and asked their family member to look for the cage, and the cage was found.

The father admitted the cage was stolen. Several years before, when they drive to Chengde, Hebei to play for the first time, he felt the cage was nice and stole it.

After that, the mother told the details. He saw a birdcage hung on the tree, and there was a parrot in it. He saw nobody around, and stole the cage. Firstly, he used travel bag to cover the cage and hid it behind the stone. After he confirmed nobody saw it, he carried it into his car.

Later, the parrot shit a lot in his car, and died on the next day.

Solution, ask the party to return the stolen birdcage as soon as possible and apologize.

On the second day after going back to Beijing, the party returned the birdcage to Chengde.

On November 18, the child's father called, saying that the cage was returned to an old person, and the old person was very glad. On the same day, the child became active and talked more, and confidence of them was strengthened. He said that several generations of his family thanked us.

In this case, “Longzi” (deaf) and “Longzi” (cage) are homophonic. The three-year-old child had congenital deafness, and that was a message transferred from the 4D space, asking them to return the stolen birdcage. After the birdcage was returned, hearing of their son became better immediately. This is case 45 of the soulforce medicine constellation.

On the spot of the soulforce medicine constellation, the couple saw another three cases of retributive justice. After that, everyone of his company from the manager to the employees believed in Buddhism. The boss always educated his employees to do more good things and do no bad things. In his business operation, he did not conduct cut throat competition. All the manager-level staff lived maigre, and printed some pamphlets related to Buddhism to educate the employees to do good things.

24. Inharmonious relationship between the wife and the daughter was caused by the revenge of the unrested baby's soul of abortion

On November 21, 2010, a husband had soulforce medicine constellation conducted for the “inharmonious relationship between his wife and his daughter”. The party said that his wife always quarreled with his daughter, making him very painful.

The soulforce medicine constellation began. Three persons were playing shuttlecock kicking, a male and two females. The male was the party, and the two females were his wife and daughter. This was his family condition, and he shall face the two women.

The soulforce medicine constellation showed that a female representative (in the soulforce medicine constellation, most of the people on the spot were like actors and actresses, automatically representing a role and expressing the role, and we call them “representatives”) was eating pig's feet and licking her fingers. After identification of the party, she was the grandfather of the party, the male represented his grandmother and the female represented his grandfather, and they were a couple. One representative continuously grabbed the head of the wife representative and rubbed her head, saying that was washing her brain. One representative became a bird, with one wing broken, and the little son grabbed the bird without losing his hand. The daughter was always struggling with the little son for her mother, but the mother was good to the son and estranged her. The daughter cried and said that she was a bad mother. After identification of the party, the person

washing the brain of the wife was the first child of abortion, and the bird represented the second child of abortion (the second baby's soul of abortion possessed the bird and often came to the home). In addition, there was the third child of abortion lying there. The party recalled that a bird often came to his window, the little son often felt that he was attracted by some indescribable things, especially in his dream at night, he often felt abnormal. The more ridiculous thing was that his wife's behaviors were very abnormal. The soulforce medicine constellation showed that the first child of abortion grabbed her head and washed her brain. After he apologized to the child of abortion, it was reconciled, the person who washed the brain automatically quitted and the son let go of the bird. Then it came to the quarrel between the daughter and the little son. The party said that the languages, actions and wording of the daughter representative were exactly the same as what were in the realistic life. In the soulforce medicine constellation, it was shown that the living persons and the dead persons tangled together. The dead rested, and the living persons became peaceful. To handle family relationships from the root, the soulforce medicine constellation shall be conducted.

In this case, the first child of abortion came to tangle the father, mother and daughter, made the father had lumbago, washed the brains of the mother and the daughter, made them had strange behaviors and made the mother and the daughter quarreled. Soul of the second child of abortion possessed a bird and came to the home to tangle the son. The grandfather and grandmother occasionally attracted the daughter and the son. The daughter and the son struggled

for the love of the mother. This case was investigated when the 4D space and the 3D space were integrated, and the overall conflict was like that. Solution, with love, make the souls of the babies of abortion rest, and then solve the struggle between the daughter and the son for the love of the mother.

After the soulforce medicine constellation, there was no quarrel any more in the home. This is case 51 of the soulforce medicine constellation.

25. Repeated attack of toxicity of 37 years after the mother was bitten a snake was caused by freezing a child to death

On December 26, 2010, soulforce medicine constellation was conducted for the repeated attack of toxicity of 37 years after the mother was bitten by a snake. In the soulforce medicine constellation, three brothers came, and they had the soulforce medicine constellation conducted for their mother who was bitten by a snake. When asked where snake bit, the youngest brother pointed at his right foot.

The soulforce medicine constellation began, a representative was rolling about on the ground. The left foot of a representative was bitten by something and could not move. Later, the left leg of the presentative was pulled, saying that the left leg was all swollen. The person rolling about on the ground felt like a snake, continuously biting the other representative's foot. Later, the snake said that her belly was cut open. Then the snake licked the head of another representative, it was felt that the licked was a

little snake, The little snake went to tangled the left leg of a person, saying that she was living in it. But the problems were all in the left foot. I asked the youngest brother if the snake bit his mother's left foot or right foot, he did not answer. Then I asked the oldest brother, he did not answer either.

Then a representative said that he was hungry and looked for food, saying he was representing a black snake. He had several bites on the left leg of the person. The former snake struggled with the black snake, but they all bit the left leg of the person. The black snake said that he was nailed on his chest by a person and could not move, and a person saved him, so he could only listen to the person who saved him. Later, the black snake said that he was very hungry, and said that he was a person starved to death in the party's home, and possessed the snake to revenge.

The three brothers suddenly remembered that they had an elder brother, who was born in 1965, was starved to death soon after the birth and was dropped into the water. The black snake kept on nodding, said that was him. He was starved to death, and he said he was made dead by the bad care of the mother-in-law of the mother, so he came to revenge. The three brothers apologized to the snake. The youngest brother immediately called his mother and asked the details. The message he got was exactly the same as what was shown in the soulforce medicine constellation. Later, he said to the starved brother, "you gave your position to me". He asked if the starved brother wanted to have a tomb rebuilt. The starved brother answered no, but he wanted to have a name. His childhood name was "Xiao

Bao”, but he said he must have a formal name. Later, the name “Zheng Guobao” was given, and he agreed. He said he wanted to have his name written in the family tree and in the ancestral hall. During the period, he kept on asking for food, and it was felt that he was really very hungry. During the period, the representative of the mother-in-law and the representative of the mother apologized to the first snake and apologized to the little snake. The little snake said that she was used to living in the bitten leg and did not want to leave. She said that she lived in the leg on behalf of her mother. Finally, they apologized to the snake mother and the little snake for a long time, and it was near reconciliation. Then, it was required to sew up the belly of the snake whose belly was cut open.

The soulforce medicine constellation was near the end, the starved child (the black snake) cried for father, saying that the chest and liver of his father was broken by someone. The three brothers on the spot were greatly surprised, saying that their father’s chest and liver were hurt by the people in charge of birth control, who had conflict with them. Finally the starved brother was told that his father was already recovered, and then he rested.

After the soulforce medicine constellation, we asked the three brothers, and they really had an ancestral hall. In the evening, we had supper together, and the wife of the youngest brother said that the three brothers discussed in the morning and said right foot instead of left foot intentionally to verify the soulforce medicine constellation. Therefore, when it was found that the left foot was bitten and verified, none of the three brothers answered. She said that the

three brothers had to believe in the soulforce medicine constellation.

After that, the party wrote Accumulated Rancour of the Snake Soul.

This case showed the retributive justice clearly. This is case 66 of the soulforce medicine constellation.

26. Familial diabetes mellitus and lower limb disease were caused by the souls of the battle companions in the Vietnam War possessing her

On February 20, 2011, soulforce medicine constellation was conducted for “familial diabetes mellitus and lower limb disease”. The party was a division-level cadre in the army, and was also a doctor, a surgeon. The problem to be solved was familial diabetes mellitus, her mother and sisters all had diabetes mellitus, and because she stayed in the cat’s-ear-shaped cave during the war, she had disease in her lower limb.

The soulforce medicine constellation formally began. Several people lowered their heads, with guns in their hands, saying that they were new soldiers. They were very careful, and looked stupid. They asked, “Where are the enemies?” and could not find the enemies. There were a few firings. On the field, many people had numb hands and no strength in their legs, and a lot of people had cold injury. Later, they received order, saying that they would participate in a battle. However, when the commander issued the order, his eyes were closed. Many people on the field said it was cold, and a soldier had white ice on his hands. Later, the battlefield was busy, and one new soldier said, “I see the

enemies”. It was felt that the soldiers were very childish. They were like new soldiers, just growing up. Many people had stabbing pain in their joints. Someone used stretcher to carry the wounded. There were a lot of corpses, and it was felt like that they were carrying the corpses. There were also the words of command of “1, 2, 3 and 4”. Several persons were struck by bullets, and there were many corpses. Several persons surrendered to the enemy. It was found that the equipment of the enemy was very good, and they had many heavy weapons. Those who did not surrender knew that some persons surrendered, and said that was enhancing the power and prestige of the enemy. The commander of the enemy was very skilled, but the commander of our party was very young and did not know how to command at all. Later, people surrendered to the enemy continuously. The enemy also came to incite defection. Our party had no food, and people were hungry and thirsty. The enemy sent some food, and wished them to surrender. Some people were wounded, and were not willing to surrender. Nobody took charge of them, and they had no fighting force. Finally, suddenly it was announced that the war ended, and they could go back home. But many of the soldiers were not willing to go back home. They asked who brought them there to fight, but nobody explained to them. Later, people asked the commander for an explanation. Finally, the commander who issued orders with his eyes closed had to comfort them, but it did not work, and he had to apologize finally. The soldiers were still not willing to go back home. Finally, a monument was built, and a strength pushed them back home.

Under the guidance of Kuwei Zhongzheng, the party stood up, placated and apologized to the wounded soldiers, caressed the wounded soldiers, and the pains on the body of the soldiers were the pains on the body of the party. After the wounded were placated, the pains on her body disappeared. She placed wreaths at the monument, and saw pines, cypresses and grasses on the spot. After she placated the soldiers, all the representatives automatically gathered towards the middle. During the period, a dead soldier said, “I will protect the grasses, pines and cypresses well”. The interlude song “there is a beautiful small flower in the world...” of the movie *Small Flower* was played on the spot, along with the sound of singing, everyone, including the audiences cried. Then everyone was singing the Buddhist song, and the scene made everyone cried. One person cried at the top of her voice, and later it was known that she represented “land, mountains and rivers”. She said, “You fight, and you damage the environment. Humans are the worst, you not only kill lives, but also damage the environment”. The party kowtowed and apologized to the land, mountains and rivers, and said, “I finally walked from the altar of soldiers to the human world today, I will protect the land well and transfer the love out.”

After confirming that the party can repent, mend her ways and protect the environment, the land, mountains and rivers set her mind at rest. Then she kowtowed to Guanyin, and Guanyin blessed her. Then she kowtowed to the Buddha, and the Buddha looked at all these calmly. Finally, she reconciled with the traitors and the commander of the enemy.

During the soulforce medicine constellation, a protection god was always surrounding the representative of the party. The party was really very lucky, and no wonder she was always in peace. In the soulforce medicine constellation, many Buddhas appeared.

The soulforce medicine constellation ended, and the person representing land, mountains and rivers said that she felt that it was shaking severely before the war started, she did not know what happened, and later she knew that war started. After that, the party said that the soulforce medicine constellation showed the Vietnam War in 1968.

In this case, we released numerous souls of the war from purgatory. This case of “familial diabetes mellitus” was actually not related to family at all. It was because the soldiers in the war were hungry and thirsty before death and did not rest after death, and these souls possessed her family. The symptoms of hungry and thirsty of the soldiers before death fell to her family, and the Western medicine diagnosed it as “familial diabetes mellitus”. The diagnosis of “familial diabetes mellitus” of the Western medicine was just a surface phenomenon, actually familial disease problem does not exist, and it is just that the whole family was troubled by the same problem, and it was not solved. This is case 86 of the soulforce medicine constellation.

Someone collected statistics, saying that after World War II, incidence of diabetes mellitus increased a lot. However, the Western medicine did not know that it was caused by the souls of those died in the war entering the bodies of living persons, and they thought that it was caused by the change of diet habit. After seeing this case

of soulforce medicine constellation, you will know that the symptom of “hungry and thirsty” is actually the symptoms of the dying soldiers in the war. The souls of the dead people in the war possessed living persons, and they had the symptom of “hungry and thirsty”. The diagnosis of diabetes mellitus is just a representation. If the souls do not rest, the diabetes mellitus could not be cured.

27. Inability to make money was caused by the former generation robbing the money of others

The party said, the problem of money actually has perplexed my family for more than 10 years. 1960's and 1970's in the new China was a stable and pure special period. My parents both served the government, and they were teachers, one in the local place, and the other in the army. Many same folks around us almost all entered the factories. The family combinations like our's were often admired. In my impression, spiritual rewards for my mother never stopped, red certificates of merit, certificates and a beautiful gold medal filled the two drawers. However, I could not find wealth. Few material gains of my mother appeared very difficult for us. My father was ashamed to talk about money and disdained depositing money. It was my mother who raised me, supported the old people and even supported my father often, who had many diseases. My mother had a good reputation, but had to be very harsh to herself, and she shouldered the heavy burden silently in the many years. As I gradually grew old, times changed, the economic distress in my family gradually appeared. In the recent years, it was found that the tear of shortage

of money was bigger and bigger. In fact, there are many rich classes around us, and there were many investment opportunities that could make money for us for sure, but we could not grasp them, and we abandoned them in the sighs of others. The only so-called investment was that we purchased housing. At that time, my father thought that my future could rely on the housing. From when I was young, he inculcated the idea to me that I could only rely on him and I had no ability to earn money. After I grew up, I knew that was actually a helpless protection. Because my father worried too much, and he thought I was a pearl of them that they cherished. My father experienced huge vicissitudes and was around the gate of death and life for several times. He could not help with if I could safely cope with the rapidly changing realistic society. He loved me too much, In order to protect me from harm, he would rather choose to hatch me into a dysplastic birdling, and it is best for me to stay under the wings of my parents for my lifetime. He and my mother really always spoiled me and protected me bearing overload. However, the economic situation in my family was depressed under the intangible pull. Investment on housing in my hometown had no gain, and the housing price could not be compared to the housing price in Kunming. Later we moved, and owed the bank a large sum of debt. Above is the economic trouble of my father's generation.

Next, let me talk about myself. I have a strange attitude toward money, and I dispel it subconsciously. When I was young, when my parents gave me pin money, I just put it aside and did not take it seriously. I remember the first time I used money, and I was forced by my father to spend it. I

was in the second grade of primary school, I dared not go to the shop to buy things by myself, and I had never used money singly. My father saw I could not actively use pin money and was impatient, and he was afraid that I could not do accounts and would suffer losses in the future. So he forced me to buy cigarette for him. The process was difficult. After being urged for many times, I finally bought the cigarette with fear. However, I asked my father to accompany me to the gate of the shop, and then I dared to stride over the threshold. Facing the salesperson, I could not speak a word for a long time, and my father was so impatient that he scolded me several steps away from me. I was like a thief, and would rather not have the damned cash in my hand. After I grew up, I had a lot of setbacks in my work, which made me lost all my confidence. I am eager to be a cheesy, independent, beautiful and intellectual woman, but I dared not, and I even felt that I did not deserve it. I need money more and more, but I could not get away from the potential yoke. For each earning of mine, I do not feel at ease and justified. In this deep interwinement, I unusually cultivated a mask for myself. This makes my contradictions and conflicts in my mind very severe.

On April 10, 2011, soulforce medicine constellation was conducted for “inability to make money”.

The soulforce medicine constellation began, the original long row was changed to two rows. The king of hell sat on the first row, and a couple sat on the second row. Between the couple, there was a lot of money, including small money. In the hell, there were dreary cries and screams. One person said, “I have money”, and another

said, “I need money”. A person in black lied on the ground, saying it was black money, and there were a lot of gold, silver and jewelry etc. One person was guarding these money, gold, silver and jewelry. One person cried that her money was robbed by the party’s predecessors. Another person said that her money was robbed by the party’s predecessors, and her daughter was crazy after the money was robbed.

The party apologized to the robbed people, but the robbed required to return the money. The party had no way and had to ask for money from her predecessor. Seeing that the party asked for money from her predecessor, the two predecessors behind the king of hell came over rapidly and took all the money away. The person guarding the gold, silver and jewelry was the posterity of the couple behind the king of hell and was the predecessor of the party. The party did not get money, but was scolded by the predecessor on the ground. The predecessor on the ground said that she had problem with her eyes, could not open them and could see nothing. She asked the party who in her family had problem with their eyes. The party answered that several generations of her family had problem with their eyes.

The representative of money retreated to the audiences. Seeing that the predecessor did not gave her money and she had no money to return, the party pretended to ask her predecessor why she could not make money. Instead of answering her, the predecessor scolded her. When the party apologized, the king of hell kept on stepping on her back. It looked that she could not return the money and placate the robbed. The representative of the bank gave the party two

bags of money, and she apologized to the robbed. The two predecessors behind the king of hell saw the money, and quickly went down and took the two bags of money away.

Then the party had no money, and she had to apologize to the predecessor guarding the money on the ground. She said she respected their fates and respected them. The person on the ground said that the previous two apologizing persons kept on saying that her money was obtained through robbery and was slandering her. She said that they were not sincere enough in their apology and required to change person to apologize. Later, she asked the party and other people to go to practice Buddhism, and changed a person to apologize. She said to her, I see you and I love you. The other person said at once that her eyes was cured and could see clearly. The predecessor said that her money was clean, and she was angry when hearing the posterity saying that her money was obtained through robbery. So the predecessor was glad and gave the party a lot of money.

Then, the male predecessor behind the king of hell told the one on the ground that the money was really robbed by him, and that he just did not tell her before. So the predecessor on the ground showed respect to the predecessor behind the king of hell. The party took the money, returned the money and the interest to the robbed. However, the female predecessor was interested in the interest, and wanted to take the interest back for several times, Finally, it was returned to the robbed. The father of the robbed accepted, and told them to educate their later generation and be good person. She also compensated for the medical expenses of the crazy one, and she accepted.

The predecessors of the party also went to apologize. After the apology, the king of hell came and gave a lot of money to the party. The king of hell also pulled the representative of money in the human world in front of the party and gave her a lot of money. Later, it was surprising to find that the representative of the king of hell and the representative of money were both in pink, the color of Renminbi. Finally, the representative of money spread a lot of money from heaven, “may you be happy and prosperous, and the country is prosperous and the people are at peace”. People were happy and accepted the money. The things of the predecessors and eye disease of the predecessors etc. appeared in the soulforce medicine constellation matched the reality. When this soulforce medicine constellation was conducted, the eye disease of the several former generations was also cured.

After that, the party said that her predecessors were trade caravans and the money in the middle was before her grandmother’s generation in this father’s family. She heard from her mother that her grandmother got a lot of treasures when married to her grandfather. She heard her grandmother talked about a jade bracelet. A small ant could be clearly seen in the bracelet. In normal time, the ant did not move, but if you take it under the sunshine, the small ant would become alive and run along the bracelet.

In this soulforce medicine constellation, it was shown that the party’s predecessors regarded robbing money, gold, silver and jewelry as a job, and never thought it wrong. Her predecessors robbed a lot of money from others, and the posterities could not make money, and even the

money borrowed from the bank was taken away by the predecessors, so she never had money. The 4D space and the 3D space are integrated, and this showed again that making money cannot escape from the law of retributive justice. In this soulforce medicine constellation, the money robbed by the predecessors was returned, and they apologized, so the nightmare ended.

The party finally left a message: The soulforce medicine constellation made me understood the dialogue between my internal and the money. I finally understand why I felt that I did not deserve. My family, including my father did not actively pursue wealth because of shame. Of course, the shame is recorded deep in the soul. In the family system, the password is inherited in the posterities. The so-called “luck in making money” actually can be explained as balance of money, one party is the money in the soulforce field, and the other party is the money in reality. Yesterday, the tutor said, “I feel there is too much money in the Yin world, but there is no money in the Yang world, and money in Yin and Yang is imbalanced.” I often hear about “wealth leakage”, which is unreasonable expenditure, and is always concluded as the product under impulse. Soulforce medicine constellation make people see again that the impulsive behaviors under unknown drive shall follow karma too. The soulforce medicine constellation of tutor Kuwei completely solved my confusion on wealth. From now on, I can calmly face the parlances such as “wealthy in fate” and “wealth leakage” etc. I would like to thank the tutor and all the personnel supporting my case. Thank you!

This is case 135 of the soulforce medicine constellation.

28. Inability to collect the money lent out for investment back was caused by robbing the poor to benefit the rich

The party said, we have always been perplexed in the last three years. My husband and I are in the financial industry. In the process of helping our friends with transferring and reallocating funds, starting from the financial crisis in 2008, my friends' operations had problems in succession. Our external debt was already more than six million RMB. In order to solve these debts, we borrowed money to make investment, so as to repay the debt. However, the uncertain message fed back currently is that our cooperative partners have problem again. Thus our debt is more than seven million RMB. My husband is very worried, and if it goes on like this, we will break down. He wants to ask the tutor to have soulforce medicine constellation conducted for us to see what is the problem with us. Is it because of the creditors in the previous life or other reasons and if there is the possibility to eliminate the karma. Now we already shoulder the debt of our friends, and we want to repay the money to the friends through our efforts. Although we did not use the money, we want to know our internal reasons instead of exploring the reasons of others. My husband and I are practicing Buddhism now, and we are always in perplexity and we suffer pains! We ask the tutor to help us. Tutor, can you have soulforce medicine constellation conducted for us? We worship your internal Buddha!

On April 24, 2011, soulforce medicine constellation was conducted for “inability to collect the lent money for investment back”.

The soulforce medicine constellation began, and the couple sat in the front row. Soon the couple had yoke on their necks, like two criminals. Two representatives stood behind them in the high place and pointed at their heads with plastic sticks, like suppressing them.

Many beggars appeared, and there were factions, clean clothes faction and dirty clothes faction. There was the representative of the bank, with a lot of money, and there was the representative of money, who was pushed out of the door.

Someone wanted to bleach the black money, but it was difficult. Elder beggars of the clean clothes faction took all the money of the confraternity of beggars alone. There were beggars of the dirty clothes faction. Finally, it was confirmed that their business was robbing the poor to benefit the rich, and that was the strange things done by the rich. The representative of the bank was patient, and he felt that he could punish them at any time when he felt it proper. The soulforce medicine constellation showed that it was a very dangerous job. Everyone suggested the party couple not to rob the poor to benefit the rich any more and to do some things that make sense for the human beings. Finally, the robbed money was returned. After the money was returned to the confraternity of beggars, the beggars did not beg any more and went back home to farm. Some of the money was given to the charities. One person said that she needed money, and when asked what she needed the money for, she said she was going to propagandize “protect the lives and oppose abortion”, and she got a lot of money. Finally, after the money was returned, the party couple was

at ease. In the soulforce medicine constellation, information was obtained that those so-called friends who needed money saw that the money was earned through improper ways, and did not return it intentionally, making the couple to repay the money for them continuously. The money got through improper ways could not be kept. People operating these businesses could only lose money. In the soulforce medicine constellation, it was said that the fifth force and fifth field in the universe -- soulforce and soulforce field were taking effect, and nobody could reverse it.

A representative left this message: I represented justice for the first time. I walked behind the party, stood on the chair, raising a stick with my right hand, and looked at everything happening in the magnetic field seriously. When money appeared, I immediately walked down, pulled the representative of the money out of the magnetic field, and ordered her not to enter. Later, a rich representative appeared, and I pulled her out of the magnetic field, and ordered her not to enter. I felt the money was clean then, and they shall be far away from the party. Later, a representative said that the party could get the money, and the party came to rob. I felt very angry, and guarded the money from the beginning to the end. After the party repented that they would use the money to do public welfare things, my anger disappeared.

Another representative left this message: Another representative and I represented the guards of money. We were supervising the trend of the party and flow of money. We shall ensure that the wealth was not occupied by individuals and the government, and it should not be

robbed. The money could only be used for the masses, which is enforcing justice on behalf of heaven! Money had no brain, and the people who possess money need to use their kind hearts and wisdom to use it for the masses, which is the natural law. The party was deviated from the natural law, robbed the poor to benefit the rich instead of robbing the rich to benefit the poor. They used money for speculation and gathering money and that was no good for the society, so the wealth kept away from them and they had yoke on them. Later, the party decided to stop their improper behaviors and was eager to get away from the dangerous situation. We asked them to return the borrowed money, and then gave them a small sum of money to test their distinguishing ability. After they passed, we gave them big sum of money to let them drive the masses to seek wealth through correct channels, and use clear objective and pursuit of creating public welfare to get wealth and use wealth. Only those who have clear wealth purposes and the objective to benefit the masses can truly get wealth.

We can see that doing the job of “robbing the poor to benefit the rich”, the money lent out for investment could not be collected back. This is case 151 of the soulforce medicine constellation.

29. Cancer of hilum of left lung was caused by the hunter shooting the hilum of left lung of an animal

On May 1, 2011, soulforce medicine constellation was conducted for a case of “cancer of hilum of left lung”. After treatment of Quantum Resonance Information Water, he was better in more than 20 days and could go to other

places for business. After his lung cancer was cured, he introduced a lot of cancer patients to use Quantum Resonance Information Water, and a lot of cancers were cured. However, he did not have the soulforce medicine constellation conducted, so I suggested him to come to have soulforce medicine constellation conducted and get rid of the source of the disease.

The soulforce medicine constellation began. A representative kept on vomiting, and it was the smell of the rotten animals, and the most obvious smell was the smell of fox. During the period, the party was coughing and spitting. Wolf howled, fox appeared in the cave, and someone said inviting wolf into the house and using blood to repay the blood debt. During the period, many animals appeared, including crow and fox. Some animals hid by day and came out by night, and a strong animals said, “the strong survive, and this is the law of the jungle”. Gnomes was sleeping, and did not deal with the animals eating each other. Timberjack cut the trees, and hunter hunted animals. The hunter had a lot of killed animals in his home, and raised a fox as pet. The fox was proud and protected his master, and he had the animals brought back by the hunter to eat. Gnomes just slept without taking care of all these. That had been for three generations, but the Gnomes still did not take care of it. The fox said proudly, “the strong survive, and this is the law of the jungle”.

A bullet entered the back and went through the hilum of lung of an animal..... The party was a hunter in his previous life. When the hunter hunted, he brought the fox along with him. The fox was very proud, thinking they were

the strong..... Then the retribution came, the hunter in this life got lung cancer, and the position of the lung cancer was the position of hilum of lung of the shot animal.

Another representative kept on vomiting, and he vomited all the animals he had eaten and even black blood out. Some animals were stuck in the throat, and he could not get them out or in. The party repented continuously, “Sorry, I killed you. You are lives too, and lives are equal. I repent that I will not hurt animals any more. From now on, I will live maigre, and I will protect the animals.....” The audiences who had eaten animals on the spot all fell and repented together.

The fox was very proud, thinking that nobody could govern him. It was the turn for the fox to vomit, and the fox vomited the animals he had eaten out. A voice said, “Animals have to vomit everything they have eaten out too, and this is also the law of the jungle”. This is a forgotten world, and the animals had to obey the law of equal lives and vomit the eaten things out. Finally, the Bodhisattva came to the spot. The soulforce medicine constellation ended in the repenting and Buddhist sound. At noon, we had maigre food.

In this case, the party was a hunter in his previous life, and shot the hilum of right lung of an animal. In this life, the party had lung cancer in his hilum of right lung. This case reminded the party to have maigre food, and his cancer can be cured if he had maigre food. If he kills animals and eats animals again, the cancer could not be controlled. This is case 156 of the soulforce medicine constellation.

Each time we conducted soulforce medicine constellation, a lot of people were educated. After seeing

the soulforce medicine constellation, a lot of people could no longer eat animals and began to live maigre.

30. Itch on the body and under the two armpits of a daughter was caused by the construction company of her father excavating the emperor's tomb when constructing housing

On June 26, 2011, soulforce medicine constellation was conducted for “itch on the body and under the two armpits of a daughter for half a year”. The daughter was 12 years and a half old, in the sixth grade of primary school. She had itch under the two armpits for half a year, applying ointment did not work, and it was more and more serious recently. The mother accompanied the daughter to have the soulforce medicine constellation conducted.

The soulforce medicine constellation showed that the grandfather, grandmother and great grandmother of the child came to the door, and they were scratching armpits of the child. The party said, the grandmother of the child died in July, 1993 the lunar calendar due to breast carcinoma. In October the same year, her grandfather died due to ascites. In December, the great grandmother died. In 1993, three members of the father's family died in succession. At that time, the party did not know the current husband. In 1993, the husband was 27 years old. The parents of the father died in the same year, and then the husband's grandmother died, but the reason had not been known. The soulforce medicine constellation showed that the emperor's tomb was excavated, so the soul of the emperor brought the family members of the party's husband away. The party recalled,

in 1991, her husband and her husband's father went to the construction site together with the construction real estate company. Her husband was in charge of installation (her husband's father also worked at the office on the construction site). Other colleagues often excavated tombs when conducting removal and excavating the foundations etc. in the early stage. The soulforce medicine constellation showed that although the father did not touch the tomb, the construction company is a group, and everyone has a share. The representative of the emperor's soul was scolding, saying that he was an emperor, but his house was even excavated and he had no home to go, and he would revenge. Several souls were on the backs of the daughter and the mother. The daughter really did not breathe well and her waist was not fine, in fact she was pressed by the souls. The feet of the daughter were stepped on by black and white Wuchang. The mother said that no wonder her daughter could not walk even though with long legs, in fact she was stepped on. Later, the representative of the emperor asked the party to burn a paper imperial palace for him, which shall be splendid with city moat, just like the Forbidden City. He also asked the party to promise to "protect the cultural relics and not trespass on the territory of others", and then the emperor's soul rested. The party promised to be a good citizen of China and was willing to shoulder her due responsibilities as a citizen. The party continuously apologized to the soul of the emperor, and the souls slowly got off from the backs of the mother and the daughter. It was lucky for the party to have the soulforce medicine constellation conducted; otherwise the daughter would be

taken away by the black and white Wuchang.

After the soulforce medicine constellation, obviously the daughter walked faster. The mother said that she felt pain in her waist and could not stand up or even lift a barrel of water on the morning before the soulforce medicine constellation. After the soulforce medicine constellation, on the next day, she did not feel so painful in her waist any more. This is case 205 of the soulforce medicine constellation.

In the real life, the cases of dismantling houses by force by real estate companies are common, and living persons cannot oppose the real estate companies. However, the souls of the dead do not care about that. If you trespass on the territory of the souls, you will be revenged by them. This case showed that three members in the family died within one year because the construction company touched the emperor's tomb when constructing housing.

31. A father being critically ill and living in the ICU was caused by the ghosts in the hospital jostling for hospital beds

On July 16, 2011, soulforce medicine constellation was conducted for a father in Meizhou being critically ill and living in the ICU.

On the night of July 14 (Tuesday), Kuwei Zhongzheng received a phone call from the party, saying that his father (83 years old) was in the ICU and respirator was used for him. He estimated that his father was dying this time. His father pulled off the pipe of the respirator, and it was estimated that his father suffered too much pain and did not want to live. In the call, the party cried, saying that he

wanted to have soulforce medicine constellation conducted to find his father's father for his father, but his father was dying without the soulforce medicine constellation conducted. Because soulforce medicine constellation are only conducted on Saturdays and Sundays, Kuwei Zhongzheng asked the party to go to Meizhou to visit his father on 15 (Friday). If his father still had sign of life, soulforce medicine constellation would be conducted for him on 16. The party drove more than 400 km for more than five hours to Meizhou and drove for more than five hours back to Shenzhen. He said he had Quantum Resonance Information Water with him, so he was energetic (the party himself was 57 years old), and the car had Yougong fuel additive, so he could drive the car for such a long journey. At that time, his mother was taking care of his father. In the soulforce medicine constellation, the party made the above descriptions, only saying his father was living in the ICU without telling the concrete disease. Later we asked him, and he said his father had problems with his heart and lung.

Soulforce medicine constellation in the afternoon started at about 2:15. People with fetters on their feet and handcuffs on their hands appeared, rostrum on Tiananmen when the new China was established appeared, and at the same time, and Sister Jiang etc. in Cinder Cave in Chongqing appeared. Sister Jiang etc. said with regret that they did not see the establishment of new China. Then Kuomintang killed these people. Little radish in the prison appeared, and he was free. Suddenly people felt that the party looked like the little radish. Scenes in Bai Gongguan

in Chongqing appeared.

Then the scene of the party's father in the hospital appeared. In the hospital, the party's father liked to look at a nurse, saying that the nurse was very good. The representative of the nurse said she had evil intention. Later, it was known that was a section for the old cadres. Hospital expenses for his father were more than 5,000 RMB each day. Anyway, the country reimburses all the hospital expenses of the old cadres, so his father lived in the hospital for at least more than three days each month, and he lived there even when there was no problem with him. Later, several people pressed on the body of the party's father, saying that they were having fetters and handcuffs on them. And other souls pressed on the body of the party's father. Someone said the bed was of another person, so several people fought for the bed. The party's father was pressed so hard that he could hardly breathe, so he had to use respirator. In fact, the ghosts were fighting for the bed and pressed the party's father's chest, and he could not breathe. A representative said he was feeling uncomfortable with his heart, and the party said his father had skeleton installed for his heart. A representative said he wanted to go to the toilet, because someone pressed on his father's bladder, so he wanted to go to the toilet, and the doctor inserted catheter. After the party saw the scene, he matched all the symptoms of his father. One ghost said he died of renal failure, and the other said she dies of difficult labor. In fact, there are all kinds of patients in the ICU. Many ghosts were fighting for the bed. Later, the party apologized to the ghosts. A ghost said he was killed for fighting for the establishment of new

China, he did not see the establishment of new China, but the party was spending the money of the country. There was his contribution for the establishment of new China, but the party's father was wasting the money of the country. He felt imbalanced, so he pressed the party's father. Battle companions of the party's father lived in that ward too, and they were pressed to death one by one. Later, after the party apologized sincerely, the ghosts asked the party to make a memorial tablet and have "for the innocent victims in this war" written on it. A ghost said he had no house to live in, and wanted to follow the party's father back home. One ghost said, "We were killed before the establishment of new China. We look for these old cadres. We all worked hard for the revolution, so we want to enjoy too, and we fight for the bed." Later, after the party apologized, he asked the party to set memorial tablet, with "XX battle companion, the battle companions of my father settled here" on it, and asked the party to burn it for him on the slope near his father's home. One person said the party's father shall leave and not occupy the bed. Several people heard that his father agreed not to use the bed and would go back home soon, they temporarily did not press the party's father, and moved away a little bit. After the ghosts did not press the party's father, the party's father could breathe independently, and then slept in peace. However, the ghosts warned the party that they would come to press the party's father if the party's father did not leave the bed.

The case of soulforce medicine constellation ended at about four o'clock in the afternoon. The party was in a hurry when gong out in the morning, and forgot to bring his

mobile phone. At supper, the party borrowed mobile phone of others and called his mother. His mother said that his father was normal at four o'clock in the afternoon and was able to breathe independently. He did not use the respirator, and the pipes inserted on his body including the catheter etc. were all pulled off. The doctor said he could be transferred to common ward on the next day. In the soulforce medicine constellation, the party saw those old cadres liked to spend to money of the country to be hospitalized and were revenged by their former battle companions, who pressed on the body of the party's father. The party asked the cameraman to record the close-up. He said he would show the video to his parents and try to persuade his parents not to go to the hospital when there is no problem with them. There were people dead on each hospital bed, and the unrested people pressed on the body who later lied on the bed, making small diseases become big diseases, and even making the people die. This case clearly showed the retributive justice. Those old cadres enjoyed from the country, and they shall be awakened. If they occupy those not belonging to them, they would be revenged sooner or later. This case is retribution in this life.

In this case, the party said his father pulled off the pipes of the respirator, and it should be the ghosts who pulled off the pipes of the respirator with the help of the party's father's hand. This case had several inspirations for us: 1. Those old cadres occupied those not belonging to them, and they would be revenged sooner or later. This case is retribution in this life. 2. There are many ghosts of those dead on the hospital beds, and being hospitalized may very

possibly make the disease worse. If there is no problem, do not go to the hospital. 3. Those who do not believe in retributive justice do not know even if they have retribution.

In this case, it is very obvious, the soulforce medicine constellation started at about 2:15 in the afternoon. In the soulforce medicine constellation, the party was asked to apologize to the ghosts, and he asked the ghosts not to press on his father. At four o'clock the soulforce medicine constellation finished, and the representative of the party's father could breathe easily. At the same time, the party's father could breathe independently in the hospital, and did not use the respirator. Because there was nobody pressing on his bladder, catheter was pulled off for the party's father. There was video to prove, and the doctors from Wuxi, Jiangsu on the spot had their eyes opened by this soulforce medicine constellation. After that, the doctor from Wuxi said that her elder brother was a worker in the hospital and she worried very much too.

Quantum Resonance Information Water can make you have treatment at home, avoiding getting in touch with the ghosts in the hospital. At the same time, through the soulforce medicine constellation, karma could be seen. It warned the old cadres who did not exercise self-control so as to protect themselves from immorality that they should stop their bad practice and examine their own conscience. They could refuse to listen to the call of the masses, but the ghosts see all these clearly. We expect an honest and clean China to arrive as soon as possible, so that Sister Jiang etc. could feel relieved.

In the Japanese movie *The Rebirth of Buddha*, there is

the scene of ghosts fighting for bed in the hospital. In this case soulforce medicine constellation, we saw it clearly.

Many years ago, I saw an article--Sister Jiang is Just a Step away from Corruption. It says that it was lucky that Sister Jiang died in the prison and left a good fame. The article says, if Sister Jiang did not die in the prison, she would certainly become a high official. When her friends in the prison requested her to seek personal gains for their children, wouldn't Sister Jiang agree. The article finally says that Sister Jiang is just a step away from corruption.

Soulforce medicine constellation can make people see retributive justice, and can make the country clean and strong. Let's work hard together and expect the arrival of the day as soon as possible. This is case 218 of the soulforce medicine constellation.

32. Money earned being not enough to block the leaks was caused by over medical service in the hospitals opened by him

On August 28, 2011, soulforce medicine constellation was conducted for “money earned being not enough to block the leaks”.

The party was a doctor and ran six hospitals. More than ten days before, he bought Quantum Resonance Information Water and Yougong fuel additive, and he felt the effect was very good after using them, so he came to Shenzhen one week before to see soulforce medicine constellation, and he was shocked. After he went back, he contacted us to have soulforce medicine constellation conducted for his own problems. Originally, the schedule was full, but the

party said that he could not wait and it was a must to have soulforce medicine constellation conducted. He hurried to Shenzhen to have the soulforce medicine constellation conducted, saying he wanted to solve the problem of “money earned being not enough to block the leaks”.

We felt the problem was too general, and asked him to raise an example. He said that sometimes he made 90,000 RMB in nine hours, but he did not see where the money was and he just did not have it. The soulforce medicine constellation began, a representative said, “treated to death”, “over medical service”, “peers are also fooled”, “unpardonably wicked” and “hacked to death”. A representative said tonsillar abscess, and the doctors asked to have operation conducted. Then a representative said, “Prepare more money for operation, and operation will be continued if it is not successful.” A representative said he was a goods deliverer, the doctor said he had problem and asked him to have operation, and he felt weaker and weaker after the operation. Then a representative said, another operation. A representative asked if there could be a discount for the peers.

The representative of a dead predecessor of the party made a stick, with black paper stuck on one end and money stuck on the other. He used the stick to tote money out from the tomb and absorbed the money into the tomb through the stick.

In order not to have operation, a patient gave red paper containing 1,000 RMB to the doctor, and the doctor allowed him to get out of the hospital. Another patient gave red paper containing 5,000 RMB to the doctor, and

the doctor allowed him to go back home. A patient escaped from the hospital when the doctor went off work, and he tried to avoid passing the hospital later. A patient had skin replacement operation, and the doctor took skin from his hip. A patient had a cold and went to the hospital, the doctor asked her to have a hymen restore operation, and the patient's son was already more than 20 years old. Then the doctor asked her to have a nose bridge blocking up operation, costing her 10,000~20,000 RMB. It felt like the patients were sliced up by the hospital once they entered the hospital. The doctor asked to patients to sing "Grateful Heart", and thought themselves angel in white. The doctor made a psychological attack on the patients, and promoted medical sets. The doctor had sets of medical theories, and treated the summer diseases at winter and winter diseases at summer. Then the doctor said the kidney shall be tonified. When promoting sets, the doctor determined the sets according to the economic conditions of the patients. The promotion means of the doctor was even superior than the pyramid selling. The business license was a protection umbrella, and they were fine even if they treated people to death. Then the doctor sang "Let my love accompany you till forever". Then the hospital developed DNA identification. The hospital stored sperm and ovum, and had streamlined service for infertility. The doctor said treating small diseases could earn big money, and the patients could not be treated to death anyway. Treating big diseases could not make money, because the patients would be dead soon. The hospital also conducted filial piety experiences, and tried to persuade the patients to buy physiotherapy bed and

massage bed. The doctor said she shall achieve the profit index of each month, and she could not make a living if she could not achieve it. The retired cadres had reimbursement, and the money flew into the hospital. The hospital was like a graveyard, and there were many souls of those treated to death. Later, the souls of those treated to death went to the door. One person died of appendicitis, who was cheated by the doctor to have operation and was treated to death. The soul found the doctor, and the doctor was hiding. Finally, the doctor said she had friends in the central government and in the army, and she knew some children of the high leaders. Later, the soul tangled her so severely that she had to say that she did it in order to achieve the index of the hospital. She asked the soul to find the director of the hospital as it was decided by the director. Later, the soul ordered the doctor and the director to wear red shoes. The soul had long tongue, and licked the doctor and the director, and the doctor had to wear things to avoid evil spirits.

The representative of the predecessor said that the tomb was in the southwest of the party's home and continuously absorbed the money of the party away. A surgeon went to the department of medicine, and said, "How could the department of medicine be like this?" During the surgery, the surgeon cut the viscera of the patients to sell. Steel nails were in the bones of the patients who had fracture and could not be taken out. Immunization caused other diseases, and they used hormone for males as for females. The hospital also had hired thug. Later, the doctor became deputy to the people's congress, and promoted "New Rural Cooperative Medical System". The peasants could go to the hospital to

treat their diseases, and examination fees could be collected. The hospital also opened medical skills training class. The hospital also cooperated with the media. Seeing the patients without money, the hospital contacted the media to mobilize the society to donate money, and the money flew into the hospital. There was also of speculation of registration for experts. When disaster occurred, the director appeared in TV, saying they provided disaster relief. Actually it was shot in the hospital, and they did not go to the disaster relief site at all.

Later, the doctor began to have pain in her right belly, she insisted not to be treated in the hospital, and looked for methods of treatment everywhere. Later, she found soulforce medicine constellation. After the soulforce medicine constellation, her bellyache was cured. Therefore, the hospital began to open soulforce medicine constellation room. The doctor was even more in the right and self-confident. She said to the patients who could not be cured that it was caused by the bad karma of the patients and they should die. The patients were even more speechless. After the soulforce medicine constellation room, although the doctor did not feel pain, she refused to repent and thought she did nothing wrong. The souls then were unwilling to accept the apology of the doctor. As long as the souls refused to accept the apology of the doctor, the doctor's disease could not be cured, and she was punished. The souls found that they could grasp the fate of the doctor in their hands through not accepting the apology of the doctor, and found that the retributive justice could be quantized. Just like you owing me and I owing you in real life, bad karma

is the same, and the key point is if you truly realize how to eliminate your bad karma. Later, it was found that the person who sent red paper containing 1,000 RMB to the doctor also had bad karma, as bribery is crime. After they knew the law, they said sorry. When they said sorry, their bad karma was reduced, and the accepting person had her karma increased. In fact, the law in the universe conserves. To eliminate the bad karma, change of heart is the most important. Unconsciously, the hospitals came down to measure a doctor by assessment of her condition of her achieving the sales index and income index of examination fee of the hospital instead of how fast she could cure the patients. Only the doctors who could sell more medicine, do more operations and examinations could survive in the hospital, and those who could not achieve the indexes would be dismissed right away..... Through the soulforce medicine constellation, we know that the modern hospitals operate in that way.

The soulforce medicine constellation showed that the previous two generations of the party were famous Chinese medicine doctors, and they could cure the diseases of the patients. However, to the third generation, the party just cared about making money and could not cure the diseases, so his money was taken away by his predecessors to the underworld. In fact, the money in the human world could not be used in the underworld, and they were just punishing the party. The predecessors said that they did not need money, and they were just giving a lesson to the posterity. In addition, the predecessors said that they wished the party to burn some underworld money for them.

In the process of the soulforce medicine constellation, when the surgeon appeared, I specially asked the party which department he was engaged in, and he answered that he was engaged in the department of medicine. At that time, I was puzzled why surgeon appeared in the soulforce medicine constellation as the party was a physician. After the soulforce medicine constellation ended, I asked the party, and it was clear that the reality completely matched the soulforce medicine constellation. The previous two generations of the party were really famous Chinese medicine doctors, and the party's son was also a doctor, so it was four generations of doctors adding up together. In addition, the doctor actually opened six hospitals, and the soulforce medicine constellation showed the condition of the hospital, not just the role of a physician.

In the reconciliation stage, the doctor apologized to his predecessors and the patients who suffered in the hospitals. After the apology, the predecessors returned the confiscated money to the party. The doctor also admitted that the tombs of his family were in the southwest direction of his home. The party also admitted some ridiculous things that a representative felt, medical accidents did occur.

The party was conquered by the soulforce medicine constellation. This is the first time that we got in touch with a party who ran hospitals. The soulforce medicine constellation was shocking, If the party did not admit and it was told by someone else, we absolutely dared not believe that it was true.

On the way back in the train, the party's wife was very concerned about the result of the soulforce medicine

constellation. After seeing this message, the party's wife said on QQ, "In real life, it is really like that."

After that, the party left a message: I came back from Shenzhen after the soulforce medicine constellation today and I was puzzled. Among the people who are dedicated to medicine in our whole life, I dare not say my medical ethics is the best, but I do not have the intention to harm people! I usually stand on the angle of the patients, and think for them. I also cured some diseases that they did not cure. There are many such cases, and I was high appraised by my fellow countrymen. You can know it by asking the patients I treated! I can guarantee this with my personality. Why the result of the soulforce medicine constellation was like this, and I became an unpardonable criminal? Later, I repeatedly watched the process of the soulforce medicine constellation, and a sentence of the tutor and my wife's prompt made me understood! In fact, the party is not just me! Three persons including my brother, my sister and me are the inheritors of the medical business of my family, (my elder brother, his wife, my elder sister, her husband, I and my wife are all doctors, and we run five clinics and one health management company). Ten years ago, when I did not open clinic in the big city, I heard them competing on how many transfusions they had in a day instead of how many patients they cured. The new rural cooperative medical system started, and they began to make false accounts. Later, they cooperated with the big hospitals in the city to get kickback of the patients etc. Although I can guarantee that I am clean, how can I guarantee that everyone is like me? I don't know if my understanding is right or not, and I would like the tutor to

judge. Are there such cases with the party of a family and an industry instead of one person?

The party continued to leave a message: On the way going back home from Shenzhen after the soulforce medicine constellation today, I passed my hometown. I did not directly go back to the city, and my family members did not see. I borrowed my friend's car and directly drove to the tomb of my grandmother in the countryside in my hometown. I bought a pile of fruits, rich gravy, three incense sticks and underworld money of large amount. I called my elder brother and we worshipped my grandmother. We asked our grandmother to set her mind at rest, her grandsons grew old and would not do things that are shameful for the ancestors!

This is case 257 of the soulforce medicine constellation.

33. Big income and bigger expenditure was caused by the soul of person dead in a car accident collecting debt and a dead child of her grandmother picking the pocket

On September 4, 2011, soulforce medicine constellation was conducted for “big income and bigger expenditure”.

The soulforce medicine constellation began, and a representative was driving a car. He had accident at the crooked corner, and knocked a person out. The soul of the knocked instantly fled away. Immediately, a new soul possessed the body. In fact, it was a blackspot. The souls of those dead in the previous accidents did not leave and wanted to get a body. A soul occupied the body after the soul of the body was frightened away with help of the

driver's hands.

At first, the party said there was no car accident. Later, she admitted her husband had a car accident, and knocked a person 27.8 meters away, and said the person did not die. In fact, the car accident was done by the soul. The soul did not want that person die, and he just wanted to frightened away the soul of that person and occupied the body. In that place with a plate of “blackspot” erected, there gathered many souls, and there were more and more souls who did not rest. Those souls often took bus to go from one blackspot to another blackspot. In that place, accident often occurred at 1:35 AM.

That accident was to remind the family members of the party to treat this seriously and release the souls from purgatory. But the party did not think of it. The party lent her car to others, and accident occurred again. The party said the later accident cause one death and two injured persons. The wife of a dead was already pregnant. The soul always talked to his wife, but his wife could not hear him. The soul of the dead in the car accident said “I want to prove I attach great importance to affection”.

The whole scene felt strengthless, and it felt that they were all souls.

The soulforce medicine constellation showed that a child of the party's grandmother died after birth, and was not disposed well. The child was very hungry, and was always picking things. The party admitted that her grandmother felt itch on her whole body, and that was caused by the dead child picking. The child put his hand into the pocket of the party and picked the money in it.

There was a big leak on the pocket, and the money leaked.

The soulforce medicine constellation showed the doctor was sewing the belly of the knocked person up. He was knocked on the left waist, his spleen was broken, and his belly was full of blood..... In the car accident causing one death and two injured persons, a tricycle carrying bean sprouts was knocked. The soul was not disposed well and remained on the spot. The dead person was a peasant, who is used to dealing with soya bean. One night, a truck passes, the male driver went off the trunk to piss, and the soul pulled the genital organ of his. A female also went off to piss. The soul pulled a soya bean stalk to scrape the hip of that female. Later, the female always had the feeling of piles. Later, the underworld needed money, and the souls posted notice for missing person, and continuously looked for opportunities to make the party's family had accident. The souls also said that the bank cards can be used in heaven and earth, and the money on the bank cards of the party were monitored by the bank of heaven and earth. When the party agreed to release the souls from purgatory to terminate the vicious cycle, the souls left one by one.

In this case of “big income and bigger expenditure”, the money was taken away by the soul of the dead person in the car accident collecting debt and the dead child of the party's grandmother. To solve the problem of money, it is a must to placate the souls firstly. This is case 262 of the soulforce medicine constellation.

34. Intense chest, heart being hung in the air and broken heart feeling, depression and anxiety for 20 years was caused by roasting wolf in the previous life and abortion in this life

On October 16, 2011, soulforce medicine constellation was conducted for a case of intense chest, heart being hung in the air and broken heart feeling, depression and anxiety for 20 years.

The party was a lady. She left a message: “In the college entrance examination in 1985, because I felt huge pressure, on the night before the examination, I felt my chest intense.....Later, the doctor made a diagnosis: depressive neurosis. For the past more than 20 years, I had multiple kinds of anti-depression drugs, and had psychological counseling and hypnosis etc. conducted, but they had no good curative effect..... I always feel my heart is hung in the air. In the 7-8 years, I always maintained my sleep depending on tranquilizer.”

The soulforce medicine constellation began, campfire at night was seen. The party in her previous life was roasting wolf. The wolf was hung on the frame by chains, with its four legs and belly facing upward. There were many wolves around gazing at the scene, but because wolves were afraid of fire, they dared not approach. Suddenly lightning flashes and thunder rumbles, and heavy rain fell down and extinguished the fire. So the wolves rushed up and ate the party, only leaving the white bones. The charred half dead wolf uttered sad calls.....Then the roasted wolf revenged the party and continuously beat the chest of the party, almost breaking her heart, and she felt her heart was beaten and

hung in the air. In addition, two children of abortion pressed on the chest of the party. The representative was hung up by five ropes. After the party apologized to the wolf, the wolf still did not vent its hatred. The representative of the wolf also roasted the party on the fire. The party tied the wolf to roast, and then the wolf tied the party to roast. After the party apologized to the wolf continuously, the ropes tying the representative of the party were untied. In addition, the party apologized to a girl and a boy of abortion.

At the beginning, the party's face looked long, like a wolf. Along with the continuous apology, her face was rounder and rounder. After the soulforce medicine constellation, the party said the feeling of intense chest, heart being hung in the air and broken disappeared, and the feeling of being tied by a rope also disappeared. This is case 289 of the soulforce medicine constellation.

35. Heart disease of a father was caused by forgetting his elder sister sent abroad and abortion

On December 4, 2011, soulforce medicine constellation was conducted for a father's disease. The party was a director of a hospital in Wuhan, who was doctor working in the hospital for more than 20 years. Her father was 78 years old, had dilated cardiomyopathy and family history of heart disease. When chest X-ray was taken in 2005, cardiac dilatation and hydrothorax were found, and the diagnosis was dilated cardiomyopathy. Electrocardiogram showed too slow heartbeat, and later cardiac pacemaker was installed. In the several years, he had cardiac diuretic to relieve congestive heart failure. In that year, he had tolerance to the

drug and could not fall asleep at night. Two months before, he began to use Quantum Resonance Information Water and put three Quantum Resonance Information Waters near his heart. After using Quantum Resonance Information Water, he obviously felt better, had strength, had appetite, the blood pressure was normal (it was a little low before), and felt energy in his talk. Before that, he pissed six times every night. After putting Quantum Resonance Information Water, he only pissed twice on the very night. His face color was good, before that, his face was flushing and lip was purple, even purpler than eggplant, which was the manifestation of oxygen shortage. After he used Quantum Resonance Information Water, his face color was like normal people's, and lip was red. Before that, his father also felt pain in his neck, shoulder, waist and back, and his hands and feet were cold. After using Quantum Resonance Information Water, the above symptoms disappeared and his hands and feet were warm. After the hospital director saw the power of soulforce medicine, she decided to have soulforce medicine constellation conducted for her father to solve the problem completely. In this case of soulforce medicine constellation, a complete "history of the overseas Chinese" was shown. In the conflicts during the period, the heart was pressed, and the heart was given to others in the 4D space. In addition, the overseas Chinese led a wandering life abroad and did not have the sense of heart. In addition, the party's father did not respect his predecessors and there was abortion. On the spot of the soulforce medicine constellation, the song My Chinese Heart sounded for multiple times. In the soulforce medicine constellation, the conflicts were solved, and the

lost heart was placed back into the chest. Later, the party admitted that one elder sister of her father was sent to the foundling hospital of Wuhan, and a missionary from Britain brought her to Britain later..... These scenes matched what was shown in the soulforce medicine constellation (Vatican appeared)

On the next day of the soulforce medicine constellation, the party fed back, “This morning, my father felt very good. He said he felt easy, like a heavy burden unloaded from his body.” Three days after the soulforce medicine constellation, the party fed back, “After the soulforce medicine constellation, my father felt very good. He has deep sleep and do not have dreams, and his appetite becomes normal. In the heart Color Doppler Ultrasound examination today, the cardiac muscle has contraction wave form, heart LAF is 43% (40% the previous time), and pericardial effusion disappears (10 cm the previous time). These show the soulforce medicine constellation take effect. We thank the tutor again.” This case was fed back by a doctor, so the observation, record and contrast were very detailed. This is case 331 of the soulforce medicine constellation.

36. A 16-year-old son being unable to calm down to do homework and having a lot of anger was caused by two pairs of souls in the house rented

On October 29, 2011, soulforce medicine constellation conducted for “a 16-year-old son being unable to calm down to do homework and having a lot of anger”. The soulforce medicine constellation showed that it was caused

by two pairs of souls in the house rented. Because the party rented the house of others and trespass on the territory of the souls, the souls intentionally abetted the son the quarrel with his parents, so as to revenge them.

The soulforce medicine constellation showed that the son only ate cold food and did not eat hot food. In fact, it was the souls who only ate cold food and did not eat hot food. The souls ate food through the party's son. The party admitted that his son only ate cold food and did not eat hot food. In this case, the son being unable to calm down to do homework and having a lot of anger was caused by the souls in the rented house. The son left the house, in the school, when the souls were not aside, the son was very normal.

Solution, apologize to the souls in the house, saying they should not have trespassed on their territory, immediately move house, and do not trespass on the territory of the souls any more.

This is case 299 of the soulforce medicine constellation.

37. A 14-year-old being unable to get asleep at night, being unwilling to get up in the morning and sleeping when attending classes was caused by Emperor Li Zhi possessing him and soul of his younger sister of abortion possessing him

On December 18, 2011, soulforce medicine constellation was conducted for “a 14-year-old being unable to get asleep at night, being unwilling to get up in the morning and sleeping when attending classes”.

The soulforce medicine constellation began, and a parrot was seen, saying “Old Li died.” The parrot cried, “Old Li did not die, old Li did not die, Zhang took away my wife. Old Zhang would not be able to die a natural death.” Seeing the scene, the mother cried in surprise, her son said he had a dream, in which a parrot kept crying, “Old Li died, old Li died”. The scene on the spot was the scene in her son’s dream.

The soulforce medicine constellation showed that the soul of Emperor Li Zhi possessed the son. Emperor Li Zhi was poisoned to death, but it was wrong written in the history. His tomb was stolen, and nobody knew it. So the soul possessed her son, hoping him to transfer the message.

At the same time, a child of abortion of the parents was following the son. The father said, the son always said he felt a sister was following him. His son often said he felt someone was following him. Sometimes, he entered the classroom, he did not close the door, but he felt someone closed the door for him. He often said he wished he had a sister. The things shown by the soulforce medicine constellation was the conditions of the son.

In the soulforce medicine constellation, we told Emperor Li Zhi that the son already knew these and would complain for him, and he could rest. At the same time, the parents placated the child of abortion, and asked the son to thank the baby’s soul accompanying him.

After the soulforce medicine constellation, the son’s situation was immediately improved. In addition, because the soul of the emperor possessed the son, he had a sense of superiority. He felt his position was higher than his parents’

and did not respect his parents, and the order in his family was in a mess. After the soulforce medicine constellation made the emperor's soul rested, the son became a common person, and did not feel superior. Messy order in the family also has deep-layer reason behind it, and only by preaching does not work.

After the soulforce medicine constellation, the 14-year-old boy became normal.

After that, the mother left a message: It has been more than a week since we came back. My son sleeps much better than before. He could not get asleep until 11 and 12 at night before, and his sleep quality was bad. Now he gets asleep a little earlier than before, but his sleep quality is obviously improved. Getting up in the morning improved even more obviously. He only got up 40 minutes to one hour after we called him in the morning before, now he gets up around ten minutes after we call him, and sometimes he gets up when the alarm clock rings, and we don't need to call him.

This is case 343 of the soulforce medicine constellation.

Through the introduction of the above several cases of soulforce medicine constellation, we will find that there are deep-layer reasons behind each "problem child" or "problem student", and it could not get better if we don't solve the deep-layer problems. Therefore, preaching psychological counseling could not solve them. Therefore, when encountering problems that could not be solved, only soulforce medicine constellation work.

38. Mother-in-law having nightmare every night, shouting and fearing was caused by the dead father-in-law being tortured and asked for food by the starved victims of a natural calamity in the underworld

On December 11, 2011, soulforce medicine constellation was conducted for the mother-in-law having nightmare every night, shouting and fearing.

After the father-in-law died, mother-in-law shouted and had dreams in the sleep every night. Sometimes, she dreamed the father-in-law came back and wanted to come back to her. She knew that he already died and could not come back to her, so she feared, and hoped to solve the nightmare and fear problem.

The soulforce medicine constellation showed a pile of starved people, there corpses were in the wilderness, and it was the year 1959. The father-in-law worked in the Agricultural Bureau. In 1959, there was a famine due to crop failures. The Agricultural Bureau gave the food to the leaders instead of giving it to the civilians, and the civilians starved to death. The starved civilians did not rest, and they brought the father-in-law to the underworld. The father-in-law died of liver disease several years before. The soulforce medicine constellation showed that the starved civilians brought the father-in-law to the underworld. The souls of the starved civilians forced the father-in-law to take food and clothes to them, so the soul of the father-in-law went back home to remind the mother-in-law to cook a lot of rice and prepare quilts for the civilians. Therefore, after the father-in-law died, the mother-in-law shouted and had dreams in her sleep every night, and sometimes she

dreamed the father-in-law came back and wanted to come back to her.

In the soulforce medicine constellation, the representative of the father-in-law apologized to the starved civilians, and promised to give them what they wanted, so the souls temporarily stopped torturing the father-in-law. The mother-in-law did not know the soulforce medicine constellation had been done. On the second day, she said she had a very good sleep the night before, she did not have dream and got up very late.

Later, the mother-in-law was told what was shown in the soulforce medicine constellation, and she understood what it was as soon as hearing it. So she did according to what the starved civilians required. From then on, she did not shout at night any more. This is case 338 of the soulforce medicine constellation.

In the current society, there are too many corrupt officials. The corrupt officials enjoy glory, splendor, wealth and rank when they are alive, but in fact, they do not know that the souls of the victims are revenging them where they could not see. When they are in the underworld, they could not get peace.

There is a saying, “A man who does right things is not afraid of ghost knocking at his door at night”. It seems that if a man does wrong things, there are ghosts coming after him.

To be a person and to be an official, one must refuse to be contaminated by an evil influence.

39. Her father being a plant man and her son having leukemia were caused by her grandfather torturing people to death during the Cultural Revolution

The director of a famous hospital in Beijing contacted Kuwei Zhongzheng, saying that a leader in Beijing wanted to have soulforce medicine constellation conducted. Her father was a plant man and her son was supposed to have leukemia, and could not be cured, and she hoped to solve them through soulforce medicine constellation.

In the communication, considering the diseases were caused by retributive justice, after the soulforce medicine constellation showed the reason, the party must apologize and repent, and the diseases could be cured. If the party was unwilling to apologize and repent, the diseases could not be cured. Considering the party may not apologize and repent sincerely, or due to political factors or face, the party was unwilling to apologize and repent, Kuwei Zhongzheng did not agree to arrange soulforce medicine constellation for her.

Later, after the director of the hospital came to conduct repeated communication, soulforce medicine constellation was conducted for a case, i.e. on February 25, 2012, soulforce medicine constellation was conducted for “her father having hemiplegic paralysis for ten years and being a plant man for four months”. The soulforce medicine constellation showed that her father owed two sisters love debt in his previous life and four people died. The souls came to collect debt and brought the soul of her father away, so he became a plant man.

In addition, the soulforce medicine constellation showed that there were two bloodsuckers in the party’s

home, but there was no time to get more information of the two bloodsuckers. The two bloodsuckers sucked the blood of the father. No wonder the director of the hospital said that transfusion amount for her father was very big, but they did not know where the blood went. This is case 365 of the soulforce medicine constellation.

Because we did not know the degree of acceptance of the leader in Beijing to soulforce medicine constellation, in that term, we only arranged one case of soulforce medicine constellation instead of two cases for her. That leader also carefully watched the other five cases of soulforce medicine constellation, and thought them true and shocking. She wanted to have another case conducted, but as we were tired, in order to guarantee the quality of soulforce medicine constellation, we could not add case in tired state. So we decided to have the soulforce medicine constellation conducted for her son's supposed leukemia after a while.

Later, the leader came again, and had soulforce medicine constellation conducted for her son, i.e. on April 21, 2012, "her 10-year-old son having supposed leukemia, being bigoted and speaking unexpected things". The soulforce medicine constellation showed that her grandfather tortured people to death during the Cultural Revolution. After the Cultural Revolution, her grandfather obstructed redressing for the dead. So the souls of the dead stayed in her home and sucked her father's blood. So her father needs large amount of transfusion. The souls sucked the blood of her son, and the doctor diagnosed it as supposed leukemia. In the soulforce medicine constellation, the symptoms of her son shown were consistent with the

actual ones, and it was shown that the two souls often sat on the knee joint of the party. The party said no wonder she felt pain in her knee joint, and that complete matched her own symptom.

The party apologized to the people tortured to death during the Cultural Revolution, and the two souls rested.

In the past, the party's grandfather was involved in power struggle of the Cultural Revolution unconsciously, and then the party was involved in power struggle unconsciously. This case of soulforce medicine constellation warned the party that power struggle was irrelevant to her, and she just needed to be herself well. After she stayed far away from power struggle, he son was quite, was not bigoted any more, and spoke normally. This is case 388 of the soulforce medicine constellation.

This is a case of vivid retributive justice. People were tortured to death during the Cultural Revolution, but there is price for that. The grandfather tortured people to death, and then the father and son had to repay debt. No matter how big the power is and how high the position is, no one can escape the karma law, and only the karma law can restrain the behaviors of everyone.

40. The case was wrongly decided in the previous life, in this life, the soul was reincarnated as the daughter to come to request treatment, with the birthmark on the daughter's back as the proof

On May 19, 2012, soulforce medicine constellation was conducted for a lady who “had spots on her arms, face and leg for nearly four years”, which started from seven months

of pregnancy, and her daughter was already more than three years old. The soulforce medicine constellation showed that the party was a judge in the Qing Dynasty in her previous life. If someone came to bring a lawsuit, he had the accuser and accused beaten, and not only their hips were beaten, their back and leg were beaten too. She never got clear with the cases and did not accept many cases. Not accepting case is called “act of omission” now. In addition, she did not manage her subordinates well. In this life, the person who was beaten in her back and leg was reincarnated and became her daughter, asking her to treat her wound. Two other persons who were beaten also was reincarnated and abortions were conducted for them, and the babies’ souls grabbed her daughter and made her ill. The party said that birthmarks were all over her daughter’s back, and she had problems with her legs, matching the wound in the previous life, and she was often hospitalized. This case showed that if the judge was unfair, had act of omission and did not manage his subordinates well, it had karma. The party in her previous life in the Qing Dynasty decided unjust cases, and she had to repay in this life. This is case 400 and 402 of the soulforce medicine constellation.

The judge can be supervised, and the law of karma is always supervising.

41. Renal failure was caused by not exercising self-control to protect herself from immorality as an artist in her previous life. The portrait of Mona Lisa is the portrait of Leonardo da Vinci in his previous life.

On Jun 6, 2011, soulforce medicine constellation was

conducted for a case of “sense of suppression after renal failure operation”. It was shown that the party was an artist in her previous life, and she was a lesbian. In the process of soulforce medicine constellation, the party admitted she was an artist then, and she wrote a song for the lesbians not long before in this life.

Sexes shown in the soulforce medicine constellation was messy, and a lot of transvestites appeared. It was shown that the portrait of Mona Lisa was the portrait of Leonardo da Vinci in his previous life, and what Leonardo da Vinci drew was himself in his previous life. Looking from the life data of Leonardo da Vinci, he was a gay and was nearly sentenced, and he was released because the evidence was insufficient. The soulforce medicine constellation cracked that the portrait of Mona Lisa was the portrait of Leonardo da Vinci in his previous life. Many great versatile persons (versatile persons completely exceeding their times) are generally psychics, for example, Emanuel Swedenborg born in 1688, Rudolf Steiner born in 1861, and of course, Leonardo da Vinci born in 1452. The later generations argued for several hundred years and still could not understand the time-and-space-spanning things recorded by them. (By coincidence, Columbus was also born in 1452).

In the process of soulforce medicine constellation, a “Mona Lisa” was always standing in the field. Leonardo da Vinci drew his look as a woman facing the mirror, and he vaguely remembered that he was like that in his previous life. One cannot know how the mysterious Mona Lisa came using 3D thinking. It felt like there were still many secrets in Mona Lisa.

The soulforce medicine constellation showed that many things done by the people were against heavenly principles, including the kidney dialysis, the operation and the transvestite. The soulforce medicine constellation continued, it was shown that the party was a famous performer of opera in her previous life, and she had a lot of fans. The fans liked the famous performer very much, some fans fell in love with her secretly and some confessed love to her, but she was ambiguous to those fans. The fans were desperate and led the boy scouts to demand an answer in this life. This is the origin for the thousands of boy scouts who appeared in the 136th case of soulforce medicine constellation on April 16. Those were all the fans of the party in her previous life, they felt they were fooled and came to demand an answer in this life. The two died in the abortion were also reincarnated from the previous life. This case of soulforce medicine constellation also reminds the artists to exercise self-control to protect themselves from immorality. If the artists utilize the worshipping psychology of the fans and treat them ambiguously, they will get retribution in the next life. This case showed that thousands of boy scouts came to revenge, and they were the fans of the famous performer. At the same time, this case showed that the party utilized her career to set trap and made her fans harmed in her previous life. In this life, she got retribution and fell into the trap of a professional doctor. Finally with the help of the doctor's hand, the party got several cuts on her neck and several cuts on her hand. As the soulforce medicine constellation showed that someone took a knife and came to the party to revenge, and finally killed her.

The position of the stab matched the position where the operation was conducted for the dialysis. In addition, the two died in the abortion said that they would not forgive the party because she was careless in the previous time. After the party said that she would not set trap any more sincerely, the two children died in the abortion accepted the apology of the party, and they brought forward many things that they needed, altogether 24. This case of soulforce medicine constellation also told the party to bear responsibility for her own life and herself. This case of soulforce medicine constellation exceeded three hours. This is case 202 of the soulforce medicine constellation.

The soulforce medicine constellation showed that the party was a famous performer of opera in her previous life, and she fascinated many fans. She knew that these people liked her, and her ambiguous attitude left infinite wild and fanciful thoughts to the fans. They followed her in this life, some still blindly loved her and entangled her, and some held knife to come to revenge. The more the fans falling in blind love, the more karmic creditors following her.

This case also frightens people to sweat. Actually the stars shall be extraordinarily strict with themselves, otherwise they will be miserable in their next life. Artists and stars are two concepts. If a star deliberately utilizes the psychology of liking him/her of the fans, treats the fans ambiguously, and does not care about the fans, that was creating negative karma. Therefore, at any time, the star shall behave himself/herself firstly, shall create ruefulness, goodness and beauty on the stage, his/her words and deeds under the stage shall make people respect him/her, shall not

make troubles, and shall create a clean and quiet mental aura for himself/herself, otherwise nobody knows what will happen next. When the party came to have soulforce medicine constellation conducted the last time, the grand scene of boy scouts claiming debts was a lively example. Now I deeply understand why the position of artists in the ancient time was very low, and it is really an industry that negative karma could be easily created if the artist was careless. The party said “I am sorry, and I did not see you on the stage” to a fan coming to claim debt, and the people on the spot could not help laughing. Yes, the performer did not even see you on the stage, but you followed her for several lives. However, for the famous performer, she had one more karmic creditor. The performer had unparalleled manner and deportment on the stage and fascinated so many people, but she was careless under the stage and deliberately treated her fans ambiguously, that was the trouble. Let’s look at our real lives, some fans committed suicide for the star, some fans had schizophrenia for the star, the attention to moral principle of the star is not enough, and of course the souls follow him/her. It is not easy to master creating negative karma, eliminating negative karma or accumulating merits and virtues for the performer. Anyway, behave oneself is in the first place. If one could not know how to behave himself/herself, he/she shall not be a star, so as to avoid creating negative karma.

On July 30, 2011, soulforce medicine constellation was conducted for “cause and countermeasures for aids”. The soulforce medicine constellation started, homosexual appeared, and Mona Lisa appeared. In the soulforce

medicine constellation, it was found that Mona Lisa was the symbol of homosexuals. This is case 234 of the soulforce medicine constellation, the previous case 202 of soulforce medicine constellation matched the Mona Lisa and homosexual part.

42. The Japanese aunt having pain in her waist and leg was caused by the souls of the dead in the Sino-Japanese War of 1894-1895 possessing her

My Japanese aunt was 89 years old, and I found she had pain in her waist and leg at the end of January 2012 when I went to Japan, so I had soulforce medicine constellation conducted for her on March 10, 2012.

In the recent soulforce medicine constellation, many of the diseases shown were caused of the Sino-Japanese wars, but the parties were Chinese, and I found some laws from the soulforce medicine constellation for the diseases of the Chinese. In order to find the law of the diseases of the Japanese, I had the soulforce medicine constellation conducted for the waist pain of my aunt.

The soulforce medicine constellation showed the Sino-Japanese War of 1894-1895, and the souls of the Chinese dead such as Deng Shichang etc. possessed my Japanese aunt. In addition, the soulforce medicine constellation showed that the husband of my aunt died 42 years and 7 months before, and he was brought away by the souls of the dead in the war. The soulforce medicine constellation showed that the Chinese bombs in 1895 were all fake. The Sino-Japanese War of 1894-1895 made the Japanese knew that the China could not withstand a single blow, and only

had empty shots without smoke of gunpowder.

In the recent soulforce medicine constellation, I saw warships for multiple times, but I could not see the details clearly. On the morning of March 10, 2012, it was strange that I saw the warships again, but they were very clear, not very big, and I could see the spooindrif of sea water very clearly. The soulforce medicine constellation began, and the sea water around the warships was very clean and clear. Later I saw empty shots, and 1895, the Sino-Japanese War of 1894-1895 appeared in my brain. To my surprise, the Chinese shots were empty shots. China was defeated. “Where did the money of North Marine Navy go” was shouted in the soulforce medicine constellation. Someone said it was spent by Empress Dowager CiXi for building the Summer Palace for her 60th birthday. In the soulforce medicine constellation, it was said that was not the case. Such a big country could not spend up all the money just for building a Summer Palace. Later, we tracked continuously, In fact, the money was given to Russia to build five warships. Because this was a secret and nobody knew it, Empress Dowager CiXi was a scapegoat for it. The Russians took the money without building warships for China, and the continuously asked for money. That was a barathrum, and the finance of China was dragged.

In 1895, China was defeated in the Sino-Japanese War of 1894-1895, which made Japan clear about the strength of China. In 1900, the Eight-Power Allied Forces led by Japan came again. Common people mistakenly thought that the western forces was the main of the Eight-Power Allied Forces, actually it was led by Japan. Russia also knew the

strength of China through building warships for China, and attacked together with the Eight-Power Allied Forces. In fact, Russia always wanted to control China, including the later Communist International, they even took away the commanding power of the Chinese army. therefore, through the soulforce medicine constellation, it was found that giving money to foreign countries to build weapons for China is a stupid behavior, not only the foreign country knows the strength of China, and how could China defeat the foreign country by buying the weapons of the foreign country?

Japan won the Sino-Japanese War of 1894-1895. It was already 117 years after, but the souls of the Chinese possessed the Japanese who did not participate in the Sino-Japanese War of 1894-1895 and made them lived in pain. When the whole world knows there is the thing of the souls of the dead in the war entering the bodies of living persons, they shall consider war carefully.

Later, I called my Japanese aunt, she said her pain in her waist and leg was relieved obviously. When I said it was shown that her husband died 52 years and 7 months before, she said that was wrong and it was 42 years and 7 months. After that, I read the field written record and watched the DVD, it was 42 years and 7 months. I said it wrongly in the phone call, but the process of the soulforce medicine constellation was not wrong.

In fact, war has karma too. This is case 370 of the soulforce medicine constellation.

43. Mao Zedong's son did not die in North Korea, but committed suicide in the U.S.

On February 11, 2012, soulforce medicine constellation was conducted for a lady who had hyperthyroidism for eight years. The soulforce medicine constellation showed that the party's husband who died in a car accident eight years ago did not rest and had something to tell the party. However, as he was in the underworld, he could not communicate with the party. Therefore, the soul of the husband stroked the party's neck, which caused the disease in thyroid. At the same time, in the soulforce medicine constellation, it was shown that the soul of Mao Anying(Mao Zedong's son) did not rest, and the osseous remains wanted to go back to China. The soulforce medicine constellation showed that the history of Mao Anying was wrongly written. He did not die in the battlefield in North Korea, but committed suicide in the U.S.. As he did not disclose his identity, nobody found out he was the son of Mao Zedong. In order to keep the secret, he found an opportunity and hanged himself with his belt. Therefore, the party had hyperthyroidism, the lesion position was the same as the position where Mao Anying hanged himself, and this is the message transferred from the 4D space. The concrete details found in the soulforce medicine constellation was as follows: When Chairman Mao delivered Mao Anying to Peng Dehuai, Peng Dehuai refused, as the responsibility was too heavy. However, Chairman insisted on it, and Peng Dehuai had to accept it. At that time, the secret keeping work was really done well, and only few people knew that the son of Chairman Mao went to North Korea. However, Mao Anying telegrammed

Chairman Mao, and the telegram was intercepted and captured by the Americans. The Americans knew that the son of Chairman Mao was in North Korea, so they bombed the command post on November 25, 1950. The American secret service captured Mao Anying, but the Americans did not know Mao Anying, plus Mao Anying did not wear the watch made in Russia, portrait of Chairman Mao with chains and five-pointed star (only the officials could wear it) and Hero brand pen, without article feature of officials, so his identity was not exposed. After being brought to the U.S., Mao Anying did not disclose his identity, and he committed suicide later. The date of his death is March 22, 1952, and was found on March 23. The soul of Mao Anying did not rest, and the osseous remains wanted to go back to China. The soulforce medicine constellation showed the complete process of the Korean War and its proof materials. For the details, see case 352 of soulforce medicine constellation.

I find a message on the Internet after 5 months: In September 1984, due to be refused to visit Mao Zedong's Memorial Hall, Jiang Qing(Mao Zedong's wife) had a chopstick inserted into her throat, because timely discovered, she was saved. In May 1986, she used several socks to form a noose and hanged herself with it. At that time she has had throat cancer. On May 14, 1991, Jiang Qing committed suicide by hanging. This is similar to the case 352 of soulforce medicine constellation, Mao Anying committed suicide in the U.S. by hanged himself with his belt. This was the message transferred from Mao Anying, committed suicide, because, Jiang Qing was Mao's live relatives. They both hanged themselves. That is Mao

Anying's soul possessed Jiang Qing.

Before returning the remains of Mao Anying, the neck and throat diseases would be a high risk disease of Mao's descendant.

44. Sino-U.S. South China Sea Plane Collision Incident Was Caused by the U.S. Shooting Ice Bomb

On February 18, 2012, soulforce medicine constellation was conducted for a case of cephalagra from Chongqing. The case showed the Sino-U.S. South China Sea Plane Collision Incident. Wang Wei did not rest, and in fact, it was not plane collision, but the U.S. using ice bomb. As soon as the soulforce medicine constellation started, I saw a discus-shaped object thrown out, and the action repeated continuously. Then I saw two coin-shaped objects flying out at the same time, and the scene repeated again and again. It was two coin-shaped objects moving forward one after another. After decomposing the action, I saw clearly. In fact, the American plane shot ice bomb from the side, and the ice bomb shall be operated by multiple persons. As the distance could not be too long, the ice bomb could not fly in long distance, so the Americans shall seduce the Chinese plan to get near and then shoot the ice bomb. After shooting one ice bomb, another bomb was added, knocking on the previous one and adding impact force. It was always two bombs in one group and shooting the group. The ice bomb knocked on the plane, then a bomb was added, the broken pieces of ice went to inside the engine, the engine accelerated, pushing the broken ice out and then absorbing them in.....The ice damage the plane surface, and then

entered the engine and rotated in high speed, completely breaking the plane. Merging the actions, I saw the whole process of the plane driven by Wang Wei being shot by the ice bomb.....The radar could not find the remains of the plane, and the plane was crashed ring after ring in the falling process like heavenly maid scattering blossoms. 13 persons sat in the American plane to operate the ice bomb shooter, and then they threw the ice bomb shooter into the sea and concealed the incident of shooting ice bomb. The U.S. also said that the Chinese plane knocked the American plane. Wang Wei did not rest, his soul possessed another person, hoping to transfer this message, which made the party from Chongqing had cephalagra for more than ten years, and sometime possessed China East Airline causing accidents. It is the soulforce medicine constellation that cracked this mystery. This is case 360 of the soulforce medicine constellation.

45.Souls of the Chinese and Americans died in the battlefield of North Korea did not rest

On February 19, 2012, soulforce medicine constellation was conducted for a lady from Chongqing who had headache and sleeplessness for more than ten years, and it was shown that the souls of the Chinese and Americans died in the battlefield of North Korea did not rest.

At the very beginning of the soulforce medicine constellation, the tutor Kuwei Zhongzheng representative was watching with binoculars, and Wen Shuren representative was also watching with binoculars from afar. They were watching each other with binoculars, and it was

the Korean War.

Record of a representative in the soulforce medicine constellation: I was on the opposite bank of the ocean. I lied on the sofa, read magazines in the sunshine. My life was easy and superior, and I did not know the sufferings in the human world. I often read news of the battlefield in North Korea from the media and TV. At that time, I was very young, and was full of passion of life and noble ideals. I voluntarily followed an American non-governmental organization to North Korea, and became a medic of the U.S. army. I should have stayed at the rear services, but as I was audacious and curious, I went to the frontline in the dress of Korean woman. Unluckily I was wounded and captured, and the Chinese soldiers brought me into the bomb shelter. The Chinese soldiers were hostile to me and did not talk to me. What I could hear in the bomb shelter were the sound of guns and cannons. People in the bomb shelter were fewer and fewer, and those who went out did not come back again. The one who captured me was a small chieftain, who seemed to have no hostility to me, and I was not afraid of him at all. As our languages were different, I seldom speak. In the daytime, I stayed in the bomb shelter, and we leaned close to each other to get heated. At night, I dragged my wounded leg and searched for living persons in the battlefield. The battlefield at night was silent, the corpses were in a mess, and the blood was already solidified. I could often pick out several living persons, but they said they were dead and did not want me to take care of them. However, no matter how hard it was to live, no matter they were Chinese, Korean or Americans, as long as they were

still alive, I would save them. I brought the living persons into the bomb shelter and buried the dead. The Chinese soldiers I saved hated me as I was an American, and they cursed me to die. I did not care about it at all, and I felt very much enriched. When the daytime came, I came back to the bomb shelter and leaned close to the Chinese soldier who captured me to get heated and comforted. At that time, I felt I was still alive and was a person, and I temporarily forgot the horror in the battlefield and cruelty of survival. I had no time to think of others, and it was ok as we were still alive. Because of language barrier, we did not have communication in language. We lived in the darkness day and night. In the daytime, in the dark bomb shelter, I slept with bitter sweetness and with my mind at rest beside him. When night came, I lifted my blood colored long skirt and walked on the battlefield searching for living persons and burying dead persons like a ghost. Curse of the Chinese soldier echoed in my ears, and I believed I was a ghost, already dead. However, when the daytime came and I was in his arms, I firmly believed that I was alive and we would get through the war. I did not know how many days had passed, I could not see any living persons, and the dead persons on the battlefield had all been buried. We had more time to lie in the bomb shelter, facing each other in silence, and enduring the heart-scratching hunger, thirst and cold. Finally, one day, the Chinese soldier could not stand the hunger and thirst and went out in search for food and did not come back. At night, I searched for him along the route that he possibly took and found him not far beyond the 38th Parallel. However, he could not wake again, and my lover

finally left the bitter world! I looked at him in a daze and did not have a drop of tear. I took off my clothes and put it on him. I covered him with anything that I could find to resist cold and buried him. I hoped that he was warm after death, and he could not feel cold after that. I still lifted my red long skirt and came back to the bomb shelter. I lied on the ground and did not want to stand up again. I was thirsty and wanted to drink water. I was wondering why my Chinese soldier did not come back. I was cold and I wanted to drink water. Why was he not back? Why? ...Finally I died too, died with deep sadness and worry...After I died, I still slept in the dark bomb shelter in the daytime and wandered on the battlefield at dark night in my red long skirt. I wandered on the grave of the Chinese soldier, and spoke to him: Come back, come back quickly...But he could not hear me. He left here, with boredom to the previous life. He would rather forget all his memories, and was reincarnated in another body. I wanted to be a person together with him, with the same language, so that I could talk with him, communicate with him, and talk about the unforgettable experience. However, I failed to be a person, and my Chinese soldier became a gentle and pretty girl, no longer that big and tall man with mustache. He could not remember me and his battle companions. I cried sadly beside his ear and sang: Come back, come back...Recalling the past, I cannot forget the sweet sadness...How I hope you still remember the past, and how I hope you can bury me with your hands. Don't leave me alone in the dark bomb shelter on the wilderness. In the many years, I have been waiting for your return in the bomb shelter...In the soulforce medicine constellation field,

the Chinese soldier finally came back to the bomb shelter on the battlefield of North Korea where we stayed together and found his previous memory. I had mixed feelings, and I heard him telling me: You can sleep here eternally, and you have already slept here eternally. Now I am burying you with my hands...We both cried. I had waited for too long a time for this sentence, and my will was fulfilled. The war was already ended, and I would go back. I said I would go back, but I was loath to leave. Then the Chinese soldier went back to his hometown in Shandong, and I left the bomb shelter immediately. I left the battlefield with badly mutilated flesh and the memory of bitterness and sweet sadness. The horrifying war finally ended, and I finally parted from the Chinese soldier I loved. However, my bones remained on the land permanently, on the wilderness together with the many soldiers who was not buried in the war. I came back to my home in the U.S.. Everything remained unchanged, I lied on the sofa lazily in the sunshine, reading magazines. I looked at the woman reincarnated from the Chinese soldier whom I loved, beautiful and free from vulgarity, and having the look similar as mine in the past. I smiled to her. The war seemed to not have occurred, and the things happening on the battlefield are just a dream. I held the magazine and fell in sleep again on the sofa. 2012-2-21 15:13:39

For the details, see case 362 of soulforce medicine constellation.

46. Abdominal distension for more than 20 years was caused by the American soldier sending telegram in the Midway Island Battle being reincarnated and soul of the baby discarded by his mother possessing him

On June 16, 2012, Soulforce medicine constellation was conducted for a man from Taizhou, Zhejiang, who had abdominal distension for more than 20 years. The man suffered from the abdominal distension but had no bellyache, and it was not cured after treatment of 20 years by the hospital. The soulforce medicine constellation showed that the party was an American soldier who sent false telegram saying that the waterpipe of Midway Island was broken and seduced the Japanese army to bomb the Midway Island in the previous life. He sent false telegram confirming that the code B in the Japanese telegram was the Midway Island, and seducing the Japanese army to bomb the Midway Island. He knew the information of the Japanese airplanes coming to bomb the Midway Island in advance and survived, but seven to eight battle companions of his died, and this was his previous life. In this life, he was reincarnated into China, and the souls of his battle companions followed him, making him had abdominal distension and reminding him that he sent false telegram saying the water pipe was broken. In addition, the souls of the Japanese soldiers died in the bombed submarine also followed him, making him had abdominal distension. In addition, the soul of the baby 20 years younger than him and discarded by his mother also followed him. The baby was reincarnated in the wrong place and was reincarnated in his superior belly, and stayed there for more than 20 years.

For the above reasons, he had abdominal distension for more than 20 years, and the hospital could not solve it. The soulforce medicine constellation solved these problems one by one.

It was no wonder that the man was tall and thin and looked like an American very much. In the soulforce medicine constellation, in the final reconciliation stage, his battle companions in his previous life wanted to practice boxing with him. He acted skillfully, going back to his previous life and going back to the pleasant scene of practicing boxing with his American partners. In this life, he did not learn boxing, but he was suddenly very skilled on the spot.

From the above cases, we can know that there are definite national boundaries and nationalities in the 3D space, but there are no definite national boundaries and nationalities in the 4D space. The party was an American in the previous life, but may be reincarnated into a Chinese in the next life, and the souls of his battle companions would follow him, making him had disease. Therefore, there is no winner in the battle, and the two parties of the war may be partners in the previous life. Therefore, we shall cherish peace.

For the details, see case 417 of soulforce medicine constellation.

47. Birthdate of Cristoforo Columbus was September 22, 1452

On November 20, 2011, soulforce medicine constellation was conducted for “the four-year old daughter having hollow right lower face”. The soulforce medicine

constellation showed Mayan civilization, Atlantis, Columbus finding the new continent and Einstein etc.

The soulforce medicine constellation showed that Columbus found the new continent. Columbus was not sailing blindly on the sea, and he had his purpose. Before the sail, he had map in his brain. It is the map given by god, and Columbus was from the exoplanet (soul of alien reincarnated), and he had surprised pleasure after finding the new continent.....

The soulforce medicine constellation showed that the birthdate of Columbus was September 22, 1452, while in the history, it is recorded that the birthdate of Columbus was in August or October 1451. This case of soulforce medicine constellation unconsciously revealed the birthdate of Columbus. This is case 320 of the soulforce medicine constellation.

Looking from the data, main festivals of U.S.A. are mainly New Year's Day, Washington's birthday, Ribbon Memorial Day, Independence Day, Labor Day, Columbus Day, Thanksgiving Day and Christmas. Columbus Day is the second Monday of October.

Columbus is considered as the first person who found the Continent of America in the west. In August 1492, he led 120 people and took three ships to leave Spain and sail around the world. In October 12, 1492, after sail of more than 30 days, they finally landed on San Salvador Island in North America. Later, Columbus sailed to the coast of America to conduct field investigation for three times.

U.S.A firstly initiated commemorating the Columbus Day in 1792. On this day each year, Most states would

conduct celebration, parade, church worshipping and school events to commemorate this day with historical sense.

Because Columbus is very important to the Americans, September 22, 1452, birthdate of Columbus found in the soulforce medicine constellation is written here.

Columbus found the Continent of America, and Kuwei Zhongzheng found the birthdate of Columbus.

48. Tachycardia, pre-excitation syndrome of a 26-year-old son was caused by watching the composite titles of a leopard running about wildly in the TV program of The World of Animals

On November 20, 2011, soulforce medicine constellation was conducted for a 26-year-old son from Wuxi, Jiangsu had Tachycardia, pre-excitation syndrome, and was timid and felt anxious. The soulforce medicine constellation began, and the scene was watching CCTV News, and then it was watching TV the World of Animals. The titles appeared, and it was a leopard running and jumping wildly. At the same time, the party's son had wild heartbeat, and the heartbeat was more than 200 per minute. As long as the leopard started to run and jump wildly, the son had wild heartbeat, and when the leopard stopped running wildly, the son's heartbeat was normal. Each time the attack came, the heartbeat was more than 200. When they went to the hospital for examination, the wild heartbeat stopped, and the examination showed normal. Therefore, the doctor diagnoses it as Tachycardia, pre-excitation syndrome. In fact, the titles of leopard running wildly in the World of Animals were composite and fake, and it was not real. If

the leopard ran in such a big amplitude, the heartbeat would be more than 200 per minute. In fact, the fake TV scene could make people ill. This case was the disease caused by fake TV scene. At the same time, killing animals existed. It was not only not killing the wild animals that should be protected according to the provisions of the state, general animals shall not be killed either. In addition, abortion of the mother existed, which caused the heart problem of the son. This is case 319 of the soulforce medicine constellation.

49. A singing star forged the tomb of Cao Cao, souls of the dead pinched his leg and he had operation in the U.S.

On December 3, 2011, soulforce medicine constellation was conducted for a lady from Jiangsu who “hiccuped every three seconds and the symptom lasted for one year” and could not get it cured in the hospital. The soulforce medicine constellation showed that after The Brave Men’s Song sung by a male singing star was popular in China, the singing star planned to build the ancient tomb group of the Three Kingdoms, forged the tomb of Cao Cao, and souls of the dead possessed him and pinched his leg. After the soulforce medicine constellation, I searched on the internet, and it was proved that the singing star had femoral head ischemic necrosis and had operation in the U.S.A., which was consistent with what was shown in the soulforce medicine constellation. The soulforce medicine constellation also showed that another female star liked to talk about the privacies of others in the TV programs in Hong Kong, and souls of the dead also possessed her.

The party admitted that she liked to sing The Brave

Men's Song very much, and she named her daughter the same name as the singing star. The party also admitted that she liked to talk about the man and woman relationships and privacies of her colleagues and leaders when on duty. After she apologized and repented, her hiccup disappeared on the spot. This is case 328 of the soulforce medicine constellation.

After the party went back, she hiccupped when on duty and did not hiccup after going back home. I asked which unit she worked in, and the party said that she worked in the Municipal Statistics Bureau. The party said that the work of the Statistics Bureau was basically forging, when the leader wanted high figures, they forged high figures, and when the leader wanted low figures, they forged low figures..... This was a disease caused by forging. If she wanted to stop hiccupping, she either needed to stop forging, or needed to change to another job that did not forge.

Why does forging cause diseases? When the tomb of Cao Cao was forged, the souls of the dead in the 4D world knew it, and they pinched the leg of the singing star. The female star talked about the privacies of others, and the souls of the dead possessed that female star too. The above two stars must have soulforce medicine constellations conducted to solve their problems of souls of the dead possessing them, and the operation could not solve it. The soulforce medicine constellation disclosed the fact that forging would cause diseases.

50. Wenzhou Train Accident on July 23, 2011 was caused by the soul pressing on the brake of the front compartment

On November 26, 2011, soulforce medicine constellation was conducted for a 70-year-old granny from Shanghai who “felt hot on her body since more than 20 years ago, felt hot on her head all year through, had sweat on her head and felt hot even in winter”. The soulforce medicine constellation showed that her ancestral grave was flushed away by the flood of the Yangtze River, and the flood of the Yangtze River was caused by the souls of those dead in the June 4 Incident not resting.

Soulforce medicine constellation showed: Two floods in the Yangtze River in the 1990’s, rare downpour in the history on the night when Hong Kong returned on June 30, 1997, leakage of rain on the roof of Hong Kong Return Pavilion, “Harmony” Train Pileup Accident caused by pressing the brake of the front compartment of Wenzhou train on July 23, 2011 etc. were done by the same batch of souls. We saw you, and we will remember you. 3,281 souls of June 4, 1989. They had been led by Hou Dejian sang My Chinese Heart until death, now possessed many leaders.

After soulforce medicine constellation, all symptoms of the granny disappeared, and the foot ache of the granny also disappeared and could walk freely.

For the details, see case 322 of soulforce medicine constellation.

Through soulforce medicine constellation, we know that the living persons shall worship the souls, no matter their relatives’ or their foes’, friends’ or enemies’. As long

as there is no person commemorating, the souls will not rest and will possess living persons and make them ill.....If there is unjust treatment, it shall be corrected as soon as possible, otherwise the souls will possess living persons and cause disaster. No matter how high your official position is, you can not get out from it. This is the truth that we saw in the soulforce medicine constellation. This is why people attach importance to burying the dead and worshiping the souls in foreign countries. In China, people don't attach importance to it, and that caused many misfortunes, and the sadder thing is that people still did not realize it when disasters occur.

51. Reasons for the death of the former Minister of the Ministry of Health of China Chen Minzhang were approving placenta preparation and determining the nature of Falungong

On April 30, 2012, a son from Beijing had soulforce medicine constellation conducted for his father who had operation to cut off 2/3 of his gastric cancer. The soulforce medicine constellation showed that a baby's soul of abortion possessed him, and at the same time, because he took placenta preparation, the baby's soul of the placenta possessed him, and because he took the Chinese medicine containing animal medicinal materials, souls of the animals possessed him. As many animals were killed in the animal experiment process for the Western medicine, souls of the animals possessed him.

At the same time, the soulforce medicine constellation showed that the former Minister of the Ministry of Health

of China Chen Minzhang died of pancreatic cancer. There were two reasons for his death: 1. He approved placenta preparation, causing more people had abortions in order to get placentas, so souls of many babies possessed him. 2. He determined the nature of Falungong. Chen died on March 16, 1999. This is case 397 of the soulforce medicine constellation.

Chapter 3 Records of Soulforce Medicine Constellation Cases

(207)The father had black shadow in his eyes for half a year (Japan Attacked Pearl Harbor, U.S.) (Nantong)

No. 4496 MSG written by Zhongzheng from Shenzhen

Content: (207) On June 26, 2011, 3rd case of that day, (20110626C). In August last year, after the party's father went back to Nantong from Beijing, he found black shadow in his right eye and tears in his left eye. The two daughters had the soulforce medicine constellation conducted for their father. The soulforce medicine constellation began, someone said he was watching women bathing, and he saw many women bathing. Then someone drunken appeared. Then a female representative was always absorbing the Yang Qi in the eyes of another male representative, and the male was willing that his Yang Qi in his eyes was absorbed. The more the female absorbs, the more blurred the eyes of the male representative were. Then he said that he was in the vivipara, and he continuously said pearl, pearl. Then American soldiers appeared on the warship of Pearl Harbor, and they were drinking and dancing. I continuously said Marxism-Leninism, Marxism-Leninism, which seemed to be completely uncomfortable to the scene. The statue of Lenin appeared in front of my eyes, who was walking forward in coat, and his forehead was high. It was China

propagandizing Marxism-Leninism, which submerged the major event of Japan attacking Pearl Harbor. After several role switches, I represented an American soldier, and I armed around a pretty girl. That girl said that she was from Hong Kong and was living with her grandmother. She was brought onto the warship by me. We were very happy together. I had a fiancée in my home, I almost forgot her, and I only remembered that I was from Texas. We were reveling and dancing on the warship together, and suddenly we were all killed by the bombs of the Japanese planes, and we were all buried on the bottom of the sea. However, we did not know that we were dead. A girl was always looking for me, and she kept on saying that she was looking for her lost eyes. In fact, she was looking for her lost love. I did not know I died, and my soul came back to my hometown Texas. I saw that my fiancée was very rustic and I left. I went to look for my beloved girl. Later I switched to another soldier, who was from West Virginia. My name was Oliski, and I found my beloved girl. I told her that I was always looking for her, but I did not find her. In fact, my soul went to West Virginia first, and I saw my wife and child. My wife was taking good care of my child, so I came out to see my beloved girl on the warship. The girl said I was cheating her, and I said that I did not cheat her, but I was afraid of being found out. She kept saying that I was cheating her, and I dressed up my statement and finally made her believe that I really loved her. In fact, I liked her in my heart, at least compared to my wife, I liked that girl more. The girl asked me to bring her to my hometown. I agreed and we embraced together. Later, the

party buried all the soldiers and made them rested. This case of soulforce medicine constellation was amazing, not only all the conversations were in English, but also the first scene was using binoculars to watch women bathing. Some soldiers were drunk. After all the soldiers were buried and it was almost ending, I was suddenly extremely excited. The last scene was that I was on the warship, I saw some pretty girls passing by, and I waved my right arm and shouted “I see your bright eyes”. Later, the girl wanted to keep the brightness of her eyes, so she absorbed the Yang Qi in the eyes of others. She continuously looked for the lost eyes, and in fact, she was looking for the lost love. She was always waiting for the appearance of her lover. The sound of singing and love story of Titanic were much more inferior than the love story of this case. The soulforce medicine constellation ended, and I repeated for multiple times. I rushed onto the chair, and waved my right arm in pleasant surprise, “I see your bright eyes”. Then I jumped onto the bank from the warship and jumped to beside the girl. Oh, I was completely an inverted-order soulforce medicine constellation. The first scene of the story appeared at the end of the soulforce medicine constellation. In addition, when I waved my arm and said “I see your bright eyes”, I had no worry and any shadow and pressure of war. It was so elegant and unconventional to be an American soldier!! In the domestic movies I saw, the soldiers were all ascetic monks. I felt for the first time it was so carefree and joyous to be an American soldier. I understood why so many people migrated to the U.S.. After the soulforce medicine constellation ended, I said “I see your bright eyes”

repeatedly, and the sound was stereo, like the tone and intonation of Hollywood movies. During supper, we joked that the wife in the hometown represented by Yogacat was too rustic, and that she could not be compared to the girl with bright eyes on the warship. Attack on Pearl Harbor by Japan occurred on December 7, 1941, on the morning of Sunday. The shadow in the eye was actually reminding us to remember that Attack on Pearl Harbor by Japan was a major historic event.

Re: I represented the drunk soldier in this case, and I just wanted to look at the body of women in their clothes. Because the soldier represented by the tutor Kuwei Zhongzheng appeared in the first scene of the story for three times, I was drunk for three times. I was very elegant and unconventional on the warship, I was pleased with my hands in the trouser pockets, and I completely had no shadow and pressure of war.--- Ruo Shui 2011-6-27 18:39:26

Re: In the beginning, I felt I was a roaming soul. Later, I knew I was looking for the representative Yi Shenghuo. The loneliness was deep in the marrow and soul. I was very painful, and maybe it was not completely expressed. Suddenly, I was very eager to listen to Titanic. Then Sea Viewer and Yogacat sang the song. My emotions were immediately pulled up and all kinds of emotions rolled, several hundred words are omitted here (it could not be expressed clearly, like separation between loved ones in life or death). Later, Yi Shenghuo said that he saw a woman faced him at the back, and I said that was me. He embraced me from behind, and I turned back to face him. He went

off the chair and I lied on his leg. He caressed my back, and I felt much more peaceful. Later, I strongly required to embrace face to face, and my head leaned against his shoulder. I was quiet and heaved several sighs. Later he sang many songs such as Country Road and I Am A Big Big Girl etc., which gave me very good feeling. Later we went back to the hometown and were buried together. My name was Judy and his name was David. This scene made me deeply feel the love of separation between loved ones in life and death, and I would like to thank everyone and thank Yi Shenghuo! ---Lili 2011-6-27 22:47:03

Re: I am waiting for you, darling...day after day, year, one more year ...your hometown...I am waiting... clearly I see you again when I am almost in deep despair...you stayed with me so shortly...but...your heart won't belong to me... I can't feel you...can't feel your warmth...oh! I can't imagine what happened...you love another girl! I lost my heart! I lost my love! I lost you...you've gone... you've gone...I love you so much, so deeply, but you don't know my sadness...and the sadness will go on... 2011-6-27 23:27:06

Re: I did not think that the center of gravity was in the
last scene in the case of “Japan attacking Pearl Harbor, U.S.”.
I jumped onto the chair for a continuous three times, and I
waved my right hand, “I see your bright eyes”. Then I heard

Re: Many English songs were sung on the spot, and
this is one of them: My Heart Will Go On: Every night in
my dreams, I see you I feel you, that is how I know you
go on. Far across the distance, and spaces between us, You
have come to show you go on. Near far wherever you are, I
believe that the heart does go on. Once more you open the
door, and you are here in my heart, and my heart will go on
and on. Love can touch us one time, And last for a lifetime,
And never let go till we're one, Love was when I loved you,
One true time I hold to, In my life we will always go on.
Near far wherever you are, I believe that the heart does go

on. Once more you open the door, and you are here in my heart, and my heart will go on and on. You are here there is nothing I fear. And I know that my heart will go on. We will stay forever this way. You are safe in my heart. And my heart will go on and on. Sea Viewer 2011-6-28 9:37:15

Re: Scarborough Fair: Are you going to Scarborough Fair? Parsley, sage, rosemary & thyme. Remember me to one who lives there. She once was a true love of mine. Are you going to Scarborough Fair? Parsley, sage, rosemary & thyme. Remember me to one who lives there. She once was a true love of mine. Tell her to make me a cambric shirt. Parsley, sage, rosemary & thyme. Without no seams nor needlework. Then she will be a true love of mine. Tell her to find me an acre of land. Parsley, sage, rosemary & thyme. Between the salt water and the sea strand. Then she will be a true love of mine. Tell her to reap it in a sickle of leather.

Re: The narrative technique of this case of soulforce medicine constellation was very special. In the beginning, it was watching women bathing, with great interest, and talking about the bodies of women. Clams, pearls and conches appeared. Suddenly, the scene of attack on Pearl Harbor flashed upon my mind, planes whistled by, and bombs were everywhere. There were also winding mountain highways and posts. In fact, it was the American soldiers watching women bathing, the Japanese planes came to bomb, and souls of the dead killed by the bombs wanted to go back to their hometowns. They continuously sent waves for help in the deepest place in the ocean. The soulforce medicine constellation showed the moving love story of the American soldiers, asking us to remember that attack on Pearl Harbor is a very important section of history determining the situation of the Pacific War and remember this section of history. Without the Pearl Harbor Incident, the Anti-Japanese War would not end such quickly. It was like aerial shot, at first, the lens was pulled very near, we saw women bathing, then the lens was slowly pulled far, and we saw a warship, sky and sea, and the planes came and dropped bombs. In another scene, the sailor was separated from his lover in life or death, and the soul after death wanted to go back to his hometown. The tutor Kuwei Zhongzheng represented a handsome sailor, he loved a girl

and brought her onto the ship, but his wife and child in his hometown were still waiting for him. I was lucky in this scene, hehe, my husband loved me, I gave birth to a child, which locked his heart, and he only had us in his mind and would not run between two ends. Hehe, my husband was very good at lulling the child and held the child when he relieved himself. Finally the narrative lends was pulled back onto the ship, and it was the scene of the American soldier represented by the tutor meeting his beloved girl for the first time. “I see your bright eyes”, the fellow jumped onto the bank from the ship excitedly. Re: I sank to the bottom of the sea, and I was immersed in endless darkness. Huge panic made me lost a lot of my memories. I curled up into a roll, and I was absorbed into a big clam without being able to respond in time. I felt quite safe lying inside, but the pearl liquid secreted by the clam gradually formed a film-like layer and wrapped me. My eyes could not see clearly, and I dared not open them. Every night when the moon was round, the clam would go to the surface of the sea to absorb the essence of the moon and nurture the pearl, and I came to the surface of the sea with the clam and did not know why I was in the sea. It was familiar and strange here, and I only had the idea of looking for eyes in my mind. So I gazed at the eyes of young boys, and I saw their eyes were so bright and would collect the vital essence in their eyes to make my eyes bright. As long as my eyes were bright, I could identify the road back home and find my lover. However, I really could not remember who he was, where he was and where the hometown was. I

could only go to the bank from the sea to search everywhere once and again, and when I was tired, I would go back into the clam to have a rest and then continue searching. Years went by, I still did not have memory and could not find. I went back to the bottom of the sea, it was all dark, and I was lonely and sad. Then a man came and he said he was the man I was looking for. I looked at him in doubt and did not recognize him. He told me the man was him, and he brought me onto the ship. Later, the ship sank, and there was no message of me. I slowly recalled, and I remembered some happy fragments singing and dancing on the ship. I still did not recognize him, but he said he could bring me to Hong Kong and had me buried there. As long as not staying on the bottom of the sea, I could go anywhere. I followed him to Hong Kong and stayed at the place arranged by him. It was so strange there, I was agitated and left in disappointment. I only wanted my eyes, only wanted to have my eyes back... I roamed around and searched in tiredness. Without my eyes, I could not find the way back home, and I could not see my lover. On the way, their eyes were dim. I looked at them in a daze and was in extreme despair. I did not know what to do. A man came and held me in his arms. He said affectionately that he was the man I was looking for, and he told me the process of our meeting in details. Although I did not know who he was, I gradually felt warmth and comfort. I began to believe what he said. He continuously said beside my ears that the ship was bombed, he fell into the water, and could not find me...I finally cried in grievance, and complained to him tearfully: I lost my eyes, lost my lover, lost my family, and could not find the way back home...But he already had

wife and child in his hometown, and he was cheating me...I cried...He held me in his arms and explained continuously. He promised me to bring me to his hometown. In his soothing sound, I turned to be pleased. Yes, I would go back to the U.S., where I could find my relatives...He held my hands and brought me back to the U.S.. Everything was still very strange, but I had my lover accompanying me. I was no longer scared and lonely...I told him my eyes began to be bright, and I could see more clearly. He looked at my eyes in pleasure and shouted: Bright eyes! Then he ran away excitedly. I heard someone shouting: I see your bright eyes! He waved his hand to me standing beside the ship, warm, young and handsome, and his eyes were sparkling with brightness like pearls...At that moment, all my memories were awakened, and I recalled everything. I jumped up and ran, and I shouted: You guys! What a handsome boy! Come on! It was just like the situation when meeting for the first time. He jumped down and embraced me, and we were in endless sweetness and excitement...Oh, my darling ...I will dance and sing together with you, and I will go with you to the sea to see the sea birds flying...I have a lot of things to tell you, and I will tell you that I went to a lot of places in order to find you...Oh, I must tell you the story of moonlight and pearl...Oh, my darling, what a happy time when I fall in love with you ! Re: I represented an American soldier named David. In the scene, I wanted to lie on the chair. Then I saw a woman in red very lonely, who faced the crowd at the back. Lili said she was very lonely, and the woman I saw was her. Later, the theme song of the movie Titanic went up, and Lili

said she hoped me to embrace her. Later, I went over. Later, Take Me Home Country Road went up on the spot, and I began to miss my relatives. The role represented by Lili was not my family member. Finally, we were buried together. Yi Shenghuo. 2011-6-29 8:18:59

Re: American soldiers on the Pacific Ocean, my lover! Thank you for bringing me to my hometown, and thank you for finding back my memories, thank you! The soldiers dead on the ship got placated and honored after the Pearl Harbor Incident, but those young girls accompanying them to spend the merry time were buried on the bottom of the sea forever. Many of them did not go back to their hometowns, and did not find their lovers. They cried on the bottom of the sea, and they searched everywhere... I hope they are not forgotten, and those young and vivid lives and the short-time joy owned by them are not forgotten. Pearl Harbor got its name for the abundance of pearls, and the tears of the young girls were as crystal clear as the pearls. Wen Shuren 2011-6-29 9:43:40

Re: It was a night of rainstorm, and the ship rocked severely, making people dizzy and wanted to throw up. Two lovers were kissing in the rain, and they were soaked in the rainwater. The woman was almost as tall as the man. She had black medium and long hair, in long-sleeve cream-colored dress. The white man had a profile similar as the tutor's, a little taller, with light brown eyes and hair, shining under the sunshine. Yiping 2011-6-29 10:48:21

Re: I suddenly remembered that my tears ran like a

bubbling spring that day. I sat in a gesture protecting myself, and a lot of crystal clear tears flew down along my arm. I felt the broken tears were extraordinarily bright. In fact, my emotions were mixed together. The tears of the forgotten girls were flashing like pearls. Hehe, besides the honest girl in the countryside lacked amorous feelings and cried sadly for her lover's unfaithfulness, I actually represented the many girls who should be memorized. In the beginning, I sat on the deck pleasantly, and enjoyed my young and merry time. Later I was bombed, I floated holding the wreckage of the warship and gradually lied on the silent and dark bottom of the sea. The tears were the signals I sent, no wonder my tears were so exaggerating and so many on the spot, in fact the tears were not just for myself. Yogacat 2011-6-30 8:07:55

Re: In the constellation, “Pearl of the Orient” was sung: The small curved river flows to the east, and flows to Hong Kong to have a look. Pearl of the Orient, my lover, is your elegant demeanor still as romantic as before? At the seaport with curved moon in the sky, it is deep at night and the lights are bright. The Pearl of the Orient does not sleep for the whole night, keeping the promise with the seas changing into mulberry fields and mulberry fields into seas. Let the sea wind sway for five thousand years, and each drop of tear seems to speak out your dignity. Let the sea tide accompany me to bless you, and please don't forget my never-changing yellow face. The curved boat runs into the sea port, and looking back, the sea is vast. Content: Yesterday, after the constellation case of Pearl Harbor, when we had meal together, we were still indulged in it and discussed the details. I and Yi Shenghuo discussed that the role I represented in the relation between man and woman is either a third party, or a girlfriend or a left-hand wife, anyway it was husband and wife relation not admitted. In my realistic life, after I was in contact with my first boyfriend, I found he had girlfriend and we parted, and I was a third party. Later in my blind dates, the men who liked me were all divorced men, and they were all much

older than I and short. Yi Shenghuo said it may be related to the messages brought by the previous life or family. Maybe because the tutor and the students were all present and the energy was strong, after I spoke out my doubt, I returned to my previous life in my dream on the very night of that day. I saw important messages and found out the answer...

They are extremely similar in their looks, figure and eye expressions, both of them had a marriage, and we had contact for the parents' reason. Life is really a joke! Up till today, I know that the person I have been looking for in my subconsciousness from my previous life to this life was killed by my fiancé cruelly in my previous life. If I did not get in touch with soulforce medicine constellation and did not know the tutor and all the students, I am afraid I could not know the truth for my whole life. I sigh that I only believe till now that it is beautiful yet incomplete -- in want of perfection in the human world. Even if the wife lifts the tray to a level with her eyebrows to show great respect for her husband, the couple finally became swallows flying in different ways, and neither had the idea of the separation between loved ones in life or death. The grief and joy in the human world are still repeating in the transmigrations.

Content: If I do not break my obsessiveness, the soulforce medicine constellation cannot be accomplished. I represented a rustic and spoony wife, and facing the unfaithfulness of my husband, I was weak and unable to step out of my sadness. I could only weep continuously to flush myself, which is of no use. On the spot, I was inhibited chronically for a long time, and my emotion could not be released.

After I came back, I was always indulged in the poor sadness, and I was pothered by the eye expressions of the tutor Kuwei Zhongzheng.

The tutor's heart was opened, and information receipt and expression were extremely perfect, so the charm of the eye expressions was extraordinary and ever victorious.

Affectionate remembrance will cause field of tears. Life is like a drama, soulforce medicine constellation is like a drama, life is soulforce medicine constellation, and soulforce medicine constellation concentrated so many lives. Those acting in the drama are maniacs, and those who watch the drama are fools. The maniacs are just completely devoted into the drama, and when the drama is over, there is no remaining information, and they can do what they shall do. Those who watch the drama are still indulged in it, and are entangled with the love story already finished. The fools wrap themselves in the sad and sentimental emotions and murder their energy without consciousness. Yogacat made the mistake of fools, but Yogacat is not a fool. I suddenly found that I have a pile of qualms not released. My understanding was only limited to the brain, and I did not implement with heart. Soulforce medicine

constellation requires being devoted to the drama, the more you are devoted into the drama, the more information you can read. Soulforce medicine constellation more requires expressive force. If you have wish, you shall express, otherwise you have to digest the information after going back and you are walking in the emotions of others. I have acted in more than 200 soulforce medicine constellation, but I have not broken my obsessiveness. It is lamentable that stubborn people must have their pitiable characters. I have seen the restrictions and fetters in my personality, I finally see you, and thank you for accompanying me for so many years. Thank you, I really thank you. There is sky above and ground below, and father is the sky and mother is the ground. There is not me without my parents. There is no royal road without respect. Father and mother, sorry, I was wrong. Please forgive me, sorry, sorry...I love you, I will be soft. I will be a woman like water, thank you, thank you. I love you.

Re: I did not think that the center of gravity was in the last scene in the case of “Japan attacking Pearl Harbor, U.S.”. I jumped onto the chair for a continuous three times, and I waved my right hand, “I see your bright eyes”. Then I heard “What a handsome boy! Come on!” Then I jumped onto the bank from the warship and went to the side of the girl with bright eyes. Three girls walked together, and I only jumped into the arms of the girl with bright eyes. Re: Sigmund Freud said dream is the fulfillment of reality. Now our Soulforce medicine constellation is the fulfillment of surrealism. Pleasant and sweet emotion made the tutor's face glowing with health and he looked like a completely different person. The tutor I saw on the spot was a handsome fellow just over 20 years old, elegant, unconventional, tall and straight. His eyes and face were full of sunlight, and his whole body sent out youthful and charming breath. It was like California sunshine, warm and brilliant, making people moved. The pure and warm love is so beautiful and so good. It is an affection that deserves commemoration and respect. Yogacat 2011-6-28 17:08:03

Content: Dedicated to the most romantic love in the history of soulforce medicine constellation

She Has Bright Eyes---Land in this life, seed in the previous life, this is to commemorate the wounded love in the Pearl Harbour Incident. There was the love pure as pearl. There were the eyes brilliant as the star in the night sky, but they were forgotten in the dust of history. The place that abounds with pearl also abounds with beautiful sadness. She was eager to go back to her hometown without worry in her memory. The breath-taking memory ran through transmigration and fell here as light as white feather. When the moment of attack came, the vivid lives cheerfully chatting and laughing on the warship suddenly ended,

solidified and distorted. After the shocking explosion, everything was dead and silent, panic, blood, messy, broken limbs, wreckage of warship, broken permanently, but never ceasing. I girl thought constantly of her eyes, and the eyes was her lost love. Bright eyes! I see your bright eyes! You guys! What a handsome boy! Come on! The sailor and the dancing girl were warm, young and handsome. One is like the brilliant sunshine in Virginia, and one has sparkling eyes and danced with laughter, lighting the sailor's heart like the round moon in the sky over the sea. Pearl, pearl, the men got flowers, mourning and praises, but the innocent girls accompanying the men could only feel dejected in the clearance of time. Place as charming as pearl, love as beautiful as pearl, and tears as crystal clear as pearl. Their fates were the same as the soldiers', dead unexpectedly, and sinking in a strange district. Their youth was the same as the men's, warm and beautiful, like the rising sun. Ah, pearl, pearl, our unforgettable second hometown. The cruel shadow of war elapsed, and we enjoy the revelry to our hearts' content. Even if the flames of war continue and the cannons fire, and the souls of the dead fall into silence and darkness, the broken floating foams emit charming aroma of champagne. We drank to our hearts content and danced, and the unfinished two-people dance steps appeared at one night again. Please accompany me to finish the dance, place embrace me and kiss me as before, and let's finish it.

Re: The girl with bright eyes slept in the clam on the bottom of the sea for 70 years. The crystal clear and brilliant nacrum wrapped her layer by layer, preserving her face and body. Maybe you will see a sleeping beauty jadified by the

nacrum when you open an old clam on the bottom of the sea hundreds and thousands of years later, so bright that you cannot watch her intently...The downcast eyelid and slightly opening lips seem to be telling you her miss and melancholy...2011-6-30 18:09:37

In the first two days after the case ended, I did not walk out from the soul-tempting eye expressions of the tutor. It was in the third day when I began to understand the endless romance of the sentence “I see your bright eyes”. So a fantastic love story, so a romantic time... Yogacat 2011-6-30 18:49:25

The patient was my uncle, a carpenter in the countryside of Jiangsu, China. He basically did not leave his local place, did not participate in war, and his predecessors and children did not participate in war. As his children worked in Beijing in the recent years, the patient occasionally went to Beijing after he became old, and did not go to other places.

After the incident, I knew that the patient was born on October 27, 1941 the lunar calendar, December 15 the Gregorian calendar, eight days from December 7, 1941, the day of Japanese attacking the Pearl Harbor.

After the soulforce medicine constellation, the black shadow in the patient’s eyes disappeared. The souls of the girls accompanying the American soldiers and died in the Pearl Harbor transferred the message of requiring the American government to commemorate through the patient. Through the soulforce medicine constellation, the message was cracked and transferred, and the black shadow in his eyes disappeared.

This is case 207 of the soulforce medicine constellation.

Each case of soulforce medicine constellation is a complete story, and this case is case 207 of soulforce medicine constellation. We selected 2/3 of the contents and translated them into English. We recorded all the soulforce medicine constellation cases in Chinese, and we have complete videos. Welcome to ask for the original texts to translate into foreign languages.

Chapter 4 Loving Care

Zhang Naihui

It was June 27, 2010 when Ms. Li Guixin came back from Nanchansi Buddhist Temple, Changting County, Fujian Province, China, after Vipassana. She brought back a book of "Love Transfer --- Quantum Medicine, Quantum Resonance Information Water and Exploration on the Treatment of Body, Mind and Soul Diseases"; This book was published by the Hong Kong Asia Media Publishing House. As the Chairman of Hainan Institute of Happy Family (HIHF), I have a special sensitivity on the "love" expatiation. If we can transfer the "love" to the thousands of families, how wonderful it is! It was one day or more that I was absorbed in reading and finished the book soon. The contents of this book are thoroughly new, innovative, and full of unconventional thinking, sincere to cure diseases and save lives, fully transferring the love between the human being and the soul of the four dimensional space.

The author of the book is Mr. Kuwei Zhongzheng, a Master of Medicine. He has been eagerly learning, studying, seeking, exploring for decades, and found that water has memory function, transmitting information function, similar to the concept of Japanese Dr. Masaru Emoto's "Water Knows Answers: The Hidden Messages in Water Crystals ". The 70% of the human environment is water; and the 70% of the global environment is also water, which is similar to the human environment. The human blood is salty and the sea water is salty as well. And the

trace elements of both are very similar. The sea water is in regular waves, and the human blood is also in regular cycle with waves, and the human cells are in regularly fluctuations, vibration too; Once a part of the body vibration frequency has been disrupted, there will be problems with sickness. That is, the origin of the human illness is a part of the body vibration frequency was disrupted. It is 15 years that Mr. Kuwei Zhongzheng has developed the Quantum Resonance Information Water (the QRI Water) with painstaking efforts to memorize the common resonance information of the human body into the water, with water as a carrier for transmitting the resonance information, to correct the frequency disturbance of the human body, so as to rapidly improve the disease. The book of " Love Transfer --- Quantum Medicine, Quantum Resonance Information Water and Exploration on the Treatment of Body, Mind and Soul Diseases" tells us that the disordered frequency of the ill can be corrected by transmitting the frequency of the Quantum Resonance Information Water (the QRI Water). And the sick body will possibly restore its health. This allows the different diseases to be treated with the same method of correcting the disordered frequency. That is, the "Different diseases can be treated with the same way," which has an inestimable value for medicine. It is the scientific innovation and invention, the world's first. To me, it is the first time to read such an incredible and completely new concept. The feedback information has demonstrated that many of the users of Quantum Resonance Information Water (the QRI Water) have been benefited greatly, and many of the patients, who were sentenced terminally by

the hospitals, have gained new lives. The cancer is a death sentence, even in advanced stage, there is still the hope of rescue. The magical function of Quantum Resonance Information Water (the QRI Water) has been confirmed in the actual treatments time and time again, and so it is on the lips of everyone who has the fortune to use it.

As the new thing appears, we can not be apathetic with blind eyes. I want to go and experience by myself, then pass out the gospel to the people as its reality, to subsist and rescue. My wife and I, my children, my colleagues, many of us are in the sub-health state, with many healthy problems; we need the good care of our health; we need treatment as well. With the mood of exploration, curiosity and pursuit, I remitted money to Shenzhen Riyan Science and Technology Co., Ltd to buy the Quantum Resonance Information Water (the QRI Water) on the next day. And I received the product Three days after. I put a bag of the QRI Water at the pillow edge; I slept a sound sleep that night. One day my hand was scratched accidentally with pain and bleeding, I sprayed the QRI Water twice, immediately the pain was gone, and the bleeding was stopped, and soon there was a scab. I have suffered from beriberi and bad footed for many years, I sprayed the QRI Water twice onto the place of lesion, and it was cured quickly. The curative effect of the Quantum Resonance Information Water on me caused my great attention and admiration. I have drunk the Quantum Resonance Information Water (the QRI Water) for more than two months and my physical energy has been greatly improved, I feel energetic and full of strength. I am now more than 70 years old, but I work as

hard as the young men without seeing any sign of aging. I have suffered from the Prostatitis for many years, which is frustrating and troublesome. While making water, it took time long, flowing slowly, but not entirely out of, outside felt emergency but inner felt Heavy, once took a time of 10 minutes, and frequent urination. After drinking the QRI Water, the situation has been already much improved. My wife Li Guixin has also enjoyed the benefit. It is really marvelous that the Quantum Resonance Information Water (the QRI Water) can restore the human health by correcting the disordered frequency of the body. The curative effect is really miraculous.

I was informed that Mr. Kuwei Zhongzheng would practice "Soulforce medicine constellation" for two days from August 28 to 29 on the second floor of "Jinxiu Food Pavilion" beside Splendid China in Shenzhen. After discussion, My wife Li Guixin and I decided to go to Shenzhen to attend Mr. Kuwei Zhongzheng's experiment of Soulforce medicine constellation. We booked the long-distance bus ticket directly from Haikou to Shenzhen on August 23 to visit Mr. Kuwei Zhongzheng and his Shenzhen Riyan Science and Technology Co., Ltd for thorough understanding the reality of the QRI Water.

Ms. Li Guixin and I set our feet on the way to Shenzhen on 26, embarking on the boat across the Qiongzhou Strait at 16:00 that day, and then boarded a direct bus to Shenzhen, and arrived at Futian Bus Station, Shenzhen early in the morning on 27. Our friends, Ding Xiaomei and Liang Jun in Shenzhen drove to the Futian Station to meet us in spite of their daily busy job, and sent us to the "Honor Mansion

Hotel" beside Splendid China. After registration, we had lunch together there. In the afternoon other friends such as Shi Qiuping etc., also came to meet us. It seemed long for us to miss with each other. We were chatting and laughing on our friendship, and talked about the magic effect of the Quantum Resonance Information Water (the QRI Water). We all wanted to personally attend the "Soulforce medicine constellation". Mr. Kuwei Zhongzheng drove and came to see us before dinner in spite of his too busy work. By the appointed time, I waited for him at the door. Although it was the first time of our meeting, I could distinguish him with his outstanding behavior features. He is not too high, above a 1.60 meter under 1.70, wearing a pair of glasses; He looks very capable, bright, with intelligent shining eyes. He is usually very busy, especially before the preparation of his "Soulforce medicine constellation", and he still squeezed time to meet us, I felt a little sorry with thanks to him. He was very humble, easy-going, shook hands with us expressing his hearted and warm greetings to us, and then he hurried to the car busy with other things.

Ms. Li Guixin and I prepared everything for attending Mr. Kuwei Zhongzheng's "Soulforce medicine constellation" to be held at 8:30 am early in the morning on August 28. At the beginning before starting, Mr. Kuwei Zhongzheng let us to make the soulforce testing activities. He put a chair in the center of the experimental field, with a blank sheet of white paper put under the chair, on the paper there were four Chinese characters: "**health, money, career, love**" written on the edges of the four sides. He invited one attendant who was willing to participate in the experiment to sit on the

chair. And then he invited four people to stand still on the four positive directions of the chair around a meter away from the chair, facing the chair, closing their eyes with open mind; After a short while, a miracle appeared: the people standing still on the four directions, all were unconsciously moving acted by a force, some of them were pushed back, some of them were pushed forward, some of them swing before and after, and some forward progress, then retreat back. Mr. Kuwei Zhongzheng on the scene, seeing such a case, walked over and asked the experimenter's feelings: When the people standing in the direction of "**health**" came closer to the chair, it was showing that the experimenter's health was good. Mr. Kuwei Zhongzheng would come to him and asked: "How about your health?" Answer: very good. When the people standing in the direction of "**money**", coming closer to the chair, it was well illustrated that the experimenter's financial resources were better. Mr. Kuwei Zhongzheng came forth and asked him: "Your recent economic situation is good, isn't it?" Answer: Recently I had well done a few businesses and gained a lot, quite effective. When the person standing on the direction of "**career**" came closer to the chair, it instructed that the experimenter had good prosperity. Mr. Kuwei Zhongzheng would come forth and asked: "How about your business recently?" Answer: my factory was expanding, business was very good. If the person standing in the direction of "**love**" walked closer to the chair, the case showed that the experimenter was in love with his family. Mr. Kuwei Zhongzheng would come forth and asked: "Recently, your family is harmonious, isn't it?" Answer: very harmonious relationship between husband and

wife, and there were other answers such as I was in love, and so on. The game is simple, but the role of the soulforce field clearly reveals the true fortune of the people present. Everyone on the scene was rushing to have a test; Li Guixin and I also tried to have a test, and the results of our tests truly reflected the basic reality of our lives.

It was 50 minutes later that the field of "Soulforce medicine constellation" was ready. Mr. Kuwei Zhongzheng announced the commence of the "Soulforce medicine constellation" and called the party (the client) who had made appointment in scheduling to come forward to sit on the chair in the positive front of the field, Master Kuwei Zhongzheng asked him to randomly select one from the row of the attendants nearly 40 persons participating in the "Soulforce medicine constellation" sitting on the benches around the field as his (her) representative. The representative came up and stood in the center of the field, facing the client of the "Soulforce medicine constellation". The representative, with empty mind, stood a while to feel induction of the soulforce field. After a while, Mr. Kuwei Zhongzheng once again asked more than a dozen people to come out and surrounded the representative of the client to stand in a circle surrounding the representative. They were required to be empty minded without thinking of any thing, when feeling the action of certain external force, move along with the power and promotion. It was not long that the miraculous appeared, everyone was starting to move up, some of them lied down, some sat down, some crying, some laughing, some pushing, some dragging, some pulling, some protecting, some leaning back to back, and some

running without a stop, looking for something. It was 30-40 minutes later that the relationship of several generations of the family was gradually revealed. Ms. Li Guixin did her case in the afternoon of the 28, and I was the second party in the afternoon of the 29. I usually suffered from the back pain. The "Soulforce medicine constellation" showed us that I was often kicked by someone at my waist. The action looked like my dead grandmother. After I worshiped her, she told us to read the sutra for her and return to her, asked us not to forget her. We asked: "Read the Diamond Sutra, or the Dizhan Sutra?" She said: "Either one will do". We agreed to her request. Before lying down, she repeatedly asked us not to forget to return her after reading the sutra, and then she closed her eyes and rest. It was amazing that my waist was immediately comfortable without any pain after her lying down and closing her eyes. My waist pain has been really released since then. When I was in childhood, I heard that my uncles killed a boa at home. And four of them died at 30s in succession. The soul of the boa appeared in the field of this "Soulforce medicine constellation". The person with the boa soul featured in snake shape, snake like, with tongue stretching out and shrinking back frequently; the boa was hit at seven inches, and the person with the soul of boa, was suffered from extremely painful ill at neck; Li Guixin and I went to comfort it. It said: "I am your fairy to protect the home of your family, You made no thanks but hurt." Ms. Li Guixin went over and apologized, it did not accept. It insisted that the people must be from the Zhang's to come and apologize. I went over and recognized the misdoing on behalf of the family. "I'm sorry". I said sincerely, praised

it and thanked it for protecting my family doing a lot of good things. And it felt comfortable while I stroked on the lesion site of its injury, it slowly closed her eyes at last. The embarrassing trouble with Zhang's family had been finally resolved. The case of the dead snake I had forgotten long ago. But it automatically appeared on the scene in the "Soulforce medicine constellation", and there appeared two snakes, one male boa, and one female boa. The boa killed was a male one, and the female boa escaped. There was a woman in the "Soulforce medicine constellation" did not dare to sleep alone at night without some one accompanying her. It was found during the "Soulforce medicine constellation" that the soul of her aborted sister had followed her all along, and the soul of her sister thought that she was not dead. Mr. Kuwei Zhongzheng told the woman to tell her sister: "I see you; I love you; you are dead now; please rest in peace!" So the person with the Soul lay down, and closed her eyes. Then the woman released from the fear and she could sleep alone at night. In the "Soulforce medicine constellation", Mr. Kuwei Zhongzheng asked the client: "Who committed suicide in your family?" The client replied that her mother committed suicide at her age of 2. She had never told anyone about her mother committing suicide, but it automatically appeared in "Soulforce medicine constellation". A woman from Japan did not sleep at night for 10 years, she went and saw many doctors, and the sleeping trouble did not solved. She had to sleep on sleeping pills. Her body was weak; it was difficult for her to cope with daily stress of work. In the "Soulforce medicine constellation", there revealed several souls twining her all

day, did not let her rest. After some comfort, the persons with the soul lay down, and closed their eyes at last. The next day we asked the woman from Japan how about her sleep, she said, much better. She went to see the show of the Water-splashing Festival till 12 with friends last night. In such case she would take two sleeping pills usually, but last night she just took one before going to sleep and slept well. A 30-year-old guy was lonely and unable to bear children after marriage, he went to the hospital many times, and the problem was not solved. He came and participated in the "Soulforce medicine constellation" The field showed the scene of a war; many souls were still in a state of war, then a person told them that the war was over, you could rest in peace now. Then they lay down one by one, closed their eyes. The client was the reincarnation of the soul who died in the war.....

The "Family Constellation" is the invention of German Hellinger, who came to Hong Kong in 2010 and conducted his "Family Constellation" for 9 days from January 9 to 17 in Hong Kong, the participants were more than 500 people, who witnessed the truth of his "Family Constellation". We participated in Master Kuwei Zhongzheng's "Soulforce medicine constellation" for two days from August 28 to 29, 2010. In the "Soulforce medicine constellation", we intuitively felt the heartquaking scenes of the soul force and the soulforce field personally. Most of the people live in the three-dimensional space, they can only see the physical objects, and can not see the existence of invisible souls. Whenever talking about the soulforce, the spiritual and the soul, they would say its superstition. But the "Soulforce

medicine constellation" displayed to us the soulforce world, the four-dimensional soul space, which our eyes can not see, but it does really exist in the universe. in the "Soulforce medicine constellation", we really saw personally the communication of the people of the three-dimensional space with the soul from the four-dimensional space (our ancestors and predecessors), and the recovery process of the human health; At the same time, we realized that the influence of the unclear energy, the unclear matter of the invisible soulforce world could not be underestimated in our real life. The "Soulforce medicine constellation" has effectively enhanced the wisdom of our thinking, let us to regard, respect for this "animism" world; Only in this way, the family can be well-being and the society be harmonious; the "Soulforce medicine constellation" is an effective communication channel, an intuitive visual way, of the people in three-dimensional space with the souls from the four-dimensional space. Through the love communication between man and the soul of the soulforce world, the diseases and terminal illness, which the hospital could not treat, can also be saved.

Master Kuwei Zhongzheng has been exploring a new subject, with his "Quantum Resonance Information Water" (the QRI Water) and the "Soulforce medicine constellation". He has been exploring a way to treat the different diseases with the same method: the light case can be treated by correcting the partial disturbance of the frequency of the human body with the "Quantum Resonance Information Water" (the QRI Water); and the severe one can be treated through the "Soulforce medicine constellation" to solve

the disordered soulforce and soulforce field of the four-dimensional space to be "Heaven and man merged into a whole", so as to cure the diseases of one's body, mind, and soul, benefiting the family for generations. We have received benefits of the "Quantum Resonance Information Water" (the QRI Water) in nursing our bodies, and took part in Master Kuwei Zhongzheng's "Soulforce medicine constellation"; we are deeply aware of the reality that Master. Kuwei Zhongzheng has created a new subject with strong vitality --- Soulforce Medicine, which will benefit the mankind, and benefit the world.

Chapter 5 Previous Life and This Life of Kuwei Zhongzheng

In the history, there were several very famous psychics, such as Emanuel Swedenborg, Rudolf Steiner, Edgar Cayce and Buddha etc. In fact, Kuwei Zhongzheng is a psychic too.

Through soulforce medicine constellation, Kuwei Zhongzheng unconsciously proved the descriptions of the above several strange persons, and even a drama can be performed to show us the complete world integrating the spirit world and the human world. Those with diseases can be cured on the spot through apologizing and repenting after reconciliation is reached.

For a person, there is this life, numerous previous lives and future lives. The current this life is the previous life for the next life and is the future life for the previous life.

Let's firstly talk about the previous life and this life of Kuwei Zhongzheng.

For this life, Kuwei Zhongzheng was born in Qidong, Jiangsu, China on February 5, 1966 (January 16 the lunar calendar). There is detailed introduction in Love Transfer.

The latest previous life of Kuwei Zhongzheng was in Japan. Now let's introduce the previous life of the latest life in details.

Introduction to the previous life of Kuwei Zhongzheng

Name of his father in the previous life is Horio Toshiro,

born on February 4, 1924.

Name of his mother in the previous life is Horio Chiyo, born in April 10, 1926.

His mother Horio Chiyo was originally named Tsuchimoto Chiyo, and she followed her husband's family name and was renamed Horio Chiyo after marriage. In 1987, she had a car accident and was almost dead.

According to the custom of Japan, after the wife is married to her husband, she changes her family name to her husband's family name. When worshiping the ancestors, she mainly worships her husband's ancestors and basically does not take care of her original family's.

Tsuchimoto Tsuyano, mother of my mother in my previous life, Tsuchimoto Tsuyano died when she was more than 30 years old, and my mother seldom worshipped her. After marriage, my mother even worshipped her less frequently and only visited her grave twice a year. Especially my father did not worship Tsuchimoto Tsuyano even once. So, the soul of Tsuchimoto Tsuyano was very angry and prevented her daughter from being pregnant, and my mother could not be pregnant more than ten years after the marriage. Finally she was pregnant, but Tsuchimoto Tsuyano came to obstruct and made her had exfetation. Finally operation was conducted to cut off her uterus and the fetus died. That fetus was me. This is me in the latest previous life.(Because my father never visited Tsuchimoto Tsuyano's grave to worship her, Tsuchimoto Tsuyano brought my father Horio Toshiro to the underworld, and he died of gastric cancer in 1995.)

After the uterus of my mother in my previous life was

cut off, my body disappeared, and my soul was reincarnated in a new body in Qidong, Jiangsu, China. I was born on February 5, 1966 (January 16 the lunar calendar), and this is me in this life.

In 1987, my mother in my previous life Horio Chiyo had a serious car accident in Japan and was almost dead. After treatment in Japan, she survived, but had sequel and could not walk conveniently. Japanese doctor said, “Treatment in Japan could only end up here. You can try to have treatment in China, and maybe it could be cured in China. Therefore, she came to China to travel with a Japanese tourist group in October 1988 to see if there was the possibility to get it cured.

At 10:05 on the morning of October 22, 1988, we met for about half an hour in the Department of Acupuncture of Subsidiary Hospital of Zhenjiang Medical College, China (I was in my fourth year of college then). She recorded video of me for a long time, and I recorded the whole process in Love Transfer. She did not ask doctor for any treatment in China, and her leg was cured after she went back to Japan.

After the New Year’s Day of 1989, she sent me the first letter, “I do not have a child, and I will be very happy if you accept this money as the New Year gift as my child.....” “I had a car accident in the last year, and I already changed my name this year according to the custom of Japan.....” In her later letter, she wanted to adopt me, and asked me to discuss with my parents to agree that I became her adopted son. Adoption relation was handled in Japan on May 19, 1990, and my household registration was applied in Japan. At the same time, according to the custom in Japan, a person

of high rank in a Japanese temple was invited to name me “Horio Tadamasa” (Japanese pronunciation), and soon after that, ceremony was held in Jinling Hotel, Nanjing, China.

In July 1990, two names were written on my graduation certificate, my Chinese name and my Japanese name below.

On February 18, 2012, soulforce medicine constellation was conducted for “My Japanese adoptive mother having hypertension for nearly two months”. It showed that Japan was bombed by the U.S., and souls of those dead in the war in Japan did not rest and needed to notify the government to commemorate. At the same time, it showed that the soul of the fetus died in the exfetation of my adoptive mother is the same soul of the present me, i.e. I was the fetus of the exfetation in my previous life. I was in Japan in my previous life but was not born. (This is case 358 of the soulforce medicine constellation.)

My Japanese mother was born in the tiger year, and my Chinese mother was also born in the tiger year, one round (12 years) younger than my Japanese mother. In my previous life, I was in Japan and was not born due to exfetation. In this life, I was reincarnated in China and was born in China.

From when I was young, others said that I looked like a Japanese, and my behaviors and thinking were like a Japanese’s. The most frequent sentence others talked about me was “born in the wrong time and born in the wrong place”.

Soulforce medicine constellation revealed this secret. My Japanese adoptive mother in this life was my mother in my previous life. I was not born and was reincarnated in China.

Later, after I became the adoptive son of my Japanese mother, I felt uncomfortable living in Japan. In fact, it was the soul of my grandmother Tsuchimoto Tsuyano who died when she was more than 30 years old who did not allow me to enter the family.

On February 1, 2012, my Japanese mother wrote a letter to the Mikado: When I was 61, I had a traffic accident, and people said that I would die. The Japanese doctor said that my sequel could not be cured in Japan, and maybe it could be cured in China. Later, I went to Zhenjiang Medical College in Jiangsu, China, where I met XXX(Kuwei Zhongzheng), who served as my Japanese interpreter. At that time, China was very poor, he was shabby in dress, short and weak. But his eyes were pretty with the rays like Buddha's, and I liked him immediately. He became my adoptive son. Zhongzheng is an incredible child, and he has become my son for 23 years. In fact, he could communicate with me in mind better than my biological son. This time, Zhongzheng hoped me to write a letter to you, and I was very fearful. But after I heard what Zhongzheng said, I was shocked and tears rushed out of my eyes.....

To sum up, in my previous life, I was a Japanese, and in this life, I am a Chinese. In my previous life, my mother country was Japan, and in this life, my mother country is China and I am a Japanese adoptive son.

From the soulforce medicine constellation, we can know that soul is everlasting. The previous soulforce medicine constellation also showed that I have always been a Buddha treating diseases for people for the last more than one thousand years (case 35 of the soulforce

medicine constellation. More previously, my soul was from an exoplanet (case 249 of the soulforce medicine constellation). I have a mark in my right index finger. My mission is “treating diseases, saving people, and karma” (case 281 of the soulforce medicine constellation).

In the above, I could meet my mother in my previous life (adoptive mother of this life), that was caused by the car accident in Japan. It was like being arranged by god behind. In fact, 96% of the world could not be seen by our eyes and is arranged by the god who could be seen by us.

Soul is everlasting, and the child is just a passer-by of the parents and they met in this life..

Introduction to this life of Kuwei Zhongzheng

Kuwei Zhongzheng (Japanese pronunciation: Horio Tadamasa).

He was born in Qidong, Jiangsu on February 5, 1966.

His grandfather was a famous Chinese medicine doctor.

He liked physics from when he was young, and he finished learning the physics of junior middle school in primary school period. He had a lot of inventions.

He entered Dongnan Middle School (Kenmu School established by a number one scholar at the end of the Qing Dynasty, Zhang Jian) with the second highest score in the junior middle school entrance examination in the county, and entered Qidong High School for his senior school.

He entered the Department of Clinical Medicine of Zhenjiang Medical College (now named Medical college of Jiangsu University) in September 1985, and obtained Bachelor of Medicine in 1990. After graduation, he was

engaged in clinical work and research work.

Since 1993, he studied as a graduate student majored in Pharmacology in Medical college of Jinan University, and obtained Master of Medicine in 1996.

After that, he systematically studied quantum theory, psychology, gestalt therapy, psychodrama, and family constellation etc.

He liked inventing from when he was young, and applied his inventions in the medical treatment. Soon after his graduation from college, he became a famous doctor locally. After that, he continuously had inventions in many fields. Research finds that all diseases are caused by frequency disorder, and health can be recovered by correcting the frequency. The Quantum Resonance Information Water invented by him could correct the frequency through placing near the body, inunction and drinking etc. to reach health, and cured many incurable diseases, realizing the ideal of “using the same method to treat different diseases” and realizing “absent treatment” utilizing Quantum Resonance Information Water.

From when he was young, some psychic events often occurred, and he had always tried to crack these mysteried. Finally he found and proved the existence of soulforce and soulforce field, which are the fifth force and fifth field in the universe, cracking this secrete of the universe.

Einstein and Hawking etc. only knew four forces and four fields existing in the universe and they did not know the fifth.

He created soulforce medicine and soulforce medicine constellation.

Quantum Resonance Information Water and soulforce medicine constellation realize “treating different diseases using the same method”, and diseases can be treated directly without traditional diagnosis. Kuwei Zhongzheng found the common law of disease treatment.

He wrote series of books of soulforce medicine.

In other fields, he invented Yougong nuclear magnetic resonance transfer agent (fuel oil additive), which transfers resonance information, makes the fuel oil burn synchronously, and is used to protect the earth environment and save energy; Light hydrocarbon car and light hydrocarbon oil for auto and its mixed fuel find usage for the light hydrocarbon resource accounting for 1/6 in the crude oil; Methyl alcohol petrol invented by him makes the coal resource utilized reasonably; Intimate child-carry sling invented by him transfers the resonance information of the mother to the baby, which can be used for close parental care; He has established Intimate Parental and Child Campus, for the promotion of Waldorf education concepts.

Yougong nuclear magnetic resonance transfer agent (fuel oil additive) etc. invented by Kuwei Zhongzheng had obtained trademark license of U.S. Patent and Trademark Office, The Trade Marks Registration number: 3835275.

He independently studied numerous subjects and had a lot of inventions.

Chapter 6 What is Soulforce Medicine Constellation

Kuwei Zhongzheng, the Master of Medicine, found and proved the existence of soulforce and soulforce field—the fifth force and fifth field of the universe, created soulforce medicine and soulforce medicine constellation (“soulforce constellation” for short).

During soulforce medicine constellation, Kuwei Zhongzheng makes the full use of the Quantum Resonance Information Water’s role of transmission and disintegration of resonance information, to disintegrate the fifth force and fifth field of the universe---soulforce and soulforce field, let the four-dimensional space-time (include more than the four-dimensional space) which people could not see by eyes presented in the three-dimensional space, so that people’s eyes could see. Find a method to resolve diseases (events) from the four-dimensional space-time (multi-dimensional space-time).

During the soulforce medicine constellation, Kuwei Zhongzheng utilized more than fifteen people. It was like that these people had their “heavenly eyes” opened. They told what the “heavenly eyes” saw or what they felt, or did the actions. Integrating the expressions of these people, it was a complete story (just like a complete drama). So that the cause and effect of the thing was clear, and after the party apologized, disease was cured.

For “this drama (soulforce medicine constellation)”, the audiences on the spot could see clearly, and got educated.

Sensitive audiences could participate in it, and jointly finish the drama (soulforce medicine constellation). Each of the personnel on the spot automatically represented a role. They were performed automatically following soulforce field which had been disintegrated.

Before soulforce medicine constellation, the party does not need to provide any clues, only saying the problems which want to solve. During soulforce medicine constellation, associated information of event is automatically presented.

Soulforce medicine constellation have many uses. Kuwei Zhongzheng mainly use to treat disease.

Soulforce medicine constellation is making the time flow back to the starting point of diseases(events), finding the reason, and making corrections. If the Party apologizes sincerely, makes corrections and is excused by the revenger, after the reconciliation, he/she will be cured.

Soulforce medicine constellation show disease is a retributive justice. Health, money, wealth, career and conjugal relation etc. are all related to karma.

Soulforce medicine constellation can dispose diseases, money, wealth, career, conjugal relation and paranormal events etc., and can crack all other problems such as technical problems, enterprise management problems, natural phenomena, recalling the previous life and forecasting the future etc. It can also be used to search for people, search for relatives and crack criminal cases etc. And treat diseases of animals.

Besides those from Mainland China and Hong Kong, the parties also include the Chinese and foreigners from U.S.A., U.K., Canada, Japan, Singapore and Norway etc.

On January 21, 2012, trade mark license of State Administration for Industry & Commerce of the People's Republic of China was obtained for “soulforce medicine constellation”, and it is protected by the law.

Elements of soulforce medicine constellation

“Soulforce medicine constellation” is consisting of party, representatives (like actors and actresses), audiences (may become actors and actresses), tutor (director), stage and stage properties etc.

Party

According to the difference of using habit, some people call the person who needs to solve his/her problems (patient) party and some people call the person who was present on the spot to solve problems on behalf of others party. Both conditions exist.

The party does not need to provide personal identity information or medical record data, and he/she just needs to simply describe the problems that he/she needs to solve orally. During the soulforce medicine constellation, one person from the family must come, and when the patient cannot come, one person from the family can come on behalf of him/her.

Each case of soulforce medicine constellation only solves one theme. The party only states one theme. The party can choose the problem that troubles him/her the most or the problem that lasts the longest. If the problems are caused by the same soul, during the soulforce medicine constellation, these symptoms will be solved at the same

time.

During the soulforce medicine constellation, in the process of the party watching the proceeding of the soulforce medicine constellation, the party can immediately confirm “yes” for the things that are shown at the time and understood by him/her, and forms interaction (resonance). For the things that the party does not understand, he/she shall not use “not right”, “not that case”. If these negative words are used for multiple times, information of the representatives will be cut off. Especially for the parties who have the soulforce medicine constellation conducted for their family members, if they do not understand, they can investigate and verify afterwards, but shall not immediately use negative words to deny. As what the soulforce medicine constellation shows cannot be wrong, there are only the things that the party does not understand at the time or the things that the party did not know before. For his/her own things shown, the party shall not deny or beautify intentionally, otherwise he/she may be misled, and his/her disease cannot be cured. When apologizing and repenting, the party shall be sincere and shall not be careless.

In the soulforce medicine constellation, the privacies related to the event cannot be hidden. Therefore, before the soulforce medicine constellation, the party shall be mentally fully prepared to face his/her own and his/her family’s privacies.

Children under 12 years old shall not be brought to the field of soulforce medicine constellation, unless the child is the party himself/herself. The child can enter the field of soulforce medicine constellation for his/her own problems,

but he/she shall leave the field after the disposal, so as not to influence others.

The most frequent question asked is “Can I be 100% cured after the soulforce medicine constellation?” or “how long can I be cured after the soulforce medicine constellation?” In fact, the people who ask this problem don’t understand retributive justice. Disease is a retributive justice. The current disease is caused by the party or the party’s predecessors doing bad things in the previous life or this life, and the current disease is the retribution. Our soulforce medicine constellation follow the results to find the causes, and make the time flows back to find the “causes”. After the “causes” are found, the reconciliation depends on the party himself/herself, and the party needs to repent, apologize and repay. If the party himself/herself does not do these things, the karmic creditor will not leave and will continue to collect debt, and the disease will not be cured. If the creditor does not get the repayment, he/she may collect debt from the party’s offspring, and the offspring will have disease, which is shown as familial disease. Therefore, the so called familial disease is the common problem that is not solved encountered by the family.

If the soulforce medicine constellation show that the disease is caused by killing animals, and the party continues to eat animals and kill animals, the disease will not be cured.

After we find the causes, the tutor leads the party to make corrections. If the party makes corrections immediately, the more sincere he/she is, the quicker his/her

disease will be cured, and his/her offspring will be safe.

Therefore, the speed of curing of the diseases after the soulforce medicine constellation do not depend on us, but depends on the party himself/herself.

Seriousness of the problems seen in the soulforce medicine constellation are also related to the curing speed of the disease. If the soulforce medicine constellation show that the party kills living beings seriously, it is not good for his/her disease, and the first article in the five monastic disciplines and ten merits in Buddhism is not killing living beings.

If the party rejects, denies or does not accept, the disease will not be cured. Of course, in many cases, it was already too late when the parties found us, and we could not get the patients cured. However, through soulforce medicine constellation, the problems commonly faced by the parties or their families were cleared, and their offsprings were safe. In that way, the negative karma brought to them in their next life was less.

Seeking help from Western medicine is external pursuit. The Western medicine itself never considers “retributive justice” and never thinks of the true causes. Even if the western medicine looks for the causes, it mistakenly regards “predestined tie” as “cause”. Therefore, the Western medicine cannot cure many diseases. While soulforce medicine constellation are internal pursuit. The tutor assists the party to find which wrong things were done and correct immediately, and the more sincere and faster the correction is, the faster the disease will be cured.

Representatives

“Representatives” are like the actors and actresses in the drama, and they are the working personnel or audiences whom we have already prepared and who are on the spot during the soulforce medicine constellation. Through languages, actions, singing and stage properties on the stage, they automatically express the soulforce and soulforce field of the event (disease) information that is already decomposed after feeling them. Or they describe or act what they see via the heavenly eyes. Each role is different from others.

For the actors and actresses in the drama, the roles are allocated in advance. For the representatives in the soulforce medicine constellation, the roles cannot be arranged in advance. The representatives feel their respective roles in the soulforce medicine constellation, or it is like the heavenly eyes are opened, and the representatives express what the heavenly eyes see. For example, after a while after the soulforce medicine constellation start, the party will see the words, deeds and behaviors of a person on the spot are like his grandfather’s, the words, deeds and behaviors of a person on the spot are like his grandmother’s, the words, deeds and behaviors of a person on the spot are like his father’s, the words, deeds and behaviors of a person on the spot are like his mother’s, and the words, deeds and behaviors of a person on the spot are like his. These people represent his grandfather, grandmother, father, mother and himself. Sometimes, the representatives represent animals, and sometimes, the representatives represent abstract concepts. Although no clue of the party’s family is

provided, information of these people and animals etc. is expressed automatically on the spot, and even the figures who died many years ago or the historical figures who died several thousand years ago are represented.

The method of soulforce medicine constellation are similar to “opening heavenly eyes” or “soul entering body” that people commonly refer to. The heavenly eyes on the spot see or feel the decomposed universe information or the information enters the body of these trained people. As long as he/she is sensitive enough, a person who participates for the first time can read the universe information and participates and perform jointly (like a figurant). We call these “actors and actresses” “representatives”.

During the soulforce medicine constellation, a role represents a concrete figure or element, so we call him/her “representative”.

Generally a soulforce medicine constellation needs about 15 representatives.

If an audience has sensitive feeling, he/she can be a representative too.

As a representative, sometimes a male represents a female and a female represents a male. Sometimes, the male and female representatives are irrelevant to their sexes, so when we record the cases, sometimes we have to mix he/she.

Along with the proceeding of soulforce medicine constellation, the roles may change. One role ends and the representative represent a new role. We must pay attention to the changes of roles.

Training of Professional Representatives

Since the implementation of soulforce medicine constellation, we trained a batch of “professional representatives”, and made a lot of audiences participated, making them experienced the soulforce medicine constellation and its truthfulness as “masses representatives” and “nonprofessional representatives”.

For the “professional representatives”, in principle, we choose the parties with their cases done and their own problems cleared. They basically can participate in each term and statistics of their class hours and credits are collected.

Incompetent representatives (the main reason is that they are not sensitive) will lose information, they not only encumber the whole soulforce medicine constellation field, but also mislead those who are being trained and are easy to cause misunderstanding by the audiences. Therefore, our representatives are strictly trained. During the training, we implement the system of eliminating the lattermost. A representative will be eliminated in the following conditions:

He/she cannot accurately perceive the role he/she represents and cannot express the information in time during the soulforce medicine constellation;

He/she use his/her brain to analyze a lot (the information is from the 3D space, but not perceiving the information from the multiple-dimension space coming from the soulforce field), speaks a lot of words out of the field, interferes with and misleads the proceeding of soulforce medicine constellation;

He/she brings in certain specific knowledge (but not the information coming from the soulforce field), interferes with and misleads the proceeding of soulforce medicine constellation;

4. He/she does not leave message on the Internet or the message he/she leaves cannot manifest the role he/she represents and transfer the information;

5. He/she cannot get along with the team harmoniously.

The system of eliminating the lattermost is implemented for the above five conditions, and majority of the “professional representatives” make the decision and eliminate the most inappropriate one.

For the following conditions, the professional representative is directly eliminated and is not a professional fixed representative any more;

1. He/she does not participate for a continuous three terms (two days for each term), or does not participate for an accumulative three terms within the last two months;

2. He/she exploits connection with the party or the audiences, misleads the party or the audiences, is complained by the party or audiences. The eliminated “professional representative” can participate as “masses representative” or “nonprofessional representative”.

“Masses representatives” or “nonprofessional representatives” who participate a continuous over five terms, have good self-sensation and can leave messages carefully during the period can apply to the tutor to become “professional representatives”, and they can become “professional representatives” after the approval of the tutor.

Audiences

For each soulforce medicine constellation, we will arrange a few audiences to view, so as to form team resonance effect.

The audiences may have their own problems to solve. When viewing soulforce medicine constellation for others, the audiences with similar problems will have resonance with the field, forming team atmosphere jointly and finishing the soulforce medicine constellation jointly. If the audiences have same or similar problems, they can get solved.

When the audiences have feeling on their seats, they can join in the team of the representatives and read and express information together. At this time, the audiences have no difference from the representatives in nature.

Each audience entering the field may become a representative automatically. Please don't constrain and control yourself. However, the audiences shall distinguish between the information felt in the field (4D) and brain thinking (3D). The audiences can only express the information felt in the field.

Children under 12 years old shall not be brought as audiences.

The audiences who prepare to solve their own problems shall view the cases of others carefully first, and shall have their own cases proceeding after understanding and knowing the processes. Each party shall view the cases of others more, so as get more wisdom to solve his/her problems.

During the proceeding of the soulforce medicine

constellation, the audiences shall not take photos or record videos, so as to protect the privacies of the parties.

If the party needs video data, there is a professional company on the spot to record the video and make DVD, which can be provided to the party after one week.

The participators shall not be late, otherwise they can hardly understand the content without the beginning part, and that will influence everyone on the spot.

In the proceeding process of each case of soulforce medicine constellation, the representatives and audiences shall not exit in the middle; otherwise the information will be brought away. After the representatives and audiences went home, they may feel information still in their bodies.

In the proceeding process of soulforce medicine constellation, the audiences **“shall not criticize, shall not suggest, shall not compare and shall not analyze”**, and they shall only watch silently. If the audiences have special feelings in their bodies, they can enter the field of soulforce medicine constellation and participate as representatives.

In the proceeding process of soulforce medicine constellation, please turn off your mobile phones consciously, so as not to interfere with and influence the proceeding of soulforce medicine constellation.

Tutor

On most occasions, tutor refers to the therapist, facilitator and team leader, and it is also like director in drama. The tutor is the person who is trained and can facilitate and lead the proceeding of soulforce medicine constellation. The tutor is the person who facilitates the

soulforce medicine constellation to find the reconciliation scheme and lead the party to solve the problems.

Following are some tasks of the tutor:

Build enough cohesive force and team atmosphere to work together.

Lead the whole team to start warm-up and then enter the individual case. Make the whole team on the spot fully feels and expresses the information.

Create enough sense of safety for the party and the whole team.

Ensure correctness of the information and safety of bodies for all the members of the team.

Distinguish information in the field from information out of the field, and stop entering of information out of the field. When finding the audiences have information in the field, guide the audiences to express in time and make them become representatives. Ensure the whole team of soulforce medicine constellation proceeds with the whole process.

Protect the party from misinterpreted response or analysis and criticism in the team.

The tutor must have high soul quotient and strong creative ability, but not high intelligence quotient and high emotion quotient. The tutor must have thinking ability of the 4D space, is very sensitive to the information from the 4D space, and does things according to the law of the 4D space in his/her daily life. The tutor shall not use brain to judge, and brain judgment will come back to the 3D space. Actual thinking of incompetent tutors turns around in the 3D space, but not searching for reconciliation scheme in the 4D space. Intelligence quotient and emotion quotient belong to the 3D

space, and soul quotient and creative ability belong to the 4D space.

In the soulforce medicine constellation, it is often shown that the diseases are caused by wars with foreign countries, therefore, the tutor of soulforce medicine constellation must know several foreign languages, as when wars with foreign countries are shown, if the tutor does not know the language of the country, his/her disposal will not be in the position when reconciling. Tutors of soulforce medicine constellation with the Chinese as service object must know Japanese, as the proportion of soulforce medicine constellation cases involving the Sino-Japanese War is very big.

After participating for 300 class hours, the student can become junior student. After 800 class hours, the student can become intermediate student. After the student finishes practice of 3,000 hours following the tutor, the tutor can start to teach some skills of soulforce medicine constellation. After the tutor conducts strict training and offers appropriate ceremony, the student can start to work as a tutor.

The tutor Kuwei Zhongzheng studied the Major of Clinical Medicine and is a Medical Master. He has always been engaged in disease treating work, and later completely studied quantum theory, gestalt therapy, psychodrama, and family constellation etc., and he invented Quantum Resonance Information Water and soulforce medicine constellation. In the soulforce medicine constellation, it is shown that tutor Kuwei Zhongzheng has “directive soul” and a group of “protective souls” to assist with the soulforce

medicine constellation. The “directive soul” navigates and directs the whole soulforce medicine constellation process. The “protective souls” protect everyone from the dangers of the soul world. Because of such good luck, the soulforce medicine constellation can proceed successfully each time.

Supervisor

When the student starts to work as a “tutor”, the original tutor must be at present as a “supervisor”. When danger arises or the new tutor does not know how to operate, the supervisor shall assist to dispose.

Gestalt therapy, psychodrama, and family constellation are all team psychotherapy. Gestalt therapy was created by a German psychiatrist Fritz Perls in the 1960’s. Psychodrama was created by an Austrian psychologist J.L. Moreno in Vienna in 1921. Family constellation was created by a German named Bert Hellinger 30 years ago. Hellinger was originally a priest, and later he studied psychology. The above are all in the category of psychology. Soulforce medicine constellation created by Medical Master Kuwei Zhongzheng is also team therapy, but it already exceeds the category of psychology. It utilizes the fifth force and fifth field of the universe, can make time flows back and the scenes reappear, and it is in the category of Buddhism, theology and parapsychics. Gestalt therapy, psychodrama, and family constellation have a lot of artificial factors, and there is no complete story appearing. While each case of soulforce medicine constellation show a complete story, and there is no artificial factor. In the family constellation, there is no previous life, animals and definite historical and social

events appearing. While in soulforce medicine constellation, all the information related to the disease (event) will appear.

Proceeding Links of soulforce medicine constellation

The proceeding process of soulforce medicine constellation include four links:

(1) Warm-up: Make the newbies get familiar with the soulforce field and practice sensitivity. Warm-up exercise lasts half an hour, 8:30-9:00 (April-November) and 9:00-9:30 when it is cold (December-March). At the same time, precautions are introduced.

(2) Individual case of soulforce medicine constellation (performance): The individual case starts from 9:00 (April-December). When it is cold, individual case starts from 9:30 (December-March). Three cases are processed a day, one in the morning and two in the afternoon. At noon, rest for one and a half hours.

(3) Review and summary: Simple summary after the individual case of soulforce constellation completely ends.

(4) Message record: After going back after the soulforce medicine constellation ends, within one week, record the information obtained as a representative or feelings in the visitor message of the Website of Riyan Company <http://www.yougong.com>. All the participators can leave a message. When leaving a message, the participator shall write their net name, so that it can be known who represents the role.

After one week, the cases are summed up on the Internet <http://www.lingpai.org>. The website has search function, and objective case can be found rapidly.

Time Arrangement of soulforce medicine constellation

Because there are soulforce medicine constellation only on Saturdays and Sundays (no service in the first week of each month) at present, three cases (one in the morning and two in the afternoon) can be processed a day, six cases can be processed in two days, and personnel are from all over China, it is a must to make reservation for individual case of soulforce medicine constellation. If no reservation is made, even if you come to the field, you can only view the cases of others as an audience, and you cannot be the party and have the individual case done.

Chapter 7 Cancer Treatment

The abbot of a monastery in China has suffered the late rectal cancer, and the tumor was too large to be completely inoperable when found. If the surgery was forced to be carried out, the anus would be cut off, and the doctor diagnosed, the case could not be saved even if with the surgery, and the western medicine did not make any treatment. She had to return the monastery before the Spring Festival of 2010.

The abbot started to use the Quantum Resonance Information Water (the QRI Water) on February 24, 2010 (the February of this year was 28 days, the water was sent there by express) when the QRI Water was introduced to her by the student (whom I had given her a good physical and mental illness treatment) who participated in Vipassana in the monastery and after reading the book of " Love Transfer --- Quantum Medicine, Quantum Resonance Information Water and Exploration on the Treatment of Body, Mind and Soul Diseases". I received a call of another Master from the monastery on March 17, 2010, said the abbot's stool had no blood already, but she purged black rotten fester, That is the dead cancer cells off after death.

In April, I was informed by many of the students who participated the Vipassana in the monastery that the abbot had uncovered the case, and introduced the QRI Water to many students who participated in the Vipassana to use the Quantum Resonance Information Water (the QRI Water), and advised them to read the book of " Love Transfer ---

Quantum Medicine, Quantum Resonance Information Water and Exploration on the Treatment of Body, Mind and Soul Diseases"; But in February and March, it was completely confidential that the abbot had suffered from the cancer.

While communicating with other Master of the monastery through the mobile phone text messages, she was fully understanding my soulforce, soulforce field, and the Soulforce Medicine, and she also has deep insights; so I decided to make a special trip to the monastery for exchange on the May Day, 2010. Due to the inconvenience to go there by the long-distance bus, I decide to drive to the monastery by myself. It was 8 hours to go there by my car on April 30 through the east line via Jiaoling, Guangdong, and finally we arrived at the monastery.

On May 1, I exchanged with the abbot and masters in details there; the abbot said, after using the Quantum Resonance Information Water (the QRI Water), the discharge of the stool was the atrament such as coal, looked completely lifeless.

I have compared the brain cancer of Beijing with the lung cancer of Harbin in the book of "Love Transfer --- Quantum Medicine, Quantum Resonance Information Water and Exploration on the Treatment of Body, Mind and Soul Diseases". I mainly introduce the common characters of the two cases treated with the Quantum Resonance Information Water (the QRI Water) for 30 minutes. The patient of the brain cancer had the symptom of increasing the intracranial pressure, the patient suffered from the spinal metastasis of lung cancer had the symptom of the spinal nerve compression; the Quantum Resonance Information

Water (the QRI Water) played an immediate action, which the patients could feel.

Within 30 minutes by themselves, the symptom was caused by, after killing the cancer cells, the increased volume of the erupture cells.

The more common characters were founded from the comparison of the three cases, after the exchange with the abbot of the rectal cancer, combined with the feedback of the brain cancer and the lung cancer: the patient of the lung cancer of Harbin started to cough up the tumor in 20 days, what coughed out later was the black, which was cellulose after the the pathological examination; the mass coughed up had no vitality. It was also almost 20 days that The Abbot purged off the mass from the anus, black like coal, and she described herself the matter "without vitality."

The patient of Beijing suffered from the brain cancer, her urine was black as "briquettes", The Abbot also described hers "black as carbon".

More general characters were obtained from the above feedback descriptions in shape and functions.

Of course, many cancer patients had been cured, which were distributed throughout the country, it is hard to make the comparison in details with no track to complete information. At the initial period of use, the patients made feedback through telephone consultation, the feedback effect was very significant in pain relief, Most of them felt pain relief in 10 minutes. After improvement there were less feedback information.

The courses of the Vipassana in the monastery are for ten days; Actually when the people sit in meditation into the

static state, it also joins the four-dimensional space, and he (she) can feel the soulforce and soulforce field as well.

In the morning on May 2, 2010, the whole family of Kuwei Zhongzheng had a photo taken with the abbot and master. And then we drove back to Shenzhen from the west line via Ganzhou, Jiangxi Province for more than 10 hours.

The above information, may be able to help more patients; the introduction is especially important for understanding the Soulforce Medicine.

Cancer Treatment Methods: Put 10 bags of 200 ml of the Quantum Resonance Information Water (the QRI Water) on the affected area at the same time, prepare 5 bottles of 200 ml of the Quantum Resonance Information Water (the QRI Water) to drink, drink 4 times a day, each time 10 ml (a cover of 10 ml); the bottles should be also placed close to the body before empty. That is, totally 15 bottles and bags were placed at the patient's body and spray with the small spray bottles on the affected area, not less than 4 times a day. After our observation, the cancer masses of many cancer patients dropped off around 20 days, The amounts above could be used for 30 days. 30 days later, if the patient feel lack of use, or feel the effect reduced, increase the amount again, because the cancer is a serious disease, the use should be no less than 15×200 ml. If less, the effect will be worse. The cancer patients must be adequate to use, otherwise not reach the expected results. For common minor diseases, you can place the Quantum Resonance Information Water in bags near your body for a continuous two months and then use a new one.

Place the Quantum Resonance Information Water (the

QRI Water) in the lesions, allow it emitting the resonance information to human lesions, to correct the abnormalities of the resonance frequency. Under the body's normal frequency, the cancer cells of the abnormal frequency will be directly killed. The drinking was distributed over to the whole body to clear an unknown metastasis. Although the concentration of the distribution of drinking to the body was small, but because of the small size of small metastases, and is likely to be directly killed.

Place the Quantum Resonance Information Water in bags near the body. While it continuously sends normal resonance information to the lesion positions, it absorbs the bad information in the body into the bag. Therefore after continuous use of one month, the old bag absorbs full and shall not be used, and you shall use a new bag. Cutting open the old bag, there will be many cotton-shaped articles or peculiar smell inside. You shall not drink the Quantum Resonance Information Water in bags. For common minor diseases, you can place the Quantum Resonance Information Water in bags near your body for a continuous two months and then use a new one.

If the monk who had been practicing could see the radiant, sparkling, resonant message sent continuously from the Quantum Resonance Information Water (the QRI Water) to the surrounding works.

If possible, the cancer patients should do the Soulforce medicine constellation, as soon as possible to solve the diseases from the four-dimensional space. If the cancer has recurrence, we must arrange the Soulforce medicine constellation, to correct the abnormal soulforce field.

I found that the patients treated by me were terminal cancers incurable declared by the hospitals, or those who had left the hospitals, desperate people. By the hard time when they heard the introduction by the people who were cured, they started to see me for treatment, and the cancer patients I cured were the advanced patients and the early ones who do not want to find me. When they had money, they would spend all the money in the hospital, and when they had no money, they came to see me. My treatments were clearly effective in the short term. For instance, I treated them with the across space method: place the bags of the Quantum Resonance Information Water in the lesion site. Most of the patients' pain were released or disappeared in 10 minutes, or 20 minutes. This treatment has no pain, there is no need of hospital treatment. The patients can carry the treatment with the Quantum Resonance Information Water (the QRI Water) at home. if coupled with drink, spray, the effect would be much better. The treatment is simple; The treatment can be done at home; There is no need to go to hospital. The Quantum Resonance Information Water can be mailed, the treatment is very convenient, only those who want to conduct the Soulforce medicine constellation, the patients themselves or their representatives on behalf of the family need to arrive at the scene. All the others need not to go to the scene. There is no need to see the hospital inspection reports. The Soulforce Medicine uses the soulforce method of the four-dimensional space, which is unthinkable to the Western medicine of the one-dimensional way of thinking, because I found the origin of the diseases treatment, I have realized most of the "different diseases can be treated with the same method."

Chapter 8 Quantum Resonance

Information Water

The Quantum Resonance Information Water (the QRI water) is an agent passing resonance energy successfully developed in 1995. After the exhibition in Beijing Exhibition Center from December 5 to 9, 1997, and more than 10 years' small-scale clinical tests, I have obtained reliable evidences, at the same time, absorbed more psychological elements as well. Therefore I launched the Quantum Resonance Information Water (the QRI water) once again in December, 2008 and realized my goal to "treat the different diseases with the same method", that is to say, I have found the general law of medicine that different diseases can be cured with the same method. While implementing treatment, there is no need for me to know the name of the disease, but the site of pathological change. Then put a bottle (or bag) of the Quantum Resonance Information Water (the QRI water) close to the point, let it transfer the resonance information to the position to correct the disorder of the resonance frequency of the part, or spread some of the Quantum Resonance Information Water (the QRI water) on the position at the same time. If the site of pathological change is unknown, drink the Quantum Resonance Information Water (the QRI water) then. As for systemic disease, endocrine system disorder, cancer metastasis, except of placing and applying (near or on the position of the hormone glands and cancer mass),

drink some at the same time. If you want sound energy and better physical strength, you can drink while carrying the Quantum Resonance Information Water (the QRI water) with you. The methods of treating diseases with the QRI water are just three: "putting (the bottle or bag), applying and drinking", or making up the Quantum Resonance Information Water (the QRI water) bed, and sleeping on it directly. The treatments for all diseases are the same.

In this way, it is no longer hard to study medicine. There is no need to remember, no need to recite more things, and no need to put too much emphasis on "differential diagnosis."

Even the people who did not study medicine can still implement a fool treatment.

The professor of a provincial Centre for Disease Control and Prevention used my Quantum Resonance Information Water (the QRI water), to treat the children with leukemia and the children returned to their schools one by one. At the same time, the children suffered from the renal failure also returned to their schools one by one.

A clinician who worked in Shenzhen Nanshan Hospital for 22 years, used the Quantum Resonance Information Water (the QRI water) to treat the diseases that the hospital could not cure, and the diseases were cured one by one. Then the clinician has called me "Master", while more patients have called me "Teacher."

I had also met clinicians, and Buddhists as well, who were shocked, while they saw the magical effects of the Quantum Resonance Information Water (the QRI water), and immediately knelt down and asked to be my apprentice,

worship me as master.

Treat the diseases suffered from pain, no matter what kind of pain is, the general method is to place the bottle or the bag of the Quantum Resonance Information Water (the QRI water) on the painful area. It would be within 10 to 20 minute that the pain is gone or relieved. If it is the traumatic pain with a wound open, spray the QRI Water directly on the wound, the hurt pain will be indolent in 1-3 minutes. Many patients with cancer pain, placed the QRI Water beside the body, and applied on the position, or drink, the pain would not hurt or relieved in 10 to 20 minutes. Those suffered from the dysmenorrhea pain rolling in bed, put the bottle or the bag of the Quantum Resonance Information Water (the QRI water) near the abdomen, and spread on it meantime, many of them suffered no pain within 10 minutes. Many of those who had tumors, no matter what types they are, whether they are cysts or cancer masses, put the quantum resonance information water near the lesion site, at the same time spread on the position, the tumor would shrank or disappeared over one night; There are too many of such cases.

The patient who was the grandson of the Marshal, a founder of China and Vice Premier, spread the Quantum Resonance Information Water (the QRI water) on his face less than 1 ml, three hours later, the parotid cyst that had not cured for more than 10 years, was almost intangible and untouched.

Ms. Tong, chief of Shenzhen Municipal Committee of Experts suffered from allergic rhinitis, her case was not cured after 30 years' treatment, and I gave her the QRI

Water, she placed and sprayed it onto the position for 20 days, the allergic rhinitis was healed. Other patients of allergic rhinitis treated for 10 years, or more than 20 years were healed with my Quantum Resonance Information Water (the QRI water) in 5-20 days.

A researcher from Zhongshan Medical College, Zhongshan University once took my Quantum Resonance Information Water (the QRI water) to test, the results of trace elements of the water were satisfactory, no radioactive elements found.

It is never before over the world that putting a bottle or a bag of the Quantum Resonance Information Water (the QRI water) beside the body can “cure disease over space”. In comparison, it is much similar to the "Quantum Medicine" to correct the frequency with this method. The resonance information of the Quantum Resonance Information Water (the QRI water) will eventually act on the "meridians", and will walk on the way of the guide map of treating diseases through the meridian that was found thousands of years ago. Therefore systemic effects occur.

The feedback from one user, she suffered from leg ache. When she slapped the painful location with her palm, the pain disappeared, at the same time she hiccupped. She also put the Quantum Resonance Information Water (the QRI water) on the legs ache part, the pain disappeared, and hiccupped as well, which indicates that the Quantum Resonance Information Water (the QRI water) has the same action as that of the meridian.

Another user's feedback, his sunscreen was turned hard like the toothpaste, when he put the Quantum Resonance

Information Water (the QRI water) near the deteriorated, the sunscreen was soft and eventually became liquid like water. Chinese medicine says, "Passing non-pain, pain no passing". If where the meridian is stagnant or blocked up, the pain occurs. Put the Quantum Resonance Information Water (the QRI water) near the pain, passing the quantum resonance information, the meridian goes through normally and the pain disappears. This is also consistent with the Traditional Chinese Medicine (the TCM) theory. Therefore, it is not surprising to put the Quantum Resonance Information Water (the QRI water) at the painful area, and the pain relieves in 10 minutes, and the mass can disappear in several hours as well.

Many patients with hemorrhoids, their hemorrhoids disappeared after applying the QRI Water once. The hemorrhoids are caused by blood stagnation as well. After applying the Quantum Resonance Information Water (the QRI water) on the place, the blood flew, and the disease was healed. This is consistent with the Traditional Chinese Medicine (the TCM) theory.

A brain cancer patient in Beijing got headache, nausea, vomiting and other symptoms of intracranial hypertension within 20-30 minutes after drinking 5-10 ml of the QRI Water, indicating the effect of the QRI Water is very obvious in killing cancer cells immediately, that is to say, the cancer cells were killed and ruptured within a short time. After rupturing, the volume was slightly larger (the parts were dismantled and the size became larger), causing the symptoms of increased intracranial pressure. Of course, at this time, take a small amount of diuretic, to reduce the

intracranial pressure, the symptom can be soon alleviated. By the time a lot of cancer cells were killed. The brain cancer that the hospital declared incurable was completely cured with the Quantum Resonance Information Water (the QRI water) in less than 3 months. And the discharged piss was as black as briquettes.

A patient from Harbin suffered from the lung cancer at the late stage with extensive metastasis to bone and lymph node. The hospital announced that the disease was incurable, and persuaded the patient to go back home waiting for death. The patient has lain on the bed for 9 days already, but the miracle occurred that she got up in 8 minutes after drinking 10 ml of 220 ml of the Quantum Resonance Information Water (the QRI water) delivered by express; She got off the bed first for 9 minutes. Three days later, once again express of 600 ml arrived, she tied the bottles of the Quantum Resonance Information Water (the QRI water) immediately at her body, and she felt her strength improved, came down the stairs, walked back and forth to her sister's on foot. She coughed up pieces of rotten meat (the cancer mass) on the 20th day.

Many patients with beriberi for more than 10 years were cured by spraying the Quantum Resonance Information Water (the QRI water) once. Usually it can be cured in three days. A reporter of "Health News" with foot odor for more than 10 years, shortly after the Spring Festival, in 2009, he sprayed my Quantum Resonance Information Water over the socks only once, his foot odor disappeared without recurrence all long. The reporter's father-in-law with feet ulcers had been treated for 28

years, but in vain. When he used the Quantum Resonance Information Water (the QRI water), the feet ulcers was markedly improved within 4 days. And the rotten area was convergent without running water.

Those who use the Quantum Resonance Information Water (the QRI water) get less cold obviously than others, and also significantly less than that in previous years.

Therefore, it demonstrated that the frequencies of cancer cells, fungi, viruses, harmful bacteria are very different from that of the normal human body. Under the frequency of the Quantum Resonance Information Water, these substances can not survive; therefore, it is easy to separate these abnormal substances from the normal cells to kill, avoiding the Western radiotherapy and chemotherapy to kill both good and bad cells together.

The patients who suffered from the above diseases have the frequencies deviated to that of the cancer cells, fungi, viruses, harmful bacteria, therefore these substances can grow fast. After using the Quantum Resonance Information Water (the QRI water), under the resonant frequency of the normal human memorized in the water, these substances were killed quickly.

On the other hand, I have designed that the Quantum Resonance Information Water (the QRI Water) preserves the energy of memory. The QRI Water can transfer the resonance energy to the human body, if it is placed near the body to improve the body's resistance to disease, the immunity, and to maintain the body's normal frequency. The QRI Water can fight against cancer cells, viruses and fungi from both frequency and energy.

A sports athlete of Nanjing had been trained for 18 years in the United States; his physical training usually was to do push-ups; usually he could do 100 times once, if forced him to do, he could do two more, reaching 102. In January 2009, he drunk 30 ml of the Quantum Resonance Information Water before doing push-ups, he finished 110 push-ups without being forced with doing. After 20 minutes' rest, he restarted to do without any forcing, and he finished 114. Usually finishing push-ups, he would drink some water after half an hour break, and his hands would tremble holding on the cup, but after drinking the Quantum Resonance Information Water (the QRI Water) , his hands did not feel shaking while taking up the cup also after a half hours' push-ups and did not feel tired.

During July and August, 2009, I sponsored the Japanese Chinese team to participate in the International ballroom dancing competitions; they had maintained a total score of the first all along in Guiyang, Hong Kong, Yongzhou, Macau, Zhanjiang competitions. The Ballroom Dancing competition has been officially listed as one of sports competitions, which requires great physical strength and endurance. The Quantum Resonance Information Water is very useful in sports and games. It shows that after resonance, the strength of human body significantly increased; so when did the "pull test", the strength significantly increased. The "pull test" can be used to prove that the human body as a whole in the event of resonance.

Put the Quantum Resonance Information Water (the QRI water) near the body or drink the QRI Water, the physical strength increases. Spraying the Quantum

Resonance Information Water (the QRI water) on the trauma 1 to 3 minutes, the pain can be relieved, The Quantum Resonance Information Water (the QRI water) is very valuable in the field of the military, it can not only enhance the combat endurance, but it can also be used in injury time. Meanwhile, the "different diseases be treated with the same method"; There is no need to take many drugs in the field. In sports the athlete can play super-level. And in first aid, place the Quantum Resonance Information Water (the QRI water) near the body to transfer the resonance information, so that the body can obtain extra energy, greatly enhancing the power of human endurance and resistance to trauma, and achieve better surgery healing.

One woman from Shenzhen grew a lot of long beard for more than 10 years from Grade 3 of primary school. She received the treatment with the Quantum Resonance Information Water (QRI Water), and accidentally she found her beard fell on the 17th day after the treatment with the Quantum Resonance Information Water.

Another woman from Foshan in 2002, her colleague helped her to trim the eyebrows, and the right eyebrow was trimmed 1 cm (actually narrowed 1.5 cm) narrower than the left eyebrow. After then her right eyebrow had never grown up. She used the Quantum Resonance Information Water to treat her disease, and she accidentally found the right eyebrows grown up.

With the same Quantum Resonance Information Water, make the hair growing where it grows, then the eyebrow grew up; The beard was lost from the place where the girl should not grow the beard, which indicates that it is entirely

correct from theory to practice that the Quantum Resonance Information Water is designed to correct the disordered resonance frequency.

In addition, the normal person drinks the Quantum Resonance Information Water tasteless, but many patients I met with serious cancer said, they dunk the Quantum Resonance Information Water, it was tasted bitter, or like the water in the fish tank, or smell like the water in a drainage ditch, but after one week of use, these tastes disappeared, which indicates that their original resonance frequency had deviated from the normal resonance frequency. After one week use, the disordered frequency was gradually corrected; and there no longer exists bad smell. And the taste does also feel the resonance frequency.

I also met with the patients who sprayed the Quantum Resonance Information Water to mouth tasteless, but to the eyes sides, she felt her mouth bitter, indicating that the frequency of her eyes deviated from the normal status.

Put the drink, alcohol, cigarettes near the Quantum Resonance Information Water, their frequencies were immediately changed; then drinking the beverage or wine, or smoking the cigarettes, you can feel their taste changed, therefore we can use "sour test" to verify the change of the frequency.

One person from England came to me especially for treatment; it needs originally more than one week to rectify the jet lag after returning. He lay down in bed of the Quantum Resonance Information Water the night of his returning. The time difference was corrected 5 hours later, which indicates that the time difference is also related with

the frequency of the human body. After using the Quantum Resonance Information Water, the frequency of the small environment of the human body gets consistent with that of the environment of the universe quickly.

A Japanese people came from Japan to me especially for treatment; she had taken sleeping pills every night for more than 10 years because of insomnia. She lain down on the bed of my Quantum Resonance Information Water, several minutes later, she saw the light glowing from pillow of the Quantum Resonance Information Water constantly; After lasting Half an hour, the light disappeared. Her insomnia was cured as well. She saw light at the time when the frequency was exactly the same frequency as that of vision in the process of correcting the resonant frequency, she saw the light. Half an hour later, the frequency removed from the visual frequency, the light was unseen. After the frequency was corrected, insomnia healed.

The Quantum Resonance Information Water with the principles of quantum science can be used for deeper treatment. One woman of high myopia came to me for treatment with the Quantum Resonance Information Water; I immediately found the problem of her body, mind and soul. She had asked many clinicians for treatment, but in vain. She asked many masters for treatment with Gestalt Therapy, psychodrama therapy, but the means could not go on. She asked a number of masters to go on "Family Constellations", still no one could go on. When she found me, I soon found the cause of her myopia that she saw her father's suicide scene. While curing her systemic disease with the Quantum Resonance Information Water, I solved

her psychological problems she repressed in heart for decades first within a month, then to solve the systemic health problems, such as insomnia, constipation, beriberi, skin, scars, cold, allergy, rhinitis, headache, dysmenorrhea and other items; they turned for the better one by one. And soon she found her eyebrows grew up that were cut short 8-year ago, and her chest was full as well. And then she found a sudden change in her thinking. Previously, she was disgusted her mother, even she could not live with her mother, could not walk together side by side. Suddenly she could accept her mother. The thinking of a person also has resonance frequency, once it is disordered, it will be very unusual, his character is also strange. After the frequency returned to normal, the strange ideas would changed.

The users have the follow-up report: After more than three months' use of the Quantum Resonance Information Water in the high dose, the menstrual blood had changed in color from the original dark like syrup to bright red, or from the dark blood block to bright red liquid blood finally. The skin was damaged because of acne inflammation 19 years ago, and where the eyebrow did not grow as well; after using the Quantum Resonance Information Water, the new eyebrows had grown out.

As for Gestalt therapy, the psychodrama therapy, the masters of psychology usually use props, scenes, stunt, language (or even to use a child's dialect), etc., they must try to bring the scene back to the place where the psychological trauma occurred to arouse the memory of the patient, then go to treatment. This case is actually just like the tape, or video tape rewind back to the period in question; And then

either wipe out the magnetic period, delete the period, or record new content, for the frequency of the magnetic tape of the original question period was too unusual, too strong in intensity, so as to affect the other section, or even affect the entire tape. The case will be completely different after treating the section. The person will be changed, just like another one through proper psychological treatment.

The Gestalt therapy, psychodrama therapy need to restore to the original scene where the original psychological trauma occurred. The scene is of sobbing trouble with great movement, the masters of psychology are exhausted physically and mentally after several processes down. And always under such an environment, a master of psychology is also suffering from psychological shock, and also under constant psychological harm. That is why a master of psychology himself regularly receives more advanced psychological treatment by the most senior psychological master. Then the most senior master of psychology, who gave him treated?

The Quantum Resonance Information Water can remove the special exceptional resonance frequency waves quietly, returning to the normal; in this way, the entanglement problems of the people's life history are solved unknowingly.

I have found a universal law of medicine, that "the human body has its natural inherent resonance frequency, if the resonance frequency is disturbed, the sick appears; if the disordered frequency is corrected, the health is restored." This Quantum Resonance Information Water is actually the source of the quantum resonance, a liquid machine, a liquid

quantum resonance information transmitter, passing the normal resonance information to the human body, directly acting on the lesion." Putting (bottle or bag), applying and drinking" are three methods to realize a fool treatment.

Can this panacea not be trusted out?

Because the preceding of the treatment of the diseases with the Quantum Resonance Information Water is from correcting the frequencies, as long as the frequency can be corrected to the normal, the disease can be cured. No matter what the original disease is, or at what stage, or in what position, as long as the frequency can be corrected, the disease will be able to be cured. If the frequency is not corrected, there is no cure.

In west, there is a world-famous proverb: "There are roads leading to Rome. "If you find a lot of people gathered together in Rome, will you hold it very strange? How could we all get to Rome? Will this road be almighty? Actually the goal of everyone is to Rome, regardless where the original starting point is. Therefore we arrived in Rome. Similarly, the people feel it weird to cure a wide range of diseases only with the Quantum Resonance Information Water (the QRI Water). Actually, the goal of the Quantum Resonance Information Water (the QRI Water) is to correct the disordered frequency to normal one, regardless where the original starting point is. Such a comparison helps us to understand why the Quantum Resonance Information Water (the QRI Water) can cure many diseases. This is what I said that we needn't to pay much attention to the cause of 'differential diagnosis' with the Quantum Resonance Information Water (the QRI Water). No need to know where

the starting point is. As long as you can know where is to set the end.

"Different diseases, treated with the same method," Have you ever seen in history? In fact there was not only in history, but it is still at present. Chinese medicine acupuncture is relying on a pin in the cure sickness. Acupuncture needles penetrate into the appropriate acupuncture points, many different diseases can be cured only with the same needle. Now I put the Quantum Resonance Information Water (QRI Water) at the lesion, the painful location of the body, and the diseases can be cured, which is just like the acupuncture. Someone might say that the acupuncture needs to look for the appropriate acupuncture points, but for me, I even did not find the acupuncture points and directly put the Quantum Resonance Information Water (QRI Water) at the position. Actually, there are acupuncture points known as "A point", "Ah yes point", "uncertain point", "Heaven point", etc.. The book of "Lingshu•Jingjin" (Soul Hub• Meridian Vein) says: "Take the pain as transfer", that is to say, locate the site according to the pain. The name of "A point" was put forward first by "Valuable Prescriptions for Emergency". It has neither specific point name, nor a fixed location. In clinic, it is used more for the painful symptoms. The Quantum Resonance Information Water (QRI Water) is also consistent with the theory of the Traditional Chinese Medicine (TCM), and the effect of treatment of the painful diseases with the Quantum Resonance Information Water (the QRI Water) is very quick. Acupuncture is very effective on pain type of diseases, but it is not so brilliant on the tumor, tumor type

of treatment, and the Quantum Resonance Information Water (QRI Water) is very effective to the tumor or cancer mass. And the Quantum Resonance Information Water (QRI Water) also can make a great increase in physical strength, reaching the overall objective truly: "Different Diseases, Treated with the Same Method". As for this, I am the first in the world.

And the target of my design is to achieve the goal of "Different Diseases, Treated with the Same Method". I have found the universal law of medicine through decades of hard working, that is, "the human body has its natural inherent resonance frequency. If the resonance frequency is disturbed, the body will be sick; If the frequency is corrected, the health is restored."

I am the first one in the world who treats diseases across the space with the bottle or bag of the Quantum Resonance Information Water (QRI Water) put near the body.

Is it the first time to hear "Curing Diseases Across Space"? No! The Qigong Master is also to cure the diseases "across space". Actually, the Qigong Master treats the diseases with the resonant wave of his ideas, passing out, to correct the disorder of the resonance frequency of the patient. In reality, the principle is the same. The Qigong Masters is a resonance source. The difference is that he should be at the scene on the spot to practice. "Make and Sell." As for me, I put these resonant information memorized in the water ahead of time, I already have stock in the water, and it can be "Qigong industrialized".

The method is to correct the frequency, and the

different diseases can be treated with the same method, making the "treatment as ease as a Fool," which I am the first one in the world.

The application of the Quantum Resonance Information Water (QRI Water) is just like that the family invites a general practitioner (GP) of a "Versatile Effect" home.

It is also the first that I invented in the world to treat the systemic diseases of the body, mind and soul with the Quantum Resonance Information Water (QRI Water).

We can see from the above discussion that the Quantum Resonance Information Water (QRI Water) is consistent with many theories of Traditional Chinese Medicine, but it does not yet find any intersection point with the theory of the western medicine. The Chinese Medicine is systemic, 3-D, and the western medicine is a local theory, 1-D, and the Quantum Resonance Information Water (the QRI Water) is a larger whole, 4-D, so why the Quantum Resonance Information Water (the QRI Water) can not find any intersection point with the western medicine, the cause may be here.

Summary

"The human body has its natural inherent resonance frequency, if the resonance frequency is disturbed, the sick appears; if the disordered frequency is corrected, the health is restored." The Quantum Resonance Information Water memorized the normal resonance frequency of human body, when this Quantum Resonance Information Water is near human body, it can transfer the resonance information

(resonance energy) to the human body, the disordered resonant frequency will return to the normal.

The Quantum Resonance Information Water (QRI Water) could treat diseases across the space with the bottle or bag of the Quantum Resonance Information Water (QRI Water) put near the body. "Putting (bottle or bag), applying and drinking" are three methods to realize a fool treatment.

As for systemic disease, endocrine system disorder, cancer metastasis, except of placing and applying (near or on the position of the hormone glands and cancer mass), drink some at the same time.

The Quantum Resonance Information Water realized my goal to "different diseases, treated with the same method."

After using the Quantum Resonance Information Water, If the effect was not obvious, or improved, but soon the frequency disordered again, it showed "possessed of souls" existing, and this time select soulforce medicine constellation, after soulforce medicine constellation conducted, using the Quantum Resonance Information Water to keep the frequency correct.

Package of the Quantum Resonance Information Water

Bottle of 200 ml, drinking 4 times a day, each time 10 ml;

Bag of 200 ml, placing at the patient's body on the affected area;

Small spray bottle of 10 ml and 20 ml, spraying at the affected area.

Small spray bottle of 10 ml

今私(忠正)は、人に眞に挑戦して居ます。

次に南京大虐殺の事を話します。

2011年12月17日重慶の或婦人の女性が尋ね

これ等の事は私の霊力医学で判る事です。
其後私は史料をさがします。

雲南省まで逃けるた。こでも戦が有り...

日本軍は逃る時遺骨が持てないので後程遺骨を収集する為^に地図を作りそれを將來使^する為^に収集する為^に初^めです。此の地図はどこで何人使^つた

く成^つたかを示^します。
例^えは、
松山 250人
紅林 100人
龍巖 2937人
騰冲 1800人
これはほんの一部です

日本厚生省の資料には雲南省西部の日本軍遺骨の墓塚未^だ発見^した人の数は14082人と有^ります。

其後1974年位に海外戦没者墓塚をしようと

中国に相談しようと、中国政府は直接断^りました。

其の後日本の兵隊の家族は旅行者と多^くて秘密で地方の人に相談しようと

誰か遺骨一人戻^らたら車一台上げます。

指一本でも戻^らたらカウチ一台上げます。

これは1978年から1980年までの事です。当時自国でもほとんどの有^ります。人自転車一台も買^えます。人不要な事なのに墓塚を断^ります。これを見て日本人の気持が判^ります。其の後日本人はお金を出して小學校を作り出した地方にあげます。

N07

地方に相談して遺骨を暮集しようとしたけれど政府が許さず、そこで慰霊碑を建てよう事を相談しました。政府の答は、之をことは只、頭で考えた文でも駄目です。人にお金を払っても、何をしても、どんな条件を並べても駄目ですと言いました。

実は中国人は亡くなった人を之々に祈念する事は無い。普通の人も祈念する人、蒋介石、毛沢東、周恩来を誰も一度も祈念した事は有りません。逆に日本の天皇陛下は時々戦没者を祈念します。それで中国人は日本が軍国主義を復活させると考えます。其の原因で中国人は日本の首相、内閣総理大臣が靖国神社を参拝するのを大反耐します。

中国人の考えは、人は亡くなると何も残らずに

例は、192年朝鮮とアメリカの戦争が有りました。

中国軍隊は朝鮮を応援します。毛沢東の息子

毛岸英は朝鮮で戦死しました。彼の遺骨は朝鮮にそのまゝ残りました。毛沢東は一度も朝鮮を祈念する事は有りません。

極尾忠正の事

今度息子忠正は2010年から靈力医学を創立する。35例の病気を研究して 重立病の原因は40%は生命を殺す、例外的戦争外の40%は「文」の記事の間違った10%は先祖の墓を壊した事と先祖を祈念しない事、他の40%は地球以外の生命の原因です。35例の中で11例が日中戦争の原因です。これは5%に成ります。戦争で亡くなった人の霊が安息しないと生きていたって、病気に成ります悪霊します。

中国人は戦争で亡くなった人を祈念しません中国で戦死した日本軍人の祈念が無いし、慰霊碑も無いので日本兵の魂が安息しません中国人に付いて5%以上の中国人が病気に成ります。35例の中に日本人は無いから日本の様子は判りません。以前には中国人は靈の事は全々判りません。四次元の世界は判りません。遺骨なども注意しません。名沢東は息子の遺骨も葬祭しません。周國忠も祖先の墓を壊し自分の骨も捨てました。その原因で日本は中国に遺骨の事

No10

を相談しても断り多し。今度中国人の病気の原因は日本軍の遺骨が中国に残して有る為と判り、中国は中国政府はこの事が判れば遺骨は必ず日本に戻す事が出来ると思っています。

例えは以前日本の兵隊の化学薬品を発見した時すぐに日本政府に通知し、それで遺骨は爆弾でも複雑です。霊が生きて居る人について病気に成ります。日本に戻さないと日本人も病気に成ると判り、私は之を事が判るまでに日本のお母さんに連絡し、お母さんに在り此の事、

天皇陛下様に差し上げます!! (実は命が命)
私は本を子母言さす、日本語に翻訳はむづかしく母は86歳の高齢で目もうとく、耳も聞きづらいので、今お伝えする事が出来ません。

此の本は中国語のみですが、ク母を手紙に添えて送ります。例は全部D.V.D.を撮り、毎例平均の時間掛ります。若し此の資料が早い時は差し上げます。

NO.11

日本と中国の戦争は終る60年以上たちまちに
日本と中国の慰霊方法は之々に違いがありませ
ども両国民は相手の事を金々判りませぬ
今度私は靈力を透視を實現出來て判りました
私は中国語で本を出版して四次元の世界から
日本と中国の違い、區別、を中国人に教えます
速やかに遺骨が日本に戻ります
日本と中国は本当に心が通じて平和に成ります
今は、心が通じて居ます。

Postscript

When this book was written, 439 cases of soulforce medicine constellation with video record had already been finished. We selected part of the typical cases to compile into this book.

Soulforce medicine constellation cracking genetically modified food, swine influenza, avian influenza, Aids and Sars etc. were not translated into English.

If you want to read the original texts, you can find them in the corresponding books or on the Internet <http://www.lingpai.org> or <http://www.yougong.com>.

It is easy to understand the contents involving this life and it may be hard to understand the contents involving the previous life. In fact, it has been clearly written on the Buddhist Scriptures about the previous life and this life. What our soulforce medicine constellation show just proves the correctness of the Buddhist Scriptures.

Then is soulforce medicine constellation itself correct?

Curing the diseases is the absolute principle.

The party did not provide any clue, the events occurred in the family reappeared and were verified by the parties, and this is the absolute principle too.

This life could be proved by the parties, and symptoms and personalities etc. in the previous life mostly matched this life of the parties, why couldn't it be proven? In addition, after the parties apologized and repented for the mistakes in their previous life, the diseases in this life were soon cured, and this also proves relativity between the previous life and this life.

Through soulforce medicine constellation, we found the treatment method for diseases, and also with the help of the Quantum Resonance Information Water, we can solve many diseases that the hospitals cannot treat. There is the record of Great Compassion Water in Buddhism, similar to the Quantum Resonance Information Water.

At the same time, the soulforce medicine constellation proves that diseases are retributive justice, and it also proves the existence of souls, immortalization of souls and reincarnation of souls.

Retributive justice, immortalization of souls and reincarnation of souls are the essence of Buddhism, and there were already clear and definite records in Buddhism. Moral system could be reconstructed through propagandizing “retributive justice”, so as to realize self-disciplining of everyone. Soulforce medicine constellation are a perfect tool to instruct people to follow what is good.

Is Buddhism scientific? In fact, Buddhism and science are in different categories. Science (Western medicine) is in 1D space, philosophy (Chinese medicine) is in 3D space, and Buddhism, theology and soulforce medicine constellation (soulforce medicine) are in 4D space. Because the dimension of science is too few, most part of the world cannot be described with science, but can be described with Buddhism, theology and soulforce medicine constellation (soulforce medicine).

Someone may say, you shall go to the hospital if you have diseases, and don't believe the heresy. Sorry, the cases we selected were all the cases driven out of the gate by the hospitals. The parties already went to the hospitals,

and they came to us as the hospitals could not treat. If you ask them to go back to the hospitals, they themselves would not agree. Seriousness of the diseases of the parties of soulforce medicine constellation has no comparability with those treated by the hospitals. They came to us after the hospitals could not treat, and the optimal treatment time was already missed. As what we cured were all such cases, we are confident to say “curing the diseases is the absolute principle”.
